

Teattie

April, 7, 1914.

Dean Angell,
The University of Chicago,
Dear Sir:

As you suggested, I went to Dean Lovett concerning the President's Letter of Tuition Cancelation which I had not received. I understand from Mr. Lovett the matter is now entirely in your hands.

I received this scholarship, I believe, from Mr. Ryerson. I am rather certain that my high-school record was not looked into, although it was rather fair. Last year I was spoken to by Mr. Robertson concerning a slump in my marks. When I asked what grade was necessary for me to maintain I was told that I was expected to do my best. I have kept the scholarship on as low as 3 and 4 grade points in two successive quarters. After Mr. Robertson's admonishment I dropped from active ^{participation} ~~participation~~ in all campus activities except the Undergraduate Council. I felt in retaining this I was accomplishing in part the results that Mr. Ryerson and the President expected of me. I went at my work last quarter more seriously than ever before and the results were as you know a B, a C, and a condition, which I expect to make up this quarter.

The B was in Geology under Dr. Williston and Dr. Weller. The C was from English #5 under Mr. Herrick. This course took considerable time. The condition was in Chemistry under Dr. Schlesinger. Chemistry has always been my Bete Noir. I took #1 and 2 two years ago and did poorly in them. With this poor foundation added to the lapse of time since I had done any Chemistry I started, in with students who had just finished #2s, in course 3s. Dr. Schlesinger said that I had done good work in class and in the

laboratory, but that my examination was poor. He said that he had given me the condition because of my poor examination and because he felt that I could write a better paper than I had.

Aside from this work I was teaching conferences in the Department of Geology, as I am now. (This does not apply upon my tuition as I am doing it for experience.) At the beginning of the quarter there were some days in which I had as much as three hours of teaching, besides the correcting of papers. This work was greatly lightened towards the end of the quarter.

My people had advised me not to come back to college for the winter quarter because of an attack of typhoid from which I thought I had recovered. At any rate, it might have been the part of wisdom, not to have plunged in so deep^{ly} and to have taken studies that would have been easier for me. I expected to have trouble with Chemistry #3 and I expect to have trouble with Chemistry #6 which I am taking this quarter.

I feel certain that I am right in sending you this statement of facts. I hope that you will see your way to allow me the tuition. I have two more quarters of undergraduate work.

Sincerely,

Roderick Peattie.

Dear Mr. Peattie:

I have received instructions from
Dean Angell to issue for you a voucher of the cancel-
lation of your tuition for the Spring Quarter, 1914.
If you will, therefore, call at the President's Office
I shall have it ready for you.

Yours very truly,

Secretary to Mr. Robertson

Dear Mr. Lusk:

I have received information from
your office re issue for you a number of the annual
edition of your publication for the Spring Session, 1911.
It has been forwarded, with all the President's Office
I will have it ready for you.

Yours very truly,

Secretary to Mr. Lusk

My dear Mr. Jackson:

I can not conclude my undergraduate work at college without thanking you for your goodness to me. The scholarship you granted me has made easy my way, and has added to the deep feeling of loyalty which I have for the University.

The opportunities offered by the University are so manifold that a man of moderate powers can not avail himself of but comparatively few of them, and if I have failed to do justice to these

Chicago, December 26, 1914

My dear Peattie:-

Your note of the 12th inst. has been lying on my desk for some time, waiting for a leisure moment. I congratulate you on the completion of your work in the Colleges, and hope you may continue your training toward the ultimate aims that you have in mind for life. The University in what it can do for students always seeks for what we call "good investments". I am sure that we have made one in this case.

With cordial regards, I am,

Very truly yours,

H.P.J. - L.

Mr. Roderick Peattie,

I have been thinking of
 writing to you for some time
 but have been so busy
 with my work that I
 have not had time to do so.
 I am, however, glad to hear
 from you and hope you are
 well.
 Yours faithfully,
 Robert R. Peattie

therefore, no one could be admitted to the hall until the procession was entirely in the building, and of course many could not be admitted. Among those who were not admitted were many whom of course we should have desired very much to have present. Herewith I am returning the letter.

Chicago, June 13, 1916

Very truly yours,

Dear Sir:-

H.P.J. - L. Thank you for the courtesy of sending me the letter of complaint with regard to our Convocation exercises. Of course we were greatly distressed that numbers of people were unable to secure admission to the Bartlett Gymnasium on the afternoon of Convocation Day. The original plans contemplated holding the exercises out of doors, in Hutchinson Court. The rain made it necessary to transfer all to the Gymnasium. From one to two thousand people could have been accommodated out of doors more than it was possible to accommodate within doors. It was impracticable to issue tickets for the reason that, this being the twenty-fifth anniversary, alumni had been invited to form part of the procession, and it was impossible to tell how many alumni would be in line until the line was actually formed. Necessarily,

Chicago, June 12, 1916
