Dear Sir: On
returning from the Baltimore
Convention I fondly planned
to visit a few days at the
Summer School, at the
University.

On applying to the
Registrar at the University
for a room as visitor for a
few days, I was flatly
refused, no reasons
being given. I come
prepared to pay the usual

You have sent out invitations to the Morgan Park Alumni to come ~~to come~~ to convocation. Here is my answer: I expect to come in 100 years.

I promise too, to urge my friends of the Morgan Park Alumni to come in the same delightfully indefinite time.

The plan to draw the old Alumni closer to the Divinity school has already worked in one case — in an opposite direction.

I would not feel thus had I not been informed that there was an abundance of room in the dormitories of the Divinity School. I regret the occurrence, and the conditions that led to it.

Dear Dr.

As an alumnus of the Old University I am glad to hear of the action of the Trustees of the University, I believe it will create a deeper interest on the part of the Alumni of the Old, in all that pertains to the New University.

It will be impossible to be present at this Convocation. If my presence is not a necessity to receive the diploma, I will gladly remit at once the sum necessary to meet the expense, otherwise I shall hope to be present at some future time.

My dear Dr. Harper:

Grand Rapids, Mich., Sept. 8. 1896

A young man here is thinking about entering the University. He is a graduate of the High School. What credit do you give High School students from Grand Rapids? Or what would be his standing at the University?

I understand you are giving student from the Old University - duplicate degrees, or a science from the New University. I received the A. M. from Old U. Does the new proposition mean anything for me? Balis is at home and in good health. He has not yet found anything to do, and the way times are it will be difficult to secure employment for him not having any practical experience. If I were settled at Evanston or Englewood he could live at home and go on with his work at the University.

Sincerely

O. W. Van Osdel

My dear Mr. Brown,
I have been thinking about
returning the manuscript. It is a good deal of the
right school. What would be your price for it?
I should like to know. Or would you like to
stand at the museum?
I understand you are giving it to the
Old Museum. I should like to know if it is
the same as the one I saw at the Old
Museum. I have been looking for it for some
time. It is at home and in good health. It has not
yet found anything to eat the way things are
it will be difficult to secure a replacement for
him and having any further experience. If I have
little to contribute to the collection I will
send you the book. I will be glad to
contribute.

My Dear Dr. Harper:-

As an Alumnus of the old University of Chicago it has been peculiarly gratifying to me to be classed among the sons of the University. I think the Alumni as a body appreciate to the fullest extent the relations which exist between the present university and those who graduated from the old institution. The action of the authorities in re-enacting the degrees we obtained from the university has been the means of drawing us into such close and intimate relationship that we consider ourselves in fact the sons of the University of Chicago. It has suggested itself to me that material evidence of the re-enactment of those degrees, in the form of a diploma or suitable statement of the fact would be highly appreciated by all of us. I have consulted a number of the old Alumni with reference to this and the feeling has been universal that such an act on your part would be very acceptable. Undoubtedly the Alumni would be willing, as I am, to bear ^{their proportion of} whatever expenses might be attached to the issuing of such a diploma. If such a thing can be accomplished it will, I am sure, serve to bring us into a ^{still} ~~freer~~ more cordial and intimate relationship with the University of to-day, than exists now. Can not the matter be presented to the Board of Trustees? If it can be accomplished it will be very much appreciated. I am

Yours sincerely,

I shall accept your
very courteous invitation to the July con-

to decline so courteous an invitation,
incline me to be present.

My Dear Buzzell:

I clipped this from the Journal today.

Is such a move on foot. I believe something should be done for the old alumni to have representation if such a thing is done. I am rather inclined to the opinion now that as there are enough of the new alumni to form such an association it would be best to have them have the active management of affairs, and at the same time the alumni of the old university should be recognized as a component part of the Institution. What do you think?

Dear Sir:--

I see by the University Weekly that there is a movement on foot for the organization of a new University of Chicago Alumni Association. I have also received from the President of the Collegiate Alumni Association the clipping which I enclose in this. I concur with Dr. Rhodes in the opinion that the new alumni are now enough in number to take the active management of the alumni association, and I think that the old alumni generally will concur in this opinion and that by the time the next annual meeting comes around, we would all be very willing to turn over to the new alumni the management of the Association, but how the new alumni, or any body of the new alumni can change the existing order of things and ignore either the old alumni or the organized Collegiate Alumni Association, I do not quite see. I understand that there is a feeling among certain of the new alumni to do this thing, that is, ignore the old alumni and the old association, and I imagine that that is the class of graduates that is behind this movement. I have never felt, however, that such was the general feeling of the new alumni and have certainly felt that as far as the administrative bodies of the University were concerned the old alumni were recognized as a component part of the Institution. If any movement is on foot to re-organize the Association or to form a new Association, that shall have the support of the University, I believe with Dr. Rhodes that the old alumni should have representation and should be recognized in the matter of such organization as a component part of the alumni body and of the Institution, as in fact, they are.

If you have knowledge of any such movement, will you kindly put this into the hands of someone who will see to it that in the organization of any Association that may be formed, the old alumni shall not be ignored. I might add that Mr. Fred D. Nichols, as one of the officers of the Collegiate Alumni Association, has taken considerable interest in the matters of the Association and we have talked the matter over together at different times and he agreed to talk with you at some time with reference to the feeling of the new alumni in reference to the Association, and perhaps has done so. I do not think that he favors a new association but does favor an active interest in the old association on the part of the new alumni.

My Dear Father:-

I beg to acknowledge receipt of your favor of the 4th inst. and take this opportunity of conveying to Professor and Mrs. Young my appreciation of the very kind interest which they have taken in the matter of my obtaining a Degree from the new University of Chicago.

In 1877 I entered the regular Classical course in the old University of Chicago, graduating in 1881; later, graduating from the Union College of Law in Chicago, 1883.

I was on the Board of Trustees of the University, I think, during the years '82, '83 and '84, under the Presidency of Dr. Galusha Anderson.

It was a physical impossibility for me to go to Chicago to receive my new Degree on account of my health.

I was compelled to leave Chicago in 1891, by reason of chronic asthma, having ever since made my home in Denver.

Since 1891, I tried to make two visits to Chicago, but both resulted disastrously, and during the few days that I was in the City was confined to my bed with a most aggravated and protracted attack

of my disease, and on both occasions was urged by my physician to leave town without further delay.

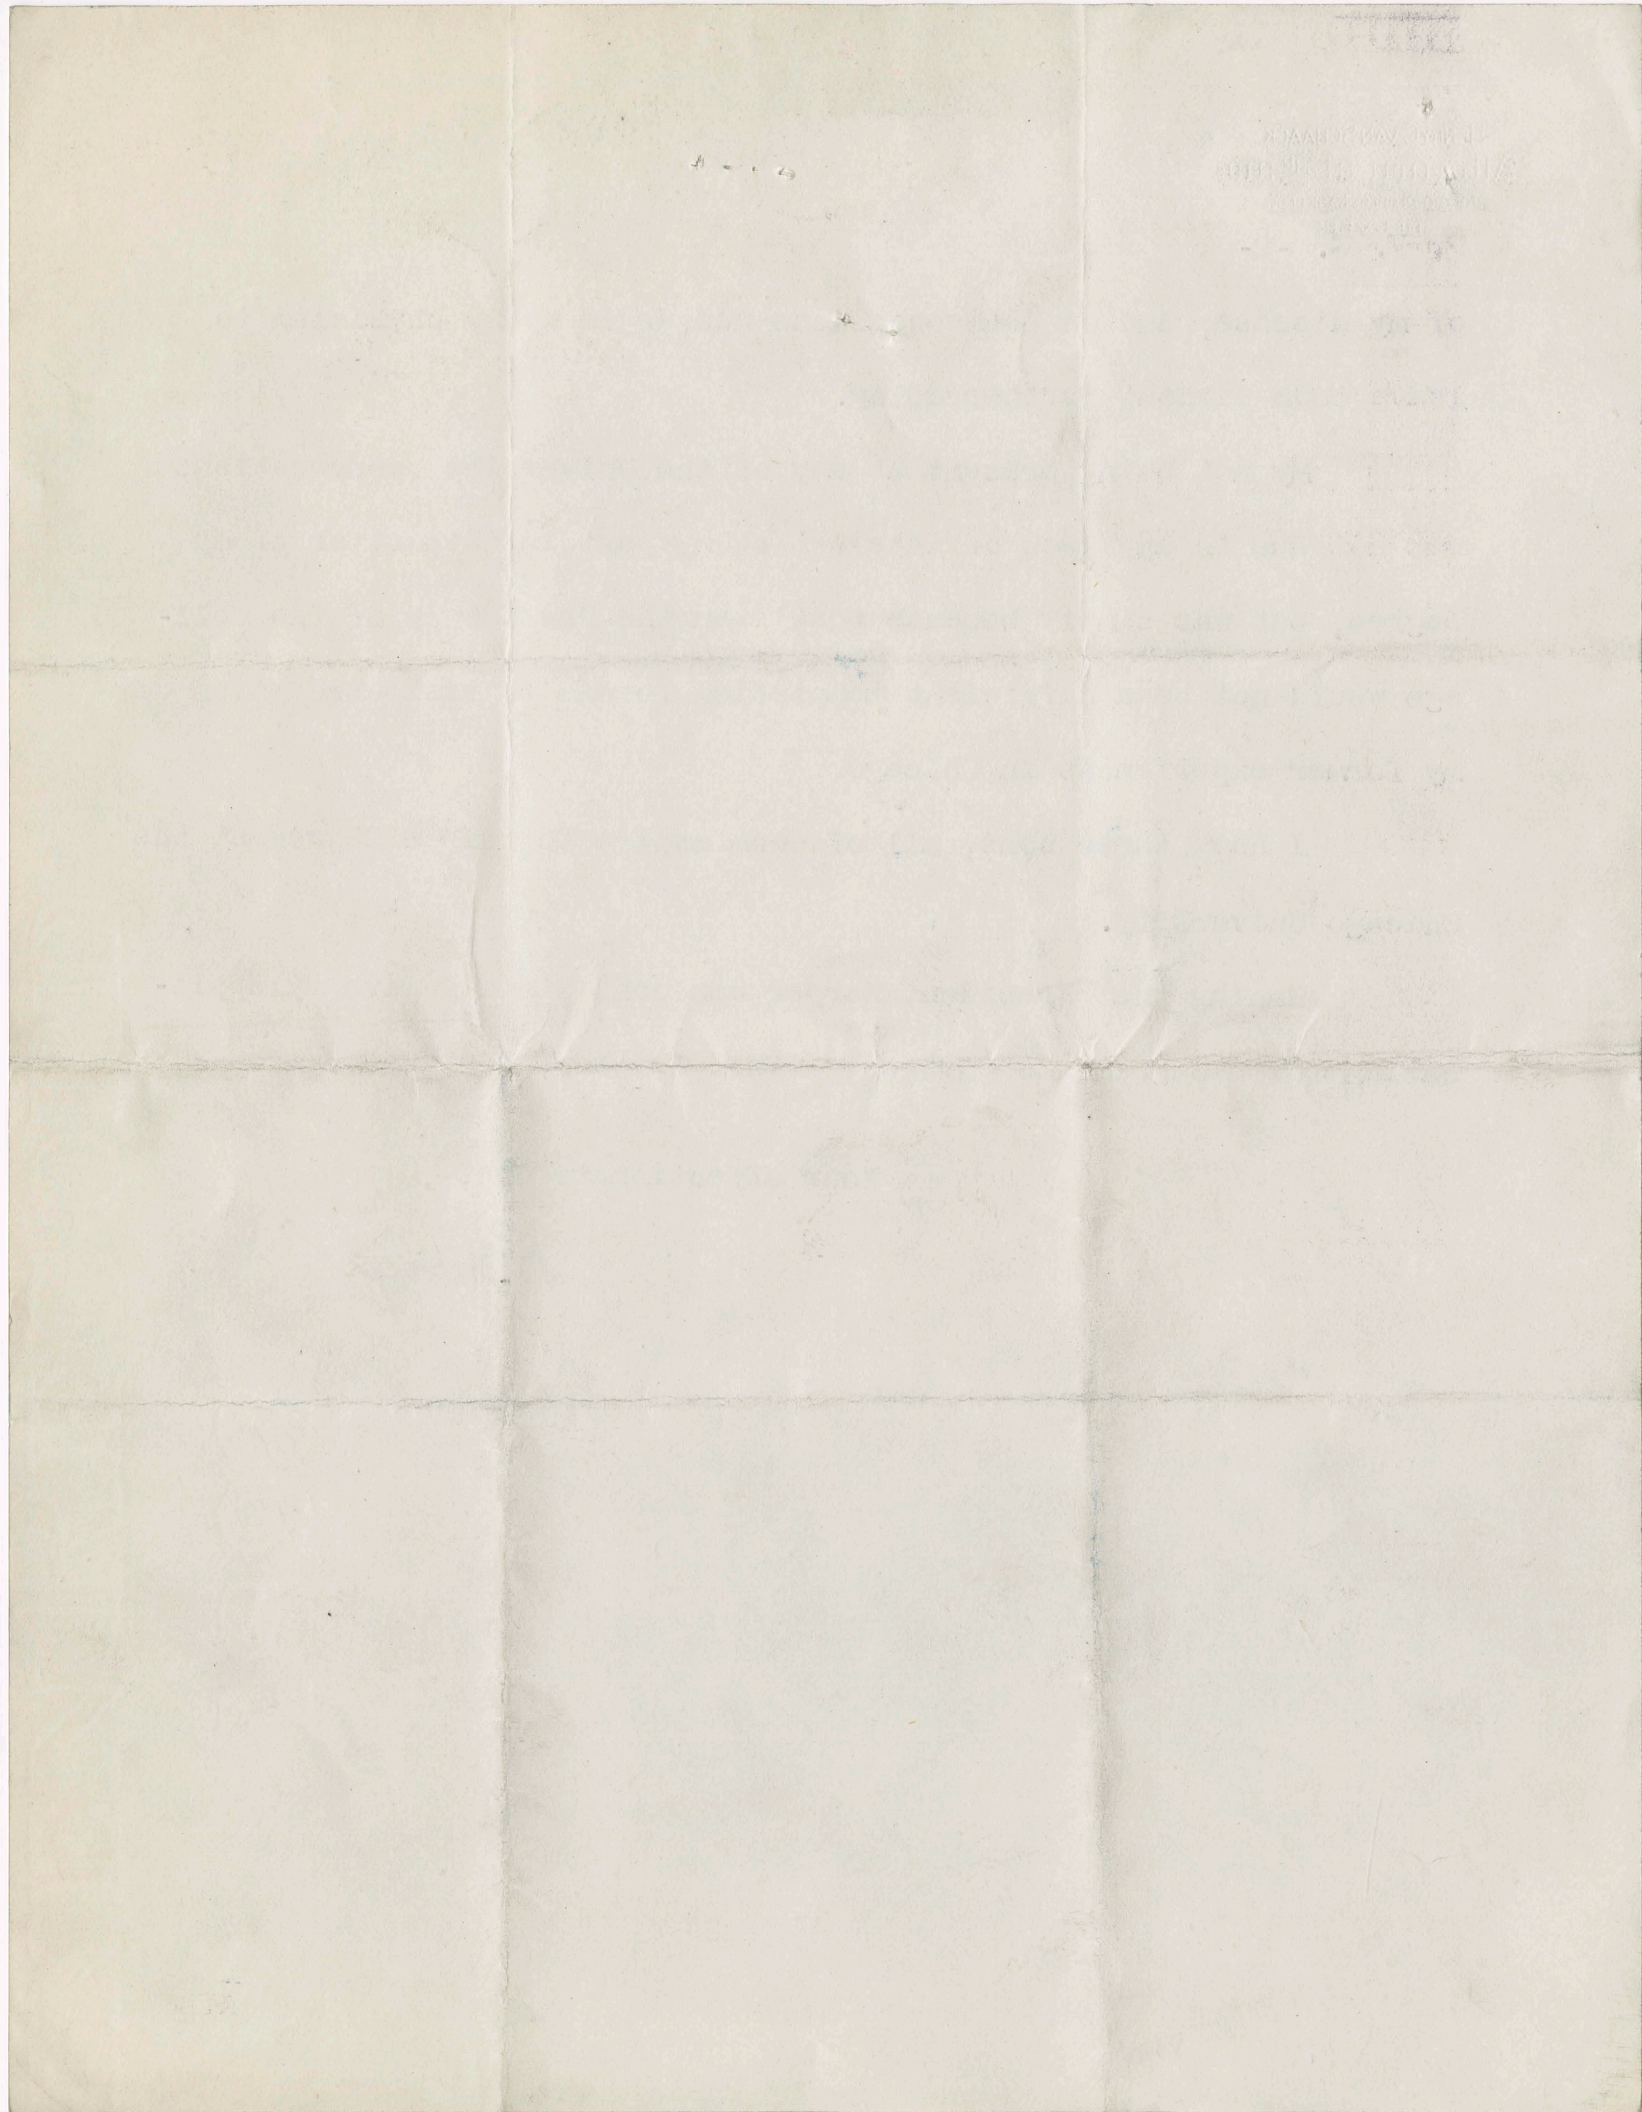

My not being present at any of the University convocations was not due to any lack of interest on my part in the matter of my Degree, but was simply because that even the Presidency of the College would not be a sufficient temptation for me to risk a repetition of my former experiences in Chicago.

I have three sons, all of whom aspire to take a Degree at the Chicago University.

Hoping that President Harper can consistently give my application for a Degree his favorable consideration, I remain,

Your affectionate Son,

Dear Sir:

Your letter to President Harper is at hand, and I am glad to know that you are planning to come to the convocation. I do not understand the enclosure of ten dollars for the Master's degree. I inquired of Dean Mathews, of the divinity school, and he does not know of any correspondence with you. The University does not give the degree of Master except after at least one year of residence and the completion of certain requirements as to special study, thesis, etcetera. It occurs to me that you may have thought that the University works under the old plan by which the degree was conferred on graduates of a certain number of years' standing. If you have had correspondence with some administrative office in regard to taking the degree, under our rules, please excuse me for calling your attention to it, and let me know the facts.
