Dr. Burroughs presented his report, as President of the University.

The report was accepted and referred to the Executive Committee.

That the Minutes adopted by the Faculty upon the death of Prof.

Proceedings on late Dr. S. S. Scammon, be adopted by this Board and placed upon the death of S. S. Scammon.

In the interval of the services of the Board, Prof. Leavenworth Scammon, of the Scammon Professorship of Botany, having been away from among us, though the terms of his association with us have short, it was thought greatly desirable how this associate, both in the Faculty and the Trustees, could be left with us. No leading infirmity of a man of the highest reputation of character, of knowledge and commanding ability in his chosen profession, can of himself be unavoidable in every relation of life. The single course of action, which we all that he used to obtain his duties as Professor of Botany, was to secure with such form, our measure such enthusiasm among the students, as you know had no life but prolonged, of a distinguished career as a teacher of that beautiful science to which he had dedicated many of his best years. It is a lesson, a friend, one in fellow-worker in the cause of learning, the University and faculty of Harvard will bear these cause to remember with gratitude and honor the name of Professor Leavenworth Scammon.
