Dear Dr. Anderson:-

It has been decided after all to print a Quarter-Centennial memorial volume. Last May when I sought information on this point, I was informed that there would be no volume; consequently the Quarter-Centennial Committee did not make stenographic records of all the speeches et cetera delivered during the Convocation. I am therefore obliged to ~~fill~~ in at this late date as best I can.

An almost universal feature of academic festivals is a thanksgiving service which I think was well represented at the Quarter-Centennial in your Convocation prayer. Is it possible for you, so long after the event itself, to write out substantially the prayer as offered at Convocation? If you can do this, I shall print it in the permanent record.

Yours very truly,

My dear Friend:

When I read your letter this morning my spirit was in a tremor, for I had a dim recollection of having destroyed an immense amount of manuscript material two weeks ago; and inasmuch as Dean Mathews had told me there would be no publication of the address I delivered June 2, 1916, I feared that that address had been destroyed.

However, I have found it, and I herewith enclose it. If it is not too long, I should be glad to have it issued in whole.

Assuring you of my appreciation of all your kindness to me, I am, with best wishes to your home,

Chicago, February 14, 1917

Dear Mr. Burton:-

I have several times made collections of photographs and scrapbooks which I have turned over to committees of one sort or another supposedly permanent. Subsequently I have found that my labors have been in vain. The clippings which I kept for my fraternity have disappeared. The programs, posters, and photographs of the dramatic club have vanished. Many of the photographs and negatives given to the University are not to be found. As a result of this experience I have kept in the President's Office the material which during ten years I have collected. Before I turn it over to the Library I wish to be sure that while the material is in the possession of the Library it will not be subject to the vandalism which you may note in the copies of Cap and Gown belonging to the Library. I want to be sure that we are to have carefully protected and administered archives. I believe thoroughly in the idea, but I

do not believe in fooling oneself by thinking that the provision of a system assures perfect administration. Too often it is a mere pigeonholing of treasure for the convenience of pilferers who work undisturbed because of inattention of those who might be supposed to be interested. If we can work out a scheme for the protection of negatives and photographs and rare publications, I shall be glad to cooperate by making available the President's Office collection. Of course much of it has been given to the office or to me personally on the understanding that it is to be protected in the office. If your proposed plan is established, I shall be glad to secure the consent of as many as possible of my donors and shall be glad to cooperate in making your system complete. Doubtless you have already discovered that a circular letter is only the beginning of things in an exhibit of the kind you are collecting. There must be somebody everlastingly at the perfection of the archives. It will take someone with a temperament of Gurney or Shepardson to keep up the work.

Urbana, Ill., Feb. 7, 1917.

Dear Mr. Robertson:

The paper I read at the Quarter-Centennial celebration is to be published in Modern Philology; if you wish to republish it in a memorial volume, I am sure Professor Wood will let you have the MS., if you show him this letter. If you decide not to republish the paper, I shall be glad to let you have an abstract, or, if by that time it should already be published, a bibliographical entry. You certainly have a big job on your hands; I shall be glad to help you in any way I can.

Yours very truly,

Edward B. Davis

My dear Mr. Rosestrom:-

I have not the faintest
notion of what I said at the Uni-
versity dinner last June. I cannot
even recall what I talked about, if
anything.

If you decide, however,
to publish the report of the dinner,
I will try and invent something. I
spoke extemporaneously, having only
been told late in the afternoon of
the day that I was expected to perform.

Dear Mr. Robinson:

Dr. Hedrick has just reported to me that he kept no record of his address in presenting the portrait of Professor M^y at the Quarter-Centennial Conference of the Department. I regret this most particularly and if you think it desirable, I could ask him to write it out for me. Very truly,

Dear Mr. Robertson:

Referring to your letter concerning address at the Quarter-Centennial celebration of the University. My address has not been published although I have used parts of it in other connections.

I shall be glad to send you the address as given, or if you prefer can attempt an abbreviation of it. I am afraid that a short abstract of two or three hundred words would not mean much because of the nature of the material dealt with.

If you will let me know in what form you wish it I shall be glad to send you copy.

Very truly yours,

Dear Mr. Robertson,

I am in receipt of your letter of the third of this month relating to the publication of a memorial volume for the Quarter-Centennial of the University of Chicago.

My address was published in the October number of the Bulletin of the American Mathematical Society. I have no objection to republication, if you so desire, but in that case would like to receive first the approval of the editor of the Bulletin, which I am very sure would be most cordially given. As the address, while taking up general aspects of mathematics, is to some degree technical, I am inclosing a reprint under separate cover so that you may be able to form a judgment for yourself as to the suitability and desirability of including it in the memorial volume.

I will forward later a photograph, as requested.

Yours very truly,

Edward B. Van Vleet

Dear Mr. Robertson:

Replying to your kind letter of February 3rd I would say that my address at the Quarter Centennial Celebration of the University of Chicago has not been published. I was intending to use it in part in making up a small book on the subject of instinct. It would be difficult to publish it because it was very largely made up of the description of lantern slides and would require considerable rewriting and modification. I shall be very glad, however, to send you an abstract of it within the next few days.

With kindest regards, I remain,

Yours very sincerely,

My dear David:

I have your letter of the 31st ult about the volume on the Quarter-Centennial. I shall be glad to furnish a brief abstract of my remarks at the dinner if I can find the original notes. I had no manuscript and am afraid at this late day would find it difficult to remember what I said but may be able to do so when I find the outline. I shall be back in Chicago on Sunday. I shall try to write you again or to see you in Chicago next week about the matter.

Cordially yours,
