OUTLINE OF MONTHLY REPORT FOR DEAN, to be submitted

through Dean Johnson to the President.

1. CANDIDATES FOR DEGREE OR CERTIFICATE

2. COURSE OF INVESTIGATION NEEDED

3. COURSE OF INSTRUCTION NOT NEEDED

4. QUARTERLY GRATIONS OR DEBATE

5. GRANT ASSEMBLY

6. DIVISION OFFICERS

7. DIVISION MEMBERS

8. OBSERVATION ON REGISTRATION

9. SUMMER QUARTER EXAMINATIONS

10. TIME SCHEDULE, ETC.

11. CASES OF DISCIPLINE

12. THE SECOND AND THIRD WARNING

13. SPECIAL PRIVILEGES GRANTED

14. DISCIPLINARY

CHICAGO Nov. 9, 1897.

The President:

The report herewith submitted is late. The causes of delay will hardly appear hereafter.

I. In general.

1. Humane Fraternities

1. There will be necessary a new hearing for the Phi Kappa Psi before the end of the quarter, as Mr. Tinsell is going away.
2. At the opening of the quarter a copy of the college regulations was sent to each house by a fraternity, and a list of the members for the current quarter was obtained and is on file at my office.
3. An interpretation of the two quarter rule with reference to students admitted from Morgan Park is ~~now~~ with advanced standing, is desirable. It would seem to me that such students should be in residence two quarters credits.

2. Public Exhibitions.

1. The football team have kept up the scholarship record

CHICAGO

Nov. 7, 1907

The President:

The report which I have submitted to you is
a summary of the work of the Faculty of Arts,
Literature and Science during the year 1906-7.

I am, Sir, very respectfully,
Your obedient servant,

W. B. Ewing

I have been in the University since 1892, and have
been for the last five years its President.

My object in this report is to give you a
general view of the work of the Faculty of Arts,
Literature and Science during the year 1906-7.

I have divided the report into three parts:
1. The work of the Faculty of Arts,
Literature and Science during the year 1906-7.

2. The work of the Faculty of Arts,
Literature and Science during the year 1905-6.

3. The work of the Faculty of Arts,
Literature and Science during the year 1904-5.

I have also included a list of the names of the
members of the Faculty of Arts, Literature and
Science who have been elected during the year 1906-7.

I am, Sir, very respectfully,
Your obedient servant,

W. B. Ewing

I have been in the University since 1892, and have
been for the last five years its President.

- 2) Students hoping to be on the glee club ^{in the winter quarters} and on the bare ball team in the spring, are looking carefully to their record. The whole-someness of the regulation is apparent.
- 3) The first preliminary for the prizes in the Colleges will come in November.
3. Student publications. The only one at present is the Weekly. It is conducted modestly. I am not informed that the Cap and Gown is yet definitely planned.
4. Boards & Faculties. Of course the minutes give details.

The Board of Student Organizations, &c.,

- 1) has defined more carefully some conditions relating to the contests in public speaking;
- 2) has permitted plans for a Chicago-Michigan debate provided that no expense is incurred;
- 3) has taken the same action with reference to a proposed Chicago-Columbia debate - i.e., has called attention to the regulation which requires a guaranty (Regista, p. 41, & § 23, (5)).

The literal enforcement of this last regulation will keep us clear of such disgraceful fiascos as some of our debates and oratorical contests have been in the past.

The Senate at a meeting in the summer expressed an opinion which I trust that

The Senior College Faculty will embody in legislation, involving a strict interpretation of the one year residence minimum for a ^{bachelor's} degree.

Whatever may be the merits of Cinesque's plan, it seems to me altogether inadvisable that it should suffice to lessen the full year of full work which the student should spend here before taking a degree.

5. Waiting Announcements. The Examiner resumes charge of the announcements. It seems to me that he will accomplish a salutary reform if he succeeds in getting them out two full weeks before the preliminary registration.

6. Registration and Statistics

1) The list of students for Summer and Autumn terms will be ready for the press by the last of the present week, on the new plan.

2) The Autumn registration at present is 1086. The Statistical report for the quarter will be made after the second term has begun.

3) The method of registration used at the opening of the quarter, so far as making bills is concerned, proved defective because so many bill-copies were required. We cannot depend on the accuracy of different students for such work. Of course there will be no necessity for testing the system again before the July registration.

3
The American College Faculty were sent to
Paris, in 1848, to attend the
annual conference of the
Association of American
Universities. They were
informed that the
Association was to be
held in Paris, and
that it would be
held in the month of
September. They were
also informed that
the Association was
to be held in the
month of September.

2. The Association of American
Universities was
founded in 1848.
It was the first
association of
American
universities.
It was the first
association of
American
universities.

1. The first object of the
Association was to
promote the
interchange of
ideas and
information
among the
universities of
the United States.
It was the first
association of
American
universities.
It was the first
association of
American
universities.

II. The Graduate Schools.

4

1. Candidates for degrees at next Convocation.

The list is not yet ready. Mr. Willis will take the degree doctor, and Miss Chapin that of Master - both having passed their Examination in the summer, but not being present Oct. 1.

Mr. Fertig is a candidate (Hist. & Pub. Acc.) Nov. 11.

2. Courses taken by a very small number of students as follows: have been already reported,

3. } Question as to policy with regard to fellowships now
4. } pending in January.

5. Question for debate has been announced. The Board has revised the rules, dividing prize between winners.

8. The Graduate Club should have quarters as soon as possible. They have an elaborate program for the year. I have consulted the President (Mr. Cleveland) as to details.

9. The Graduate Assembly is having a series of big addresses.

I call attention to the suggestions of Beane Talbot, filed herewith.

III. The Colleges

5

The reports of Deans Terry and Capps are filed herewith. With reference to suggestion of Mr. Capps:

1. I have called the attention of the Examiners to the suggestion of Mr. Capps with reference to the need of an additional section in Ethics and an additional section in Latin 5 (in place of Latin 6) further written.
2. It does not seem to me objectionable for Juniors to be in Senior electives, provided
1) that they have had the prerequisites, and
2) that they are not neglecting required subjects.
3. I have called the attention of the Examiners to the suggestion in the Time Schedule at p. 30, and hope it may be correct.
4. As to inaccurate reports of absences, we do not need a better mechanism, but more care on the part of instructors. I have suggested to Mr. Capps that in each case of discrepancy he call the attention of the Instructor to the fact.

The above report, with Exhibits attached, is respectfully submitted.

Harry Pratt Hudson

The report of Henry Ford, and the
fact that this report is a summary of the
1. I have called the attention of the
to the suggestion of the Board, not only
to the need of an educational system
which will be a self-sustaining system in
the future, but also of the fact that
it does not seem to me appropriate for
provision to be made for education, but

CHICAGO

Nov 4/97

My dear Professor Jackson -

For reasons mentioned to you it is
impossible to present a full report upon
all topics presented.

1. Candidates for degrees.

List not yet sent to me from the Examiners'
Office.

2. & 3. meeting.

4. Preliminary to be held this week.

5. meeting.

6. Division Office.

So far we have had little news from
the Div. Office beyond the first assembly
of Div. The new Div Office is now ready
of Div VI.

CHICAGO

7 Division Lecture.

Lecture by J. W. Tufts.

Subject: The Significance of the Chief Factors in
Human Progress.

8. Statements in quarterly announcements have
in many instances been cut down so
brief as to be meaningless to students.

9-12. Nothing.

13. J. Arnett & M. A. Cutler have been excused
from attendance in Chapel & Div. Lecture
on account of anniversary service at 10:30.
members of choir also, viz C. F. Stokely,
Paul Manderbills, Maurice Manderbills, Arthur Stokes
F. W. Eastman.

M. G. L. White excused from ^{Div.} lecture by act. of
faculty, on account of preaching.

October 9th, 1905.

My dear Dr. Hulbert:-

We ought to prepare and send out a letter to the chairmen of the various sub committees of the Committee of One Hundred asking them what they are doing and what they are going to do, offering to help them, for it is not too early to get them to work. Perhaps you will take this up with me as soon as you return from Minnesota. It is particularly important that the meeting in December be a strong one.

Yours very truly,

W. R. Harper

Committee of the University of Chicago

THE MEETING OF THE ADVISORY COMMITTEE.

The Committee was in session Monday afternoon and evening, December 4, and Tuesday morning and afternoon, December 5. About twenty-five members of the Committee were in attendance. The presence of members of the Faculty at the several sessions was gratifying. With some modifications the inclosed program was followed. The Report of the Old Testament Committee created astonishment at the amount of work accomplished by the department and at the magnitude of its literary output. The statement by Professor Henderson of the possibilities along the line of Ecclesiastical Sociology also created astonishment. There was a very lively discussion on Ministerial Supply and also on Ministerial Aid. There were some diversities of opinion, but from first to last the most friendly spirit prevailed. The Committee were extremely eager for two things. First, that the public should be apprised of the wonderful work which is being done in the several departments. They wished a vote passed to the effect that information of this sort should be conveyed to the Baptist Press, and to this end they wished the reports which were presented at this session to be printed and sent to the members of the Committee who were not present and also sent in quantifies to be distributed in the churches for the enlightenment of the people. Secondly, the opinion was frequently expressed that these problems, which were under consideration by the several Standing Committees, demanded for their ultimate solution the labor of from three to ten years, and that it was a kind of work in which the members of the

Committee could profitably engage.

From Start to finish there was not a jarring note. The presence of Andrews was a great help. He made four or five smooth and telling speeches. The feeling of the Committee towards yourself was truly expressed in the minute which was adopted.

The Chairman of the New Testament Committee made a report on which he had evidently expended a large amount of labor and in conclusion offered certain recommendations. At a subsequent session Professor Burton took up these recommendations one by one, and in a very kind and gracious and yet effective way showed in each instance that either the recommendation was already in full operation or that it was altogether impracticable. The impression on the general Committee was most wholesome, for it revealed plainly enough that if recommendations were to be made they must be most carefully pondered.

Every expression by every member of the Committee who talked at all showed that he regarded this as far and away the greatest of theological seminaries, and the one to which all aspiring candidates ought to be recommended by virtue of the facilities and advantages here afforded.

I have written this in the midst of all sorts of turmoil and interruption, but it will at least convey to your mind the truth that the meeting of the Committee was a great success.

9:30 A.M. Final Session of the Committee.

October 27th, 1905.

My dear Dr. Hulbert:-

Your suggestion under date of October 25th is exactly the thing I had in mind. A better selection could not have been made. Let us push it for all it is worth. I am sure that with the co-operation of all sides this will be excellent. I propose that you call together the professors whom you name as helping to furnish material, and take the matter all over with them at one time, giving to them copies of the printed questions.

I suggest also that you write also to the chairmen and start them. If you think it desirable I shall be glad to write a letter to the chairmen myself, or, at all events, to have it go out from my office.

I want to thank you for formulating so fully and definitely the extremely intangible suggestion I made to you at our last meeting. Let us push the thing for all it is worth.

Yours very truly,

W. R. Harper

October 27th, 1905.

FOUNDED BY JOHN D. ROCKEFELLER

SECRETARY

Chicago, Oct. 25, 1905.

Pres. William R. Harper,
University of Chicago.

My dear Dr. Harper:

What do you say to the following: Ask the Chairmen of the following Committees to make elaborate reports, and ask the following Professors to furnish material and render them assistance?

1. Aiding Students - Burton and Hewitt
2. Old Testament - R. F. Harper and J. M. P. Smith
3. Scandinavian Seminaries - Hulbert
4. Ecclesiastical Sociology - Henderson
5. Ministerial Supply - Mathews

1. Hewitt knows what we are doing in the way of aiding students, and Burton knows what the other seminaries are doing.

2. J. L. Cheney, the Chairman of the Old Testament Committee, told me that he intended to make a somewhat careful study of the Old Testament Department in the foreign Universities while he was in Europe this summer. This is my chief reason for putting the Old Testament in the list.

3. Hulbert is already at work on a report on the Scandinavian Seminaries, and on the solution of the Scandinavian problem in his own state.

4. Ecclesiastical Sociology is an unusual discipline in a theological seminary and Clark and Henderson will be specially interested in exploiting it.
