LAW STUDENTS, - - - - 52.

GENERAL ADVANTAGES.

The superior facilities furnished by Law Schools, for instruction in the science and practice of Law, are now fully appreciated by the profession and the public.

A regular, systematic course of study, under experienced teaching, is admitted to be as indispensable to the attorney, as to the medical or theological student. Experience has shown that a better preparation for the Bar may be had in the Law School in one year, than is ordinarily obtained in an office in two or three. In an office the student usually receives but little attention. The distinguished counsellor is too exclusively and too profitably employed with his clients to afford the necessary time, even if he have the necessary patience or skill, to solve the doubts of the student, who, amid ceaseless embarrassments and interruptions, blindly gropes his way through the pages of Coke and Blackstone.

The force of these considerations has been keenly felt in the West, where, till lately, there has been no school of preparation for the Bar; and, therefore, to fill this chasm in our educational institutions, and furnish an opportunity for a thorough training, without the expense of traveling abroad for the purpose, this school has been established.

PLAN OF INSTRUCTION.

The training of a lawyer, in order to secure complete success, should be of a three-fold character. First—he should have a critical acquaintance with the principles of Law, as a science; secondly—the power to make a ready application of those principles in practice as an art; and, lastly—a graceful elocution—a fluent, easy, and forcible style of extemporaneous speech, without which, however solid his acquirements, it is scarcely possible for him to attain eminence at the Bar.

The plan of the School contemplates the attainment of the several objects in the mode best adapted to each. For the mastery of the science, reliance is placed upon the reading of the best legal works, under proper instructions, together with daily examinations in the classes upon the subjects studied. For the sake of variety, lectures, also, are given in certain departments of jurisprudence, but not to such an extent as to form a prominent feature of the plan.

There are, at all times, in the school, three regular classes, according to the different degrees of proficiency; and each student is at liberty to attend in any one or all of the classes. The professors meet each of these classes in the lecture room daily, for an examination or lecture, devoting from three to four hours to the various exercises.

In order that the students may be versed in the practice of Law, Moot

Courts are held. In these he is familiarized with the application of legal remedies and the different forms of actions, the bringing of suits, the drawing of papers and pleadings, and with all the various steps and stages in the preparation of a cause for trial; then with the trial, involving the application of the rules of evidence; with the argument of counsel, the charge, the verdict, motion in arrest of judgment, writ of error, etc. In all these various stages the forms of a real case are preserved; and as the trial takes place in the presence of the class, who act in the capacity of counsel, jurors, witnesses or officers of the court, and before the professor, who sits as judge, with the double object of illustrating important legal principles, as well as explaining the rules of practice—it is easy to see that the exercises become in a high degree interesting and profitable.

Besides this, the student is also instructed from time to time in the drawing of contracts, deeds, wills, and all the legal forms usual in an attorney's office.

Lastly, to impart the grace of a finished elocution, and an easy, forcible style of extemporaneous delivery, declamations, drill speeches, and debates, under the instruction of a professor, will form a part of the exercises of the school.

A Congress, comprising a Senate and House of Representatives, with speakers, committees, etc., has been organized by the students, which holds its sessions once a week, for the discussion of subjects of governmental policy, thus affording additional opportunities for practice in speaking, as well as for becoming acquainted with parliamentary rules and tactics.

TERMS, DIPLOMAS, ADMISSION TO THE BAR, ETC.

There are three terms in the year, of thirteen weeks each. The first term begins on the third Wednesday in September; the second, on the first Wednesday in January; and the third, on the second Wednesday in April. A full course of study occupies two years, or six terms, embracing the various branches of the common, equity, admiralty, commercial, international, and constitutional law, and the jurisprudence of the United States. There is also a less extensive course of commercial jurisprudence for those intending to devote themselves to commercial pursuits. At the close of the collegiate year there is a public examination in the presence of the Faculty and Trustees of the University, when each student who has attended the exercises of the School for three full terms, is admitted to examination, and if qualified to practice, receives the degree of Bachelor of Laws.

TUITION FEES.

In order to place the benefits of the Institution within the reach of as many young men as possible, it has been determined to reduce the tuition to the lowest rates at which it can be afforded. Hereafter the student

will be charged for a single term, \$30; for two terms, \$55; and for the three terms, or a school year, \$75; in each case payable in advance. The graduating fee will be \$10. In special cases, time will be given for the payment of tuition, upon satisfactory security. Students who enter for a part of a term pay in proportion to the time spent in school. Those who wish to pursue a partial course of study, will be received on reasonable terms. No other preparation is required than a good, common English education.

COURSE OF READING.

A well selected course of reading has been adopted, comprising the best elementary works and digests in the several departments of Law and Equity. The Text Books are as follows:

INTERNATIONAL LAW—

Kent's Commentaries, vol 1, p. 1—200.
Woolsey's International Law.

Books of Reference—

Vattel's Law of Nations.
Wheaton's International Law.
Grotius on the Laws of War and Peace.

COMMENTARIES—

Blackstone (Cooley's), 4 Books.
Kent, 4 Vols.

CONSTITUTIONAL LAW—

Kent's Commentaries, Vol. 1, p. 204—484.
Sedgwick on Constitutional Law.

Books of Reference—

The Federalist.
Story on the Constitution.

REAL ESTATE—

Blackstone, Book II.
Washburn on Real Property, 3 Vols.
Statutes of Frauds and of Uses.

Books of Reference—

Adams on Ejectment.	Jarman on Wills.
Angell on Water-courses	Preston on Estates.
Coke upon Littleton.	Preston on Conveyancing.
Coote on Mortgages.	Saunders on Uses and Trusts.
Cruise on Real Estate, (Greenleaf)	Sugden on Powers.
Dart on Vendors.	Sugden on Vendors and Purchasers.
Hilliard on Real Property.	Taylor's Landlord and Tenant.
Hilliard on Mortgages.	

COMMERCIAL AND MARITIME LAW—

Parsons's Mercantile Law.
Story on Partnership.
Story on Promissory Notes.

Books of Reference—

Abbott on Shipping.	Duer on Insurance.
Benedict's Admiralty.	Edwards on Bills and Notes.
Byles on Bills.	Edwards on Bailments.
Collyer on Partnership.	Phillips on Insurance.
Conkling's Admiralty.	Story on Bailment.

PERSONAL PROPERTY, PERSONAL RIGHTS, AND CONTRACTS—

Parsons on Contracts, 3 Vols.
Story on the Conflict of Laws.

Books of Reference—

Angell and Ames on Corporations.	Roper on Husband and Wife.
Bingham on Infancy and Coverture.	Roper on Legacies.
Bishop on Marriage and Divorce.	Story on Sales.
Chitty on Contracts.	Selwyn's <i>Nisi Prius</i> .
Long on Sales.	Stephen's <i>Nisi Prius</i> .
Reeves's Domestic Relations.	Williams on Executors.

PLEADING AND PRACTICE—

Stephen on Pleading.	Chitty on Pleading.
Gould " "	Tidd's Practice.

Books of Reference—

Conkling's United States Practice.
Saunders on Pleading and Evidence.

EVIDENCE—

Greenleaf's Evidence, 3 Vols.

Books of Reference—

Phillips on Evidence.

EQUITY JURISPRUDENCE AND PRACTICE—

Williard's Equity Jurisprudence.
Barbour's Chancery Practice.

Books of Reference—

Adams's Equity.	Hill on Trustees.
Daniell's Chancery Practice.	Hoffman's Chancery Practice.
Eden on Injunctions.	Story on Equity Jurisprudence.
Fonblanque's Equity.	Story on Equity Pleadings.

CRIMINAL LAW—

Blackstone's Commentaries, Book IV.
Wharton's American Criminal Law.

Books of Reference—

Archbold's Criminal Law.
Barbour's Criminal Law.
Russell on Crimes.

Students will find their own books, and arrangements have been made by which they may be supplied at the lowest trade prices. Many of the students obtain the use of books from the numerous law offices in the city, on favorable terms. Those who buy their books usually prefer to

retain them, and thus begin a library; but, if they choose, they can sell them at the close of each term, at slightly reduced prices, in which case the net expense for books will be small.

BOARDING.

Good board may be had, in ordinary times, in boarding houses and private families, at fair prices, varying from \$4 to \$6 per week. Students who desire to economize can club together, hire a room, and board themselves at less expense.

ADVANTAGES OF LOCATION.

The location of the School, in the heart of the great Metropolis of the Northwest, within a few rods of the Court House, and in the immediate vicinity of the Courts, State and Federal, which are almost constantly in session, afford to the student who wishes to become acquainted with every phase and variety of business, advantages unsurpassed by those of any similar institution in the United States. The School Room is in the Oriental Building, No. 122 LaSalle Street.

CONNECTION WITH THE UNIVERSITY.

This School is a branch of the University of Chicago, and the students are admitted free to the libraries of the University, and to all public lectures delivered to undergraduates in the Literary Department.

Students in the Law Department can also unite with any of the regular classes at the University, and pursue any of the studies taught there, without additional charge.

The Students are also admitted, on certificate of the Dean of the Faculty, to the large Law Library of the Chicago Law Institute, located in the Court House.

Communications should be addressed to J. A. Hunter, Esq., Counsellor at Law, 155 Washington Street, Chicago, Ill.

COLLEGIATE DEPARTMENT.

FACULTY.

REV. JOHN C. BURROUGHS, D. D., LL. D., PRESIDENT,
AND PROFESSOR OF MORAL AND INTELLECTUAL PHILOSOPHY.

JAMES R. BOISE, PH. D., LL. D.,
PROFESSOR OF THE GREEK LANGUAGE AND LITERATURE.

PROFESSOR OF MATHEMATICS.

WILLIAM MATHEWS, LL.D.,
PROFESSOR OF RHETORIC AND ENGLISH LITERATURE.

ALONZO J. HOWE, M. A.,
PROFESSOR, AND PRINCIPAL OF THE PREPARATORY DEPARTMENT:
ACTING PROFESSOR OF MATHEMATICS.

J. WILLIAM STEARNS, M. A.,
PROFESSOR OF THE LATIN LANGUAGE AND LITERATURE.

TRUMAN HENRY SAFFORD, B. A.,
PROFESSOR OF ASTRONOMY, AND DIRECTOR OF THE DEARBORN OBSERVATORY.

HENRY BOOTH, M. A.,
HOYNE PROFESSOR OF INTERNATIONAL AND CONSTITUTIONAL LAW.

I. W. FOSTER, LL.D.,
LECTURER ON COSMICAL PHYSICS.

C. GILBERT WHEELER, PH. D.,
PROFESSOR OF ANALYTICAL AND APPLIED CHEMISTRY.

PROFESSOR OF GEOLOGY AND MINERALOGY.

JOHN C. FREEMAN, M. A.,
TUTOR IN GREEK AND LATIN.

C. E. RICHARD MULLER, B. A.,
TUTOR IN GERMAN.

WM. A. METCALF, M. A.,
TUTOR IN MATHEMATICS.

E. M. BOOTH, M. A.,
INSTRUCTOR IN ELOCUTION.

H. H. HOLMES,
INSTRUCTOR IN DRAWING.

Instruction in Spanish, Italian, and the Scandinavian languages, will be given to any who desire it, by Professor Wheeler.

Instruction in French has been given, during the past year, by Professors Mathews and Boise.

James B. Wilson	- - - - -	Chicago.

STUDENTS IN PARTIAL COURSES, - 19.

I.—CLASSICAL COURSE.

REQUIREMENTS FOR ADMISSION.

Candidates for admission to the Freshman Class in the Classical Course are examined in the following studies:

English Grammar and Analysis.

Geography—Ancient and Modern.

History of the United States.

Arithmetic, Algebra through Quadratic Equations, and books I. to IV. of Davies' Legendre, or an equivalent. Algebra to Quadratic Equations will not be reviewed in the course and must be thoroughly learned from a University Treatise.

Boise's First Greek Book.

Hadley's Greek Grammar.

Xenophon's Anabasis—three books.

Three chapters of Boise's Greek Prose Composition.

Latin Grammar and Reader.

Four books of Caesar's Commentaries; or, Cornelius Nepos.

Six Orations of Cicero.

Six Books of Virgil's *Æneid*.

Harkness's Introduction to Latin Composition, first and second parts; or forty-four exercises of Arnold's Latin Prose Composition.

Candidates for advanced standing, whether from other Colleges or not, are examined in the studies previously pursued by the class which they propose to enter.

No person under fifteen years of age will be admitted to the Freshman Class, nor will any one be admitted to an advanced standing without a proportionate increase of age.

Testimonials of good moral character are required in all cases; and every student from another College must produce a certificate of regular dismissal.

To prevent disappointment to the applicant, it should be distinctly understood that a thorough knowledge of the prescribed studies is more likely to insure admission, and to enable the student to reap the full benefits of the Collegiate Course, than a superficial acquaintance with some higher branches of literature and science. A critical knowledge of *Arithmetic, Elementary Algebra and Geometry, and the Grammars of the English, Latin and Greek languages, is indispensable.*

FRESHMAN CLASS.

FIRST TERM.

1. *Greek*.—Selections from Xenophon's *Memorabilia* (Robbins's edition). Boise's Greek Prose Composition. Hadley's Grammar.
3. *Latin*.—Livy (Lincoln's Selections.) Latin Prose Composition. Liddell's History of Rome.
3. *Mathematics*.—Algebra from Quadratic Equations through the Binomial theorem.
4. *German*.—Optional.

SECOND TERM.

1. *Latin*.—Odes of Horace. Latin Prose Composition. Roman History.
2. *Mathematics*.—Chauvenet's Geometry. Chauvenet's Plane Trigonometry.
3. *Greek*.—Selections from Thucydides (Owen's edition). Boise's Greek Prose Composition. Hadley's Grammar. Grecian History (Dr. Wm. Smith's). Geography in connection with the lessons in Thucydides.
4. *German*.—Optional.

THIRD TERM.

1. *Mathematics*.—Geometry of three dimensions, Navigation, Mensuration, Field Practice in Surveying.
2. *Greek*.—Selections from Thucydides continued, and in connection with them Essays by the class on the leading characters and events in the fifth century B. C. Grecian History and Geography continued. Greek Composition, one lesson a week. Hadley's Grammar.
3. *Latin*.—Odes of Horace. Latin Prose Composition. Roman History.
4. *German*.—Optional.

SOPHOMORE CLASS.

FIRST TERM.

1. *Mathematics*.—Algebra completed. Surveying.
 2. *English*.—Fowler's English Grammar. Trench on the Study of Words.
 3. *Greek*.—Homer's *Iliad* (1st, 2nd, 3rd, and 6th books) (Boise's edition). Hadley's Grammar—The Dialects. Outlines of Grecian History to the fifth century B. C. Essays by the class on topics connected with the study of Homer.
- Latin*.—Satires of Horace.

SECOND TERM.

1. *Latin*.—Quintilian. Exercises in Writing Latin.
2. *Mathematics*.—Modern Geometry, Analytical and Synthetical.
3. *History*.—Weber.
4. *German*.—Optional.

THIRD TERM.

1. *Rhetoric*.—Whately and Campbell.
2. *Mathematics*.—Spherical Trigonometry with applications to Astronomy
Natural History.—Botany (Gray).
3. *Greek*.—The Antigone of Sophocles, or some other Greek tragedy
(Woolsey). Essays by the class, chiefly critiques on the principal
Greek plays. Grecian History continued.
Latin.—Juvenal. Exercises in writing Latin.
4. *German*.—Optional.

JUNIOR CLASS.

FIRST TERM.

1. *Metaphysics*.—Sir William Hamilton. Lectures.
2. *Physics*.—Natural Philosophy (Atkinson's Ganot).
3. *Latin*.—Tacitus's History. Latin Exercises and Extemporalia.
Greek.—Demosthenes de Corona commenced (Champlin).
4. *French*.—Optional.

SECOND TERM.

1. *Metaphysics*.—The Will. Lectures.
English Literature.—Shaw. Lectures.
2. *Chemistry*.—Parker's Elements of Chemistry.
3. *Greek*.—Demosthenes de Corona completed. Essays by the class on
the leading events in the fourth century B. C., and other topics
connected with the study of oratory.
4. *French*.—Optional.

THIRD TERM.

1. *Cosmical Physics*.—Astronomy begun.
Latin.—Horace. Epistles, and Art of Poetry. Exercises in writing
Latin and Extemporalia.
2. *Natural History*.—Zoology, Anatomy and Physiology (Milne Edwards).
3. *Chemistry*.—Lectures.

SENIOR CLASS.

FIRST TERM.

1. *History*.—Guizot's History of Civilization.
2. *English*.—Marsh's Lectures on the English Language.
3. *Natural History*.—Geology and Mineralogy (Dana).
4. *Cosmical Physics*.—Astronomy Completed.

SECOND TERM.

1. *Greek*.—Selections from Plato (Tyler's Apology and Crito.) Essays by
the class on the leading philosophers and philosophical systems of
the Ancient World.
2. *Natural History*.—Geology and Mineralogy completed.
3. *Logic*.—McCosh.
Evidences of Christianity.
4. *Ethics*.—Wayland's Moral Science. Butler's Analogy. (Malcolm's
edition.)

THIRD TERM.

1. *History*.—History of England.
2. *Political Philosophy*.—Political Economy (Carey).
3. *Constitutional Law*.—Constitution of the United States. International
Law (Woolsey.)
4. *Greek*.—Plutarch De Sera Numinis Vindicta (Tyler & Hackett.) Op-
tional.

II.—SCIENTIFIC COURSE.

REQUIREMENTS FOR ADMISSION.

For the Scientific Course, students will be examined in the same studies as for the Classical, with the omission of Greek altogether, and of Latin, excepting the Latin Grammar and Reader, and four books of Cæsar's Commentaries, or Cornelius Nepos, and in the first part of Harkness's Introduction to Latin Composition. In College, they will use the same text-books as those in the Classical Course, so far as the two courses coincide.

FRESHMAN CLASS.

FIRST TERM.

1. *Mathematics*—Algebra, from Quadratic Equations through the Binomial Theorem.
2. *Latin*—Cicero. Harkness's Introduction to Latin Composition.
3. *German*—Ahn's Method. Wagner's German Reader.
4. *Drawing*.

SECOND TERM.

1. *Mathematics*—Chauvenet's Geometry. Chauvenet's Plane Trigonometry.
2. *Latin*—Virgil. Latin Prosody.
3. *German*—Ahn's Method. Wagner's Reader.
4. *Drawing*.

THIRD TERM.

1. *Latin*—Virgil. Latin Prosody.
2. *Mathematics*.—Geometry of Three Dimensions. Navigation. Mensuration. Field Practice in Surveying.
3. *German*—Heyse's Leitfaden zum grundlichen Unterricht. Fouque's Undine. Exercises from Ahn's Method.
4. *Drawing*.

SOPHOMORE CLASS.

FIRST TERM.

1. *Mathematics*.—Algebra completed. Elements of Analytical Geometry.
2. *English*.—Fowler's English Grammar. Trench on the Study of Words.
3. *German*.—Schiller's William Tell. German Composition. Heyse's Leitfaden.

SECOND TERM.

1. *History*.—Weber.
2. *Mathematics*.—Modern Geometry, Analytical and Synthetical.
3. *German*.—Tieck, Die Elfen, Das Rothkappchen. German Composition; Heyse's Leitfaden.

THIRD TERM.

1. *Rhetoric*.—Whately and Campbell.
2. *Mathematics*.—Spherical Trigonometry with applications to Astronomy. *Natural History*.—Botany.
3. *German*.—Gæthe's Egmont. German Composition. Heyse's Leitfaden.

JUNIOR CLASS.

FIRST TERM.

1. *Metaphysics*.—Hamilton. Lectures.
2. *Physics*.—Natural Philosophy.
3. *French*.

SECOND TERM.

1. *Metaphysics*.—Hamilton completed. *English Literature*.—Shaw. Lectures.
2. *Chemistry*.—Barker's. Lectures.
3. *French*.

THIRD TERM.

1. *Engineering*.—Civil Engineering. Linear and Topographical Drawing.
2. *Natural History*.—Zoology, Anatomy and Physiology (Milne Edwards.)
3. *Chemistry*.—Barker's. Lectures.
4. *Cosmical Physics*.—Astronomy begun.

SENIOR CLASS.

FIRST TERM.

1. *History*.—Guizot's History of Civilization.
English.—Marsh's Lectures on the English Language.
2. *Natural History*.—Geology and Mineralogy (Dana).
3. *Cosmical Physics*.—Astronomy completed.

SECOND TERM.

1. *Natural History*.—Geology and Mineralogy completed.
2. *Logic*.—McCosh.
Evidences of Christianity.
3. *Ethics*.—Wayland's Moral Science. Butler's Analogy (Malcolm's edition.)

THIRD TERM.

1. *History*.—History of England.
 2. *Political Philosophy*.—Political Economy (Carey).
 3. *Constitutional Law*.—Constitution of the United States. International Law (Woolsey).
- Compositions and declamations throughout the course.

III.—COURSE IN ASTRONOMY.

The Dearborn Observatory forms the Astronomical Department of the University. Its objects are to make original researches in Astronomical Science, to assist in the application of Astronomy to Geography, in communicating exact time, and other useful objects, and to furnish instruction in Astronomy to the students of the University, both those in the regular course and those who wish to give especial attention to the study.

The principal instruments of the Observatory are:

1. The great Equatorial Refractor, made by Alvan Clark & Sons, of Cambridge, Mass., the largest telescope in this country. This instrument is placed in the Dearborn Tower, built by the munificence of the Hon. J. Young Scammon, LL.D. The dimensions of the Equatorial are:

Diameter of Declination Circle, 30 inches.

Diameter of Hour Circle, 22 inches.

Focal Length of Object Glass, 23 feet.

Aperture of Object Glass, $18\frac{1}{2}$ inches.

The circles are read by two microscopes each, the hour circle to seconds of time, and the declination circle to ten seconds of space.

2. A meridian circle of the first class constructed by those eminent artists, Messrs. A. Repsold & Sons, of Hamburg. This instrument has a telescope of six French inches aperture, and divided circle of forty inches diameter; otherwise it is like Bessel's celebrated Königsberg circle, by the same makers, with some late improvements in the illumination of the field and the wires, and apparatus for registering declinations.

The Observatory has also a chronometer (Wm. Bond & Son, No. 279), a clock, by E. Howard & Co., a chronograph, by Gray & Barton, of Chicago, and an astronomical library.

The Course of Instruction includes:

1. Instruction in Astronomy to the Undergraduates (see Classical Courses).
2. In the determination of time, latitude and longitude, to students of the Engineering Course.
3. In higher Mathematics and Astronomy to such students as wish to prepare themselves for positions in Observatories, or other scientific establishments, or for professorships of mathematical departments in Colleges.

This will include instruction in the following subjects:

1. Modern Higher Geometry, applied to Conic Sections and Spherical Trigonometry.

2. Analytical Geometry and the Differential and Integral Calculus.
3. Spherical and Practical Astronomy.
4. The Method of Least Squares.
5. The Theory of the Motions of the Heavenly Bodies.

The authors chiefly referred to will be on the respective subjects:

1. Chasles, Steiner, Geiser.
2. Salmon, Courtenay, Petra.
3. Brunnow, Chauvenet.
4. Gauss.
5. Gauss, Encke.

Practical exercises with the instruments will take place regularly.

On those who shall pursue a full course of at least two years, shall have passed a satisfactory examination, and shall prepare an original thesis on some astronomical or mathematical subject, the degree of Bachelor of Science will be conferred.

ASTRONOMICAL STUDENTS.

Alice F. Conkey, B. A., (Lawrence University),	-	<i>Appleton, Wis.</i>
Sarah M. Glazier, B. A., (Vassar College, N. Y.),	-	<i>7 S. Morgan st.</i>
William M. Maryatt, - - - - -	-	<i>Observatory.</i>
Wm. A. Metcalf,* M. A., (Lawrence University, Wis.)	-	<i>University.</i>
Mary W. Whiting, B. A., (Vassar College, N. Y.)	-	<i>Waltham, Mass.</i>

*NOW ASSISTANT IN U. S. LAKE SURVEYS.

IV.—COURSE IN PRACTICAL CHEMISTRY.

During the present year arrangements were completed for the organization of a course in Practical Chemistry. In this Course provision is made for the thorough and comprehensive study of Chemistry as an art, in the belief that, aside from the practical relations of the Science, the educational effect of Laboratory practice is of great value. By such practice the senses are trained to observe with accuracy, and the judgment to rely with confidence on the proof of actual experiment.

In the Laboratory of this Department, under the direction of Professor Wheeler, aided by competent assistants, the student of Applied Chemistry will have ample opportunity of becoming practically familiar with the materials, apparatus, and processes of the more important Chemical arts and manufactures.

A systematic Course in Qualitative and Quantitative analysis will be followed by practical studies, with regard to the applications of Chemistry to Agriculture, Mining, Metallurgy, Assaying, Medicine, Pharmacy, Toxicology, Preservation of Timber, Meats, etc., Warming, Illumination, Ventilation, Photography, and other useful purposes. On those who shall complete a full course, requiring from two to three years' time, and who shall have passed a satisfactory examination, the degree of Bachelor of Science will be conferred. Certificates will be granted to students who do not graduate, stating the time they have been present, the studies pursued, and the progress made.

The Laboratory is quite new, and one of the best equipped in the West. The student will have ample opportunity of visiting the numerous manufacturing establishments of Chicago and vicinity, and witnessing important industrial applications of the science, the study of which he is pursuing.

TEXT-BOOKS AND WORKS FOR READING AND REFERENCE.

Craft's Qualitative Analysis.
 Eliot and Storer's Manual.
 Bowman's Practical Chemistry.
 Fresenius's Qualitative and Quantitative Analysis.
 Miller's Chemistry, Vols. II. and III.
 Richardson & Watt's Chemical Technology.

PRIZES.

JUNIOR CLASS.

The Myers and Chandler prizes, first and second, for excellence in Oratory and Composition combined in original orations, are open to competition by members of the Junior Class.

At the Commencement of 1870 these prizes were awarded as follows:

To George F. Arnold, of Chicago, a first prize.

To Charles R. Calkins, of Chicago, a second prize.

Committee of Award.—Prof. Henry Booth, LL.D., Jesse B. Thomas, D. D., V. B. Denslow, Esq.

SOPHOMORE CLASS.

The Griggs prizes, first and second, for excellence in English Composition, are open to competition by members of the Sophomore Class. Competitors for the prize must leave their essays at the President's office on or before the first day of June. Each essay must be signed with an assumed name, and accompanied by a sealed letter containing the true name of the writer, and superscribed with his assumed name.

The subjects for the next Academical Year are:

Is Genius Hereditary?

Character of Frederic I., Emperor of Germany.

At the Commencement of 1870 these prizes were awarded as follows:

To Frank H. Levering, of Lafayette, Ind., a first prize.

To Alfred B. Price, of Cassopolis, Mich., a second prize.

Committee of Award.—Melville W. Fuller, Esq., Charles H. Reed, Esq., Joseph E. Smith, Esq.

FRESHMAN CLASS.

The Keen prizes, first and second, for Excellence in Declamation, are open to competition by members of the Freshman Class. The competition for these prizes will take place on the Monday evening preceding Commencement.

At the Commencement of 1870 these prizes were awarded as follows:

To Charles D. Armstrong, of Morris, a first prize.

To Byron L. Aldrich, of West Salem, Wis., a second prize.

Committee of Award.—L. D. Boone, J. O. Brayman, C. H. Roe, D. D.

GENERAL INFORMATION.

TERMS AND VACATIONS.

The year is divided into three terms and three vacations. The first term consists of fifteen weeks; the second and third of twelve weeks each. The Christmas vacation is two weeks; the Spring vacation one week; and the Summer vacation ten weeks.

COMMERCIAL INSTRUCTION.

To meet the practical wants of the different classes of students, the Trustees have made arrangements for regular instruction in Penmanship, Book-keeping, and other branches essential to a good commercial education.

ELECTIVE STUDIES.

Students may reside at the University and pursue studies, for a longer or shorter time, in any of the classes, at their own election; subject, however, to the regulations of the Faculty.

LECTURES.

In connection with the regular recitations, lectures are delivered on the following subjects: Chemistry, Natural Philosophy, Geology, Astronomy, Anatomy and Physiology, Zoology, Mental and Moral Philosophy, Greek, History and Literature, Roman History and Literature, Verbal Criticism, and History of the English Language.

RHETORICAL EXERCISES.

The College Classes have exercises in Composition, once in three weeks. Instruction in Elocution is given to all the students, and declamations are required of all.

EXAMINATIONS.

At the close of every term there are public examinations of all the classes, in both the Collegiate and Preparatory Departments.

DEGREES.

The Degree of Bachelor of Arts is conferred upon all students who have completed the prescribed Classical Course of study, and passed a satisfactory examination therein; and the Degree of Bachelor of Science upon all who have completed the Scientific Course, and passed a similar examination.

Bachelors of Arts of three years' standing may receive the Degree of Masters of Arts, provided that since graduation they have sustained a good moral character, and pursued some literary or scientific calling.

SOCIETIES.

There are three Societies in the University, conducted by the students, two Literary, and one Religious.

RELIGIOUS EXERCISES.

The duties of each day are opened with religious services in the Chapel of the University, at which all the students are required to be present.

On the Sabbath they are required to attend public worship in the forenoon, with some congregation in the city, selected by themselves or by their parents. The students also sustain a weekly prayer meeting.

ILLUSTRATIVE APPARATUS.

The Lectures on Chemistry and Natural Philosophy are illustrated by modern apparatus. There are, also, moderate facilities for the illustration of Zoology, and other branches of Natural History.

The Library, to which the students have free access, contains about four thousand volumes, and is constantly increasing by valuable additions. Students will also have access to the very valuable theological and miscellaneous library, formerly belonging to the late Professor Hengstenberg, of Berlin, now placed in the University buildings.

LOCATION, BUILDINGS, Etc.

The location of the University is in the south part of Chicago, directly on the Cottage Grove line of the Chicago City Railway. The site was the gift of the late Senator Douglas, and is universally admired for its beauty and healthfulness. The building is unsurpassed for the completeness of its arrangements, especially of the students' rooms, which are in suits of a study and two bed rooms, of good size and height, and well ventilated. The accommodations of the University have been recently greatly enlarged by the completion of the main building, 136 by 72 feet, a structure erected at a cost exceeding \$117,000, and believed to be second in convenience and elegance to no other educational edifice in the country. In this building there are a large Chapel, rooms for the various

Scientific Departments, and also the Preparatory, spacious and airy recreation rooms, elegant suites for the Literary and Religious Societies, and additional dormitories for the students.

Through the liberality of the different railroads which centre at Chicago, classes have had the privilege of making frequent excursions into the country, in order to examine rock strata, and to collect specimens in Natural History. These explorations have extended, during past years, to Dubuque and Burlington, Iowa; to Kewanee, LaSalle and Quincy, Ill.; to the Wisconsin River, and along the Mississippi River, from McGregor to St. Louis.

BOARD AND ROOMS.

Students are furnished with board in the University Hall, at cost which, during the past year, has been \$4 per week. Several of the officers and their families reside in the building, and board at the same table with the students.

The rooms are arranged in suites, consisting of a study and two bedrooms. Rooms furnished with everything except carpets, sheets, pillow-cases and towels, are rented to students at the rate of fifty cents per week for each occupant. Unfurnished rooms are rented at fifteen dollars per annum for each occupant. Bedsteads, bedding and furniture in uncleanly condition, will be rigidly excluded. Habits of neatness and order are carefully enjoined on occupants of rooms. Damage to rooms or furniture, other than the ordinary wear, will be charged in the term bills.

Students who may prefer it, can obtain board in families on reasonable terms, or they may form clubs and provide for themselves.

EXPENSES PER ANNUM.

Board from \$1.50 (in Clubs) to \$4 per week	\$60.00 to \$160.00
Tuition.....	50.00 to 50.00
Room rent.....	15.00 to 20.00
Incidentals.....	6.00 to 8.00
Library fee, fifty cents per term.....	1.50 to 1.50
Total.....	\$132.50 to \$239.50

Students furnish their own fuel and lights. The use of kerosene is prohibited in the University building. Gas costs about fifty cents a week for each room, and fuel from \$10 to \$20 per annum for each student. Washing, sixty cents per dozen.

The rule of the Trustees requires all bills to be paid by the third day from the beginning of each term; and by a failure to comply with these terms, the student forfeits the privileges of the University.

Parents will take notice that the whole necessary expenses for one year, including wood, lights and washing, varies but little from \$300. This has been proved by the actual experience of students who practice economy. Any material variation from this amount may be regarded as unnecessary

PREPARATORY DEPARTMENTS.

PREPARATORY DEPARTMENT OF THE UNIVERSITY.

The Trustees of the University have deemed it advisable to include among its fundamental and permanent arrangements a Preparatory Department. It will be their aim to make this department a first-class school of preparation for College.

The Professors of the University have charge of the instruction in the studies belonging to their several departments.

The requirements for admission are Reading, Writing, Spelling, Intellectual Arithmetic, Practical Arithmetic, English Grammar and Geography.

The requisite studies have been arranged in a course of three years for classical, and two years for scientific students, as appears by the following schedules:

CLASSICAL COURSE.

FIRST YEAR.

- | | | |
|--------------|---|---|
| FIRST TERM. | { | <i>Latin</i> .—Harkness's Introductory Latin Book commenced. |
| | { | <i>Mathematics</i> .—Robinson's Elementary Algebra. |
| SECOND TERM. | { | <i>Latin</i> .—Harkness's Introductory Latin Book completed. Harkness's Grammar and Reader. |
| | { | <i>Mathematics</i> .—Robinson's Elementary Algebra. |
| | { | <i>Latin</i> .—Harkness's Grammar and Reader. |
| THIRD TERM. | { | <i>Mathematics</i> .—Robinson's Elementary Algebra completed. |
| | { | <i>Drawing</i> .—Elements of Geometrical and Perspective Drawing three times a week. |

SECOND YEAR.

- | | | |
|-------------|---|--|
| FIRST TERM. | { | <i>Greek</i> .—Hadley's Greek Grammar commenced. |
| | { | Boise's First Greek Book. |
| | { | <i>Latin</i> .—Harkness's Grammar. |
| | { | Arnold's Cornelius Nepos. |
| | { | Harkness's Introduction to Latin Composition |

UNIVERSITY OF CHICAGO.

39

- | | | |
|--------------|---|--|
| SECOND TERM. | { | <i>Greek</i> .—Hadley's Greek Grammar continued. |
| | { | Boise's First Greek Book. |
| | { | <i>Latin</i> .—Harkness's Grammar and Cornelius Nepos continued. Harkness's Introduction to Latin Composition. |
| THIRD TERM. | { | <i>Greek</i> .—Hadley's Grammar continued. |
| | { | Xenophon's Anabasis (Boise's edition) three times a week. |
| | { | Greek Prose Composition twice a week. |
| | { | <i>Latin</i> .—Cornelius Nepos. Latin Composition. |

THIRD YEAR.

- | | | |
|--------------|---|---|
| FIRST TERM. | { | <i>Greek</i> .—Hadley's Grammar. |
| | { | Xenophon's Anabasis three times a week. |
| | { | Greek Prose Composition twice a week. |
| | { | <i>Latin</i> .—Select Orations of Cicero. |
| | { | Latin Composition. |
| | { | <i>Mathematics</i> .—University Algebra to Quadratic Equations. |
| SECOND TERM. | { | <i>Greek</i> .—Hadley's Grammar. |
| | { | Xenophon's Anabasis three times a week. |
| | { | Greek Prose Composition twice a week. |
| | { | <i>Latin</i> .—Virgil's <i>Æneid</i> . Latin Prosody. |
| | { | <i>English</i> .—History of the United States. |
| THIRD TERM. | { | <i>Greek</i> .—Hadley's Grammar. |
| | { | Xenophon's Anabasis three times a week. |
| | { | Greek Prose Composition twice a week. |
| | { | Ancient Geography. |
| | { | <i>Latin</i> .—Virgil. Latin Prosody. Latin Composition. |
| | { | <i>Mathematics</i> .—Chauvenet's Geometry, Books I. to III., inclusive. |

Instruction in Penmanship, Book-keeping and Elocution will be given during the course.

GREEK.—The preceding course of study is recommended to these who are preparing for this University at other places. As a substitute, however, for Hadley's Grammar, either Goodwin's, Kuhner's or Crosby's Grammar, or Kendrick's revision of Bullion's Grammar is accepted; and as a substitute for Boise's First Greek Book, either Whiton's Companion Book, or Kuhner's Elementary Greek Grammar with exercises, or Kendrick's Greek Ollendorff, or Harkness's or Crosby's First Book in Greek is accepted.

LATIN.—Andrews & Stoddard's, or Bullion & Morris's Latin Grammar will be accepted as a substitute for Harkness's Grammar. The first and second parts of Harkness's Introduction to Latin Composition, or the first forty-four exercises of Arnold's Latin Prose Composition should be thoroughly mastered by the student. These exercises should be first written and afterwards translated orally. In connection with the study of Virgil Latin Prosody should be learned, and the differences between prose and poetical constructions carefully noted.

SCIENTIFIC COURSE.

FIRST YEAR.

- FIRST TERM. { *Mathematics*.—Robinson's Elementary Algebra.
Latin.—Harkness's Introductory Latin Book com-
 menced.
- SECOND TERM. { *Mathematics*.—Robinson's Elementary Algebra.
Latin.—Harkness's Introductory Latin Book completed.
 Harkness's Grammar and Reader.
- THIRD TERM. { *Mathematics*.—Robinson's Elementary Algebra com-
 pleted.
Latin.—Harkness's Grammar and Reader.

SECOND YEAR.

- FIRST TERM. { *Mathematics*.—Robinson's new University Algebra.
 Robinson's Higher Arithmetic.
Latin.—Harkness's Grammar. Cornelius Nepos.
 Harkness's Introduction to Latin Composition.
- SECOND TERM. { *Mathematics*.—Higher Arithmetic completed.
English.—History of the United States.
Latin.—Harkness's Grammar. Latin Composition.
 Cornelius Nepos.
- THIRD TERM. { *Mathematics*.—Chauvenet's Geometry, Books I. to III.
Physical Geography.
Latin.—Cornelius Nepos.
 Latin Composition.

STUDENTS NOT IN COURSE.

Students not wishing to prepare for College will be admitted into the Preparatory Department, to pursue such studies of the course as they may choose, under the regulations of the Faculty; and special classes will be formed for them when the Faculty shall find it expedient.

THIRD YEAR PREPARATORY STUDENTS.

Herman S. Alexander, sc.	-	60 Marshfield St.
Snow Alexander, sc.	-	"
William F. Bates, sc.	-	613 West Van Buren St.
Maurice Blumenfeld	-	92 Fourth Av.
Boganau	-	Bassein, Burmah.
Augustus C. Bowers†	-	Boone's Creek, Tenn.
Frederic S. Doggett, sc.	-	136 Thirty-first St.
John T. Green	-	Vandalia.
Zenas C. Hall	-	Tonica.
Stephen N. Hoiles, sc	-	Greenville.

PREPARATORY DEPARTMENT IN WISCONSIN.

THE institution hitherto known as Wayland University, located at Beaver Dam, Wisconsin, has passed under the control of the Board of Trustees of the University of Chicago, and will hereafter be conducted as a Preparatory Department of the University. This school has been in successful operation, during the past year, under the direction of Mr. J. A. MINER, a graduate of the University, assisted by Mr. EDWARD F. STEARNS and Miss WARDSWORTH. It is the design of the Trustees to make it in every respect worthy of public favor. Competent teachers will be employed, and a complete course of preparatory studies organized, thus affording to those who prefer not to send their sons to the city an opportunity of securing for them the best instruction and preparation for College. The school is open to young people of both sexes, and it is designed, as soon as practicable, to provide separate buildings for the department for young ladies, and to develop a complete collegiate course of studies, graduates from which shall receive the diploma of the University of Chicago. Classes in other branches of study, besides those required in preparation for College, will be organized as circumstances require.
