My dear President Judson:

I have received your kind letters of January 4th and 18th, which reached me nearly at the same time.

I am very sorry that conditions do not permit the Rockefeller Foundation to take up the Huai River matter, but I sincerely hope that it will nevertheless give this important humanitarian and business enterprise its active moral support.

I desire to thank you for your invitation to lecture at the University. If conditions here permit, I shall be in Wisconsin throughout July, and it would be possible for me to arrange to spend every Friday at Chicago, giving lectures on subjects in international law, international organization, or

Far Eastern civilization. Subjects of present political interest I could not, of course, touch upon at all.

Please give cordial regards to Mrs. Judson, and believe me,

Faithfully yours,

Hon. Paul S. Reinsch,

Hon. Legation of the United States of America, Peking, China.
My dear Mr. Reinsch:-

Your favor of the 19th of February was duly received. I am very much gratified that you can be with us in July, and can give lectures on successive Fridays. The first Friday in July comes so near the national holiday that perhaps it would be just as well not to use that date. I would suggest that there be four lectures, on the 9th, 16th, 23d and 30th respectively, and that the general subject be "Far Eastern Civilizations". Of course I understand that you could not touch on subjects of present political interest. I am, however, very sure that your discussion of this question will be of very great value and very much appreciated by the University audience. I am going to ask you to make a suggestion on the matter of honorarium, which I am sure we shall have no difficulty in arranging.

With cordial regards to Mrs. Reinsch and congratulations to you both, I am,

Very truly yours,

H.P.J. - L.

My dear Mr. Reinsch:

As our budget matters shape up for the year 1917-18 I find to my great regret that I am unable to get any provision for international law. We shall have to mark time again.

I am hoping that you and your family are all well, and that we shall see you again in this country in the not-distant future. Through the China Medical Board I get some advices about members in the Central Flowery Land. At the same time there are many things which I don't know which would be exceedingly interesting. Some day after this generation has passed off the stage I suppose that historians will delve into the records and tell the people then extant many things which are known to not many today. Please give my cordial regards to Mrs. Reinsch, and those of Mrs. Judson also.

Very truly yours,

H.P.J. - L.

My dear President Judson:

As it is my intention to return
to the United States not later than
July 1, 1917, and possibly earlier, I
should appreciate an expression from
you concerning any arrangements which
you may desire to propose in con-
nection with our next convention.

I am kept exceedingly busy in
these interesting times and various
matters are making headway.

With the sincerest regards, I am —

Faithfully yours

President H. P. Judson
Chicago.

Chicago, August 9, 1916

My dear Mr. Reinsch:-

Yours of last May was received about a month ago and when we were absorbed in the activities for the celebration of the Quarter-Centennial. This is a poor apology for so long a delay in answering. I find it impossible to forecast at this time what we will be able to do at the University July 1st, 1917. Our budget arrangements will be made somewhere near the New Year time next. The financial situation resulting from the war has made us very careful about future plans. I will write you soon after the New Year. Meanwhile, of course, it may quite easily be that that will be too late to carry out your plans.

I hope that everything is going well with you and with China. I sincerely hope that under the new administration the Chinese Republic may be successful in establishing and maintaining order and developing on the lines which the country so greatly needs.
