Instructions are requested to give particular
attention to the fact that no student is entitled
to attend a course until his university fees
have been paid. The official class lists
contain only the names of students who have
the registrar's receipt for such fees. No other
should be permitted to attend classes. It
is not desired that names not on the official
list be reported to the dean, but merely that
such students be informed that they are not
registered or entitled to attend the class. It is
hoped that the regulations of the board of
trustees will be rigidly enforced by all
instructors.

President W. B. Harper.

Dear Sir, The

examination of Mr. H. P. Johnson,
for the degree of Doctor of
Philosophy in Zoology,
took place at the
appointed time, Dec. 15,
at the Kent Chemical Laboratory.

In the major subject, Zoology,
the examination was conducted
by Prof. Whitman; in the minor
subject, Neurology, by Prof. Donaldson.
Dr. Loeb, Baur, and Jordan
were present.

The examination and the
thesis (Morphology and Biology of

the Stentors") satisfied the
examiners that Mr. Johnson
has amply fulfilled all
the requirements for receiving
the degree of Ph.D.

The thesis has already been
published in the Journal of
Morphology, vol. VIII. No. 3. Aug. '93,
and a copy of the same is
presented herewith.

Yours respectfully,

C. O. Whitman

Procedure
My dear President Harper:

Since writing you about the purchase of the typewriter recently, I have had a talk with Mr. Rust, the Comptroller, and he has expressed it as his judgment that we would better purchase another Remington rather than one of these new machines. I, of course, heartily agreed with him, and would at his suggestion write to you that we should like to have for the use of the Recorder's office a Remington purchased on the grounds mentioned in the preceding letter.

The necessity of preparing material for the Record in good shape, the preparation of the minutes of the various faculties, the sending out of the notices of business transacted and of work to be done by committees, the various letters that have to be written,--all this calls for the almost constant use of the typewriter. I trust that you may see your way clear to recommend this. I write you thus promptly because Mr. Rust suggested that there was a meeting of the Trustees or of the Executive Committee next Tuesday.

I have requested the owners of the machine we are now using to come and get it, so that by next Tuesday we shall be without any machine. I desire to assure you that I have a perfectly definite arrangement with the owners of this machine whereby we are under no obligation to take it. It

I do not know whether I wrote you about this matter or not, but I will repeat. At the Convocation, mention will be made of the death of Dr. Northrup, and the President will want all to stand while the band plays Pleyel's Hymn. I hope you will arrange this, and keep in mind the solemnity of the occasion. I can hum that tune as played by the band in a way to make it absolutely solemn and grand, and I know you will enter into the spirit of it. In accordance with your suggestion through Mr. Shepardson, arrangements have been made for the students who are to take the Associate title next week to appear in Cap and Gown at the general Chapel Assembly, Monday at 1030, in Kent. Are you planning to make a brief address to these students? I think this would be an important means adding dignity and meaning to the occasion. I am planning to make a short statement, chiefly statistical, concerning the work of the Quarter. Dear President Harper:--

I am leaving tomorrow night for New York. The only matter that is at all pressing is the question of division lectures for the coming quarter.

Pending the outlining of new schemes to go into effect next October, I have the following suggestions to make for the Spring Quarter:

For the Upper Juniors the continuation of lectures on the universities of different countries. There is enough material available for this purpose.

For the Lower Juniors lectures by Dean MacClintock alternating with the chorus singing. This latter from all accounts has been eminently successful.

Unless I hear from you to the contrary or unless you wish to have a conference on the matter I will make arrangements on the above basis.

As to the matter of emphasizing the closing exercises of each quarter in the Junior College and laying some stress upon the honors as well as upon the fact of receiving the title of Associate, I have the following suggestions to make:

1) That the present plan of having the exercises at the last Chapel Assembly of the quarter be continued.

2) That a special printed programme be prepared containing the order of exercises, the names of those receiving honors, and the list of candidates for the title of Associate.

3) About the middle of the quarter the candidates for the title of Associate be called together and requested to select one of their number to make a brief valedictory address on the occasion of the final exercises. This would give a suggestion of "commencement."

4) That those who receive honors be asked to rise and come forward and a brief address be made to them.

5) That the candidates for the title be asked to rise and a brief address be made to them.

6) That if it is not deemed best to have a separate reception for the Junior College on Monday evening, that in the new club house or in one of the women's halls there be an afternoon reception or tea at which the candidates will be the guests of honor.

I believe that by some such device as this the significance of the closing exercises could be emphasized and the increasing student interest might be expected.

Dear Dr. Shepardson:-

Procedure

I think your suggestion of publishing in the order of collegiate seniority a desirable one. I suppose the enclosed list from last May's Record gives the correct order. The only additional name, that of Miss Eleanor Smith as Associate Professor, would come after the name of Mr. Duncan. I notice, also, that in the May Record all the titles are given as Professor and teacher of a certain subject, while in the Bulletin I put them down as Professors. I suppose the former is official, and it would be better to follow that order. Of course, no attention need be paid to the names in the Record which do not appear in the Bulletin.

My dear Sir:-

We are looking for something to take the place of a football game between the two classes.

The University of Chicago, because of its quarter system, and because of the organization of Junior College and Senior College, does not officially have a Freshman Class or a Sophomore Class. These classes nevertheless do have organizations. In the past however the election of officers has been perfunctory and has enabled certain enterprising young politicians to add to the string of honors after their names in the Cap and Gown. The officers have never felt it necessary to transact any business for the classes. The upper classmen of Chicago frown upon such things as class rushes. At the Reynolds Club smokers however one very often sees wrestling matches between a Freshman and a Sophomore. Individual members of the incoming class engage in a highly edifying blueberry pie-eating contest. There is no one occasion however, such as exists at Pennsylvania or Purdue or Princeton, when the Freshman Class as a whole or through delegates attempts to conquer the Sophomore Class.

Procedure

June 11, 1913

My dear President Judson:-

Referring to our conversation this morning with reference to the filing of documents of the most important character, let me say that after consulting with Mr. Arnett I find that the procedure in the past has been to make copies of communications of exceptional importance, like that, for instance, of Mr. La Verne Noyes, to file copies of the same here in the office but to place original documents in the hands of the Business Manager for deposit in the safety deposit vault.

Yours truly,

Memorandum for Dean Angell:

On reaching the platform Mr. Angell will find the President's Chair marked for him. When all are in place, he will remove his cap and seat himself, as a signal for all the others to be seated. At the same time the band stops playing. Rising and standing in front of his chair, Mr. Angell will say: "The Prayer will be offered by the University Chaplain, the Reverend Professor Charles Richmond Henderson, Chaplain of the University."

To introduce Mr. Francke, Mr. Angell will rise and standing in front of his own chair, say: "The Convocation Address: The Unpopularity of German Literature, will be delivered by Kuno Francke, Professor of the History of German Culture and Curator of the Germanic Museum in Harvard University", and will bow slightly to Mr. Francke on his right as Mr. Francke rises, acknowledging the introduction and applause, and moves forward to the rostrum.

During the interlude by the band, the janitors will remove the desk. When the desk has been set to one side, Mr. Angell will proceed to the

Dear Mr. Millikan:-

I understand that your query relates to the status of members of the faculty who are appointed for a definite term. We appoint Assistant Professors for a four-year term, Instructors for three years, Associates for two years, and Assistants for one year or less. The appointment of any individual ~~for~~^{to} any one of these positions for a fixed term does not guarantee his reappointment. Whether there should be reappointment or promotion will depend first of all on the character of the instructor in question; in the second place on his efficiency; and in the third place on the continued need for his services. In any specific case promotion or reappointment may be withheld from a given individual on the basis of any one of the considerations to which I have referred.

In answer to your questions:

1. Leave of absence with pay to members of the faculty is given rarely, and only for a particular reason.

These reasons are in some cases those relating to the health of the individual in question; in other cases relating to a special piece of scientific work to be undertaken.

2. We make no specific appropriation to enable members of the faculty to attend the meetings of learned societies. Rarely a specific allowance is made in cases of meetings in which members of the faculty are sent to represent the University.

3. We have some appropriations for the development of close relations between the alumni and the University. Money so spent is, I think, very wisely spent.

Dear Mr. Gemmill:

Your favor of the 24th inst. is received. The University of Chicago is not accustomed to pay the expenses of members of the faculty who attend educational associations, learned and scientific meetings, and the like. Exceptions to this general statement should apply occasionally to members of the Department of Education, and then only at the discretion of the President of the University. There are sometimes other occasions, not departmental but general in character, on which the University desires to be represented. In that case travelling expenses are paid, but again always at the discretion of the President of the University. The number of the faculty who have attended such meetings within the last year was very small, and the expenses did not amount to a considerable sum.

Public Lectures.
I have the carbon of your note of the
18th inst. to Mr. Butler. I did not understand that
I shall be perfectly willing to have you
but my office resources are pretty seriously pressed, and
notices were to go to members of the faculty to be read
in their classes. This is simply information to go in
the Faculty Exchange with regard to the lecture. I see
no reason why that shouldn't be done. It is a mere
matter of advertising, nor do I understand why instructors
should resent receiving information. Of course it might
be better to have the notices come from the Recorder's
Office. I shall, of
course, respect the old undignified and often embarrassing policy of read-
ing general notices in the chapel.

Very truly yours,

I have no doubt your diagnosis is correct
and that in the parlance of the day the public is "fed up" on
war lectures. I think the moral of this is not to resort
to the old undignified and often embarrassing policy of read-
ing general notices in the chapel.

I am just back from two weeks absence in Washington and find your favor of February 15th regarding Public Lectures.

I shall be perfectly willing to have you prepare the notice to instructors regarding Governor Brough, but my office resources are pretty seriously pressed, and I should object very much to having any general principle established that we are responsible for getting out such notices as these. The Recorder's Office is certainly the more natural place, if there is to be any public agency of this kind.

I may say in general that instructors very much resent the sending of such notices with any frequency, and with this attitude I somewhat sympathize. We have for several years as a matter of administrative policy refrained from using the chapel service as an opportunity for general notices. The moment one starts on this policy, your chapel services degenerate to a bulletin board level. I shall, of course, respect any specific instructions from the President in such a matter, but I should be personally loath to go back to the old undignified and often embarrassing policy of reading general notices in the chapel.

I have no doubt your diagnosis is correct and that in the parlance of the day the public is "fed up" on war lectures. I think the moral of this is not to resort to abnormal methods of advertising, but for the time being to cut down the supply of lectures.

When I was at the University several Summers ago you were kind enough to grant me free tuition on account of my having the doctor's degree from the Hopkins. You were kind enough to promise me the same favor last Summer but I was prevented from taking advantage of it by the illness and death of my mother. I am now making my plans to spend this Summer with you and write to ask if you can grant me the same favor this Summer. I think that we will have several Baylor people there this Summer. We still remember with much pleasure your visit to us. The honor you did us in coming was much appreciated and I think the message you brought us has done good.

Dear Sir:- Your letter of recent date asking whether because you are a Doctor from John Hopkins you may have free tuition at the University this summer is at hand. We shall be glad to grant this favor to you. Mr. R. A. Hall of Houston, Texas is arranging for reduced railroad rates for those who come from Texas. I send you one of our Open Lecture circulars which may be of interest to your mother.

Dear Sir:-

Your letter of recent date asking whether because
you are a Doctor from John Hopkins you may have free tuition
at the University this summer is at hand. We shall be glad
to grant this favor to you. Mr. R. A. Hall of Houston, Texas
is arranging for reduced railroad rates for those who come
from Texas. I send you one of our Open Lecture circulars
which may be of interest to your mother.

My dear Sir:---

When I was at the University several Summers ago you were kind enough to grant me free tuition on account of my having the doctor's degree from the Hopkins. You were kind enough to promise me the same favor last Summer but I was prevented from taking advantage of it by the illness and death of my father. I am now making my plans to spend this Summer with you and write to ask if you can grant me the same favor this Summer. I think that we will have several Baylor people there this Summer. We still remember with much pleasure your visit to us. The honor you did us in coming was much appreciated and I think the message you brought us has done good. My mother expects to come with me to the city though her student days are over.

students. Saturday, too, is an unpopular day. I am puzzled as to how far it is well to authorize a committee to use compulsion in these matters. Shall we say to some professor who gives a popular and large course; "Here,—you must put your course at five o'clock, so as to relieve the congestion in the morning, for the benefit of some of the smaller scholarly courses." Considerations of senatorial courtesy are opposed to such methods. I should very much like to know how much weight you have found it wisest to give to such considerations.

These are the particular points on which it seems to ^{me} most likely that your experience may come to our assistance; but I should be glad, of course, of any suggestions that you may be kind enough to make on the general subject. Such a great number of courses are given in the University of Chicago that you must inevitably have grappled in some way or another with the same problems that confront my committee; and I am tempted to hope that you may have reached a satisfactory solution of them. For any light that you can throw upon them I shall be most sincerely grateful.

This morning you will remember that I submitted to you enclosure A as a form for the invitations for the reception to the Associations, December 29th, and you instructed me to strike out the heading "The University of Chicago &c.". Mr. Shepardson now points out, however, that if the heading is omitted, the title "President" is unexplained and therefore the invitations should properly go out in the name of Mr. and Mrs. Harper. Inasmuch as this difficulty did not occur to us this morning, I am sending you drafts of the invitation in both forms in order that you may reconsider your choice if you wish. If you desire to strike out the heading, but still retain the first line "The President and Mrs. Harper" we could add a second line "of the University of Chicago", but that might crowd the page
