

C-36A

December 7, 1928

November 20, 1928

My dear Mr. Walling:

Thank you very much for your letter of November 19 with enclosed copy of your letter to Mr. Whiting. I shared with you the desire to reply to some of the remarks made at the alumni meeting, and refrained for the reason that you give. It is refreshing and encouraging to read your views.

While we have placed a limitation on the size of our freshman class, we do not, as a matter of fact, receive applications from as many qualified boys and girls as I wish we did. Our high scholastic requirements, coupled with our high tuition (compared with that of state universities), probably account in large measure for this. If we had a larger number of applicants we could undoubtedly improve, by selection, the quality of the entrants. But the remedy, in my judgment, probably lies in so improving the undergraduate college as to make it, obviously, the best college in this part of the country. I refer both to the quality of instruction and to the wholesome attractiveness of the social life. Then the boys will be eager to come to us, and our selective admission machinery will provide us with stronger entering classes than we now secure.

Yours cordially,

FREDERIC WOODWARD

Acting President

Mr. Willoughby G. Walling

November 13, 1928

November
Nineteenth
1928

Dear Frank:

I have yours of November 13 written by you as a member of the Board of Physical Culture and Athletics in regard to the alumni attitude towards athletics. I am glad that you have given me an opportunity to express myself.

In the first place, I considered it very short-sighted on the part of the speakers at our last meeting to encourage the football team by dwelling primarily on the shortcomings and handicaps of the general situation of athletics.

In the second place, while I do not know whether it was intended, there was a suggestion in some of the speeches made that athletics were in some wise more important than the qualitative standards of the University.

As I see it, the University of Chicago is profoundly different from the State University, and it should be a great source of pride to every alumnus that we have in Chicago a unique standing and quality, not only in this community, but before the world, which our alma mater has so richly earned. If to maintain this quality the maintenance of a football team is impossible, there should not be the slightest hesitation as to a firm answer.

As I understand, the University of Chicago has no difficulty in recruiting an undergraduate body as large as her facilities and her ambitions may determine. I further understand that - as was the case when I entered the University - the standards for admission are high, and are increasing in severity. The fact that the accommodation is small and these high standards prevail offers a peculiar element making for quality. I further understand that discrimination is shown in selecting the entering class in making allowance for elements of personality. I greatly believe that in no wise will so much of a qualitative element be given to the student body as by great pains and consideration expended by the deans in boldly and fearlessly discriminating.

In such discrimination, athletic promise, insofar as

November
Nineteenth
1918

Dear Friend:

I have yours of November 13 written by you as a member of the Board of Physical Culture and Athletics in regard to the annual athletic contests scheduled. I am glad that you have given me an opportunity to express myself.

In the first place, I considered it very short-sighted on the part of the speakers at my last meeting to encourage the football team by dwelling primarily on the shortcomings and insufficiency of the general situation of athletics.

In the second place, while I do not know whether it was intended, there was a suggestion in some of the speeches made that athletics were in some way more important than the qualitative standards of the University.

As I see it, the University of Chicago is profoundly different from the State University, and it should be a great source of pride to every alumnus that we have in Chicago a unique standing and quality, not only in this community, but before the world, which our alma mater has so fully earned. If we maintain this quality the maintenance of a football team is impossible, there should not be the slightest hesitation as to a firm answer.

As I understand, the University of Chicago has no difficulty in recruiting an undergraduate body as large as her facilities and her traditions may determine. I further understand that as was the case when I entered the University - the standards for admission are high, and are increasing in severity. The fact that the accommodation is small and these high standards prevail offers a peculiar element making for quality. I further understand that discrimination is shown in selecting the entering class in making allowance for elements of personality. I greatly believe that in no wise will so much of a qualitative element be given to the student body as by great pains and consideration expended by the deans in boldly and fearlessly discriminating.

In such discrimination, athletic promises, insofar as

Mr. Whiting - 2

November 19, 1928

it means an alert and vital personality, should have weight, but in no other fashion. For my part, I should feel a deep humiliation if at any time through alumni pressure or otherwise any candidate for admission were permitted to enter the University simply for his athletic prowess. Moreover, I believe that even from the standpoint of athletics such a move would tend to defeat itself, for it would tend to destroy the qualitative attraction of the University, and we would find ourselves in a position where we had laid aside our peculiar virtues and given, as it were, the State University the "choice of weapons." A choice which, because of our higher costs, higher standards after admission, and the small size of our undergraduate body, ^{would} foreordained ^{us} to defeat.

We are what we are, and we must so direct our ambition and energies that we are the best of what we are, and not something else.

Loyally yours,

Mr. Frank S. Whiting,
Tribune Tower,
Chicago, Illinois.

CHICAGO, ILLINOIS

Office of the President

September 7, 1928

Mr. Woodward:

In answer to your question, "May Conference Teams play Army Post Elevens?"

From "RULES, Regulations and Opinions of the Intercollegiate Conference of Faculty Representatives" Page 11, General Regulations, Section III:

"(a) College football teams shall play only with teams representing educational institutions."

And from

"Minutes of the Intercollegiate Conference of Faculty Representatives" Annual Meeting, May 26, 1928. Page 2.

"After a discussion of General Regulation III it was moved and carried that this regulation be interpreted as applying to all football teams and that army posts be not regarded as 'educational institutions'."

President Max Mason
 The University of Chicago
 Chicago, Illinois

Dear Max:

It seems good to hear from you again. They are building you up into such a doggone highbrow that it seems like writing to the man in the moon. Some time I shall ramble in on those high-fangled meetings that you are having and give them the real low down on you.

In spite of this, I need not tell you how much your friends here all appreciate the reception that you are getting in Chicago and the fact that the world at last is finding out your real place in it. It is tough, however, to see all the nice things that are said about you and to know that they are being said about a man who might have been the head of our own college where you were so sorely needed in the opinion of a great many of us.

That is water under the bridge, however. I was glad to get your judgment on the training table and particularly glad to get Stagg's. When I wrote you I knew, you being who you are, you would get Stagg's opinion as well as your own. I have a great respect for Mr. Stagg. I think he has a healthy desire to make football as big as it can be made without interfering with the development of the men who take part in the game.

My own judgment has been that the difference between the teams in our time and the present day teams was the fact that the present day team weakens in the last half much more than we used to. I laid that to the absence of the training table. It may be that the nature of the game has changed.

I had not observed here very much difference in the time practise was over since the inauguration of the two-hour practise rule. We are having more and more afternoon work I believe at the University of Wisconsin which makes our practise start somewhat

Dear Jerry:

It has been a long time since I received your letter. I hope this answer is not too late for your purpose.

Glad to hear you are President of the "W" Club. I hope that your salary will not be too high and in the red. It is sure to be a negative number of some amount anyway.

Of course I have not had any personal experience in regard to the condition of athletes without the training table. I do know of some of the difficulties of fraternity members. That is a matter which certainly should be remedied. I am led to understand that since the conference adopted the two-hour practice rule there has been a great improvement in this respect. Mr. Stagg says that when the training table was done away with many coaches thought it would be impossible properly to condition the athlete, but he thinks you can hardly find a coach now who would take these grounds, and says, "I have not observed that not having a training table has had a particle of difference in conditioning the athletes at Chicago." Stagg regrets the loss of the social side of the training table but believes that he would vote against setting it up again, nevertheless.

Of course the football season is a pretty intensive time for members of the squad. On the other hand, there is real danger of driving football too hard, and if it can be worked out I do feel that youngsters living perfectly normally, just as the rest of the fellows do, and then being on athletic squads is a more wholesome thing than than doing very much of a special nature for them, when one thinks of the wholesomeness of the whole student body.

Hope everything is fine with you. Cordial greetings,

Sincerely yours,
Max Mason

OFFICE OF THE DIRECTOR

December 7, 1927

President Max Mason
University of Chicago
Chicago, Illinois

Dear President Mason:

Enclosed find the letter from J. P. Riordan which you referred to me for comment.

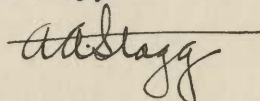

In my opinion, one of the best reforms made in 1906 was the doing away with the training table, because very few of the conference universities administrated the training table honestly.

When the ^{Training Table} ~~table~~ was done away with, many coaches thought that it would be impossible to get and keep the athletes into the best physical condition. ~~was~~ I think that you would find hardly a coach now who would take that ground. I haven't observed that not having a training table has had a particlæ of difference in conditioning the athletes at Chicago.

There was a social side to the training table which was admirable and worth while. From that standpoint, it is too bad that we couldn't retain it.

However, if I had a vote on the matter, I would vote against its being again set up in the conference.

Sincerely,

AAS:HF

The University of Chicago
Chicago, Illinois

Dear Max:

They have just made me president of the "W" Club, a position full of responsibility and high dignity, strong purpose and implacable resolve. I haven't as yet discovered what salary attaches to it but I dare say I shall in due season.

I am writing to you for advice in a matter that has always been of great concern to me. When you and I were in college practically all the athletic teams had what we called training tables. Of course that was abolished by action of the Big Ten Conference. I have been living in Madison for the past three years and I have observed the football team and the conditions that surround it somewhat. The great majority of our team comes from outside the state; a very large number work their way through school. Some few live in fraternities and get their meals there. The bulk of them eat at boarding houses and little restaurants, mostly in boarding houses.

Brought up under the old training table regime I can't understand how football men stand up under the strain of the game on the food that they get. They nearly always are late for dinner and they take what is left. The fraternity men tell me that their fraternity makes some little effort but as a rule their food is cold and is not the pick of the serve. The boys who eat at boarding houses don't get a great lot. Last year I provided dinners at the hotel at which I stop for two weeks toward the end of the season for two men who looked to me to be really under-nourished and could not afford to buy better meals than those furnished at their boarding houses.

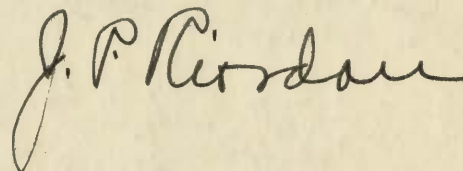

I am aware that the old training table led to some abuses but since control of athletics has passed into the hands of the faculty under general authority of the Big Ten, I am wondering whether we could not iron out most of those training table difficulties and restore that very valuable adjunct to athletics.

I know that if I had a boy here in this University engaging in any of the more vigorous games, I would either see to it that he was well fed or I wouldn't let him play at all. Now I don't know whether the objections to the training table are surmountable. I believe you were in a position to know what was going on about the time of the abolition of it and I would value very highly your opinion. From conversations I have had with coaches I think all but Zuppke would favor a return to the training table and I do not know how strongly he is opposed to it. I hope you find time to answer this. I know it will be contrary to your usual habits but maybe you will break your rule this time.

Very truly yours,

November 4, 1927.

Mr. Donald Bradford,
University Club,
Milwaukee, Wisconsin.

Dear Mr. Bradford:

Your recent letter addressed to President Mason with regard to football tickets has been referred to me. Evidently you have the wrong understanding with regard to the handling of applications from alumni living outside of Chicago. It is the practice of the Football Tickets Committee to make provision for those alumni living away from Chicago who can attend only one or two games during the season, and special attention is given to such applications. I have no doubt whatsoever that if you sent in your application for the Wisconsin game, pointing out that you will use the tickets personally, it will be possible for you to be assigned satisfactory seats.

One thing which the committee does have to guard against, as you can readily see, is the misuse of the alumni privilege. Pressure is continually brought to bear on out-of-town alumni to make application for tickets and turn them over to some friend in Chicago who is not entitled to tickets in the alumni area. This is the reason that the committee has to insist upon the assurance of an out-of-town alumnus that he will use the tickets personally for otherwise persons will be brought into the alumni area who should not be there. I am sure that nothing of this kind would happen in your case, but mention it as one of the things which the committee has to guard against.

If you have not already sent in your application for the Wisconsin game, may I suggest that you send along with it a letter to the Football Tickets Committee assuring them that the tickets which you wish to have are for your own personal use, and pointing out the fact that living outside of the city makes it impossible for you to make use of season tickets.

Cordially yours,

JFM:HB

DARTMOUTH PREXY SUGGESTS PANACEA FOR FOOTBALL ILLS

Hanover, N. H., March 20. - (AP) - Serious consideration of a plan which would revolutionize intercollegiate football has been asked by President Ernest Martin Hopkins of Dartmouth college. The plan would limit players on varsity teams to members of the sophomore and junior classes, would give each college two varsity teams for major games, one to play at home and the other on the rival's grid-irons, and would have all coaching done by undergraduates.

President Hopkins outlines the plan in a letter, made public tonight, to Lemuel G. Hodgkins of Worcester, Mass., president of the Dartmouth athletic council, writing "as one who delights in inter-collegiate football, but fears the present tendencies."

Would Protect Game

"I would like to see the virtues of intercollegiate football protected and its vice extirpated by friends of the games before its foes are given justification for demanding and accomplishing its death, President Hopkins said.

The plan he suggests was formulated after a series of conferences in which "men vitally interested in football and most of the former players have been largely represented."

"Weighing the value of one proposition against another," says Dr. Hopkins, "we have arrived at a program which seems to us to have merit. If there seems to be worth in the suggestion, possibly the Dartmouth athletic council could secure a conference

HANOVER, N. H., March 20. - (AP) - Serious consideration of a plan which would revolutionize intercollegiate football has been asked by President Ernest Martin Hopkins of Dartmouth college. The plan would limit players on varsity teams to members of the sophomore and junior classes, would give each college two varsity teams for major games, one to play at home and the other on the rival's grounds, and would have all coaching done by undergraduates. President Hopkins outlines the plan in a letter, made public tonight, to Samuel G. Hopkins of Worcester, Mass., president of the Dartmouth athletic council, writing "as one who delights in intercollegiate football, but fears the present tendencies."

Would Protect Game

"I would like to see the virtues of intercollegiate football protected and its vice extirpated by friends of the game before its loss are given justification for demanding and accomplishing its death," President Hopkins said.

The plan he suggests was formulated after a series of conferences in which "men vitally interested in football and most of the former players have been largely represented."

"Weighing the value of one proposition against another," says Dr. Hopkins, "we have arrived at a program which seems to us to have merit. It there seems to be worth in the suggestion, possibly the Dartmouth athletic council could secure a conference

among officials of some other colleges looking to the general question, whether anything ought to be done and if so, what."

Lists Three Plans

"Specifically, I should like to have the Dartmouth athletic council at some convenient time give its consideration to the following proposals which represent a distillation from many different plans which have been put forward, here or there, at one time or another.

"First, eligibility for participation in intercollegiate football on varsity teams to be limited to men in their sophomore and junior years in college.

"Second, intercollegiate football contests in the major games of the schedule to be arranged on a reciprocal basis, by which each college should develop from the varsity squad two major teams, one of which should play at home and the other of which should play on the rival's home grounds.

"Third, all coaching to be done by undergraduates, presumably by seniors who had acquired knowledge and experience during their participation in intercollegiate athletics previously."

among officials of some other colleges looking to the general ques-
tion, whether anything ought to be done and if so, what."

State Three Plans

"Specifically, I should like to have the Dartmouth Athletic
Council at some convenient time give its consideration to the fol-
lowing proposals which represent a distillation from many different
plans which have been put forward, here or there, at one time or
another.

"First, eligibility for participation in intercollegiate
football on varsity teams to be limited to men in their sophomore
and junior years in college.

"Second, intercollegiate football contests in the major games
of the schedule to be arranged on a reciprocal basis, by which each
college should develop from the varsity squad two major teams, one of
which should play at home and the other of which should play on the
rival's home grounds.

REPORT OF FOOTBALL SEATING FOR 1927

SUMMARY

This report calls attention to the unsatisfactory seating of 1926, and the need for change. It recommends that the rented chairs of previous years be done away with, that the uncomfortable and expensive old wood stands be scrapped.

It recommends that new, removable seating be purchased, for the South, East, and West sides of the field. It indicates that the cost of such seating can be paid out of one year's income from football, that the present rental of chairs and expense for old wood stands will equal the erection and removal cost for such new seating.

The seating proposed will increase the 1926 plan along the South Side where more seats for visiting School allotment and for season ticket holders are extremely desirable.

Respectfully submitted,

L. R. Flook

THE UNIVERSITY OF CHICAGO

REPORT OF FOOTBALL SEATING FOR 1935

SUMMARY

This report calls attention to the unsatisfactory seating of 1935, and the need for change. It recommends that the rented chairs of previous years be done away with, that the uncomfortable and expensive old wood stands be scrapped.

It recommends that new, removable seating be purchased, for the South, East, and West sides of the field. It indicates that the cost of such seating can be paid out of one year's income from football, that the present rental of chairs and expense for old wood stands will equal the erection and removal cost for such new seating. The seating proposed will increase the 1935 plan along the South Side where more seats for visiting school officials and for season ticket holders are extremely desirable.

Respectfully submitted,

L. R. Clark

THE 1926 PLAN

The seating capacity of Stagg Field for the season of 1926 was 47,684, not counting teams, bands, press, ushers, gatemen, etc.

Side	Fixed	Removable	Total
North	16,690	5,140	21,830
West	9,414	2,574*	11,988
South	--	7,544	7,544
East	--	6,322	6,322
Total	26,104	21,580	47,684

*Rented Chairs

As shown on the attached sheet, marked Exhibit "A", rented chairs on the 25-row high platforms were used along the south side of the field, and rented chairs on the 14-row high stand in front of the west stand, a total of 10,340 chairs rented.

In this plan the five old wood stands were used at the east end of the field (two sections 40 rows high and three sections 37 rows high). These stands are moved up and back each year and repaired as needed to pass building inspection, a cost which averages ^{2 500} \$3,500 per year.

These stands are very uncomfortable, having a back to back dimension of only 22 inches, and they are the source of many complaints. Each of these stands occupies a ground space of 50' x 70' x 30' high at the rear, or for five, 17,500 sq. ft., more than one-third of an acre. This is a critical

THE 1922 PLAN

The seating capacity of State Field for the season of 1922 was 47,684, not counting bleachers, grandstands, press boxes, etc.

Side	Fixed	Removable	Total
North	16,680	5,140	21,820
West	9,414	2,874*	12,288
South	--	7,544	7,544
East	--	6,822	6,822
Total	26,104	21,580	47,684

*Rented Chairs

As shown on the attached sheet, marked Exhibit "A", rented chairs on the 22-row high platforms were used along the north side of the field, and rented chairs on the 14-row high stand in front of the west stand, a total of 19,840 chairs rented.

In this plan the five old wood stands were used at the east end of the field (two sections 43 rows high and three sections 37 rows high). These stands are moved up and back each year and repaired as needed to pass building inspection. a cost which averages \$8,500 per year.

These stands are very uncomfortable, having a back to back dimension of only 22 inches, and they are the source of many complaints. Each of these stands occupies a ground space of 50' x 70' x 30' high at the rear, or for five, 14,600 sq. ft., more than one-third of an acre. This is a serious

matter since the north stand takes so much of the playing field space within the wall of the field. It is very desirable that these stands be eliminated as soon as possible. The three older stands are in such condition that they must be practically rebuilt in the near future. In fact, the cost to make them usable for another season will probably exceed \$4,000 for three.

The rental of 10,340 seats last year cost \$7,755, or \$.75 per chair. This price tends to increase, and this arrangement is not satisfactory. Each year the City Building Department hopes will be the last year they are asked to approve them, they are so close together as to be uncomfortable, and circulation in them is none too good. Their maximum height, 25 rows, seriously limits the number of persons who can be given really good seats along the side of the gridiron.

THE 1927 PLAN

This study proposes the purchase of new removable seats.

South Side	-	50 Rows High
East Side	-	40 Rows High
West Side	-	20 Rows High
North Side	-	No Change

This arrangement is indicated on the attached drawing, Exhibit "B".

matter since the north stand taken as much of the playing
 field space within the wall of the field. It is very
 desirable that these stands be eliminated as soon as poss-
 ible. The three other stands are in such condition that
 they must be practically rebuilt in the near future. In
 fact, the cost to make them usable for another season will
 probably exceed \$4,000 for three.

The rental of 10,340 seats last year was \$7,755, or
 \$0.75 per seat. This price tends to increase, and this
 arrangement is not satisfactory. Each year the City Building
 Department hopes will be the last year they are asked to
 approve them, they are no closer together as to be unaccept-
 able, and circulation in them is none too good. Their max-
 imum height, 25 rows, seriously limits the number of persons
 who can be given really good seats along the side of the
 stadium.

THE 1931 PLAN

This study proposes the purchase of new temporary seats.

South Side	-	50 Rows High
East Side	-	40 Rows High
West Side	-	50 Rows High
North Side	-	No Change

This arrangement is indicated on the attached drawing.

Exhibit "B".

THE ARRANGEMENT

South Side

This width of 50 rows permits a circulation passage between the stand and the wall of about 26 ft., with steps from the rear up to wells in each upper section. Lower section (25 rows) would be fed from the front, spectators being admitted at the corner, or "Exit" passages. The sections should not have more than 20 persons between aisles, and the aisles would then be 4'0" wide. For exit, two ground level passages each 24'0" wide are provided at each end, from the field to the street.

This stand to have a spacing of 2'1" and a rise, from seat to seat of six inches. The front seat to be 2'2" above the ground, and the rear seat 26'3" above the ground.

East Side

The East side is shown 40 rows high and similar to the South side. It would come as close as practicable to Bartlett Gymnasium, being cut out around its west bay. The pitch to be six inches.

West Side

The front of the concrete West stand is 5'3" above the ground, and the front row have runs of 28" and a rise of 12½", with wells at the seventh row. It is proposed to build 20 rows, from the front row 2'2" above the ground, up to this seventh row, covering over the present six rows of the 12½" pitch. The new pitch to be six inches.

THE ARRANGEMENT

South Side

This width of 50 rows permits a circulation passage between the stand and the wall of about 24 ft., with steps from the rear up to walls in each upper section. Lower section (25 rows) would be fed from the front, spectators being admitted at the corner, or "Exit" passages. The sections should not have more than 20 persons between aisles, and the aisles would then be 4'0" wide. For exit, two ground level passages each 24'0" wide are provided at each end, from the field to the street.

This stand to have a spacing of 2'1" and a rise, from seat to seat of six inches. The front seat to be 2'2" above the ground, and the rear seat 26'2" above the ground.

East Side

The East side is shown 40 rows high and similar in the South side. It would come as close as practicable to Bartlett Gymnasium, being cut out around its west bay. The pitch to be six inches.

West Side

The front of the concrete West stand is 5'5" above the ground, and the front rows have runs of 25" and a rise of 12 1/2", with walls at the seventh row. It is proposed to build 50 rows, from the front row 5'5" above the ground, up to this seventh row, covering over the present six rows of the 12 1/2" pitch. The new pitch to be six inches.

North Side

There has been some little complaint of sight lines of the 19-row stand, where the pitch is $4\frac{1}{4}$ ". It is recommended that this removable stand be undisturbed -- but that greater care be used in allotting seats, especially the seats near the ends.

The Corners

This plan indicates that the corners can be filled in, by curved seats, gaining some capacity, but more important, greatly improving the appearance of the field -- by tying the several stands together.

Gates

This plan indicates that the concrete wall at the S. W. corner of Bartlett Gymnasium must be changed, and additional gates provided south of the west end of the south stand.

Details of Construction

The type of removable seating planned here is similar to the 19-row stand in front of the concrete North stand, made by the Portable Stadium Co. of New York.

This stand has 2' x 10" wood seat boards, and 2" x 12" wood foot boards, with 2" x 4" filler boards at the aisles, all other parts are steel. The seats are held by bent angle iron supports, which are rivetted to sloping steel channels. These channels carry horizontal steel angles which support the floor boards. The channels are made in pairs, spliced to make short lengths for easy handling, field bolted, and supported about $4\frac{1}{2}$ ' apart by braced steel bents, bolted by stiff shelf angles, and resting on plank laid carefully level

on the ground. Thus the stand is supported every $4\frac{1}{2}$ ft. by 7 ft.

The steel used is the usual grade of structural steel.

The foot boards and seat boards are wedged tightly in place by clamps made of special steel. No nails are used in erection. All steel and wood is painted three coats.

The Department of Buildings of the City of Chicago has approved this design.

Fireproofing

There is now available a new process for the fireproofing of wood plank, a penetration process using soluble salts. The foot and seat plank for this work can be so treated at an additional cost of 15¢ per sitting.

These seats are spaced 2'1" back to back (as in the North Stand).

Capacity

The seats proposed for purchase in this report are approximately as follows:

South Stand	13,318	(50 rows)
East Stand	6,040	(40 rows)
West Stand	2,910	(20 rows)
N.E. Corner	639	
S.E. Corner	2,170	
S.W. Corner	1,550	
N.W. Corner	<u>874</u>	
Total new seats	-	27,501

(All capacities are based on 18" of width per sitting).

With these seats in place the field would have a capacity as follows:

	Fixed	Removable	Both
North	16,463	4,850	21,313
East	--	6,040	6,040
South	--	13,318	13,318
West	7,623	2,910	10,533
Corners	--	5,233	5,233
Total	24,086	32,351	56,437

The increase for 1927 over 1926 would be:-

1927 Plan	56,437 Seats
1926 Plan	<u>47,684 Seats</u>
Increase	8,753 Seats

Estimate of Cost

The cost for these seats, in place, ready to use, will not be over \$6.50 per sitting.

On this basis, the total cost would be :-

South Side	-	13,318 x \$6.50	-	\$86,567
East Side	-	6,040 x 6.50	-	39,260
West Side	-	2,910 x 6.50	-	18,915
N.E. Corner	-	639 x 6.50	-	4,154
S.E. Corner	-	2,170 x 6.50	-	14,105
S.W. Corner	-	1,550 x 6.50	-	10,075
N.W. Corner	-	<u>874 x 6.50</u>	-	<u>5,681</u>
Total	-	27,501	-	178,757

Brought Forward \$178,757

New Gates - S. W. Cor. \$6,000

Change Wall - S. E. Cor. 7,500 13,500

\$192,257

Contingencies (Say 5%) 9,613

Total Estimated Cost \$201,870

(The cost for 19 rows - 5,130 seats in front of North Stand in 1926 was \$4.23 per sitting, erected and ready to use)

Operating Cost

(a) Handling

The cost of handling 5,130 seats of the 19-row North Stand of this type was:-

Erection \$.10 per Sitting

Removal .051 " "

Per Season \$.151 " "

The probable operating cost for the 32,351 removable seats owned under this new plan would not be over 25¢.

Present Seats 4,850

Proposed Seats 27,501

Total Removable Seats 32,351

32,351 @ 25¢ \$ 8,080 per year

In 1926 the rental on chairs was \$7,855, and the expense in an average year for moving and repairing is \$2,500 (for 1926 - Moving \$2,150 and Repairs \$1,063 or \$3,213), or \$10,355. The new stands would save this expense.

Brought Forward \$170,787

New Gates - S. W. Cor.	\$6,000
Change Wall - S. E. Cor.	7,500
	<u>13,500</u>
	\$188,287
Contingencies (say 5%)	9,215
Total Estimated Cost	<u>\$201,875</u>

(The cost for 15 rows - 5,150 seats in front of North Stand in 1926 was \$4.25 per sitting, erected and ready to use)

Operating Costs

(a) Handling

The cost of handling 5,150 seats at the 10-row North

Stand of this type was:-

Unloading	\$4.10 per sitting
Removal	" " <u>.081</u>
Per Season	" " <u>\$4.181</u>

The probable operating cost for the 22,321 removable

seats owned under this new plan would not be over \$44.

Present Seats	4,380
Proposed Seats	<u>27,941</u>
Total Removable Seats	32,321
	\$ 4,300 per year

In 1926 the rental on chairs was \$7,825, and the expense

in an average year for moving and resetting is \$2,500 (for

1926 - Moving \$2,150 and Resetting \$1,065 or \$3,215), or

\$10,325. The new stands would save this expense.

(b) First Cost

The 1926 improvements have been met from the Athletic Fund, so that this account is now free.

Total cost for the recommendations in this report (as shown on page 9) would be, in round numbers \$202,000.

In 1926 the net receipts were 240,000.

Assuming the same income for the 1926 number of seats (47,684), and that the additional (8,753) seats would be filled for three games this year (Pennsylvania, Michigan and Wisconsin, the net income would be increased (at \$4.00 per seat), by \$34,000, or a net income for the season of \$274,000.

This income would pay for these improvements and leave in the Athletic Fund a balance of \$72,000.

In other words, if the net income for 1927 is only the same as for 1926, these improvements could be paid for and still leave a balance of about \$38,000.

(b) First Cont

The 1926 improvements have been met from the Athletic Fund, so that this account is now free.

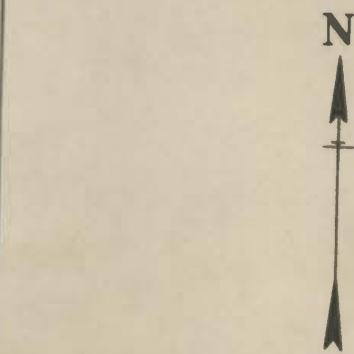

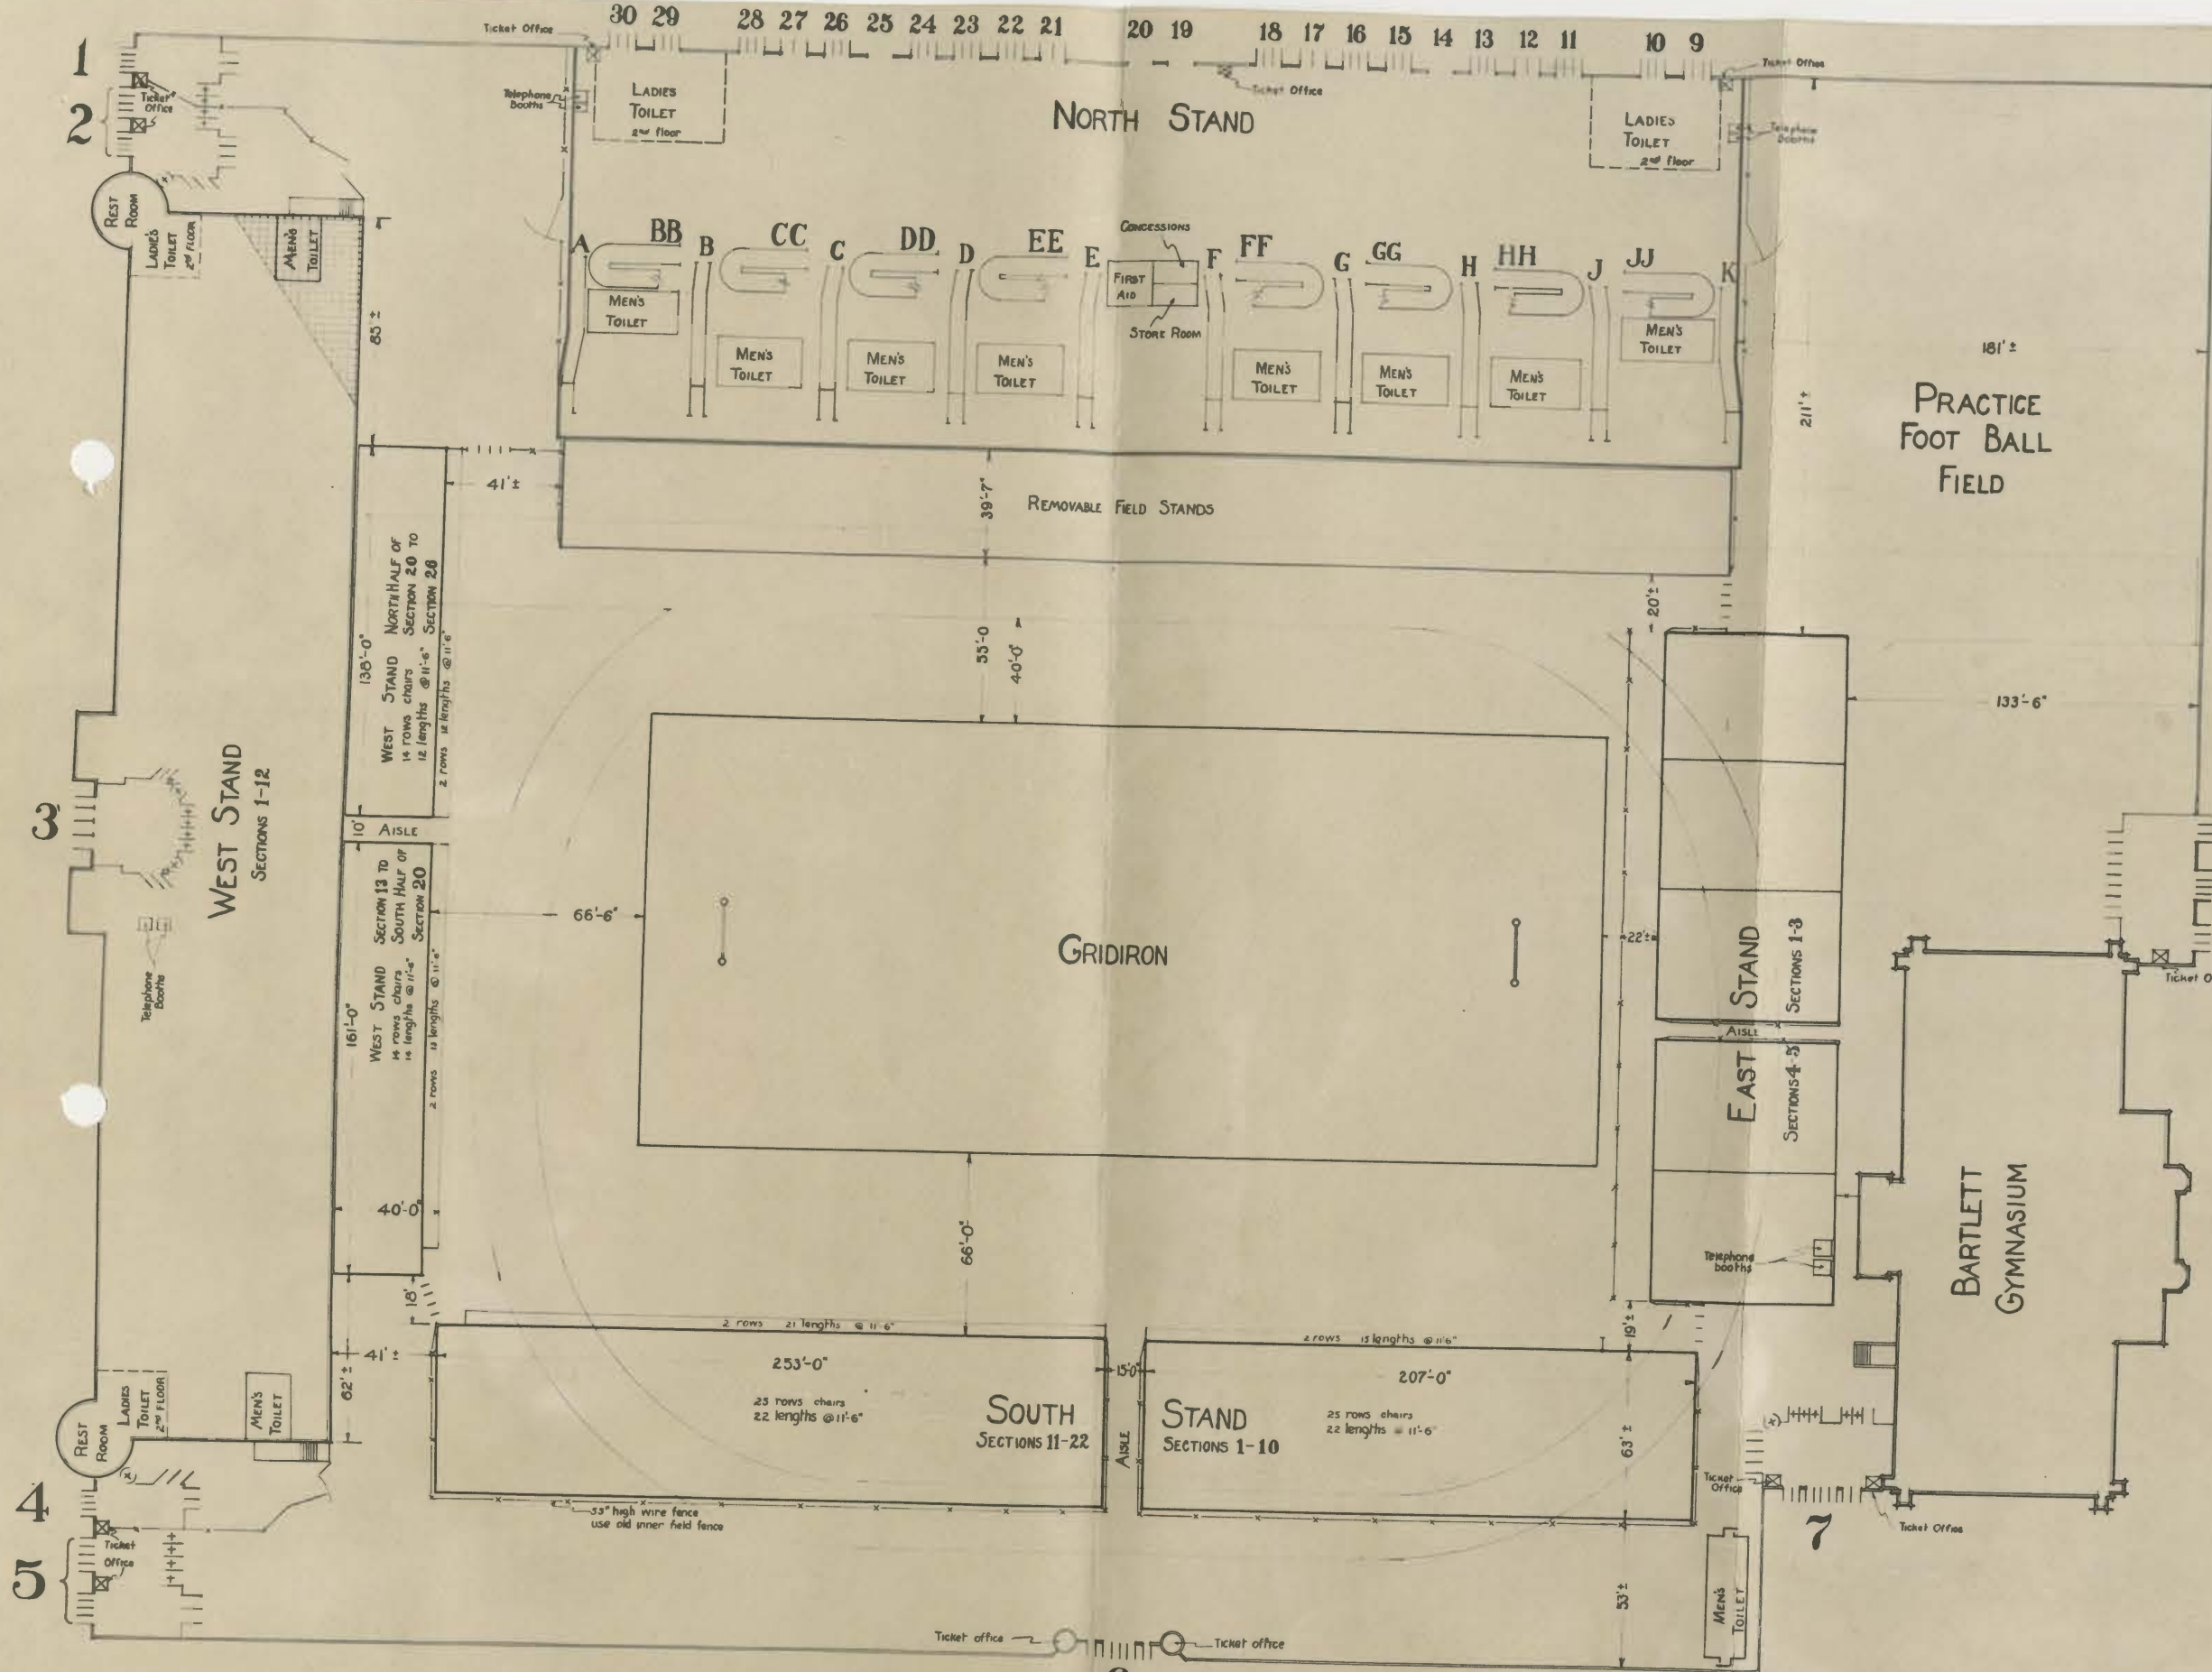

Total cost for the recommendations in this report (as shown on page 2) would be, in round numbers \$222,000.

In 1926 the net receipts were \$20,000.

Assuming the same income for the 1926 number of seats (47,464), and that the additional (8,733) seats would be filled for three games this year (Pennsylvania, Michigan and Wisconsin, the net income would be increased (at \$4.00 per seat), by \$34,900, or a net income for the season of \$54,900.

This income would pay for these improvements and leave in the Athletic Fund a balance of \$19,000.

In other words, if the net income for 1927 is only the same as for 1926, these improvements could be paid for and still leave a balance of about \$20,000.

REPORT OF THE COMMITTEE

For release Sunday, March 29.

(This report was adopted just prior to the foregoing date.
Copies were ordered sent to:

1. Conference headquarters for official consideration.
2. The president of each Conference University, for such consideration and action as he deem advisable.
3. The faculty representatives and the headquarters of the general alumni associations of Conference Universities with the request that they consider this matter on its merits and give the committee any support possible.
4. The press, including the daily press, alumni magazines, college newspapers, etc., with the request that the following report, including the coupon, be printed on the release date or as soon thereafter as possible. The committee is very hopeful that it will receive the cooperation and support of the press.)

The Alumni Committee on Conference Football Schedules is composed of representatives from the Chicago alumni bodies of Conference institutions. The committee members were appointed by the presidents of the alumni organizations. The members of the committee have no power to commit their respective institutions to any policy, their function is to find out the opinion of the alumni of Conference universities on the matter discussed in this report.

This subject is under consideration by the Conference, which has appointed a committee to consider it. This is the time alumni should present their views for or against the recommendations of the alumni committee in order to bring out the majority sentiment for the guidance of Conference authorities.

Handbook of the Annual Conference
Football Committee

111 West Monroe Street
Chicago, Illinois

REPORT OF THE COMMITTEE
ON THE CONFERENCE

For release Sunday, March 29,
1942

The report was adopted last night in the following form:

1. The committee has been organized for the purpose of making recommendations to the National Football League and the American Football Association.
2. The committee has been organized for the purpose of making recommendations to the National Football League and the American Football Association.
3. The committee has been organized for the purpose of making recommendations to the National Football League and the American Football Association.
4. The committee has been organized for the purpose of making recommendations to the National Football League and the American Football Association.

The Annual Conference of the National Football League is composed of representatives from the National Football League and the American Football Association. The committee has been organized for the purpose of making recommendations to the National Football League and the American Football Association.

This subject is under consideration by the National Football League and the American Football Association. The committee has been organized for the purpose of making recommendations to the National Football League and the American Football Association.

No organization can thrive unless each member is accorded equal opportunity with each other. The Western Intercollegiate Athletic Conference has recognized this principle by setting a date before which no football team may begin its season; by adopting a basketball schedule giving each team the same number of Conference games during the season upon a home and home basis; by permitting only those officials which come up to a certain standard to officiate at Conference games; and in other ways which need not be enumerated.

There is a need for a football schedule which will give every member of the Conference equal opportunity with each other, and the Alumni Committee on Conference Football Schedules recommends to Conference authorities that this matter be given the most careful consideration and that such action as seems best be taken as soon as possible.

Conference members are not now upon an equal basis in scheduling football games. In pointing out in what particulars this is so, the Committee does not do so with any desire to criticize any particular member of the Conference. Most members have been at different times equally at fault.

Scheduling is not sufficiently organized. The position of coaches of winning teams often is disadvantageous to other members, because such coaches are able to select only desirable games due to the fact that their teams will draw a big "gate".

Universities which are favorably situated to attract large crowds for any game are for the same reason able to dictate who their opponents shall be without regard for the rights of other Conference members to obtain equal consideration.

No organization can thrive unless each member is afforded equal opportunity with each other. The Western Intercollegiate Athletic Conference has recognized this principle by setting a date before which no football team may begin its season; by adopting basketball schedules giving each team the same number of conference games; by setting the season open a week and four days; by permitting only those officials which come under a certain standard to officiate at conference games; and in other ways which need not be enumerated. There is a need for a football schedule which will bring every member of the conference equal opportunity with each other, and the Athletic Committee on Conference Football Schedules recommends to the conference that this matter be given the most careful consideration and that such action be taken as seems best to taken as soon as possible. Conference members are not now equal in scheduling as football games. In pointing out in what particulars this is so the Committee does not do so with any desire to criticize any particular member of the conference. Most members have been at this point times especially at lunch. Scheduling is not uniformly completed. The position of conference members of winning teams often is disadvantageous to other members. Those individuals coaches are able to select only desirable games due to the fact that individuals teams will draw a big crowd. Universities which are favorably situated to attract large crowds for any game are for the same reason able to attract other conference members to games shall be without regard for the rights of other conference members to secure equal representation. It is the duty of the conference to protect the rights of all its members and to the best of its ability to secure equal representation for the rights of other conference members.

There have been instances of coaches holding off on their schedules until the December meeting of athletic directors only to find at that meeting that other teams had scheduled games outside the Conference which made it impossible for them to play their natural rivals. It would seem that the most fundamental rule of equity would provide that the members obtain first choice of each other's playing dates and not have to be satisfied with the leavings.

Geographical location is a handicap to certain teams, and an advantage to others. This cannot be equalized fully, but the Conference should prevent one member from imposing upon another because of geographical advantage; for example, by requiring games to be on a home and home basis.

There is not enough interchange of games within the Conference. Certain teams play a few other teams year after year. This prevents the development of the Conference along the broadest lines.

Intersectional games meet with the general approval of alumni, providing they do not interfere with college work or with the Conference football schedule, and when they do not cause humiliation to members by denying them games accorded to non-Conference teams.

We feel that there is a vicious tendency in football. We refer to the importance given to the amount of the "gate". There is no denying that this is to some extent responsible for existing football schedules, and the fact that football supports other sports is no justification for it. This tendency is deplorable; it has no place in intercollegiate athletics; if persisted in, it will hurt football badly. To speak plainly, the athletic departments must be operated on an amateur basis or it will be futile to maintain that the boys who play the games must not play for profit.

This tendency toward commercialism of the game is not confined to any one member; and our criticism is made only because we believe it is time for the Conference to meet the issue openly.

Football schedules can be equalized. We do not urge this because it will help to determine a champion; the reason, as can be seen from the foregoing statements, is far more fundamental.

Based upon a study of this situation over a period of three months, the Committee recommends that the Conference:

Adopt a mandatory rule requiring each Conference football team to play each other at least once every four years, and providing that commencing with the season of 1926 Conference schedules must be made up before outside games may be scheduled.

Consider the adoption of a playing schedule which would provide for complete rotation of games between all Conference teams on a home and home basis, (that is, two games between each two teams) within a period of four or five years. We suggest as the basis of such a schedule some system of geographical rivals, in which a team would play annually with one or two other teams, and would rotate its other Conference games among other members. This might be more satisfactory, at least in the beginning, than a schedule which interfered with the one or two annual games which are traditions in some universities.

Adopted March 27, 1925, by the Alumni Committee on Conference Football Schedules. Robert M. Cole, Chicago; C.K. Jones, Indiana; Robert Showers, Iowa; Harley K. Legg, Michigan; Cedric B. Smith, Minnesota; Sam B. Fleager, Purdue; Frank J. Saridakis, Wisconsin. The representatives of Illinois, Northwestern and Ohio State were not present at this meeting.

VOTING COUPON

To Big Ten Alumni:- Please register your opinion here for or against the general proposition outlined by the Alumni Committee on Conference Football Schedules, and mail this coupon to the committee at 111 West Washington Street, Chicago.

WASHINGTON, D. C.
Dear Senator:
I am very pleased to hear from you and
thank you for your letter of the 11th.
I am sure that you will find the
enclosed report of the Committee on
Education and Labor of interest.
I am, Sir, very respectfully,
Your obedient servant,
J. P. [Name]
Chairman, Committee on Education and Labor
U. S. Senate

G-34B

November 17, 1926

No doubt you too have word through your Athletic Department of the New York Sun's plan to give an All-American football dinner to men selected from cooperating institutions. The matter obviously calls for no concerted action, and I have no desire to give my own reaction as typical within our own group. It does seem, however, that we should prevent Conference participation and that without publicity. I am told that feeling in Eastern colleges is unfavorable to the Sun's plan, and I am of the same mind.

Sincerely yours,

Max Mason

President

Sent to the Presidents of the following Universities:
Minnesota, Wisconsin, Northwestern, Illinois, Purdue, Ohio State,
Michigan, Iowa, Indiana

November 17, 1928

No doubt you too have read through your Athletic
Department of the New York Sun's plan to give an
All-American football dinner to men selected from
cooperating institutions. The matter obviously calls
for no concerted action, and I have no desire to give
my own reaction as typical within our group. It
does seem, however, that we should prevent confusion
participation and that without publicity. I am told
that feeling in Eastern colleges is unfavorable to
the Sun's plan, and I am of the same mind.
Sincerely yours,

Max Mason

President

I am in cordial agreement with your attitude regarding the influence of a football dinner to an "All-America" football team. I believe this could be given official consideration among members of the Conference. The natural way to have this come about would be to have somebody, perhaps Mr. Woodward, who is the representative from Chicago, present the matter to the Conference at the next meeting of faculty representatives, which takes place November 26. If you so desire I will ask Mr. Woodward to take this step and have no doubt that the result will be to discourage the project.

Sincerely yours,

Max Mason

Mr. E. K. Hall, the Chairman of the National Football Rules Committee, accepted the invitation to be present after a good deal of hesitancy, on condition that he should be allowed to bespeak his own disapproval of the kind of thing at the undertaking in general. The understanding at the time was general that the event had not been beneficial either to the spirit of intercollegiate football or to the individuals who were the guests of "The Sun", and it has been with some surprise that I have noted the advertisement of "The Sun" now being published in the New York papers.

President Ernest M. Hopkins, Dartmouth College, Hanover, N.H. at appropriate season that could be personally or for Dartmouth officially to make this dinner, in view of the fact that successive defeats of the Dartmouth football team make it unlikely that any individuals of our team should be included in the group invited to "The Sun" dinner, but, nevertheless, I am reluctant to see this thing become a precedent, and it seems to me very undesirable that it should be maintained without some expression from the colleges officially.

Is this a proposition which could be given any official consideration among members of the Conference if it should prove possible on the other hand to get a definite attitude bespoken by some of the college presidents of the east?

THE PRESIDENT

November three
1926

Dear President Mason:

Last year "The New York Sun" undertook and carried through a project of giving a dinner and various tokens of esteem to the membership of the mythical All-America football team which, by the way, it picked itself.

The occasion was as detrimental to the spirit of college athletics as anything of which I know could possibly be, and I think it was on the whole an uncomfortable event for some at least of the individuals who were invited to be present as guests of "The Sun" to receive the testimonials proffered.

The guests were predominantly the promoters and supporters of professional sport, and the whole effect of the dinner was to present a distorted idea of what intercollegiate football is all about and of its responsibility to furnish "copy" rather than to maintain the ideals of amateur sport.

Mr. E. K. Hall, the Chairman of the National Football Rules Committee, accepted the invitation to be present after a good deal of hesitancy, on condition that he should be allowed to bespeak his own disapproval of the kind of thing that was being done and his regret at the undertaking in general. The understanding at the time was general that the event had not been beneficial either to the spirit of intercollegiate football or to the individuals who were the guests of "The Sun", and it has been with some surprise that I have noted the advertisement of "The Sun" now being published in the New York papers.

This is not the most appropriate season that could be picked for either me personally or for Dartmouth officially to make its protest against this dinner, in view of the fact that successive defeats of the Dartmouth football team make it unlikely that any individuals of our team should be included in the group invited to "The Sun" dinner, but, nevertheless, I am reluctant to see this thing become a precedent, and it seems to me very undesirable that it should be maintained without some expression from the colleges officially.

Is this a proposition which could be given any official consideration among members of the Conference if it should prove possible on the other hand to get a definite attitude bespoken by some of the college presidents of the east?

BAKINGWORTH COLLEGE
HARVARD ST.
OFFICE OF ADMISSIONS

THE PRESIDENT

November 1922
1922

Dear President Mason:

Last year "The New York Sun" mentioned and carried through a program of giving a dinner and various prizes to the members of the National Association of Football Players, by the way, in 1921.

The question was at that time as to whether or not it was proper to give a dinner to the players, and I think it was on the whole an excellent thing to do. The fact of the matter is that the players are not paid for their services, and it is only fair to give them a dinner to show their appreciation.

The dinner was given to the players and their families, and the whole thing was a success. The dinner was given to the players and their families, and the whole thing was a success. The dinner was given to the players and their families, and the whole thing was a success.

Mr. E. A. Hall, the chairman of the National Football Union, suggested the idea of giving a dinner to the players, and the whole thing was a success. The dinner was given to the players and their families, and the whole thing was a success. The dinner was given to the players and their families, and the whole thing was a success.

This is not the first time that such a dinner has been given to the players, and it is only fair to give them a dinner to show their appreciation. The dinner was given to the players and their families, and the whole thing was a success. The dinner was given to the players and their families, and the whole thing was a success.

In this proposition there could be given any official recognition to the players of the football game. It is only fair to give them a dinner to show their appreciation. The dinner was given to the players and their families, and the whole thing was a success.

I may have undue concern about the influence that this particular thing has, but it is inevitable, if it goes on without restriction, that other newspapers should in one way or another likewise begin to capitalize the athletic reputation of individual athletes in the different colleges, and I have acquired so much solicitude in regard to the whole matter that I have wanted to get at a few men to see if they were in accord with my own judgment as to the significance of the projected gathering and in regard to the importance of the whole question as affecting the standards of intercollegiate sport.

I am

Yours very sincerely,

Ernest M. Stephens

Professor Frederick C. Woodward,
C/o University of Chicago,
55th and Ellis,
Chicago, Illinois.

Dear Professor Woodward:-

Your letter of November 2nd relative to your attendance at our banquet given at the Hotel Morrison on November 26th received, and contents noted.

Major Griffith has stated that he is attempting to have the faculty representatives and athletic directors, all of whom are invited guests at our banquet, set aside the time between 6:30 and 9:00 on that evening and call their meeting afterwards.

I assure you that we are attempting a banquet that will be educational as well as entertaining, and we hope to create a great deal of harmony between all of the forces connected with or behind this great game of football, and our entertainment plan is of the highest character and believe that we will give you an evening of real entertainment.

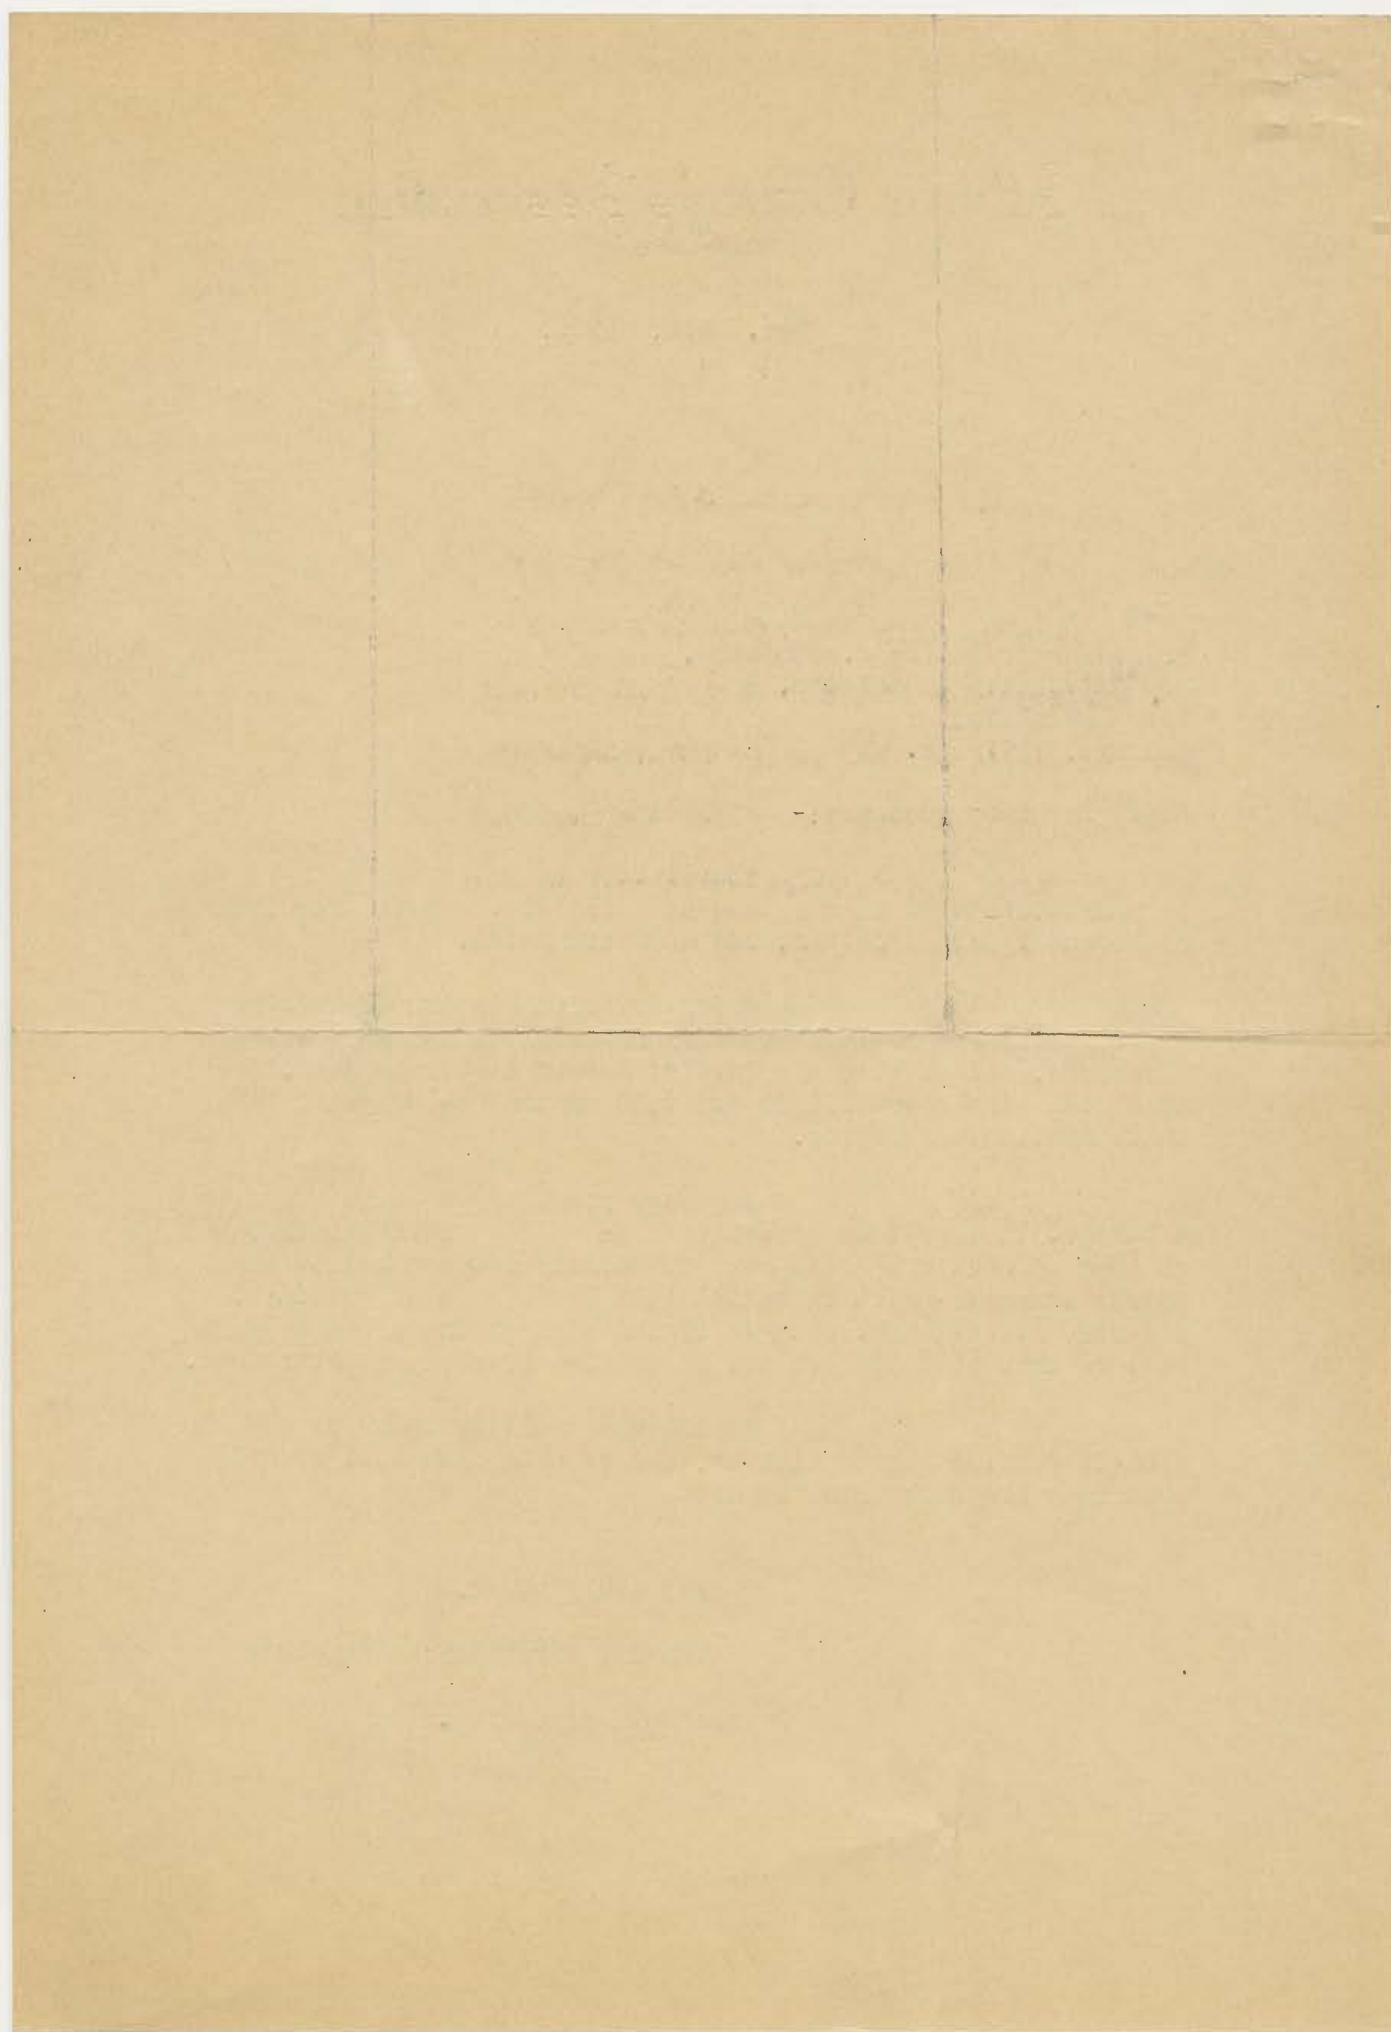

Hoping and trusting that you can find it possible to be with us, and assuring you that we are holding a place for you, we are

October 15, 1926

My dear Mr. Shaw:

My attention has been called to an item entitled "Football Specials" on page 14 of your issue of October 9, 1926. The item refers to charges "made by a University of Chicago student regarding the morals of the undergraduates of that school, especially on football specials".

I suppose the reference is to the charges recently made by a young man named Cross. Mr. Cross is not, and so far as I know, never has been a student in the University of Chicago. He made no charges regarding the morals of the undergraduates of the University of Chicago in particular. So far as I know no charges have been published, either by a student in the University or by any other person, to the effect that our undergraduates have been guilty of immoral conduct on football specials.

I am sure that your error was quite unintentional and I hope you will correct it in your next issue.

Yours sincerely,

Frederic C. Woodward

October 12, 1922

My dear Mr. Jones

The attention has been called to an article in the
"Half-Century" on page 10 of your issue of October 2, 1922. The
article refers to a change made by a University of Chicago student in
writing the words of the inscription of that school, especially
on football grounds.

I suppose the reference is to the change recently made
by a young man named Green. He claims it was not he but I
who wrote the words of the inscription of the University of Chicago. He
claims to have been a student in the University of Chicago. He
claims to have written the words of the inscription of the
University of Chicago in 1911. He says he has no other
claim to have written the words of the inscription of the
University of Chicago. He says he has no other claim to have
written the words of the inscription of the University of Chicago.
He says he has no other claim to have written the words of the
inscription of the University of Chicago.

I am sure that you will be able to identify him and I
am sure that you will be able to identify him.

Very sincerely,
John D. Jones

634P

Dear Mr. Mason:

The enclosed is submitted because the procedure recommended is most essential to the efficient functioning of this office. In fact, the coming football season will be uncomfortable for us unless something is done.

Sincerely,

Confidential Memorandum

The tremendous increase of public interest in football and sports in general during the past five years has boosted sports news from the last few pages of the average city newspaper to page one during the autumn football season and the early spring when professional baseball starts. So-called sports news is therefore regarded by the managing editor as an integral if not paramount section of the day's report. Last fall the entire first page of one edition of the Chicago Evening American was devoted to pictures and stories of the Maroon-Dartmouth game, and the conservative New York Times printed a picture at least four columns wide of the Yale-Harvard contest.

An outstanding institution in the Middle West, the University of Chicago, is "big news" to the public during the football season. For those frenzied weeks, the managing editors of the daily press look anxiously toward Stagg field and Bartlett gymnasium for stories. It is possible that in the eyes of the daily press, the University of Chicago is as important on the eve of the Chicago-Illinois game as was the Holy Name Cathedral the night before the installation of the papal legate during the Eucharistic congress or the courtroom just before an important verdict. On the occasions of the big games, University of Chicago sports news is ten times as desirable, in the opinion of the editor, as even the announcement of Prof. Breasted's discoveries.

It seems to me only a matter of square dealing to provide the daily press with access to our athletic news during the important

Confidential Memorandum

The tremendous increase of public interest in football and sports in general during the past five years has located sports news from the last few pages of the average city newspaper to page one during the autumn football season and the early spring when professional baseball starts. So-called sports news is therefore regarded by the managing editor as an integral if not paramount section of the day's report. Last fall the entire first page of one edition of the Chicago Evening American was devoted to pictures and stories of the Maroon-Dartmouth game, and the conservative New York Times printed a picture at least four columns wide of the Yale-Harvard contest.

An outstanding institution in the Middle West, the University of Chicago, is "big news" to the public during the football season. For those frenzied weeks, the managing editors of the daily press look anxiously toward Stagg field and Bartlett Gymnasium for stories. It is possible that in the eyes of the daily press, the University of Chicago is as important on the eve of the Chicago-Illinois game as was the Holy Name Cathedral the night before the installation of the papal legate during the Eucharistic congress or the courtroom just before an important verdict. On the occasions of the big games, University of Chicago sports news is ten times as desirable, in the opinion of the editor, as even the announcement of Prof. Brewster's discoveries.

It seems to me only a matter of square dealing to provide the daily press with access to our athletic news during the important

seasons. Did the press not meet the University more than half way during the recently conducted campaign for funds? Are not city editors at present giving every possible consideration to University material? And are they not sympathetic when we get into trouble? Witness how the Chicago Tribune, for example, "played down" the Margaret Lawrenz case, emphasizing the fact in almost every story that "the girl had no love affairs". In other words we appeal to the press for free advertising, we provide a costly budget for maintenance of a news bureau, we expect the papers to display in a prominent position the announcement of our gifts, and yet we not only fail to provide machinery to help them get our athletic news, but we often insult them in the matter of press passes or even in the simple courtesy of informing them on scores.

During a basketball season the Journal of Commerce was informed that if they wanted to know the score to come out and cover the game. The New York Times was delayed three or four days in getting a single field pass for a photographer in order to give the athletic department a chance to determine whether or not they deserved one. Mr. Chapman of Pathe News felt that he was unjustly treated last year and wrote a letter to H. J. Smith, with a plea that the University extend just a little more cooperation this coming fall. The writer was forced to smuggle a photographer from one of the biggest American syndicates past the guards on to Stagg field at the Dartmouth game. These are individuals and organizations for whose conciliation and support the writer has been employed by the University. It is not hard to understand the immediate newspaper reaction to the University at the close of each football season. The foregoing is an insignificant portion of the complaints which

seasons. Did the press not meet the University more than half way during the recently conducted campaign for funds? Are not city editors at present giving every possible consideration to University material? And are they not sympathetic when we get into trouble? Witness how the Chicago Tribune, for example, "played down" the Margaret Lawrence case, emphasizing the fact in almost every story that "the girl had no love affairs". In other words we appeal to the press for free advertising, we provide a costly budget for maintenance of a news bureau, we expect the papers to display in a prominent position the announcement of our gifts, and yet we not only fail to provide machinery to help them get our athletic news, but we often insult them in the matter of press passes or even in the simple courtesy of informing them on scores.

During a basketball season the Journal of Commerce was informed that if they wanted to know the score to come out and cover the game. The New York Times was delayed three or four days in getting a single field pass for a photographer in order to give the athletic department a chance to determine whether or not they deserved one. Mr. Chapman of Father News felt that he was unjustly treated last year and wrote a letter to H. J. Smith, with a plea that the University extend just a little more cooperation this coming fall. The writer was forced to smuggle a photographer from one of the biggest American syndicates past the guards on to Stagg field at the Dartmouth game. These are individuals and organizations for whose domination and support the writer has been employed by the University. It is not hard to understand the immediate newspaper reaction to the University at the close of each football season. The foregoing is an insignificant portion of the complaints which

are launched publicly and in the offices of newspapers toward the University's stand on sports publicity. It is needless to point out here that the service of furnishing so-called sports copy or information about what the teams are doing is considered by the press very inadequate.

Both H. J. Smith and the writer found the going pretty hard during the last two football seasons. Requests for passes and stories were sent by tens to the publicity office. These requests were forwarded to the athletic office and in the instances when they were refused the criticism was heaped on our innocent and fast greying heads. Already the publicity office has received seven letters and two wires which to our knowledge have not yet been answered. The managing editors of these newspapers are not likely to be kindly disposed toward the announcement of the medical gift after they have been given the report of the sports editor. And all those familiar with the ways of the press know that as the managing editor goes, so goes the news.

We are not urging here that any effort be made to distribute reams of copy about college athletics. We recognize the inadvisability of such a move from the standpoint of University policy. However, we strongly recommend that an efficient and reliable bureau of service be established as a courtesy to the newspapers. We strongly believe that such a program would bring ultimate and stimulating good to the publicity department and to the University as a whole. As matters stand now, an efficient organization would be ashamed of the anachronism fostered by the University. If there were one University, one newspaper, and no sixty-four page editions; if there were one million people in Chicago and if it were 1906 instead of 1926, there would be no need for a change.

stand of race, there would be no need for a change.

If there were one million people in Chicago and if it were 1900 in-
stead one university, one newspaper, and no extra-long days editions!
be surprised of the enormous interest of the university. If there
be a more. As matters stand now, an efficient organization would
stimulating good to the university government and to the university
we strongly believe that such a program would bring justice and
peace of relations be established as a contrast to the newspapers.
However, we strongly recommend that an efficient and legitimate
activity of such a move from the standpoint of university policy.
Leaves of body about college activities. We recognize the inadequacy

the issuing of all press, field (photographer's) and complimentary press tickets in conference with the University's press representative.

an effort on the part of the University's publicity director to make himself known to all sports editors to assure them of cooperation on our part and to enlist their services in furthering Mr. Stagg's ideals and in respecting Mr. Stagg's wishes on the playing field. This effort will mean hard work and a reasonably long period of time. Just as it took the University a little less than a year to win the confidence of city editors, it will take time to win the sports editors who think they are being unjustly treated. It is important that the man dealing with newspapers on any news subject understand the psychology, the peculiarities and the needs of the editors who run the paper as well as the demands of the reading public. To the degree he is qualified in that understanding, he will succeed.

The above is not intended as a criticism of Mr. Stagg. We do not mean to censure him if he has not comprehended the "new journalism" that regards Rudolph Valentino as better news copy than President Harding. Few "laymen" do comprehend it. We simply urge that, if the huge subject of public relations is to be adequately treated by the University, the workers be empowered to function efficiently. We further appreciate that the public relations office would have a tremendously difficult task in the pursuance of duties necessitated by new methods. But it is

on any news subject understand the psychology, the peculiarities
and the needs of the editors who run the paper as well as the
demands of the reading public. To the degree he is qualified in
that understanding, he will succeed.

The above is not intended as a criticism of Mr. Staggs. We
do not mean to censure him if he has not comprehended the "new
journalism" that regards Rudolph Valentino as a star news copy
than President Harding. Few "laymen" do comprehend it. We simply
urge that, if the huge subject of public relations is to be
adequately treated by the University, the workers be empowered to
function efficiently. We further appreciate that the public re-
lations office would have a tremendously difficult task in the
performance of duties necessitated by new methods. But it is

willing to work over time and to be particularly diplomatic if given the opportunity.

Whatever steps are taken, it seems imperative that the attitude revealed in a statement made to the writer, "If the University ever builds a big stadium, don't depend on us (the sports department) to fill it for you," be changed.

If the job is to be done at all efficiently this year, some action should be taken immediately. Chicago sports editors should be visited during September, letters sent to papers in the Middle West, and plans laid for the suitable accomodation of writers both in the city and out of town.

Furthermore, it has been suggested to this department by Mr. Herbert Rubel, of the Daily News advertising staff, that the publicity department publish a program similar to those of Eastern universities, which shall contain in addition to the lineups, athletic news and pictures, each week, some story of the University's activity preferably in pictures, perhaps one week of the Oriental institute, another of the home economics department, another of the medical work, another of chemistry. Mr. Rubel says that such a publication would pay for itself by display advertising and that it would bring in a substantial revenue to the public relations office which the writer would welcome for use in the development of a moving picture and serial magazine scheme upon which he is now working with the Pathe people.

It appears to me that here is an opportunity to get before a very large and important section of the public some suggestion of the kind of thing that might be contained in a University "house organ" or official magazine. True, a football program is

willing to work over time and to be particularly diplomatic if given the opportunity.

AMERICAN ASSOCIATION OF UNIVERSITY PROFESSORS

COMMITTEE G, ON METHODS OF INCREASING THE
INTELLECTUAL INTEREST AND RAISING THE IN-
TELLECTUAL STANDARDS OF UNDERGRADUATES

BOX 225, FACULTY EXCHANGE
THE UNIVERSITY OF CHICAGO

June 7, 1926

Vice-President F. C. Woodward
Faculty Exchange

My dear Mr. Woodward:

You will be interested, I think, in the enclosed report of the action taken at Amherst as a result of the Committee G Football Report.

You will note that their proposal is one which emanates from the Ohio State conference to the effect that the Intercollegiate Football competition be limited to the sophomore and junior years.

Very truly yours,

EHW:IL

Ernest H. Watkins

pages in the interim between professional hickey, boxing and indoor track. At this season of the year we find the undergraduate body in a state of unrest due to the recent return from the summer vacation and the difficulty of settling down to any serious work. At Amherst the fraternity "rushing" program comes at this season and may, to some extent, account for the lack of hysteria over football at Amherst.

Distortion of values both in our undergraduates and alumni seems to us the most fundamental disadvantage of intercollegiate football today both at Amherst and elsewhere. The results are well described in the report. When coupled with an abnormal desire to win, this distortion of values begets excessive schedules, unwarranted expenditures for coaching, grounds and equipment, and stimulates proselyting and the neglect of academic work.

It seems to this Committee that the chief problem of the colleges is to correct this distortion of values. The two methods are obviously (1) by education in this particular through example and precept on the part of members of the faculty and administration, and (2) by legislation of a kind to indicate the faculty idea or ideal of the relation of the values in college life while retaining the inherent values of intercollegiate football. Much legislation with this intent for the so-called regulation of intercollegiate football has been enacted both by colleges and conferences for the past 50 years

June 4, 1926

Report of the Amherst College Committee on Intercollegiate
Football

This Committee agrees in general with the report by Committee G of the American Association of University Professors on Intercollegiate Football as a generalized statement of conditions in the universities and colleges of the United States but feels that the report does not accurately represent the existing conditions at Amherst. With the statement in Sections I to V of the advantages and disadvantages of the game for the undergraduate body as a whole, for the members of the squad, for members of the faculty, and for the college as a whole through its effect on alumni and the general public it is in general accord. The Committee feels that the net result of intercollegiate football on life at Amherst College is a benefit but that this benefit would be largely increased if certain disadvantages were removed.

Of these, over excitement in the student body at least is not at present especially important. In fact the college is being criticised in some quarters for lack of spirit, the spirit of a decade ago. A healthy interest in college sports is desirable.

We feel that football is the victim of a combination of unfortunate circumstances. The game is played at a season when the newspapers are casting about for material with which to fill their sporting pages in the interim between professional baseball and the season for professional hickey, boxing and indoor track. At this season of the year we find the undergraduate body in a state of unrest due to the recent return from the summer vacation and the difficulty of settling down to any serious work. At Amherst the fraternity "rushing" program comes at this season and may, to some extent, account for the lack of hysteria over football at Amherst.

Distortion of values both in our undergraduates and alumni seems to us the most fundamental disadvantage of intercollegiate football today both at Amherst and elsewhere. The results are well described in the report. When coupled with an abnormal desire to win, this distortion of values begets excessive schedules, unwarranted expenditures for coaching, grounds and equipment, and stimulates proselyting and the neglect of academic work.

It seems to this Committee that the chief problem of the colleges is to correct this distortion of values. The two methods are obviously (1) by education in this particular through example and precept on the part of members of the faculty and administration, and (2) by legislation of a kind to indicate the faculty idea or ideal of the relation of the values in college life while retaining the inherent values of intercollegiate football. June 4, 1938

Report of the Amateur College Committee on Intercollegiate Football

This Committee agrees in general with the report by Committee of the American Association of University Professors on Intercollegiate Football as a generalized statement of conditions in the United States and colleges of the United States but feels that the report does not accurately represent the existing conditions at Amateur colleges. With the statement in Section I to V of the advantages and disadvantages of the game for the undergraduate body as a whole, for the members of the squad, for members of the faculty, and for the college as a whole through its effect on alumni and the general public it is in general accord. The Committee feels that the net result of intercollegiate football on life at Amateur colleges is a benefit but that this benefit would be largely increased if certain disadvantages were removed.

Of these, over excitement in the student body at least is not at present especially important. In fact the college is being criticized in some quarters for lack of spirit, the spirit of a decade ago. A healthy interest in college sports is desirable.

We feel that football is the victim of a combination of unfortunate circumstances. The game is played at a season when the newspapers are casting about for material with which to fill their sporting pages in the interim between professional baseball and the season for professional hockey, boxing and indoor track. At this season of the year we find the undergraduate body in a state of unrest due to the recent return from the summer vacation and the difficulty of settling down to any serious work. At Amateur colleges the "freshman" program comes at this season and may, to some extent, account for the lack of hysteria over football at Amateur.

Distortion of values both in our undergraduates and alumni seems to us the most fundamental disadvantage of intercollegiate football today both at Amateur and elsewhere. The results are well described in the report. When coupled with an abnormal desire to win, this distortion of values brings excessive schedules, unwarranted expenditures for coaching, grounds and equipment, and stimulates propping and the neglect of academic work.

It seems to this Committee that the chief problem of the college is to correct this distortion of values. The two methods are obviously (1) by education in the particular through example and precept on the part of members of the faculty and administration, and (2) by legislation of a kind to indicate the faculty idea or ideal of the relation of the values in college life while retaining the inherent values of intercollegiate football. Much legislation with this intent for the so-called regulation of intercollegiate football has been enacted both by colleges and conferences for the past 30 years

and the result has on the whole been salutary.

Of the two proposals made by the Committee of the Association of University Professors that made by the Parley is not especially new, its essential feature is the "delayed season," proposed by Harvard a generation ago and practised for many years at Andover Academy. The second proposal, the limitation of intercollegiate competition to one year, that year to be selected by the undergraduate, is decidedly new. Both proposals have much to recommend them. We consider the principle in Dr. Fauver's plan of limitation of the years of intercollegiate competition to be better than the excessive limitation of schedules in each year for two main reasons: 1) because it thereby permits more students to receive the benefits of intercollegiate competition, and 2) because, as the committee states, it favors the development of intramural sports.

The Committee feels, however, that the proposal of the Committee of the Ohio State Conference (Professor C. W. Savage, Chr.) is better than either of the above. It is that intercollegiate football competition be limited to sophomore and junior years. The Committee bases its judgment mainly on two considerations, that the proposal is (1) less drastic, allowing two years of competition in place of one; and (2) that it is more practical as the decision of the year of competition will present endless difficulties.

To this proposal we feel should be added from the proposal of the Parley Committee the recommendation that pre-season training be abolished. The first game then would not be scheduled earlier than the first Saturday in October. A seven-game schedule should be the limit.

In addition we feel that to develop a proper sense of values all football coaches should be all-the-year-round men, members of the department of Physical Education and thus of the faculty and their salaries should be the same as that of other members of the faculty of the same grade.

It is likely that Amherst will discuss these proposals in the near future with those colleges with which it is closely associated. The results of such discussions will be reported to Committee G.

and the result has on the whole been satisfactory.

Of the two proposals made by the Committee of the Association of University Professors that made by the Party is not especially new, its essential feature is the "delayed season," proposed by Harvard a generation ago and modified for many years at Harvard Academy. The second proposal, the limitation of intercollegiate competition to one year, that year to be selected by the undergraduate, is decidedly new. Both proposals have much to recommend them. We consider the principle in Dr. Yawer's plan of limitation of the years of intercollegiate competition to be better than the excessive limitation of athletes in each year for two main reasons: (1) because it thereby permits more students to receive the benefits of intercollegiate competition, and (2) because, as the committee states, it favors the development of intercollegiate sports.

The Committee feels, however, that the proposal of the Committee of the Ohio State Conference (Professor G. E. Swager, Chm.) is better than either of the above. It is that intercollegiate football competition be limited to sophomore and junior years. The Committee passes its judgment mainly on two considerations, that the proposal is (1) less drastic, allowing two years of competition in place of one; and (2) that it is more practical as the decision of the year of competition will present endless difficulties.

To this proposal we feel should be added from the proposal of the Party Committee the recommendation that pre-season training be abolished. The first game then would not be scheduled earlier than the first Saturday in October. A seven-game schedule should be the limit.

In addition we feel that to develop a proper sense of values all football coaches should be all-the-year-round men, members of the Department of Physical Education and that of the faculty and their salaries should be the same as that of other members of the faculty of the same grade.

It is likely that Amherst will discuss these proposals in the near future with those colleges with which it is closely associated. The results of such discussions will be reported to Committee G.

AMERICAN ASSOCIATION OF UNIVERSITY PROFESSORS

COMMITTEE ON RESEARCH AND INQUIRY INTO
INTELLECTUAL FREEDOM AND ACADEMIC
FREEDOM

REPORT OF THE COMMITTEE

June 7, 1955

Vice-President F. D. Woodward
Faculty Exchange

My dear Mr. Woodward:

You will be interested, I think, in the
enclosed report of the action taken at various
a result of the Committee's report.

You will note that their proposal is one
which emanates from the Ohio State University and the
effect that the intercollegiate football competition
be limited to the sophomore and junior years.

Very truly yours,

W. J. Newlin

WJN:11

or competition will present serious difficulties.

To this proposal we feel should be added from the proposal of
the Faculty Committee the recommendation that pre-season training be
abolished. The first game should not be scheduled earlier than
the first Saturday in October. A seven-game schedule should be the
limit.

In addition we feel that to develop a proper sense of values
all football coaches should be all-the-year-round men, members of the
department of Physical Education and that of the faculty and their
salaries should be the same as that of other members of the faculty
of the same grade.

It is likely that Amherst will discuss these proposals in the
near future with those colleges with which it is closely associated.
The results of such discussions will be reported to Committee G.

President Mason
Office of the President
University of Chicago

Dear President Mason:

Many phases of the football problem have become so acute here this autumn that it seems to me, as it does to many of the faculty, that we can no longer rightly defer a frank and courageous study of the problem.

I am therefore planning to present a statement of the situation at a meeting of the faculty of the Colleges of Arts, Literature, and Science to be called immediately after the close of the football season, and to ask that a committee be appointed to consider the situation and to report recommendations at a later meeting.

I may add that in my own opinion the situation calls for drastic and extensive reform, but not for the abolition of football.

Very truly yours,

Ernest H. Wilkins

Dean of the Colleges

May 10, 1922

President of the University of Chicago
Chicago, Illinois

Dear Sir: I have the honor to acknowledge the receipt of your letter of the 2nd inst. regarding the proposed visit of the President of the University of Chicago to the University of Illinois.

I am pleased to learn that you are planning to visit the University of Illinois in the near future. I am sure that your visit will be most profitable and enjoyable. I am sure that you will find the University of Illinois to be a most interesting and important institution.

I am sure that you will find the University of Illinois to be a most interesting and important institution. I am sure that you will find the University of Illinois to be a most interesting and important institution.

Very truly yours,

James H. McEwen

Dean of the College

April 22, 1926

Dear James:

Receipt of your letter of April 16, relating to the proposed football discussion by the local chapter of the A. A. U. P., is acknowledged. As I told you, in the course of our conversation, the Conference has appointed a committee to consider the alleged abuses in connection with football and the proposed measures for improving conditions. I expect that this committee will make a report in June, but I have no idea what, if any, measures they will recommend, or what action the Conference will take. Neither President Mason nor I desire to urge a postponement of discussion on the part of the A. A. U. P., but we are of the opinion that it would be more profitable for you to await the action of the Conference. If a discussion were held this spring, you might devote a lot of time to questions which will be satisfactorily settled by the Conference, and on the other hand the Conference may take action which will raise new questions for discussion.

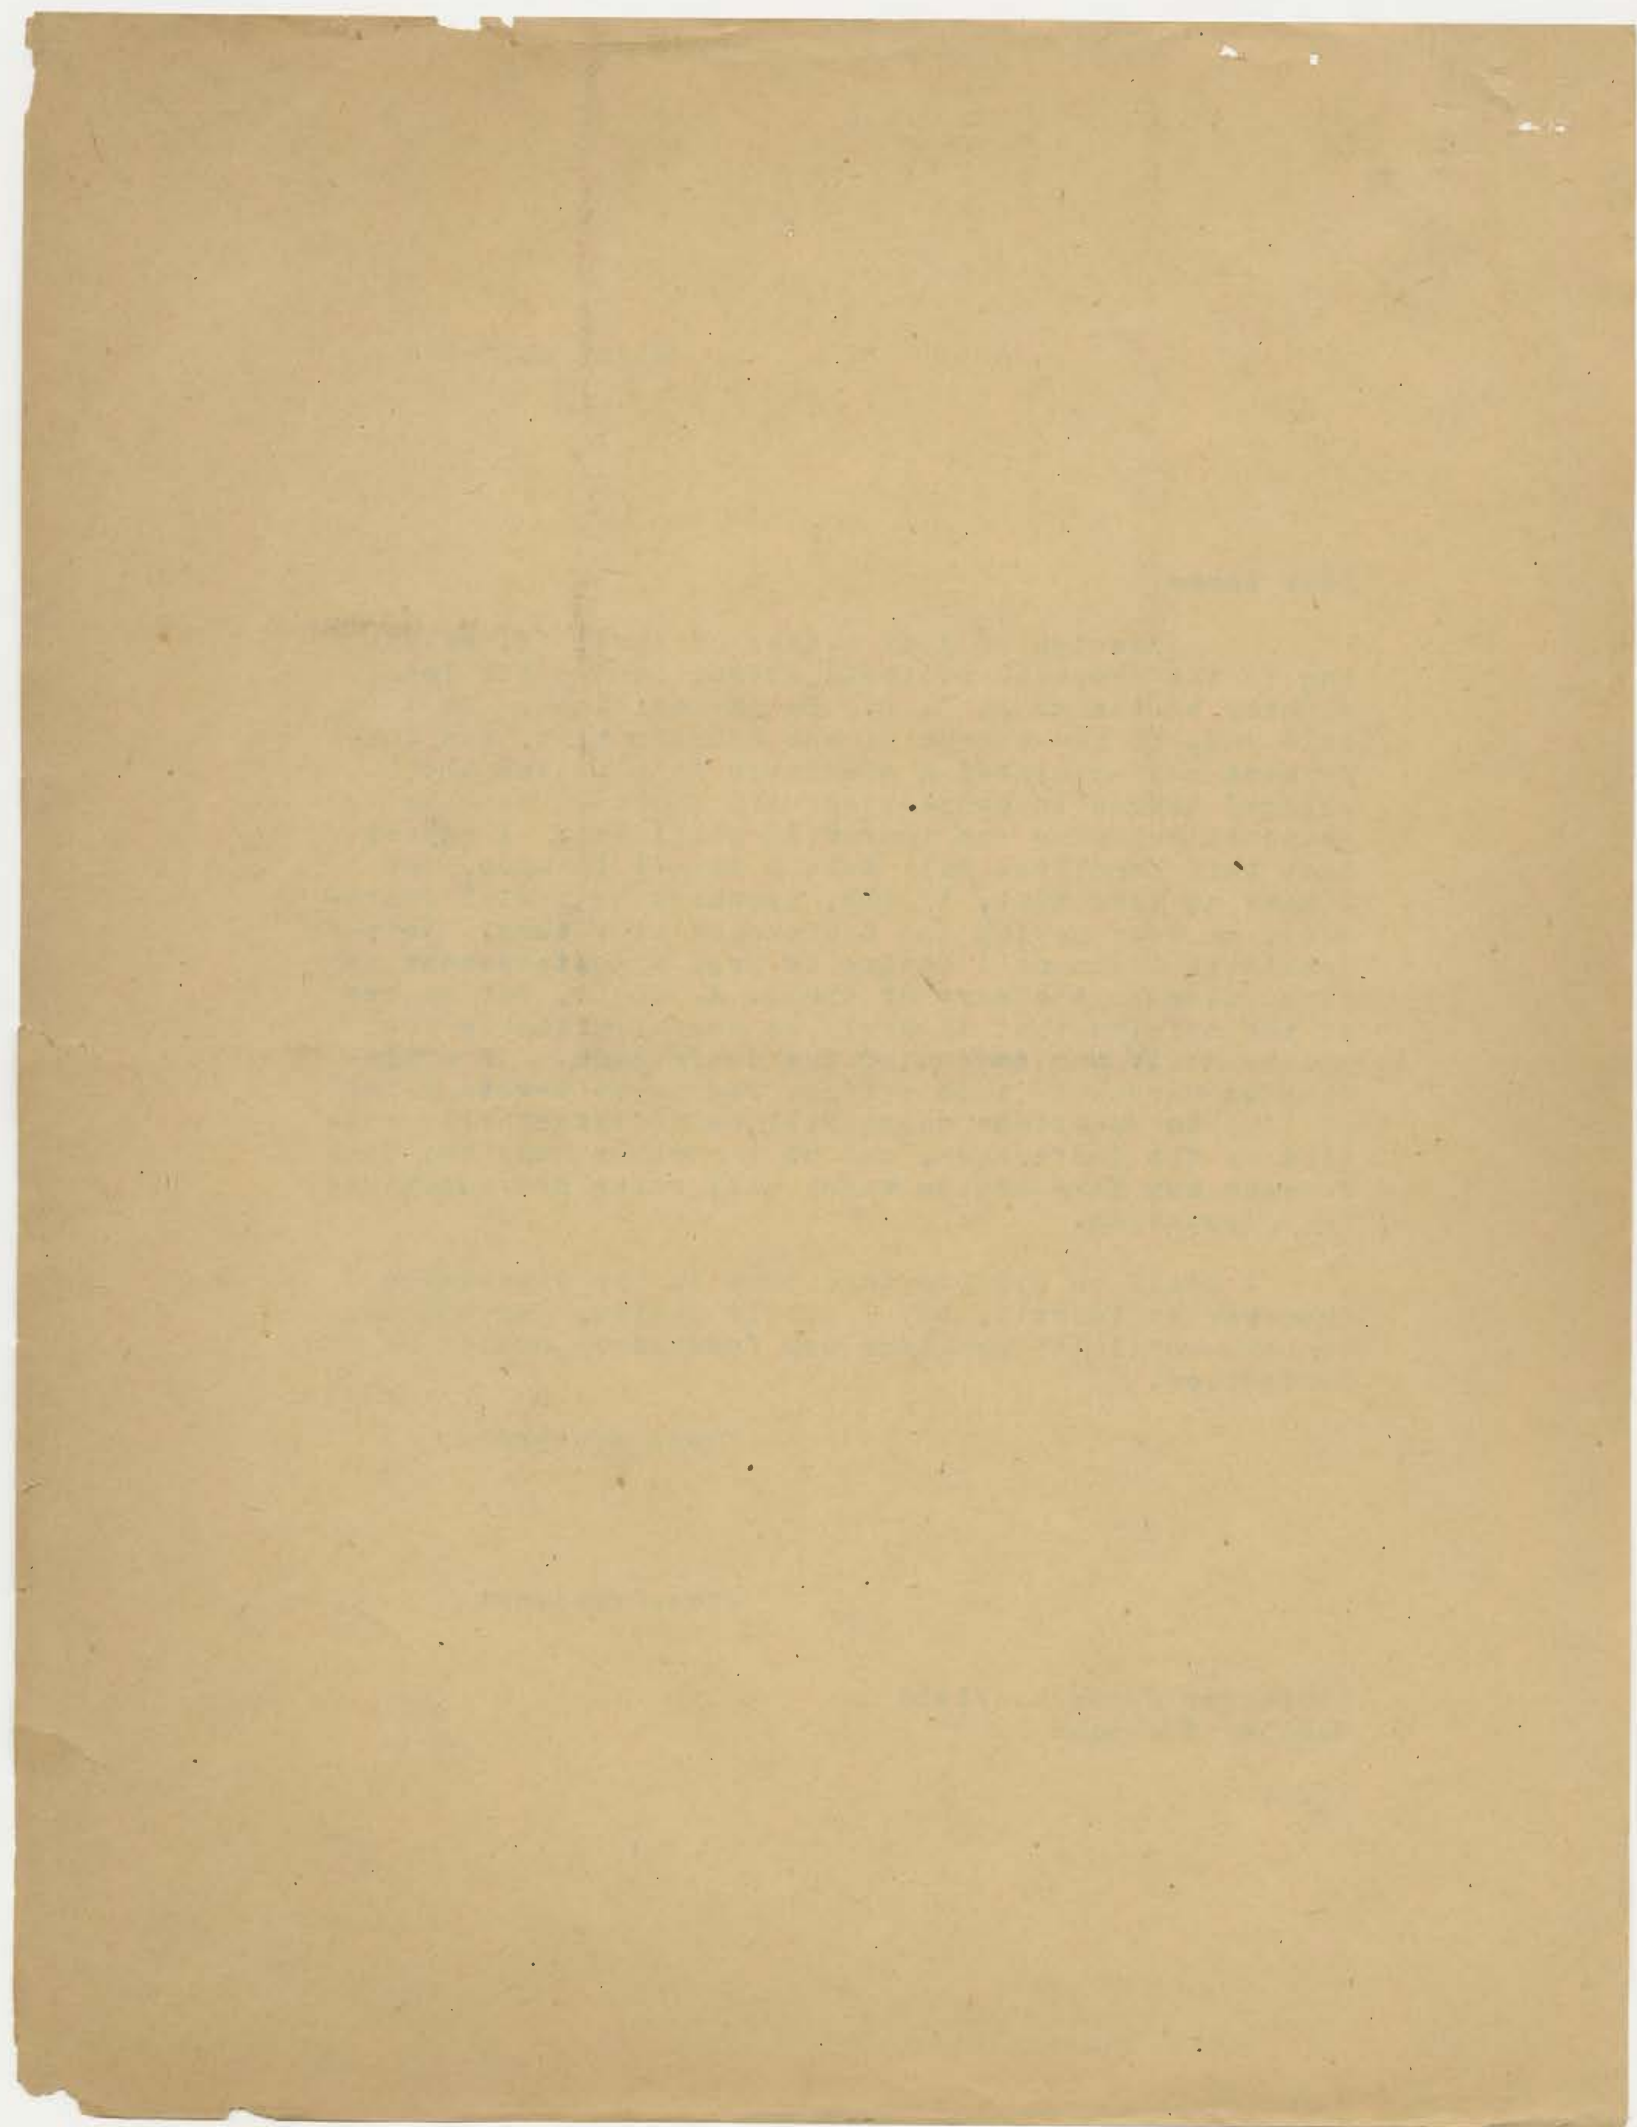

I shall be glad to take part in the discussion whenever it is held, but I should prefer, personally, to wait until the problems are focused by action of the Conference.

Yours sincerely,

Vice-President

Professor James A. Field
Faculty Exchange

April 16th, 1926.

Professor Frederick C. Woodward,
Faculty Exchange,
The University of Chicago.

Dear Fritz:

This is a memorandum on the proposed football discussion of which I spoke to you yesterday.

Ernest Wilkins has sent me a copy of the report on Intercollegiate Football prepared by him as chairman of Committee G of the American Association of University Professors. With it came a suggestion that our local chapter of the A. A. U. P. should follow the recommendation at the conclusion of the report and take the initiative in a discussion here of the report and the problems with which it deals. When I asked Ernest just what sort of discussion he thought would be best he expressed his wish that no formal discussion of his report should take place at the University of Chicago until you and Mr. Mason had been consulted. He felt that if we provoked a discussion at this time without full knowledge of what was already being done to reshape the football policy of the University of Chicago and of the Conference we might unintentionally interfere with promising reforms already under way.

If our local chapter is to take up the subject of football in accordance with the proposal of Committee G it should move promptly in order that whatever action results may be known before the end of the current academic year. I should be very grateful therefore if you would let me know before long whether in your opinion or in the opinion of Mr. Mason we had better refrain from organized discussion at this time. Let me remark that if we do consider the subject in our local chapter we shall assuredly wish you to be one of the leading speakers in the discussion. Mr. Mason, as a full-time administrator, is, I suppose, constitutionally debarred, but you are fortunately not yet lost to us.

Sincerely yours,

James C. Field - F.C.W.

LEWIS PARKHURST ON FOOTBALL

To the Editor of the Transcript:

In the Transcript of Nov. 23, Mr. George C. Carens, who has written so many interesting articles concerning football during the last few weeks, published quite a long article explaining why Harvard and Yale each failed to score in their games on the previous Saturday in the Stadium at Cambridge. In this article he makes the following statement:

They say that Harvard's severe entrance requirements drive much good football material from the Cambridge portals. Andrew James Oberlander, the greatest forward passer that the game of football has produced, told me Saturday morning at the offices of the Harvard Athletic Association that he tried to get into Harvard before matriculating at Dartmouth. How handy he would have been in putting on this new Harvard offense.

In an article in the Transcript of Nov. 23, in which he praises Oberlander and his teammates for their refusal to follow the lead of "Red" Grange into the ranks of professional football although several of them have received most flattering offers, he refers to the above quoted article and says, "This note was used in connection with the loss of Yale's captain-elect through class room deficiencies."

It is difficult to understand why in discussing the affairs of Harvard and Yale or the class room deficiencies of any of their men it was necessary to interject this comment on a young man's experience in entering Dartmouth College, but whatever the reason for doing so, the impressions made upon the average reader were:

First, That the academic requirements for admission to Harvard were of a higher grade than at Dartmouth, and second, that football players do not come from the brainy end of a college class.

With reference to the first impression, a letter from the authorities at Hanover, dated Dec. 1, states that

Oberlander was admitted by "special" certificate, with 17 units credit, by virtue of having graduated fifth in a class of 183. It is interesting to note that under the present Harvard honor system of admission Oberlander would have been admitted there without condition and without examination. As you perhaps know, about one-third of the present (freshman) class at Harvard entered by certificate without examination.

The second impression seems to me entirely unfair to the young men who make up the football team at Dartmouth, and I have no doubt the same is true of other colleges, for at the close of the last college year it was found that a large proportion of the entire team were of Phi Beta Kappa rank.

For the last two years I have watched with considerable interest the method of teaching modern football at Dartmouth, as practised by Head Coach Hawley and his assistants, and the results of that teaching as exemplified both upon the gridiron and upon the men who make up the teams. I have been present at nearly every game during the last two years, including the recent games with Harvard, Brown, Cornell and Chicago University, and in my judgment no member of the faculty has done more than Mr. Hawley to train men for leadership—and training men for leadership is my conception of the function of a modern college—for by example and precept he requires of his students manly conduct, obedience to those in authority, straight thinking, quick acting, and a willingness to fight to the limit for whatever cause they have espoused—all qualities that make for leadership in life—and through it all to be a gentleman at all times.

I am fully convinced that the brainy end of the class will always furnish a considerable number of men to the successful modern football team, and that this game will continue for many years to come to be the leading athletic game throughout the colleges in this country and will be supported by all lovers of true outdoor sports; provided those professional coaches who have a baneful influence upon the student body can be eliminated, and provided that the alumni and friends of the colleges will be willing to leave at home their pocket flasks when they attend the great autumnal games of football.

It is difficult to understand why it is that the minds of Harvard and Yale are so much more open to the study of the East than the minds of the other colleges. I have seen a young man's experience in the East, and what was the result? He went to Harvard College, but what was the result for doing so the impression made upon the average reader was:

REPORT OF PERSONS WHO WERE UNABLE TO ACCEPT COURTESIES
FOR OHIO STATE GAME

Austin, H. W.: released his tickets because of the death of a friend.
Very appreciative.

Butler, Rush: out of town.

Ross, William L.: out of town.

Armour, P. B.: regretted very much. Hopes he will be invited again sometime.

Barnes, C. W.: would have been delighted to accept, but had to go to a wedding.

Wetmore, F. O.: very sorry he couldn't accept.

Butler, Burridge: out of town.

Defrees, Joseph H.: compelled to go out of city. Would be glad to have similar opportunity later.

Farwell, John V.: out of city.

Palmer, Potter: regretted that he had to go out of town.

Kuppenheimer, L.: Mrs. K. was ill. They hope to be invited later. Very grateful.

Baur, Mrs. J.: unable to attend because of wedding. Very thankful, and would appreciate an invitation sometime later.

Hurley, E. N.: out of town. Would appreciate tickets later in season.

Blackstone, Mrs. previous engagement.

Borland, Mrs. J.J. out of town.

Bross, Mrs. Mason: out of town.

Mr. Raymond A. Tolbert
Embry, Johnson & Tolbert
614 Medical Arts Building
Oklahoma City, Okla.

Dear Mr. Tolbert,

We are in receipt of your letter of August 3d inquiring as to our regulations for handling (a) stadium subscribers; (b) letter men; and (c) graduates of the University.

(a) With reference to subscribers to a stadium, the University of Chicago has never built an athletic field by popular subscription and therefore we have never formulated any rules concerning this situation.

In the Western conference, Ohio State and Illinois have both built stadiums within recent years and as I recall, both have a problem of handling stadium subscribers. I would suggest, therefore, that you write to Mr. Henry D. Taylor, Athletic House, Ohio State University, Columbus, Ohio who, I feel certain, will be glad to give you information about the way Ohio State handles stadium subscribers, and to Mr. Frank D. Murphy, Athletic Association, University of Illinois, Urbana, Illinois, who I think will be glad to furnish you with information regarding the manner of handling stadium subscribers at Illinois.

(b) With reference to letter-men- a "C" man of the University of Chicago is privileged to attend any athletic contest of the University merely upon presentation of his "C" button at the gate. For the football games, "C" men, whether still under-graduates or alumni, present themselves at a certain gate where they are issued a pass admitting them to a bench which runs parallel to the side lines on the Chicago side of the field.

August 6, 1925

Mr. Raymond A. Tolbert
Embry, Johnson & Tolbert
614 Medical Arts Building
Oklahoma City, Okla.

Dear Mr. Tolbert,

We are in receipt of your letter of August 3d inquiring as to our regulations for handling (a) stadium subscribers; (b) letter men; and (c) graduates of the University.

(a) With reference to subscribers to a stadium, the University of Chicago has never built an athletic field by popular subscription and therefore we have never formulated any rules concerning this situation.

In the Western conference, Ohio State and Illinois have both built stadiums within recent years and as I recall, both have a problem of handling stadium subscribers. I would suggest, therefore, that you write to Mr. Henry B. Taylor, Athletic House, Ohio State University, Columbus, Ohio who, I feel certain, will be glad to give you information about the way Ohio State handles stadium subscribers, and to Mr. Frank E. Murphy, Athletic Association, University of Illinois, Urbana, Illinois, who I think will be glad to furnish you with information regarding the manner of handling stadium subscribers at Illinois.

(b) With reference to letter-men - a "CW" man of the University of Chicago is privileged to attend any athletic contest of the University merely upon presentation of his "CW" button at the gate. For the football games, "CW" men, whether still undergraduates or alumni, present themselves at a certain gate where they are issued a pass admitting them to a bench which runs parallel to the side lines on the Chicago side of the field.

Of course many "C" men want to secure more than simply this personal admission and I will make reference to this below.

(c) The Football Tickets Committee maintains two mailing lists- one for members of the general public, the other for alumni, ex-students and faculty members. We give this latter class priority in location of seats.

An alumnus or ex-student who desires to have his name placed on the priority mailing list may do so by signing one of the yellow cards which I am enclosing. These cards are kept on file in a Kardex and serve the double purpose of having on file the signature and having at the same time a record card. You will note the spaces on the back in which we enter the application numbers and since these application blanks bear the seat locations, it is possible to tell just what seats a person has occupied over a period of five years.

About September 1st of each year, application blanks and information circular and return envelopes are sent to all names which are on our mailing list. We establish closing dates for applying for season tickets and for applying for tickets for individual games and all applications which are received before the closing date are on exactly the same basis. After the closing date we do not ~~accept~~ any more applications but assign seats by lot for all applications which we have on hand. If there are still tickets available we place them on public sale.

With reference to letter men who do not desire to avail themselves of the privilege of coming in and sitting on the side lines, they receive applications along with the other alumni except that we distinguish their blanks by stamping a "C" on it.

In assigning tickets on their applications we arrange to give them seats nearest the center of the field as you will note from the enclosed special circular for "C" men.

Of course many "C" men want to secure more than simply this personal admission and I will make reference to this below.

(c) The Football Tickets Committee maintains two mailing lists--one for members of the general public, the other for alumni, ex-students and faculty members. We give this latter class priority in location of seats.

An alumnus or ex-student who desires to have his name placed on the priority mailing list may do so by signing one of the yellow cards which I am enclosing. These cards are kept on file in a Kardex and serve the double purpose of having on file the signature and having at the same time a record card. You will note the spaces on the back in which we enter the application numbers and since these application blanks bear the seat locations, it is possible to tell just what seats a person has occupied over a period of five years.

About September 1st of each year, application blanks and information circular and return envelopes are sent to all names which are on our mailing list. We establish closing dates for applying for season tickets and for applying for tickets for individual guests and all applications which are received before the closing date are on exactly the same basis. After the closing date we do not ~~have~~ ^{accept} any more applications but assign seats by lot for all applications which we have on hand. If there are still tickets available we place them on public sale.

With reference to letter men who do not desire to avail themselves of the privilege of coming in and sitting on the side lines, they receive applications along with the other alumni except that we distinguish their blanks by stamping a "C" on it.

In assigning tickets on their applications we arrange to give them seats nearest the center of the field as you will note from the enclosed special circular for "C" men.

You will note enclosed, in addition to the forms to which reference has previously been made, samples of tickets we used last year. You will note that we have a season book admitting the holder to the same seat for all home games. This book is sold to both members of the public and to alumni and ex-students. Then, as stated, alumni and ex-students occupy the Chicago side of the field and are in general nearer the center of the field.

You will also notice a student's "C" book which is sold for \$10.00 and admits the holder to all athletic events of the year. Students apply at the office of the Football Tickets Committee, pay \$10.00, have their photograph taken at once (without charge) and are issued a "C" book. They must exchange this book at the end of the football season for one which admits them to basket ball, track, baseball, etc.

You will also find enclosed samples of tickets which we used last year for seats which were not taken by our *season* ticket sale.

This outline is necessarily rather meager and if you should desire any other details please do not hesitate to correspond with us further.

I regret that I am compelled to send you last years forms but those for the coming season have not yet been received from the printer. There are, however, no substantial changes.

Very truly yours,

You will note enclosed, in addition to the forms to which reference has previously been made, samples of tickets we used last year. You will note that we have a season book admitting the holder to the same seat for all home games. This book is sold to both members of the public and to alumni and ex-students. Then, as stated, alumni and ex-students occupy the Chicago side of the field and are in general nearer the center of the field.

You will also notice a student's "C" book which is sold for \$10.00 and admits the holder to all athletic events of the year. Students apply at the office of the Football Ticket Committee, pay \$10.00, have their photograph taken at once (without charge) and are issued a "C" book. They may exchange this book at the end of the football season for one which admits them to basketball, track, baseball, etc.

AUG 6 - 1925

ANSWERED - FORM NO. - PLATE

Secretary to the President,
University of Chicago,
Chicago, Ills.

Dear Sir:-

I am a member of the building committee of the Oklahoma University Stadium. As part of our million dollar campaign, we agreed to give subscribers of a certain amount a life ticket to the events in the stadium, subject, however, to such rules and regulations as may be adopted.

We now desire to formulate these regulations. You no doubt have certain regulations for a similar purpose, or those whereby you give letter men or graduates of your institution preference rights.

I would appreciate it very much if you would refer this letter to the proper persons and ask them to let us have a copy of your rules and regulations, and a sample of the printed forms used in connection with the application for and issuance of tickets. This would include printed forms of the tickets used.

I have in mind that we should have a separate entrance for this class of admissions, that we should have on file the signature card of each person entitled to the privilege, and should not issue the final ticket which actually entitles him to a seat at the particular game until he has identified himself at the gate.

Our ideas, of course, are very indefinite, and your fullest suggestions would be very gratefully received. A stamped envelope is enclosed for your convenience in replying.

Yours very truly,

Raymond A. Tolbert

Let the Alumni Tell It

The University of Chicago was founded before it had any alumni. That was unfortunate, but now its graduates, gathering in the football season, are ready to tell it what changes should be made, now that the poor old, not to say senile, faculty can have the advice of alumni.

And so after the toastmaster had made the usual declaration that "No school has a more loyal or generous alumni body," arose one graduate who said, "I came here undecided whether to razz or weep." That alone proved the point about loyal alumni. Any institution is great which prepares its graduates either to razz or to weep, as occasion may require.

Happily this graduate, Schommer by name, decided to razz, which as everyone knows is more manly and more constructive. And he had something to razz about. The University of Chicago has been losing football games, while it has been winning acclaim for its standards of scholarship. To lose at football, as anyone knows, is unfortunate and probably infamous. Mr. Schommer was prepared to show that the second infamy—that of having scholastic standing—was in part responsible for the greater crime of losing games.

Graduate Schommer grew eloquent: "Can we say that a big, strong, healthy chap weighing 200 pounds with a scholarship average of 84 in high school, or even 78, is less likely to become, with education, a desirable American citizen than some puny runt, standing 5 feet 6, weighing 143 pounds, with an average of 86 or even 91?" And all the alumni bellowed "No!" And another alumnus rose to show that Schommer had been an athlete and scholar, too.

And so it became very plain that because scholarship without health isn't much, any standard of scholarship which excludes from college or bars from the team a promising guard or half-back is not only a crime against alma mater, but a menace to the health and the very scholarship of America. The only weakness we can see in the whole thing is that if the graduates of the great University of Chicago want to change the purpose of the institution, they should put up the money, repay the donors who built the school and establish on the Midway an athletic institute.

FOOTBALL ON THE MIDWAY.

It looks as if there might be a head-on collision soon between the academic ideals of the faculty of the University of Chicago and the great god Football. The Maroon eleven thus far this season has suffered disaster after disaster, and many of the alumni are trying hard to think of something to do about it. They charge the defeats to the fact that there is a relatively small number of undergraduates available for football playing and to the high standards of scholarship at the university. And they declare that the university's future on the gridiron looks even darker than does the dark present.

The suggestions advanced by the protesting alumni for remedying the situation include lowering the scholarship requirements for admission so that freshman classes may be materially increased in size, reduction of tuition charges so that students may be attracted from tax-supported institutions, and any other reasonable expedient that may tend to restore the lost glories of the days of Steffen, Eckersall and Norgren.

To all this the faculty probably will turn a deaf ear. For the university that is developing on the Midway is not interested primarily in football scores. It provides competent coaching and complete equipment for any of its students who desire to play the game. Other sports likewise are liberally encouraged. But the first business of the University of Chicago is the making of scholars. The university definitely seeks to attract the research student and the postgraduate. Distress over defeats at football is not likely to be so poignant as to cause the abandonment by the faculty of its high academic ideal.

Chicagoans always rejoice to see a winning eleven on the Midway. In the long run, however, the city will benefit far more from the maintenance there of standards of scholarship so high that graduate students of promise will continue to be attracted from all parts of the world.
