To the Members of the Board of Trustees:

I am sending you herewith three specimens of letters which are being sent out with the purpose of securing additional and greatly needed financial assistance for the support of the University Clinics.

The three letters are intended for three different types of persons:

Number One is a comparatively brief straightforward letter, more or less business-like in tone, which tells of the opportunity to establish a memorial in the Clinics.

Number Two is for persons who have already contributed to the University for other purposes and who might be interested in this particular plan.

Number Three is somewhat sentimental in tone and emphasizes the human need which we are endeavoring to meet.

If any of you think of persons who might be interested in making memorial gifts to the Clinics, I shall be glad if you will write directly to such persons, or if you do not feel like doing this, send me their names. In order to avoid the danger of duplication, I suggest that before writing to any one, you call up Mr. Haynes' office and make sure that a letter has not already been sent.

Yours cordially,

Frederic Woodward

CLINICS LETTER No. 1

The University of Chicago is instituting, for the benefit of the University Clinics on the Midway, the approved practice of naming rooms and beds in memory of persons designated by donors of funds for the support of the Hospitals. Such "living memorials," which not only suitably perpetuate the memory of a beloved relative or friend but at the same time provide for the alleviation of the suffering of others, make double appeal.

As you probably know, our Clinics are part of what is becoming one of the notable medical centers of the country, likely to maintain a permanent place of usefulness in the care of the sick and of leadership in the discovery of the causes of disease. Some of the more important features are described in a pamphlet which is enclosed with this letter.

A contribution of \$10,000 to the Clinics will entitle the donor to name a memorial room; one of \$5,000 will carry the privilege of naming a memorial bed. In each case an appropriate tablet will be placed in the building to testify to the memorial.

If this plan interests you, a contribution at the present time will be especially helpful. For we are in urgent need of assistance. The cost of maintaining the Hospitals, including the new unit for children, will exceed by \$250,000 a year the income received from patients. Toward meeting this estimated deficit \$200,000 a year has been pledged or is in sight, but these pledges are contingent on our securing the remaining \$50,000 for five years. A contribution from you, therefore, will help us not only to care for patients who cannot pay the full cost of our service to them, but to fulfill the condition of the pledges already received, or reasonably certain, for that purpose.

I shall be glad to call on you at your convenience if you desire further information.

Sincerely yours,

Acting President

CLINICS LETTER No. 3

In our new Hospitals on the Midway, we are endeavoring to provide medical hospital service at moderate cost to the patient. Many applicants for admission, however, are unable to pay the actual expenses incurred by the University in taking proper care of them. These applicants are self-respecting and worthy men and women who are glad to pay what they can. Often they are in urgent need of the most skillful medical or surgical assistance; their suffering and their anxiety make an irresistible appeal to the admitting officer. And they are admitted in faith that the University can find friends willing to supply that part of the cost they cannot meet.

The results are a service to humanity and a serious financial deficit. For our Hospitals are not endowed, and it is estimated that the cost of maintaining them will exceed by \$250,000 a year the income derived from patients. Fortunately, there are friends of the University who have pledged \$200,000 a year for five years to meet this deficit. But their pledges are contingent on our securing the remaining \$50,000 a year for five years. Will you not assist us in this emergency by helping, without their knowledge, useful but unfortunate people to obtain relief from suffering and restoration of health? I cannot imagine a finer service.

Mr. J. Spencer Dickerson,
Chicago, Ill.

Dear Sir:

So great a crisis has arisen through the pardoning of criminals by the Governor of Illinois that the directors of the Illinois Manufacturers' Association are seriously concerned. The policy being pursued by Governor Small through his wholesale penitentiary deliveries will wreck the very foundation of our commonwealth if permitted to continue.

The pardoning of the South Chicago socialists and labor agitators Friday, August 7, caps the climax. This flagrant miscarriage of justice is an important factor in the crime situation which we face in Illinois today.

The condition of affairs is so serious that directors of the Illinois Manufacturers Association feel warranted in making an especial appeal to all law abiding citizens, asking for their moral support and encouragement and active co-operation.

We want the Governor to know how the people of Illinois stand in this matter and enclose herewith a copy of the protest which has been forwarded to the chief executive by the directors of our association. Won't you please back up our action by circulating similar protests and obtaining the signatures of citizens of all classes as well as organizations, churches, clubs, fraternal societies, etc., and forward to this office as soon as completed?

Please see or communicate with the State's Attorney of your county and discuss the policy of Governor Small with other county and municipal officers and do everything in your power to arouse public sentiment to the danger which confronts our state.

Yours very truly,

Charles Piez

Dear Sir:

Think of buying a five acre block at a price equal to \$98 per lot and having four years to pay for it, without paying any interest for one year. Full acres equal to eight city lots for \$995, with a small amount down and the balance payable at \$20 per month. Half acres will be sold for \$595 on terms of \$125 down, and the balance at \$10 per month.

We doubt that so great an opportunity to invest so little to make so much, has ever been offered before. It is not the amount of money you invest, but the location you invest it in that counts.

This is a first invitation to be there on the big day. We cannot possibly broadcast the exact location and date of sale, because the information would result in an unlimited crowd which would choke up all facilities furnished. We will agree, however, upon receipt of the enclosed card, giving your full name and address, to immediately send you complete information without the slightest obligation on your part. Otherwise, the sale will be on and over before you hear from us again.

It will be a great day. For the first time in the history of the Chicago Metropolitan District, this beautiful part of the North Shore will be opened to public distribution. Near the lake, beautifully wooded and right on transportation. Stores, schools and churches already adjoin it.

Luncheon of the very finest cuisine obtainable will be served throughout the day. Special trains and large luxurious North Shore Line parlor car busses have been chartered. Round trip tickets will be cheerfully furnished upon application. "Rain or Shine" everything has been prepared for the comfort of our guests, and ALL without the slightest obligation to any visitor.

All titles are guaranteed by the Chicago Title and Trust Company. It will cost you nothing to send us the enclosed government card for full particulars. Examine the diagram of the large properties that will go for only a few hundred dollars.
