On the suggestion of the chairman the reading of the minutes of the last meeting was omitted.

Julius Stieglitz made a report on the activities of
the Scientific departments in the aid of the government,
calling attention to the special work which was being conducted in chemistry, physics, biology, etc. He also stated
that H. H. Moore had accepted the chairmanchip of the subcommittee appointed at the last meeting to analyze and classify the information which had been collected under previous
action.

had seavest one reported that a preliminary canvass had been made of the information resulting from the distribution of questionnaires and that it was the plan of his committee to proceed as rapidly as possible with the analysis and

classification of the material so that it might be available for reference.

Mr. Merrifield supplemented his report made at the last meeting regarding cooperation with alumni organizations, stating that the work of distributing questionnaires among alumni of the University had been completed and that between two and three thousand returns had been made. This report was received as evidence of the fulfilment of the work of Mr. Merrifield's committee, appointed at the meeting held March 30. After discussion, a motion was duly made, seconded and carried that it be the sense of the committee that the information obtained from alumni should be analyzed and classified at the excliest possible date, and that Messrs. Merrifield and Robertson be appointed a special sub-committee to present the matter to the proper alumni authorities and to encourage the early adoption of a plan which would make the material accessible for reference.

ence which had developed regarding the possible alliance of the committee with the Intercollegiate Intelligence Bureau, of Washington, D. C., and called upon Major Bell for his report on certain material which had been referred to him at the meeting held March 30. Major Bell stated that while he had not been able to obtain any very definite information regarding the organization, nevertheless he was of the opinion

eldeliave ed ingle it is to the material so that it might be available for reference.

Mr. Merrifield supplemented his report made at the lest meeting regarding cooperation with alumni organizations, stating that the work of distributing questionnaires among alumni of the University had been completed and that between two and three thousand returns had been eade. This report was received as evidence of the fulfilment of the work of Mr. Merrifield's committee, appointed at the metting held March SO. After discussion, a motion was duly made, seconded and carried that it had be sense of the committee that the information obtained from alumni should be snalyzed and classified at the earliest possible date, and that Wessra. Merrifield and Robertson be appointed a special sub-committee to present the matter to the proper alumni authorities and to encourage the early adoption of a plan which would make the material accessible for reference.

The chairman called attention to recent correspondence which had developed regarding the possible alliance of
the committee with the Intercollegiste Intelligence Bureau, of
Washington, D. C., and called upon Major Bell for his report
on certain material which had been referred to him at the
meeting held March 3C. Major Bell stated that while he had
not been able to obtia in any very definite information regarding the organization, nevertheless he was of the opinion

that the work of the committee should in some way be identified with that of the Bureau. The secretary presented a letter from Dr. Joseph E. Raycroft of Princeton University urging that the University of Chicago become allied with this Bureau. He also presented correspondence with the Director and Secretary of the Bureau urging cooperation on the part of the committee.

A motion was made by Mr. Coulter, which was duly seconded and carried, that it be the sense of the committee that we accept the invitation to cooperate with the Inter-collegiate Intelligence Pureau in its work, and that the secretary be authorized and instructed to enter into negotiations to this end.

The secretary reported progress in the organization of employees to the effect that in so fer as preparedness matters were concerned in the University Press the staff had been divided, the men devoting themselves to regular drilling and the women to questions relating to Ped Cross service.

He also stated that a little progress has been made with other groups, but that he expected to present more encouraging information at the next meeting.

In compliance with action taken at the last meeting, Mr. Angell reported that every member of the teaching staff of the University had received a typewritten statement of the

that the work of the committee should in some way be identified with that of the Bureau. The secretary presented a letter from Dr. Joseph R. Haycroft of Princeton University urging that the University of Chicago become allied with this Eureau. He also presented correspondence with the Director and Secretary of the Bureau urging cooperation on the part of the committee.

A motion was made by Mr. Coulter, which was duly seconded and carried, that it be the sense of the committee that we accept the invitation to cooperate with the Inter-collegiate Intelligence Bureau in its work, and that the secretary be authorized and instructed to enter into negotiations to this end.

The secretary reported progress in the organization of employees to the effect that in so fer as preparedness matters were concerned in the University Press the staff had been divided, the men devoting themselves to regular drilling and the women to questions relating to Red Cross service.

He also stated that a little progress has been made with other groups, but that he expected to present more encouraging information at the next meeting.

In compliance with setion taken at the last meeting.

In. Angell reported that every member of the teaching staff of the University had received a typewritten statement of the

condition under which students are receiving credits when they go into military service. He stated further that, in his judgment, the action of the Faculties had amply provided for all contingencies which might arise and that probably it would not be necessary for the committee to give further attention to the question.

Mr. Angell also reported that the Board of Physical Culture had not deemed it necessary to do away with competitive athletics for the present. In replying to expressions of dissatisfaction on the part of members of the committee, he stated that the action of the Board had been based not only upon advice received from authorities in other institutions, but from military officials as well.

The chairman called attention to the recent announcement of the appointment by President Judson of a committee to devise effective ways of using University resources in military matters, and presented for the minutes the memorandum hereunto attached marked Exhibit "A". Discussion followed, and upon motion duly made, seconded and carried Mr. David A. Robertson was appointed a sub-committee to canvass the community to see to what extent the work of the various military committees might be coordinated. Further discussion resulted in a motion duly made, seconded and carried that Chairman F. J. Miller and Mr. David A. Robertson be constituted a sub-committee to consult

condition under which students are receiving oredits when they go into military service. He stated further that, in his judgment, the sction of the Paculties had amply provided for all contingencies which might arise and that probably it would not be necessary for the committee to give further attention to the question.

Mr. Angell also reported that the Board of Physical Culture had not deemed it necessary to do away with competitive athletics for the present. In replying to expressions of disastisfaction on the part of members of the committee, he stated that the action of the Board had been based not only upon advice received from authorities in other institutions, but from military officials as well.

The chairman called attention to the recent announces ment of the appointment by President Judeon of a committee to devise effective ways of using University resources in military matters, and presented for the minutes the memorandum hereunto attached marked Tahibit "A". Discussion followed, and upon motion duly made, seconded and cerried Mr. David A. Robertson was appointed a sub-committee to cenvass the community to see to what extent the work of the various military committees might be coordinated. Further discussion resulted in a motion duly made, accorded and cerried that Chairman F. J. Miller and duly made, accorded and cerried that Chairman F. J. Miller and duly made, accorded and cerried that Chairman F. J. Miller and duly made, accorded and cerried that Chairman F. J. Miller and duly made, accorded and cerried that Chairman F. J. Miller and duly made, accorded and cerried that Chairman F. J. Miller and

with President Judson regarding the status of the Committee on Plans and Organization and its relation to other committees concerned with military affairs, official and voluntary.

Mr. Angell made a statement with reference to recent provisions of the University for military drill as well as courses and lectures bearing on military subjects, and called attention to the announcements covering these matters. See Exhibits "B" and "C" attached.

Mr. Manly reported briefly with reference to certain special work which he is doing for the Secret Service Department of the government (see minutes of March 30), and stated that he would be willing to offer a special course in the University on the subject of codes, Ciphers, etc. In the discussion which followed Major Bell stated that in his opinion such a course would be very valuable, and that probably many students who are preparing for military service would profit by such work. It was moved, seconded and carried that it be the sense of the committee that early consideration be given to this question by the proper University authorities and that the secretary be instructed to bring the matter to the attention of President Judson.

The secretary reported that, in accordance with action taken at the last meeting he had entered into correspondence with individuals and organizations "in an effort to

with President Judson regarding the status of the Committee on Plans and Organization and its relation to other committees concerned with military affairs, official and voluntary.

Mr. Angell made a statement with reference to recent provisions of the University for military drill as well as courses and lectures bearing on military subjects, and called attention to the announcements covering these matters. See Exhibite "H" and "C" attached.

Mr. Manly reported briefly with reference to certain special work which he is doing for the Secret Service Department of the government (see minutes of March 30), and stated that he would be willing to offer a special course in the University on the subject of codes, Clphers, etc. In the discussion which followed Major Dell stated that in his opinion such a course would be very valuable, and that probably many students who are preparing for military service would profit by such work. It was moved, seconded and carried that it be the sense of the committee that early consideration be given to this question by the proper University authorities and that the secretary be instructed to bring the matter to the stention of President Judson.

The secretary reported that, in accordance with secretary corresponds of the last meeting he had entered into correspondence with individuals and organizations "in an effort to

secure information as to possible lines of service which might be rendered by members of the University." He stated that letters had been received from Major Leonard Wood, the Commanding General of the Central Department, Chief Quarter-Naster of the Central Department, and others, and that his activities had developed correspondence with the Military Training Camps Association and the Intercollegiate Intelligence Bureau. The drift of such advice as was given seemed to be (a) in the direction of enlistments on the part of the constituents represented by the committee, and (b) toward an alliance with the Intercollegiate Intelligence Bureau.

Mr. Michelson raised anew the question canvassed at the meeting held April 16, of the status of members of the University called for military service. After discussion, it was moved, seconded and carried that Mr. Angell be requested to act as a sub-committee to secure an official ruling on this matter covering faculties, administrative officers and employees.

The secretary stated that a request had been received from Mr. Conyers Read that the records of the committee be made available for the historical archives of the University. Discussion indicated that probably the request was in some way related to the work of the organization referred to in Exhibit "A", and it was moved, seconded and

secure information as to possible lines of service which might be rendered by members of the University." He stated that letters had been received from Major Leonard Wood, the Commanding General of the Central Department, Chief Quarter-Master of the Central Department, and others, and that his activities had developed correspondence with the Willtary Training Camps Association and the Intercollegiate Intelligence Bureau. The drift of such and vice as was given seemed to be (a) in the direction of enlistments on the part of the constituents represented by the committee, and (b) toward an alliance with the Intercollegiate Intelligence Dureau.

Mr. Wichelson raised anew the question canvassed at the meeting held April 16, of the status of members of the University called for military service. After discussion, it was moved, seconded and carried that Mr. Angell be requested to act as a sub-committee to secure an official ruling on this matter covering faculties, administrative officers and employees.

The secretary stated that a request had been received from Mr. Conyers Read that the records of the committee be made available for the historical archives of the University. Discussion indicated that probably the request was in some way related to the work of the organization referred to in Exhibit "A", and it was moved, seconded and

carried that the secretary be authorized to make the records of the committee available in due course.

The chairman stated that he had received from

Miss Elizabeth Wallace a "Report of the Activities for War

Relief among the Women of the University and of the University Neighborhood," and submitted for the records the statement covered in Exhibit "D."

Dr. Reed stated that in his judgment considerable unnecessary confusion existed among students and others seeking information with reference to the requirements of the various lines of military service and that it was his opinion that many of the younger men were rushing into lines of service for which they were neither fitted nor needed. His judgment was based mainly on his contact with those entering the various phases of hospital service. Major Bell confirmed this opinion. and stated that he found himself utterly unable to answer inquiries which were being put to himd aily by those interested in the question of army and navy enlistments. After discussion, it was moved, seconded and carried that Messrs. Reed, Merrifield and von Noe be constituted a sub-committee to assist Major Bell in making information on these matters available and, in so far as possible, advising with individuals regarding their fitness for given work.

There being no further business, the meeting ad-

oarried that the secretary be authorized to make the records of the committee available in due course.

The chairman stated that he had received from Miss Flizabeth Wallace a "Report of the Activities for War Relief among the Women of the University and of the University Weighborhood," and submitted for the records the statement covered in Exhibit "D."

Dr. Reed stated that in his judgment considerable -xlock arento bus atnobute ground betains notevinos yrassesennu and to sinemeriuper and of seneraler alive noisementa and nothing aid saw it jads bus solves wrestlin to contl suclina entrace to control and deer men mem reproved to the tank inemphut siH .bebeen ron beijil rentien erew yeni nothw rol was based mainly on his contact with those entering the various phases of hospital service. Major Rell confirmed this opinion, and stated that he found himself utterly unable to answer indelives which were being put to himd sily by those interested in the question of army and navy enlistments. After discussion, it was moved, seconded and carried that Mesers. My dear Mr. Oregory:

In reply to your letter of October 4, I would say that the order of the President exempting medical students from immediate service, applies only to medical atudants in their second, third, fourth, and interne year. First year medical students and premedical atudents were not included and are subject to draft on the same conditioness other mon. Thile we should have been gled to have the freshmen and premedical students exempted as well as the others, and thought last spring from the action of the Council of National Defense that such exemption might be provided for, it is not difficult to understand why the incoming medical students were excluded from the ruling of the President. To exempt such in all medical schools would have left the door open for claims by students who had not intended to study medicine at all, but entered the undical school on that ground. Very bruly yours,

HHMOIMB -

### PERSONNEL OFFICE

#### CAMP GRANT

DATE November 13th, 1917

David Allen Robertson, Esq., President's Office, University of Chicago, Chicago. Illinois.

My dear Mr. Robertson:-

I was very pleased to receive your communication of November 7th, asking that we co-operate with you in securing a record of the University of Chicago men now in training at Camp Grant.

The Adjutant General, Colonel Heistand, has recently formulated a definite policy concerning the giving out of such lists. He directs that I write you saying, that while his personal wishes are to furnish such a list, he feels that he dare not establish a precedence, because of the demands which have recently been made upon us by the big corporations and former employers of the men now in the Camp.

He did, however, say to me that if I could personally arrange a way where this matter could be handled without breaking down the precedence which he recently had to establish, he will leave it to my judgment to get the work done. It is my belief that if you will give me a short time to work on the matter that I can find another way to get the information, which will be just as reliable and accurate as though I took it out of our files.

Your record card is a very good one and I have no suggestions to make. I am taking the liberty, however, of forwarding to you a copy of the Personnel qualification card which

CHICAGO
J. V. Nash,
Managing Editor.

Chicago, May 25, 1917.

Mr. D. A. Robertson, University of Chicago, Chicago, Ills.

My dear Mr. Robertson:-

Since the entry of the United States into the war I have been extremely anxious to find some way in which I could be of service to the nation.

Even before the actual declaration of war I enrolled in the class in Military Science at the University, as an alumnus member, going out to the campus every afternoon for the drill and lectures. This proved very unsatisfactory, however, owing to the great amount of time that I was obliged to spend going and coming, and also to the interference with my work downtown. Finding that I was getting very little good out of the experiment, I finally felt compelled to drop out. Later, when the alumni battalion was formed for drill two evenings a week, I joined that, but this also proved unsatisfactory owing to the very small amount of real work that can be done in only two evenings a week.

As a matter of fact, I have been out of physical training so long, and my activities have been along strictly intellectual lines for so many years, that I fear it is impracticable for me to attempt to qualify as an officer in the armed forces.

Furthermore, it happens that I am over the age limit prescribed in the conscription act, and so the government does not desire my services in the field at this time. Hence I feel that I can, with a perfectly good conscience, seek service in some other branch of war activity.

Being exempt from the draft, I could, of course, avoid service of any kind. I do not wish to take advantage of my immunity, however, as I feel that I could render valuable service to the Government in some capacity or other.

As I understand that you are directing to a large extent the University's participation in the war, I am wondering whether you could find a suitable place for me in some one of the various organizations that are being formed under

SECOND COMPANY 310th MILITARY POLICE 85th DIVISION, Camp Caster, Mich. October 23rd, 1917.

From: Commanding Officer, 2nd Co. M.P.

To: Cadet Lt. Darwin Curtis

Subject: Making the backbone of an army.

- l. I am putting this heading on the letter to let you see the way we have to address our letters when we get into the regular service. I have learned from your brother of the exceedingly good work you are doing at the University of Chicago Corps of Cadets, in training men to become efficient noncommissioned officers. Only a man in my position can thoroughly appreciate the nature of the work you are doing and know to what great advantage the men are being used that you turn out of your short course. I have heard army officers from all parts of the United States make the statement that the noncommissioned officers are the heart and soul of a company, especially a First Sergeant, for he is the connecting link between the officers and men of his organization, and a company can be either ruined or made a cracker-jack by the personality, knowledge and ability of the First Sergeant. I heartily endorse these statements.
- 2. It has been found that the splitting up of many old organizations and sending many of the men as noncommissioned officers to the new army and skeletonizing some of these old organizations and filling them in to their full quota by men from the National Army, as well as many new organizations of the new army being formed, has caused a great demand for noncommissioned officers; that is, men who have had training before coming to the cantonment. I have heard officers from Rockford state that the noncommissioned officers supplied from the University of Chicago are a very desirable type of men and seem to have been instructed very well for they are able to hold down their jobs to the complete satisfaction of the company cammanders. I only wish that I were as lucky in being able to draw on an organization. like the University of Chicago for noncommissioned officers who are already trained. Here at Camp Custer we have been fortunate in having sent to us from various National Guard organizations many non-commissioned officers who are a very great help in whipping into shape these new companies.
- 3. I should like to have it arranged somehow so that in the future Wisconsin and Michigan can reap some of the benefits of your work and as an old University man myself, I would think it would be the best move the University of Chicago could make to enlarge this course for drafted men.
- 4. There is also a great need for men with the ability to handle paperwork and would recommend that a course be established that would instruct noncommissioned officers so that they could handle successfully a company's paperwork.

I as parties this heading on the letter to let the regular to the regular and regular to to rote to the regular series. I have learned from your prother of the enceedingly good sery you am desire at the University of Unitage Corps of Cadeta.

The desire to the test of the University of Unitage Corps of Cadeta.

The desire to the test of the University appreciate the nature of the series of the series that the nature of the series of the series of the series of the test of the series of the Unitage of the series of the Unitage of the test of the States asks the series the series of the Unitage of the test of the connecting limit of the officer that of the series are the heart and soul of a company can be effect that of the street of the organization, and a company can be determined of made as proceeding by the personality, known and each of the street by the personality, known these and each each of the street of

It has now condition the splitting up of many old organizations and substant and condition that the splitting up on the men of these old organizations and salidar and sentential up to the sent full quote by men from the National Army, and the sent full quote by men from the National Army, as a fill a first organizations of the new army being formed, has a sent of the sent and the sent of the sent of

Internet Wisdows and Michigan can read some of the benefits of your folders with the benefits of your work and all folders as a poelf. I would think it would us the benefit of the best would think it would the best the best the best work and the best would make to entere this down a lot of the best would make to entere this

4. There is the state a live the for men with the ability to sould property of the sould that the sould institute the sould handle successfully the trust and that they could handle successfully a company of appearance.

Congratulating you on your good work, I am sincerely .

Geo. W. MacKay

Captain 2nd Co. 310th Military Police 85th Division.

Ceo. W. MacKay Captain And Co. 510th Militery Police 85th Division. President Harry Pratt Judson, University of Chicago, Chicag , Illinois.

Dear President:

from us. The University of Chicago unit is now securely quartered and have drawn most of our supplies and are now on the same status as other companies that have been here for some weeks. The new organization provides for five companies to a battalion. The Chicago group has been divided into four complete companies of forty-five men each; each under the command of a first lieutenant. There will be one more company assigned to us; five companies thus constitute a battalion under command of the captain. This is the organization according to the French rmy plan.

There are about five thousand men in camp here including two base hospitals. Allentown is a concentration and training point for medical organizations soon to go to France to join the French Army. We do not know whether as announced some time ago we shall ever be assigned to the American army. Humor has it that the French are so badly in need of physicians, it is contemplated that a certain number of men from the line will be promoted to the rank of first lieutenant and the majority of the doctors be assigned to base hospitals of the French Army. I am greatly surprised t the number of physicians one encounters here who prefer not to do technical medical work. I suppose that it is the proximity of the firing line with its activities which makes them prefer the direction of companies with ambulance work.

There is, I believe, no question but that everyone here will be sent abroad to join the French Army. The
Chicago men seem to have given an excellent account of themselves. We are the largest ambulance unit that has over
been organized in the United tates and Colonel Persons
took occasion to pay a high tribute to the University of
Chicago group. In the matter of mechanics, musicians,
cooks and laboratory men, we seem to be better equipped
and organized than any one else. The portable laboratory
has attracted a great deal of attention among the medical
men here. It is now being used as the Post Medical
Laboratory and two of the Chicago boys are doing all the
laboratory work for the entire camp. It is probable that
this arrangement will continue even after we get to France.

The series of th

Oct. 2, 1917.

My dear .r. Robertson:

The University of chicago Rifle Chas been very active during the past year, and a large number of men have received training with both the service and the sub-caliber rifle. I do not have the exact record of membership at hand, this being in the hands of the club secretary, Mr. von Nos, but the membership is over 500.

All the members of the club have had training with the subcaliber rifle, expending approximately 120,000 rounds of miniature, and 12,000 rounds of service ammunition.

Outdoor target practice was had at the Fort Sheridan range every saturday until the range was closed to riflemen by orders of army officers. Apparently certain experts in the art of war do not think that a soldier should be able to use his rifle effectively.

When Captain Moffett, the commandant at Great Lakes learned of the closing of the wort sheridan range, he set aside one day in the week for civilian riflemen to use the splendid new range which had just been completed under the direction of Major Harllee, U. S. M. C. Too much cannot be said concerning the courteous treatment we receive from the officers and men of the navy and Marine Corps. These branches of the service evidently know the value of well trained riflemen.

one of our greatest handicaps has been the lack of expert riflemen to serve as instructors. Members of the club who have qualified as expert and sharpshooter have given ungrudgingly much of their time to instruction. At great takes this difficulty is not met, an instructor being assigned to each man.

According to the regulations laid down by the National Rifle

Association 78 men have qualified with the service rifle: 55 marksmen, 16 sharpshooters and 7 as expert rifleman. These qualifications were made according to Navy and Marine Corps rules, which are much more difficult than the army rules as well as more practical.

The present indoor range, although small, is exceptionally well equipped, having every safety device which can be devised. The equipment of rifles is unusually good, consisting of two apringfields, four Stevens "Military", two Remington #Tepeaters" and one Ross "Military miniature". During the coming year it is the intention to use service rifles for gallery practice, satisfactory reduced charges having been weeked out for these rifles by myself.

The range has not been found large enough to accommodate the number of men who come for practice

In addition to members of the rifle club and the R. O. T. C. a large number of men of the first call received instruction in rifle practice.

Perkaps I should not speak of my own endeavors, but for your personal information I will do so. Knowing the absolute helplessness of the man who does not know how to use the modern rifle, for the past two years I have spent most of the time I could spare from University duties in giving instruction in the use of the rifle. Also, looking for sources of supplies for military explosives, - found and reported on a new and abundant source in a plant which has hitherto been a great nuisance. I understand that the Navy Bepartment has acted on this information. Again, I have been passing on the suitability of American peat mosses for dressing wounds.

Very truly yours, uffle Love of

Battery 13. 333 field artillery Camp Grant Rockford Allinois.

Camp Funston, Kans., January 6th, 1918.

Mr.D. A.Robertson, The President's Office, The University of Chicago.

Dear Sir,

It has been some time since I received your letter which I believe was sent to most of the alumni that were in the Service. To those of us who received it, it was indeed most gratifying to know that our Alma Mater appreciated our very humble effort to do what I am sure every true and loyal "Chicago Man" will do for this, the most glorious of allwwars, which is for pure Principal without the customary materialistic reward.

Things have been moving along so fast since I received your communication while in Training Camp at Ft, Sheridan that it has seemed but a few days instead of a few months. I am sure that you will pardon this very belated reply.

Fultz, Dan W.Ferguson and Bob Hunter, who went to the University about 1902, were in the same battery with me there. Jimmy Lightbody, Rudy Matthews and Harvey Harris were in the battery next to us. Saw Sauer, Gray, Boyle and McConnell about the camp. Was quite surprised to see Dean Gale there. Every Chicago Man that I knew was in camp "came thru" in true Chicago style and landed commissions.

At present, I am located at Camp Funston, Kansas with the 342nd Field Artillery. It would surprise you to see what strides have been made here toward getting the men in shape. The spirit and capacity for hard work is almost inconceivable.

With best of regards to you and the University,

I am,

Elifford histon wants
1st Lieut, 342nd F.A.

Commanding Btry B.

Mr.D. A. Hobertson, The Precident's Office, The University of Chicago.

Dear Sir,

It has been some time since I received your letter which I believe was sent to most of the sinumi that were in the straight. I believe was sent to most of the sinumi take was indeed most gratifying to know that our Alma Mater appreciated our very humble effect to do what I am sure every true and loyal "Chicago Man" will do for this, the most glorious of allowers, which is for the Frinciple without the customery materialistic reward.

Things have been moving along so fast since I received your communication while in Training Camp at Ft, Sheridan that it has seed of but a few days instead of a few months. I am sure that you will pardon this very belated reply.

Filts, Isn W.Forguson and Bob Hunter, who went to the University about 1902, were in the same battery with me there. Jimsy Idehboody, Rudy Matthews and Harvey Harris were in the bettery ment to us. Saw Esper, Gray, Royle and McConnell about the camp. Was quite surprised to see Dosm Gale there. Eyery the camp. Was quite surprised to see Dosm Gale there. Eyery thickage Hast that I knew was in camp "came thru" in true Chicago atyle and Landed consistence.

At present, I am located at Camp Bunston, Kanses with the 342nd Hield Artillery. It would surprise you to see what strides have been sade lers toward gatting the men in shape, strides have been sade lers toward work is also the incompetitable. With best of regards to you and the University.

I sent acpy of this letter boson chief and got the evelowed reply. He is the only one so for who has definedly declined to conferate. I word of to will one the topic Deborment for me.

The History Department has been instructed to maintain a record of the activity of members of the University in the preparation for and the conduct of the present war. This record is to include work of all sorts performed by undergraduates, graduates, alumni and faculty, in any way contributing to the solution of the national problem. With a view to the collection of data regarding the activity of the faculties, I am writing to request that you prepare and send to me a detailed statement of the work of this sort which the individual members of your department are, or have been, engaged in. This information will be entered upon cards and added to from time to time as further information is received. The purpose of this record is, of course, purely historical. The question of its publication has not yet been raised. It is desirable, of course, that the reports shall be as full and as specific as possible. Activities of the following sort should properly be included in the report:

- a) The writing of books or pamphlets or newspaper and magazine articles bearing upon the war.
- b) The delivery of lectures bearing upon the war.
- c) Membership in associations dealing with war problems.
- d) Drill work.
- e) Government service of all kinds in any way connected with the war.
- f) Scientific investigation directed toward the solution of any problems presented by the war.

I shall be much obliged for the report of your department at your earliest convenience.

HARRY F. VORIES 1051 Otis Building 10 South La Salle Street Chicago, Ill. **料局 98 180** October 25th, 1917. Mr. Walter Payne, University Recorder, University of Chicago, Chicago, Ill. Dear Mr. Payne: -I have been away from Chicago for ten days, which explains why I have not sooner acknowledged receipt of your letter of 13th instant. I assure you that I very much appreciate the fact that my son is still regarded as a member of the University. If you have a Roll of Honor of members absent on military service, his name should appear in that list. He has been under fire many times, is well and in high spirits and will, I am sure, not discredit the University of Chicago in the service in which he is engaged. Yours very truly, H. J. Vojues HFV: NEJ

The Medical Courses

June 11, 1917

My dear President Judson:

To the activities in which the University and Rush Medical College are engaged in the service of the Nation, we are just adding another in undertaking to provide courses of instruction for the assistant surgeons admitted to the medical department of the United States Navy.

This is being done at the special request of Surgeon General Braisted of the United States Navy, as the resources of the Naval Medical School at Washington are quite inadequate to afford the usual courses of preparation for the large number of men now entering this service. These men are therefore being distributed to various Naval stations, and we have organized at Rush Medical College courses of intensive instruction of six weeks duration for the attending surgeons assigned to the Great Lakes Station.

You will be interested to know that a number of the members of our faculty have been ordered to training stations, possibly to be utilized later as intructors in the medical department of the Army.

Assts.Prof. Irons and David have been ordered to Ft.

Benjamin Harrison; Assoc. Prof. B. C. H. H. Harvey and Dr. Jost. Davis, Dr. F. C. Gatewood, W. P. Seglets, H. K. Nicoll, and WmllT.Robertson have been ordered to Ft. Riley, Kansas, and Carey Culbertson to Ft. Snelling.

Very truly yours,

JMD: IMB

Receiving Company # 31 Camp Jeseph E. Jehnston Jacksonville, Florida. January 4. 1918.

Mr. D. A. Rebertson, University of Chicago, Chicago, Ill.

Dear Mr. Robertson:

In reply to your letter of commendation te those in Government service, asking for details in regard te the capacity in which the University graduates and students are doing their part in the great world war, will give you my record up to date. On October 27th I enlisted in the Quartermaster Enlisted Reserve Corps along with the others who were at that time taking the Stores Course at the University. On the 18th of December we were called into active service and transferred to the National Army and assigned to this camp for mobilization and training. As yet I have not been assigned to a permanent company, but am expecting an order any day to be transferred to some specific company for some specefic duty or to some other camp for quartermaster functions there, as many are being put into such positiona who have never before had any training in the organization of this branch of the service. In this same company there are three others who took the stores course, namely, Harry A. Hanke, Paul G. Carlson, and Charles A. Mortensen, all Corporals, and two others who took this course have been transferred, namely, Corp. Julius E. Silverman to the 1st Prov. Base Spare Parts Depot, this camp

Hoothing Jongany # 51 Carp Joseph M. Johnston Caphentille, Morids. January 4, 1918.

REPLY TO THIS COMMUNICATION SHOULD BE ADDRESSED TO THE UNDERSIGNED AT ROSENWALD HALL. THE UNIVERSITY OF CHICAGO

Jan. 11, 1918. CHICAGO .

Mr. David A. Robertson, Secretary to the President.

Dear Sir:

Grady Kirby, a graduate student here last year, in Geology, was commissioned Second Lieutenant November 27th, and is now at Camp Stanley, Texas, Battery A, L.S.T.C., Leon Springs, Texas.

Robert Riggs, a graduate student in Geology in about 1911, was commissioned at the same time, in the Aviation Section of the Signal Corps. He is now stationed at Houston, Texas.

You probably know that Francis Townley (1917) is in aviation now at San Antonio, Texas; and that Roland George (1916) is also in aviation. The last I knew his address was Mineola Long Island, but he expected to leave there almost at once.

W. C. Toepelmann, Fellow in the Department of Geology, has gone into aviation.

Holly Reed Bennett, Fellow in the Department of Geology, has gone into the meteorological service, and has been sent to Indianapolis for preliminary training.

Bernard Schockel, graduate student in Geography, near his Doctor's degree, has also gone into meteorological service and has been sent to St. Louis for preliminary training.

Both Bennett and Schockel expect to be transferred to Washington in a few week's.

very truly yours, R. J. Validay

The department also gave a special course in chemical methods for climical curposes during the summer quarter. These are the only additions I have to suggest to the attached actatements.

Yesy truly years,

November 26, 1917.

Mr. J. Spencer Dickerson,

Secretary, The Board of Trustees, The University of Chicago,

Chicago, Illinois.

Dear Sir:-

As you are well aware, a class of surgeons made up
from the Medical Reserve Corps, U. S. Army, has just finished
a course on Brain Surgery in the Departments of Anatomy and
Physiology of the University of Chicago. The course began
November 1st and was to end November 15th, but the members
of the class found the instruction so profitable that by unanimous request the course was extended to include November 23rd.

On behalf of the class, who are unanimous in their opinion as to the course, we wish to thank the University of Chicago for the splendid opportunities extended to us. We bear testimony to the ability and earnestness of the heads of the departments of Anatomy, Physiology and Neurology, as well as that of their assistants. All of these men have given evidence of thorough knowledge of their subjects and a disposition to make every effort to impart this knowledge to us. We are also greatly impressed with the excellent team work, not only each department, but between the different departments by reason of which the courses are made to supplement one another. We also noted with pleasure the excellence of the

laboratory equipment and supplies so that all time spent in the laboratories was used to the greatest advantage, nothing being lost on account of lack of or poor quality of material or equipment.

On the whole, the course was so satisfactory that we would gladly have extended it still further, but the requirement of the course demanded that we now proceed to the clinical part of our instruction.

We wish to extend to the Trustees of the University of Chicago and to all of the Instructors with whom we came in contact, our most sincere thanks for the splendid efforts made to render the course a most valuable one.

Yours truly,

Military Training.

The University of Chicago Department of Military Science and Tactics December 21st, 1917. Mr. D. A. Robertson, Sec'y to President Judson. Dear Mr. Robertson: Enclosed please find report of principals and alternates, University of Chicago students selected for next training camp. Also an additional copy of same to forward to Mr. Oakes, whose letter is herewith returned. On December 15th, in replying to a communication from the President asking for information with which to answer a communication from Lt. Colonel Hickman, I took occasion to make a full report to the President, submitting to him at that time a list of the principals and alternates chosen, and some additional information which would place the President in possession of information for his own personal use and to enable him to reply authoritatively to all inquiries upon the subject in general. This letter enclosing the information referred to above, I think very probably was returned to the President direct, rather than through your office, since the original communication came to me directly from the President. Professor of Military Science and Tactics. JSG-B.

December 13th, 1917.

From: Major John S. Grisard, U.S.A. Retired, Examining Officer, Third Training Camp.

To:

Subject: Notification of selection for Third Training Camp, and instructions in connection therewith.

- l. You are hereby notified that you have been selected as one of the quota from the University of Chicago for the Third Training Camp.
- 2. You are accordingly directed to report to the Commanding General, 86th Division, Camp Grant, Rockford, Ill., not later than Friday, January 4th, 1918.
- 3. Your journey to the training school at Camp Grant will be at your own expense, but you will be reimbursed on the first pay roll by being paid mileage at the rate of 3½ cents per mile from your home to the training school.
- 4. There is no objection to your providing yourself with proper uniform before you report, but you cannot be reimbursed for any uniform you may so purchase.
- 5. You must understand that your business affairs should all be settled before leaving home, as your enlistment in the Service will sever all outside connections and you may be moved from the training camp at the Government's pleasure without further opportunity to return to your home.
  - 6. Please acknowledge receipt of this letter.

From: Major John S. Grisard, U.S.A. Retired, Examining Officer,

Third Training Camp, University of Chicago, Chicago, Ill.,

December 15th, 1917.

To: President Harry Pratt Judson, University of Chicago.

Respectfully returned with the following report-The examination of applicants from the University of Chicago for the Third Training Camps was held Dec. 10th and 11th.

Eighteen principals and seven alternates were selected for list of these principals and alternates see copy of letter to the Adjutant General, Central Department, herewith enclosed.

The Commanding General, 86th Division, Camp Grant, has

also been notified of these selections.

The six men enlisted and now in service were informed of their selection, and the Commanding Generals of the proper

training camps duly notified.

The other twelve men, completing the quota of eighteen, were informed of their selection and directed to report to the Commanding General, Camp Grant, not later than Friday, January 4th, 1918 - See copy of letter enclosed herewith and sent to all of these twelve men.

The seven alternates were also duly notified - see copy

of letter enclosed herewith.

My part of the work as Examining Officer, with the exception of my report to the War Department and a few minor details, is now complete.

Najer John S. Grienrd, U.S.A., Retired, in command of the R.O.T.C. at the University of Obloago, has made a full report under date of the 14th inst, to the Adjutant General, Central Reportment, Chloago, designating sighteen men as the quots of the University for the third Officers' Training Camp, and seven men as alternates. The Cemanding General of the 85th Mivision at Camp Grant has also been notified of these eslections. The six men enlisted and notified of these been informed of their selection and the Cemanding Generals of the proper training camps duly eighteen have been informed of their selection and dighteen have been informed of their selection and dighteen have been informed of their selection and directed to report to the Commanding General of Camp Grant not later than Friday, January eth.

Very truly yours.

Camp Grant, Illinois. December 6th, 1917.

President, University of Chicago, Chicago, Illinois.

Dear Sir:-

Request you advise me of progress you have made with reference to selecting your quota of men to be admitted to the 3rd Officers' Training Camp. The men selected should be notified to report not later than Friday, January 4th, 1918. Their business affairs should all be settled before leaving home, as their enlistment in the service will sever all outside connections they may have, and they are apt to be moved from this Camp at the government's pleasure, without further opportunity to return to their homes.

If there are any points in connection with your procedure in having the men now in service or out, reach this Camp, please advise me and I will endeavor to have matters straightened out for you.

Yours very truly.

Department of Chemistry

December 11, 1917

Mr. Robertson, President's Secretary

Dear Mr. Robertson:

For your records I would like to inform you that Dr. R. F. Bacon, Ph. D. in Chemistry, 1904, and Director of the Mellon Institute of Industrial Research, University of Pittsburgh, has been appointed Lieutenant Colonel and will have charge of the experimental work on gases in France.

Dr. William Lloyd Evans, Ph. D. in Chemistry, 1905, is Captain in the Ordnance Department and on duty in Washington in connection with the chemical service.

Mr. Leo Finkelstein, instructor on leave in the Department of Chemistry and Mr. L. E. Roberts, assistant on leave in the Department of Chemistry will shortly go to France in Dr. Bacon's staff.

Yours sincerely,

Itiglif

Department of Chemistry

December 15, 1917

Dr. Robertson

Dear Dr. Robertson:

I would like to call your attention to the changes made in the list of men in service from the Chemistry Department. The Dr. Hall who is in France is Dr. Robert A. Hall, Ph. D. of 1907 and Fellow at that time and not the Dr. R.E.Hall who was associate in the Department and took his Degree in 1916.

I am adding the name of William Henry Kuh who took his M. S. in December, 1913 and who was assistant in the Department at that time. He is a chemist in the Sanitary service in a cantonment in Georgia.

Perhaps the President would like to include in his statement on Tuesday the following, which should not as yet be published since the appointment as far as I know has not gone through the final stages! Dr. Raymond F. Bacon, Ph. D. in Chemistry of 1904 and Fellow at that time, Director of the Mellon Institute of Industrial Research, is going to France as Lieutenant Colonel in charge of the experimental department of Gas Offense. He is organizing a large staff of chemists including Mr. Leo Finkelstein, Mr. L. E. Roberts mentioned in the previous list. I will notify you as soon as I hear that the facts may be published.

Mr. Clarence E. Irion, undergraduate and laboratory attendant in this Department, has joined the Ordnance Department as chemist. Mr. Henry M. Keating, undergraduate and student assistant has entered the radio service.

Items concerning people who are still with us and which might be included in the University record are the following: Dr. Schlesinger and his assistants, Messrs. Popoff and Mullinix, have completed the investigation for the improvement of the yield of permanganate, working in collaboration with Armour and Company. The work of the Chairman of the Department on synthetic drugs is being continued with the aid of Miss Mary Rising and Mr. W. J. Suer and work on the utilization of a bi-product for the preparation of an explosive is being . conducted with the aid of Mr. A.T.MePherson. Mr. C. A. Nash and Mr. F. Blicke have continued work on the problem of the absorption of carbon monoxide. Other work is in the stage of being organized.

Yours sincerely.

Julius Frieglij

the course of the state of the 

Department of Chemistry

December 30, 1917

Dr. Robertson
Pfesident's Office

Dear Dr. Robertson:

It may interest you in case the copy of the University record is not already in print, that Lieutenant Colonel Bacon (Ph. D. in Chemistry, 1904) is now on his way to France to take charge of the division of chemistry at the front and that with him are Mr. Leo Finkelstein, Instructor in this Department on leave and Mr. L. E. Roberts, Assistant in this Department on leave. I am also informed that Dr. William Lloyd Evans, Ph. D. in Chemistry 1905 is a Captain in the Ordnance Department and has been appointed to establish a new factory in the east for ordnance work. Dr. R. E. Hall, Ph. D. in Chemistry, 1916 is entering the service and will cooperate with Dr. Evans in this undertaking. He has been active under Dr. A. L. Day of the Carnegie Institution in the preparation of optical glass for the Government which has been one of the most successful operations in chemistry.

Dr. W. A. Roberts, Ph. D. in Chemistry, 1916 is in the service of the inspectors department of the Aviation Corps on duty in Claicago. Washington.

Yours sincerely,
Stright

December 19, 1917

Dr. Robertson

Dear Dr. Robertson:

Mr. C. R. Olson, B. S. in Chemistry, 1915, who has recently taken his Ph. I. in Chemistry at the University of California is enrolled in Chemistry service for the Government and will go to Frances with the staff of chemists being organized by Dr. Bacon, Ph. D. Chicago, 1904.

Yours sincerely,

the state of the s 40. C. C. Wild, E. S. in Friedling, 1935, colorated and to decision the state of and a distinct and one of delicents are corelled to I series, sometica for the the state of the second of the

Department of Chemistry

Chicago, December 27, 1917.

Dear Dr. Robertson:

Dr. R. F. Bacon informs me that his appointment as Lieutenant-Colonel to have charge of the Chemistry Division for service in France has been officially acted upon. There would, therefore, be no objection in publishing the fact. He has also informed me that Mr. James K. Senior, Ph. D. in Chemistry, 1917, has been made First Lieutenant and will be a member of the staff going to France.

Recently I informed you that this department had arranged with the Aviation Department in Chicago to take care of such analytical work as might be necessary in materials required for aeroplanes. The offer was gratefully accepted by the Aviation Department. At my suggestion our Dr. Wendt visited Dr. Kawin, head of one of the large technical laboratories in the city to consult with him in regard to methods and Dr. Kawin very obligingly not only offered to help us but offered to undertake all the work for the government free of charge. As he has a splendidly equipped laboratory to carry out this work with the utmost speed and is a perfectly competent man, I recommended to the Aviation Department that his offer be accepted with the understanding that we would assist either with our men or with our equipment if and as needed. That arrangement has now been carried out and as a result this department is not carrying the work we had planned to do.

Sincerely yours,

Julius Stieglitz m

Mr. D. A. Robertson University of Chicago

My dear Mr. Robertson:

In connection with the roster of the University of Chicago faculty members with the national service, returned herewith, I would raise the a question concerning Mr. Canning. Mr. Canning would not have been a member of the instructing staff in Political Economy during the current year but had been appointed at Leland Stanford University. I believe, however, that he left here last May, at which time he was a member of the Department.

Mr. Viner's appointment in connection with the Tariff Commission is not, as I understand it, a war position, but perhaps you were not intending to make the list exclusively such.

Yours very sincerely,

HENRY HOWARD

BOSTON, MASS.

120 West Adams Str. Chicago, Ill.
Nov. 3 . 1917

Professor David A. Robertson, Secretary to the President, University of Chicago.

Dear Mr. Robertson,

Complying with your request this morning I am giving the following data my war work here in Chicago: I was appointed last June as Director of Government Free Navigation School of the United States Shipping Board. I began work on July 16 and have conducted the school since than. The work will probably continue for some time to come. Its purpose is to gather in men who in the past have had sea experience as well as pilots and masters from the Great Lakes, to train them intensively for a period of six weeks in the theory and practice of navigation and to assist them in getting placed as deck officers on the boats of the Merchant Marine. All the men whom I have recommended for licenses have passed the examination under the Steamboat Inspection Service of the Department of Commerce.

while be glad to give any other information possible in reference to myself or other bicago students now in Washington, many of them being here. yours very truly Harry E. Hillstrom 1014 Vermont av. M. W. Washington D. C.

22.

Ordnance Depot, Camp Travis, Texas.

Dec. 22, 1917.

Dear Dave,

I hope President Judson won't think ill of mem for failing to answer his letter -- and on Italian paper, too. I'm afraid that the university was piggish last summer and bought too much in a desire to be entirely distinctive. But notwithstanding porcinity, distinction is laudable. There are times, often, when I am rather pleased with not being classified among the commissioned officers. They look so funny.

Your return envelope was, I gather, intended to correct a mailing list. I am helping the intention as well as I can, though next month I expect to leave for somewhere or other -- I hope for the United States. Texas has too much individuality. It would be nice to hear a voice that by its intonation doesn't betray the culture -- or is it the cult? -- of the nigger mammy. But doubtless almost anybody in the northern camps could wish for a winter in the south.

Have a merry Christmas and don't let Dave Junior eat too much candy.

Fraternally,

Slanley Fays

WAR DEPARTMENT

OFFICE OF THE CHIEF OF ORDNANCE

WASHINGTON

February 9, 1918.

In replying refer to No.

Mr. David Allen Robertson, University of Chicago, Chicago, Ill.

My dear Mr. Robertson:

It is rather a bad time to thank a man for a past favor, only when you are asking another, but I am about to do that very thing.

First, I will relate to you my experiences, since you so kindly gave me the former letter of recommendation, addressed to Lieutenant Rainick. I left the day following my visit to you for Washington, presented the letter of the President, together with one from Dean Hall, one from Dean Marshall, and one from the Judge of our Local Court. Was told that I would have to go to work immediately, but very fortunately, due to the fact that at the time enlistments were prohibited by men who had been rejected in the first draft, I could not then enlist. Accordingly, went home, tried a law suit, won it getting judgment for \$6,500, which suit was for \$10,000. Started for Washington thirty-six hours later, enlisted as a Private Second Class, and was sworn in at Fort Myer, Virginia, on December 12, 1917, and assigned in charge of the purchase contract work of the Motor Equipment Section of the Ordnance Department. Then when the reorganization struck the Department, I was assigned to the centralized Legal Section of the Procurement Division, where I find I was prior to the reorganization, the only enlisted man having charge of a contract section in any subdivision of the Ordnance Department. I have been made a Sergeant, which brings me to the present point, and my new request.

I shall probably ask to be recommended by my Commanding Officer for a Commission. This cannot be done, I understand, until I have been in the service three months, but I want to have my letters ready when the time arrives, and I now would like to ask that President Judsen grant me this further favor of a letter of recommendation for a Commission. This letter should be directed to the Chief of Ordnance, Ordnance Department, Washington, D. C., and I would suggest that it contain, in addition to subject matter similar to that of the former letter, or as the President desires, a reference showing that the President is conversant with the fact that the one recommended is applying for a Commission, in the Ordnance Department. As before, I am going to ask Dean Hall for a letter regarding my law school qualifications.

HHM mew.

## OFFICE OF THE CHIEF OF ORDNANCE
