55th Street and Ellis Ave., City.

Dear Sir;

I went to The Northern Trust Company the first thing this morning to see Mr. Smith with respect to the newspaper matter we were discussing yesterday. Before I spoke to him, I met Mr. H. H. Kohlsaas. Knowing his wide acquaintance with newspaper affairs, I explained to him what was troubling me. After understanding the situation, he said that he would like to talk with you personally before anything further was done, adding that he could probably do better with newspapermen than any one else, *I think that he can.*

Will you not kindly call him up on the wire and arrange to talk with him.

Yours truly,

*Noble B. Judah*

Prof. W. R. Harper,

Chicago University,

Chicago, Ill.

Mr. F. McKercher,

My dear Sir:-

242 Stark street, Portland, Oregon.

I have read with horror and alarm the reports of Prof.

My dear Sir:

Andrews address before your students advocating the license and public

control of the social evil - the liquor.

Your letter with respect to Mr. Andrews' lectures has been received. The statements made by Mr. Andrews, as published in the press, are entirely inaccurate. Mr. Andrews is a man who has had the confidence of the educational world as well as of the religious world. I do not think that you need to fear the position of either Mr. Andrews or the University of Chicago on the questions referred to.

As a citizen, it seems to me he has used his high prerogatives to set in motion an influence that shall still further blind and besot a people already accustomed to taking revenue from vice, already unsteady, if not drunken, on the blood of the victims of the regulated saloon - an influence that if allowed to fructify will certainly add another vicious element to those which are now slowly, but surely, sapping the very vitals of the nation.

Very truly yours,

W. R. Harper

I hope and expect to hear in no uncertain terms a disavowal of such proceedings issuing by the president of our Association.

Very truly yours,

*F. McKercher*

September 3rd, 1902.

*Wm. R. Harper*

WILLIAMS AND GOWDY

Pres. Wm. R. Harper.

Chicago, Ill.

My dear Sir:-

I have read with interest and pleasure the reports of Prof. Andrews address before your students advocating the license and public control of the social evil - the harlot.

As a father it appears to me that he has gone out of his way to enable the moral sense, rather than the ability to discriminate between right and wrong, to govern the mind as to a proper attitude toward all social evils, and to break down the innate (or acquired) sense of purity of your young men and women.

As a citizen, it seems to me, he has used his high prerogative to set in motion an influence that shall still further blind and deafen people already accustomed to taking revenue from vice, already unsteady, if not drunken, on the blood of the polluted nation - an influence that is allowed to itself will certainly add another violent element to those which are now slowly, but surely, bringing the moral vitals of the nation.

I hope and expect to hear in no uncertain terms a disavowal of such pernicious teaching by the trustees of our University.

Very truly yours,

Sept. 3. 1902

My dear Sir

Permit me to introduce myself as President of  
The Board of Trustees (Corporation) of Tufts College, with the  
work of which institution I have been identified since its  
organization. My incentive thereto, as my dear friend Rev Dr  
Miner would have expressed it, has been in my desire  
to contribute to the making of men.

According to newspaper reports, Dr. Andrews gave  
an address to your students, wherein he commended a  
proposition for the legalizing of what Christian men call "vice".  
Even if we admit the right to make such an address before  
a body of legislators or lawyers, (for whatever the effort might  
seem to be worth to anybody) to inflict it upon immature young  
people seems to me almost like an abomination.

I could wish that you might find an

Feb. 15, 1903.

My dear Mr. Taft:-

I suggest that you write me a letter note relat-  
ing which I may forward to Mr. A. L. Clark, City Editor of the American,  
and this letter to be similar to those you have written to other editors. D.  
Keehn, who represents the Am Yours very truly, the following result.

Mr. Keehn stated that the article in question was not  
written by him. The only sense in which he was responsible  
for the article was that a telephone message was sent to the  
American, stating that an editorial had appeared in the Maroon  
calling attention to the fact that filtered water was not pro-  
vided in Hitchcock Hall. The article was thereupon con-  
structed in the office.

I have known something of Mr. Keehn, and I think  
he is an entirely honorable student. He tells me that he has  
had a good many conferences with the editors of the paper,  
with a view to getting them to be more careful about state-  
ments relating to the University. He says it is a very dis-  
agreeable matter to him to have statements appearing in the paper  
which he represents of a sort which reflect upon the Univer-  
sity, and he regretted very much that this and other articles  
had appeared. He suggested that Mr. Clark, the city editor

## **LET SENATOR TILLMAN COME HOME.**

It is much to be desired that Senator Tillman, of South Carolina, should discontinue the manner and method of his public addresses in the north.

If he does not it is much to be desired that he should come home.

Senator Tillman says many things that are fundamentally true about the race problem, and things that are necessary to be said by him and to be understood by the people of the country.

But the South Carolina senator thunders his views in such offensive and violent language that they merely antagonize where they might convince, and accentuate rather than modify the misunderstanding of the sections upon this vital theme.

Everywhere he seems to leave in his wake a trail of bitterness and feeling which is in the last degree to be deplored at this or any other time.

The senator from South Carolina is a man of extraordinary ability and force. He is strong enough intellectually to press his views upon the great question with force and power without needing to resort to insult and abuse.

The people of the north are neither brutal nor unkind. Far beyond the spirit of their politicians they are disposed to look with liberality and genuine fraternal sympathy upon the south and its difficulties. They have ears wide open to hear and minds equally open to learn upon the great question of difference. They give to Senator Tillman an attentive and respectful hearing. They even pay him their good money in fees to hear him speak. But they do keenly resent the stream of constant discourtesy that falls from the lips of the speaker.

Worst of all, they see in Benjamin Tillman a senator from South Carolina—of old the aristocratic commonwealth of the south. They regard him in his official position as the type and representative of the temper and civilization of South Carolina and of the south. And judging us all by his intemperate language, his harsh and overbearing manner, and his insulting terms, they write us down as a people for condemnation and inevitable antagonism upon this and other questions and issues of the future.

This policy on the part of a southern representative is needless, unprovoked, untimely, imprudent and vulgar.

The editor of The News knows from personal observation that a man can discuss all our

March 26, 1903.

Dr. William R. Hooper,  
The University of Chicago,  
Chicago, Illinois.

(28)

Dear Dr. Hooper: - Several years ago in talking of  
Southern orators and thinkers, I suggested  
Hon. John Temple Graves of Atlanta as an  
orator for one of your Convocations.

Without the approval or knowledge of  
Mr. Graves, I wish to renew the suggestion.

Mr. Graves is considered the follower, the  
equal and in some respects the superior of  
Henry Grady, "who died literally loving the nation into peace".  
He is the editor of the Atlanta News, and is the  
most brilliant writer, and thinker of the South, Henry Waterson  
not excepted.

Today I have clipped an editorial of his from the Atlanta News,  
which will indicate to some extent the wisdom of his thought.

If you could have him discuss some great question like  
the Race Problem, he would charm his hearers.

### FROSTY FOR FRAWLEY.

#### Another Heavy Sentence Imposed in the Referendum Imperson- ation Court.

A conviction was registered against James Frawley in Judge McCrimmon's court yesterday afternoon for impersonating James Armstrong on the day of the referendum vote. John Wright of 63 Berkeley street swore that Frawley gave him \$10 with a list of names of those whom he was to endeavor to impersonate.

Frawley was sentenced to pay a fine of \$400 and to spend twelve months in jail. If he fails to pay the fine within three months his term in jail will be lengthened by another three months.

The charge against J. J. D'Arcy was dismissed and that against J. J. McNally was adjourned. McNally is not in town.

Mr. Alexander Mills, on behalf of the temperance interests, will now make a report of all the cases to the Government. He wishes to proceed farther against the accused.

### A TORY TOUR.

#### Mr. Borden Wants a June Adjourn- ment, to Traverse Ontario.

Ottawa, May 5.—Mr. Borden is anxious to have the House close towards the end of June, as he and Mr. Monk are making arrangements for a tour of Ontario during July.

### HELD FOR RANSOM.

El Paso, Texas, May 5.—Col. Martin Ericson, a multi-millionaire, an American, has been kidnapped by the rebel Yaqui Indians of Sonora, Mexico, who hold him for a ransom of \$500,000, which he refuses to pay.

### THE SOURCE OF WOMAN'S SORROW.

The Worry, Burden, and Unhappiness

## OUR PRESENT HERITAGE.

**E** NTER into possession. It is all yours. Moses only saw the Promised Land, but here we have it, and let's walk right in. Enter into possession! The promised land! Why, what do you mean? I mean that we should take a new look and shake off the scales from our eyes. Why, the really best things in the world are ours. There is no J. Pierpont Morgan who can control the birds. He may direct a fleet of ships and a brace or two of railroads, but he can't stop that robin from building her nest in the tree, not far from my window. He may make Wall street weak, but I'd like to see him influence that little redbreast from singing her evening carol to me.

Enter into possession. Get near to Nature, for she is the most sincere friend of all. When you feel envy creeping into your life, when you feel that the other chap is building a big house when you have none, why, just walk a while with Nature, consult her, and his little bit of brown stone front, designed by man, will seem ridiculous beside some bit of work drawn up by the Master Builder.

Why, the best things are nearly all free, the most inspiring sights are not under canvas, the most uplifting thoughts do not come from the book or lip. Get back to the original.

A friend has paid \$500 for an oil showing a sunset over a hill top that is clothed in trees. Well, that is nice, for the work is worthy, and he can afford it. Envy him? Well, hardly; congratulate him because he has the price and good taste. But I, too, have my picture. I will spend a nickel for car fare and go to High Park and see the Master Hand paint the evening sky Himself. There is the real sun that salutes my cheek with warmth and greets my eye by fire; there are the trees that carry song and buds. Beneath is the carpet, the grass. The copy, the oil painting, is good enough; but say, to the observant eye the original is indescribable, and so for five cents I have the real thing and feast at the fount, while he pays \$500 for a copy.

Let us open our eyes afresh and see the good and uplifting things that are made for us all.

Now there are our friendships. No one has a cinch on this. You have friends who help you just as much, and they are just as dear to you, as King Edward's friends are to him. And I have a friend who is there when wanted.

Our loves!

Who ever heard of a syndicate controlling the master passion? So the motorman on the street railway finds as much joy in his little home as the magnate of the road does in his mansion.

So what is it, after all, if some reap a few more dollars than we? Let him have them in peace. What matter it if some ambitious fellow secures an office to which homage is due. Let him ascend his little ladder if he wishes. What is the difference if some rival owns a great factory or store or business, when we are just plodding on? Why, don't you see there is much about us that money cannot buy, even if we had it? A few dollars, what of them? An office of honor, what of it? Dollars rust, offices fail, factories wreck, and businesses rise to die again. But, if we get near to Nature and learn of her, the lessons that we receive will give us something that will last when there is no use for money or offices, and when the wheels of the greatest factory have long since ceased their turning.

Charles F. Raymond.

## "THEM THERE NAILS."

"SAY, where is them there nails?"  
"Don't say them there nails," say "Where are those nails?"

"Say, where is them there nails?"

"Don't say them there nails," say "Where are those nails?"

Then the first speaker got mad, threw down his tools, and said: "Do the thing yourself." But the man who knew the King's English so well didn't do it because he didn't know how. Everything to its place. It is necessary sometimes to speak from the book, and it is necessary sometimes to be able to know how to drive "them there nails."

Last night in Castle Hall, McMaster University, I saw a Degree Making Factory in full swing, where were made three LL.D.'s, a few B.D.'s, a host of B.A.'s, and a sprinkling of M.A.'s. The whole thing was done with celerity and despatch. A shake of the hand, a few words of English seasoned with Latin, a collar laid about the shoulders, a bow, and there you are, M.A., B.A., or whatever the dispenser chooses.

It is nice to be an M.A., for it is gratifying to know Greek, and Hebrew, and read the Bible in the original, and it looks fine to write it John Doe, D.D., but sometimes it's a blame sight handier to be able to drive "them there nails."

And to-night, fresh from the memory of that meeting at Castle Hall, where, before an audience that was packed in every nook and corner, many young men were decorated in the regalia of their degree—to-night, I would say a word for the man who works, plain John Doe.

He has no degree, but he is as necessary for the welfare of the State as John Doe, D.D. Perhaps he stands on the trailer platform at six with a face that is dirty and clothes that are black; maybe the world to him is a world of "them there nails." But, say, he is a necessary

and useful man. Is he a molder? then he is as necessary as the man who owns the foundry; is he a painter, and does the blotch upon his coat and the trace upon the hand proclaim him? he doesn't need to fold his hands so the people on the opposite side of the car won't see. You are as necessary, Mr. Painter, as the man whose house you paint.

A bank clerk? No apology, please, for the fact that you work in a place where you are but part of a system, and where they simply give value for value received. The bank clerk is just as necessary as the molder or the painter.

The street car man? We had a three days' silence and know what that means.

It is nice to feel that we all have niches, that we are all a part of the plan of Nature, in whose economy is no waste.

It would not do for everyone in the regiment to command, it would not do for everyone in the department store to be head of a department, and to some one it will fall to be Dr. John Doe, and to the other the acuteness and ability to drive "them there nails."

Charles F. Raymond.

## AN APPEAL FOR TOLERANCE

---

**The Mohammedan, If Sincere, is Not  
to Be Condemned—Convocation  
at McMaster.**

---

Last evening one thousand people crowded into Castle Memorial Hall, McMaster University, to hear Dr. W. R. Harper, president of Chicago University, who visited Toronto for the first time yesterday. Besides this audience, which most comfortably filled the hall and the surrounding rooms and corridors, many people were turned away, unable to secure admission. The audience was a brilliant one. In the front rows were the score or more who were to receive their degrees, while upon the platform was a galaxy of educationalists such as has not gathered together for many a day. Prof. Welton, acting Chancellor, presided; on his right sat President Harper, and on his left President Loudon of Toronto University. Next to Prof. Welton sat Registrar McKay and Prof. Walter S. McLeay and Prof. Farmer.

Among the others on the platform were: Hon. W. A. Charlton, Hon. Richard Harcourt, Hon. John Dryden, Hon. E. J. Davis, Hon. F. R. Latch-

Prof. Whitney

We need these people in the future. We need their friendship. We need their good will. We need the votes of their representatives upon our material and social interests. We are even reaching out to tempt some of them to live and grow up with us in our Greater Georgia and our Greater Dixie.

But let us imagine our own feelings and our own resentment if a Massachusetts senator should come to Georgia and denounce us as rebels and ingrates and meddlers and hypocrites. And in the measure of our own indignation even over the idea, we can realize the effect that Senator Tillman's harsh and insulting speeches have upon our fellow citizens of the north.

Upon the whole we think Senator Tillman had better come home.

ford, Mr. J. I. [unclear],  
Clark, Dean Geikie, Dean Reeve, Principal Hutton, Principal Sheraton, Dr. John Ferguson, J. Short McMaster, Rev. J. A. Macdonald, Rev. L. S. Hughson, Lindsay; Rev. J. D. Freeman, Rev. James Grant, Ingersoll; Rev. W. H. Cline, Owen Sound; John Firstbrook, Principal McCrimmon of Woodstock College; Andrew Pattullo, M.P.P., E. J. B. Pense, M.P.P., Dr. E. R. Hooper, James Brebner, John Stark, Principal Packenham, Dr. C. A. Chant, Dr. F. H. Wallace, Dr. Bain, Prof. Cameron, Dr. Johnston, Arch. Mc-Nee (Windsor), Rev. W. T. Graham (Brantford), Rev. W. E. Norton, besides the members of the faculty.

The honorary degree of LL.D. was then conferred upon Mr. D. E. Thomson, K.C., Queen's Park, and Prof. Godfrio Masse, principal of Feller Institute, Grand Ligne, and in absentia upon Prof. John Turner Marshall, of the Manchester, England, Baptist College.

Dr. Harper received a very enthusiastic greeting, the audience rising and applauding. Dr. Harper did not speak extempore, but read his addresses from manuscript. This prevented the flights of oratory that some had imagined they would hear, but if there was not the oratory of fine gestures and the modulated voice, there was the oratory of earnestness and the power of great thoughts. Dr. Harper said that he could not draw the line between religious and educational work, and announced his topic as "The Relation of Religion to the Higher Life for which Institutions Like this Stand." He proclaimed religion not a matter of science, art, philosophy, and ethics. He would not identify religion with any of these things, it was not an enemy of these things, however, but the eldest sister in the family.

Dr. Harper spoke of the religion as that which was for all mankind, no matter where found, and no matter under what circumstances. He said there were as many religions as there were differences in the needs of people. He would not condemn the mystics or the Mahomedan if they were sincere, for the real religion must be a tolerant one. There were as many religions as there were different classes of people. The religion of the artist, he said, would not do for the religion of the scientist, and the religion of the scientist would not satisfy the philosopher. Religion was that which satisfied a man and gave him peace different from anything else in the world.

Short addresses of a congratulatory character by President Loudon, Hon. Richard Harcourt, and Mr. J. P. Whitney concluded the evening.

Greenville, S. C., April 17 1903

Dr. W. R. Harper,

Chicago, Ill;

Dear Sir:

(15)

The following I find in the Western Recorder, of Apr 16. The clipping is only a part of the article. I find substantiated the same in the Standard, of Texas:

INFORMATION comes to us from a source we regard as reliable that it is contemplated to do away entirely with the denominational character of the University of Chicago. The idea is to change the charter so as to remove all mention of Baptists, to remove the Divinity School, and to put in its place another Divinity School that shall be undenominational. The present charter of the University requires that two-thirds of the trustees shall be Baptists, and that the President shall be a Baptist.

Our information is that President Harper has secured the consent of both Mr. John D. Rockefeller, Sr., and Mr. John D. Rockefeller, Jr., to this change, and though it is all a "profound secret" now, it will be broached in due time.

The University of Chicago

June 20th 1903

W. R. Harper, L.L.D.,

(71)

Dear Sir: I read in last Sunday's "Record Herald" that you purpose establishing a school of art in the University of Chicago next year, and I therefore hasten to present myself as a candidate for appointment in that department as instructor in the principles and history of fine and decorative art in the farther Orient. Since you have known little or nothing of me as a student of art, you will wish to learn upon what grounds I make this application. In brief they are as follows: Art criticism and history have been my second study ever since my discovery that I was quite ignorant of them — as are most college graduates — on my graduation from the University of Michigan 19 years ago. Half of the year 1884-5 spent in Dresden and Berlin was devoted to mastering Lübke's "Grundriss der Kunstgeschichte" and Ruskin's "Works". The chief motive of my travel in Europe 1885-6 was also the study of art. The six years I spent among the Japanese, who are easily the most artistic people on earth, greatly extended my knowledge of art; and my travel in China, India, and Egypt made this knowledge historically complete. When by 1898 I had found no adequate use for further research in religion, I turned to art, and since then have given more attention to it than to aught else. In 1899-1900 I edited "University Lessons in Art" which is the most complete and sumptuous history of fine and decorative
