

The University of Chicago

Office of the Auditor

Board
C-75

January 30, 1929.

My dear Mr. Woodward:

At the meeting of the Committee on Press and Extension yesterday it was proposed that a memorial volume of the Journal of Geology be issued in commemoration of Professor Chamberlin's long service, and also that an index be prepared and printed to cover the first thirty-five volumes of this journal. It is estimated that the net amount required will not be in excess of \$1,750. Mr. Steere agreed with me that it would be desirable to ask you to secure this designation from the ^{special} Rosenwald Fund, and the Committee approved the projects provided funds could be found. I understand from our telephonic conversation today that you are willing to request an appropriation of not to exceed \$1,750. from the Rosenwald Fund for the purposes mentioned, and on the basis of this assurance I am notifying Mr. Bean that he may proceed. Will you please bring the matter to the attention of the Board at its next meeting?

Yours very truly,

W. D. Huntington

Mr. F. C. Woodward,
Faculty Exchange.

Dear Rollin:

As Dear Mr. Penrose's approach I feel that I must not forget my small contribution to the work of the Journal of Geology which I have made for some years past. I am therefore enclosing my check for Mr. Rollin Chamberlin has sent in your check for \$500 which is to be used in support of the Journal of Geology, and has told me how very much it means to have this addition to his budget. I join with him in expressing to you our deep appreciation of your generosity.

I have made this check payable to the University of Chicago, as you asked me to do on a previous occasion.

Sincerely yours,

Max Mason

With kindest regards to you and your father, I am

President

Mr. F. R. Stearns

Dear President

I enclose a letter from Mr. R. A. F. Penrose, Jr., together with his check for five hundred dollars which he has generously contributed to the work of the Journal. The subsidy which the "Journal" receives has long been inadequate to maintain its standards on account of the greatly increased cost of paper. I have seen the "Journal" deteriorate, Dr. Penrose has been in the habit of contributing five hundred dollars a year towards its maintenance. Last year this item in some way got into "Science" although Dr. Penrose said nothing about it, I know that he is a very unostentatious giver and would prefer not to have such a public mention made of his gift.

Respectfully yours,

(Signed) Rollin T. Chamberlin

Dear Rollin:
Dear President Mason:

I inclose a letter from
As the end of the year approaches I feel that I must not forget my small contribution to the work of the Journal of Geology which I have made for some years past. I am therefore enclosing my check for five hundred dollars (\$500.00) which I hope may be of some little use to you, either in increasing your printed matter, or in helping you out with illustrations. I can only too well realize how many articles that I have seen in the past, and sometimes one has written myself, would have been greatly improved by a few extra dollars illustrations or plates. Last year this

item in some way got into "Science". Although I have made this check payable to the University of Chicago, as you asked me to do on a previous occasion, and would prefer not to have such a public mention made of his gift. With kindest regards to you and your father, I am

Sincerely yours,

Dear President Mason:

Very truly,
Philip

I enclose a letter from Dr. A. E. H. Jones, Jr. together with a check for five hundred dollars which he has generously contributed to the work of the "Journal of Geology". The subsidy which the "Journal" receives has long been inadequate to maintain its standards on account of the greatly increased costs. Rather than see the "Journal" deteriorate, Dr. Jones has been in the habit of contributing five hundred dollars a year towards its maintenance. Last year this item in some way got into "Schenck". Dr. Jones said nothing about it, I know that he is a very unostentatious man and would prefer not to have such a public mention made of his gift.

Respectfully,
Philip
