My Dear Dr. Harper:

Your invitation to act as University preacher is a great honor, but I fear it is extended under misapprehension. I am not a clergyman. Nobody has ever ordained, consecrated, or otherwise set me apart for clerical ministration; and although I have at times appeared in pulpits when the appearance of laymen was in order, I am not competent for the duty which you ask me to discharge. This does not, however, make me value the less the confidence in me which your invitation implies.

Yours sincerely,

Z. W. Mabie

My dear Mr. Mabie:-

I have received your letter in which you tell me what is a surprise to me- that you are not a minister.

I come back again with the question whether you would consent to spend six weeks with us and give some lectures that would partake of the nature of extension lectures. We would like very much indeed to have a talk from you once a week at one of our centers during this period. I think we could make you a fairly satisfactory proposition.

considerate treatment I have  
had at the hands of the  
university in this unfortunate  
affair. I suppose an most

My dear Mr. Mabie:-

Your favor of the 16th inst. is at hand. I am very glad to know that you are gaining, and hope that there will be no recurrence of the attack. You must not overdo. I am expecting in my own case to sail for Europe next week Wednesday on the "Olympic", a ship big enough, I trust, to carry me quietly across an ocean which I don't like. I passed through Hyannis in a motor-car last week; I wish I had known that you were in that vicinity.

Cordially yours,

Dear Mr. President

*Lectures*  
Hamilton Wright Mabie, Associate Editor of the Outlook, has recently returned from Japan where he has been spending some months. Mr. Mabie was sent to Japan by the Division of Intercourse and Education of the Carnegie Endowment as a formal representative of American culture and intellectual life, and as such he had unusual opportunities to study the conditions and tendencies of the country. He has some very interesting suggestions with regard to the relations of Japan and the United States.

This Association is making arrangements to have him deliver a few lectures on Japan at important centers of the United States during the months of February, March and April. As a lecturer and as a man of letters Mr. Mabie's reputation is international and this Association feels itself fortunate in being able to make arrangements for this series of lectures. Could you suggest the organization ~~in Baltimore~~ in Chicago which could best bring together under its auspices a real representative audience for a lecture by Mr. Mabie on Japan?

I may add in closing that the address by Mr. Mabie would involve no charges for an honorarium or for travelling expenses.

Very truly yours

*F. P. Keppel*

Dear Mr. Keppel:-

On further consideration of your favor of the 20th of November with regard to Mr. Hable I am wondering whether suitable arrangements might not be made by the University Lecture Association in cooperation with the Art Institute of Chicago. It is my understanding that the lectures should be free, and should be pretty widely advertized. The Art Institute will offer without cost a suitable hall, and the Lecture Association will take care of all details of advertizing and other management. If this meets your approval kindly let me know, and I will ask Professor Butler, the Secretary of the Association, to correspond with you further as to details. It will be necessary to know at the earliest possible time Mr. Hable's dates, and also

Dear President Judson:

I return your letter from Mr. Keppel, in regard to Hamilton Wright Mabie.

I need not tell you that Mr. Mabie is a very graceful writer and that he had excellent opportunities of learning something about Japan. I believe that his lectures would be very entertaining and perhaps would give us some material not otherwise accessible.

In regard to the letter of President Thwing and his question, it is somewhat mixed, and I do not believe any of us know these young Indians well enough to foresee what will become of <sup>their movement</sup> ~~it~~. I have allowed them to use my name with the understanding that I had no particular obligations except that I might help them with an occasional article for their organ. Some of them are on principles stirring up animosity toward the English rule in India, with which I am not in sympathy, and I am certain that they cannot control the selection of Indian students. That can be done only by cooperation with the representative committee of Indian Universities and our own. At the same time, it is desirable to have such an association of Indian students, because it will be easier for us to influence individual students better through an organization which is acquainted with the facts.

Yours respectfully,

Dear President Johnson:

I return your letter from Mr. Lippitt in

response to Hamilton Wright's letter.

I feel well but that Mr. Wright is a very

eloquent writer and that he has a brilliant opportunity of

presenting something about Japan. I believe that his lecture

would be very interesting and perhaps would have some material

not otherwise accessible.

It is good to see that the letter of introduction

has been received. I am sure that it will be of help.

With regard to the letter of introduction, I have

understanding that I had no previous knowledge of it.

I might help with an occasional article for their organ.

Some of them are on the subject of the Japanese invasion.

English this in the winter. I am now in America.

On certain that they cannot control the situation of Japan.

My dear President Judson:

I talked with Mr. French yesterday and found that it will be entirely practicable to offer the lecture by Hamilton Mabie in the Art Institute. I will explain all the details to you at another time. I foresee that there will have to be a good deal of correspondence about it, because the Art Institute is so thoroughly taken up with a multitude of dates already arranged for the entire season. We shall have to find out just when Mr. Mabie will be here and whether his lecture is to come in the afternoon or evening. I shall be glad to relieve you of any of the details of correspondence at your request.
