Dear Sir

Under separate
cover I am mailing you
a free copy of The Correlation
of All Philosophy & Science
through the Discovery of their
Elements^a

As the title indicates
it is a preterterian work

but I know that you will
find that it contains the
great truth that I claim
for it

It is of course only
a fragment of the work that
must be done to finally
justify the title but it
contains the seed.

If you will have some
logician look it over he will
find that it advances
logic beyond any point
previously reached. It is a
great work that I am
entrusting to you.

yours truly Geo H Gallup

Dear Dr. Judson:-

I have glanced at
the enclosed document and judge
that the author has been surprised
by the fact that if he takes terms
sufficiently abstract he can make
them cover almost any series of propo-
sitions - or else that his mind
is unbalanced -

Very sincerely yours
Geo. H. Mead.

Dear Dr. Judson:-

A few days ago you suggested that you would be glad of any suggestion that might arise with reference to a man who would probably be successful in arousing interest among the students in singing. I spoke of Mr. Prothero, a Welshman, of whom I had heard something. I have learned since then that he is the director of the music in the services of Dr. Gunsaulus' congregation. He has some musical degrees - what I do not know. He came here from Milwaukee where he had I understand a considerable vogue. He directed the chorus that sang with Damrosch orchestra in giving the ninth symphony of Beethoven recently in Chicago, and Damrosch is reported to have said that he is the best chorus director in the West. His daughter I believe is in University High School.

Yours very sincerely,

Geo. H. Mead.
