

Dup

UNIVERSITY OF CHICAGO,

1873-74.

JANSEN, McCLURG & Co.

The Best Books.

We offer the choicest and largest collection in the West of the Masterpieces of Literature,—“THE GOOD BOOKS OF TO-DAY, AND THE GOOD ONES OF ALL TIME,” in all varieties of editions and bindings, from the most modest and inexpensive to the finest productions of the English presses and binderies.

OUR SPECIALTIES ARE:

- I. Every School and College Text Book used in the West.
- II. The best books and best editions for public and private libraries.
- III. Splendid art works for the drawing room, or for wedding and anniversary presents.
- IV. Rare and curious editions of old and scarce works.
- V. The direct importations of fine and unusual foreign books.
- VI. The Choicest English, French and American Papers, Envelopes and Stationery, for Ladies and Gentlemen.

Teachers, Professors, School Officers,
CLERGYMEN AND LITERARY MEN,

Will be cordially welcomed to our new and beautiful store, and are invited to make it their resort while in Chicago.

JANSEN, McCLURG & CO.,

Importers, Booksellers and Stationers.

117 & 119 STATE STREET, CHICAGO.

THE LARGEST! THE CHEAPEST! THE BEST!

THE STANDARD.
WORCESTER'S

D. APPLETON & CO.'S PUBLICATIONS.

CORNELL'S GEOGRAPHIES.

Revised Edition—The Best, the Cheapest, the Most Popular.

New Primary Geography	\$0 90	New Physical Geography	1 60
New Intermediate Geography	1 50	Outline Maps	15 00

Surpass all others—1st, in Philosophical arrangement; 2d, in Gradual Progression; 3d, in Mode of Memorizing; 4th, in Full Explanation; 5th, in Agreement of Maps with Text; 6th, in Maps, Illustrations, Text and Execution; *in fine*, every feature of a good Geography.

MATHEMATICAL SERIES.

Appleton's Arithmetics.

Primary Arithmetic, 30 Mental Ar.	\$0 45	Practical Arithmetic	1 00
Elementary Arithmetic	0 50	Key to Prac. Arithmetic (for teachers) ..	0 20

These Books are new, and as perfect in all respects as care, thought, and labor can possibly make them, thoroughly graded, definitions simple, arrangement natural, methods shortest, best, and such as are used by business men.

ENGLISH GRAMMAR AND COMPOSITION.

Quackenbos's Primary Grammar	\$0 50	Quackenbos's Course of Composition and Rhetoric	1 50
Quackenbos's English Grammar	0 90	Bain's Composition and Rhetoric	1 75
Quackenbos's First Lessons in Comp'n, 0 90			

Brief and clear in definition, lucid in arrangement, happy in illustration, practical in exercises, full in explanation, and complete in every respect.

HISTORY.

Quackenbos's Elementary Hist. U. S.	\$0 75	Taylor's Ancient History	2 00
Quackenbos's School History U. S.	1 75	Taylor's Modern and Ancient History ..	3 50
Taylor's Modern History	2 00	Bayard Taylor's History of Germany ..	2 00

These Histories commend themselves to the people of the whole country. They are eminently fair on all questions of religion and politics; eschewing all prejudice, they carefully avoid any attempt to bias the young.

KRUSI'S INVENTIVE DRAWING.

Synthetic Series, four books	\$0 20	Analytic Series, six books, each	\$0 25
Manual	0 75	Manual	0 75

This system is simple and economical, and teachers unacquainted with drawing can teach it successfully. It begins as a system of free-hand drawing, and thus is of the greatest advantage to pupils for blackboard work, as well as for future field sketching.

SCIENTIFIC WORKS.

Allden's Int. Philosophy	\$1 25	Quackenbos's Natural Philosophy, (just revised)	1 75
Munsell's Psychology	1 50	Huxley & Youmans' Physiology	1 75
Nicholson's Geology	1 50	Youmans' First Book of Botany	1 00
" Zoology	1 75	" Second Book of Botany	1 50
Lockyer's Astronomy	1 75	Gillespie's Land Surveying	3 00
Youmans' Chemistry, 50th edition	1 75		

LATIN SERIES.

Harkness's Introductory Latin Book	\$1 25	Frieze's Virgil	2 00
Harkness's Elementary Latin Grammar ..	1 25	Sallust	1 75
Harkness's New Latin Grammar	1 50	Lincoln's Livy	1 75
Harkness's Int. to Latin Composition ..	1 50	Lincoln's Horace	1 75
Harkness's Caesar	1 50	Tyler's Tacitus	1 75
Johnson's Cicero	1 50	Arnold's Latin Prose Composition	1 50
Johnson's Nepos	1 50	Latin Testament	1 25

GREEK.

Hadley's Greek Grammar	\$2 00	Homer's Iliad	Owen's, 2 00
Whitton's First Lessons in Greek	1 50	" Odyssey	" 2 00
Harkness' First Greek Book	1 50	Thucydides, with Map	" 2 50
Arnold's Greek Prose Composition	1 50	Xenophon's Cyropædia	" 2 00
Boise's Greek Prose Composition	1 50	" Memorabilia	" 2 00
Boise's Xenophon's Anabasis (three books)	1 50	Plato's Apology, etc.	1 50
		Greek Testament	2 00

 Copies by mail. Address

A. S. KISSELL, Agent, 117 & 119 State St., CHICAGO.

William W. Norris		Marengo.
Francis Marion Williams		Nebraska City, Neb.
Charles Judson Roney		Cheviot, Ohio.
Granville Corey Shirk		835 Cottage Grove Av.
Nehemiah Jacob Wheeler		Marengo.

I.—CLASSICAL COURSE.

REQUIREMENTS FOR ADMISSION.

Candidates for admission to the Freshman Class in the Classical Course are examined in the following studies:

English Grammar and Analysis.

Geography — Ancient and Modern.

History of the United States.

Arithmetic, Algebra through Quadratic Equations, and books I. to VI. of Davies' Legendre, or an equivalent. Algebra to Quadratic Equations will not be reviewed in the course, and must be thoroughly learned from a University Treatise.

Boise's First Greek Book.

Hadley's Greek Grammar.

Xenophon's Anabasis — three books.

Greek Prose Composition. (Jones & Boise.) Part I.

Latin Grammar and Reader.

Four books of Cæsar's Commentaries, or, Cornelius Nepos.

Six Orations of Cicero.

Six books of Virgil's *Æneid*.

Harkness' Introduction to Latin Composition, first and second parts, or forty-four exercises of Arnold's Latin Prose Composition.

Candidates for advanced standing, whether from other colleges or not, are examined in the studies previously pursued by the class which they propose to enter.

No person under fifteen years of age will be admitted to the Freshman Class, nor will any one be admitted to an advanced standing without a proportionate increase of age.

Testimonials of good moral character are required in all cases, and every student from another College must produce a certificate of regular dismission.

To prevent disappointment to the applicant it should be distinctly understood, that a thorough knowledge of the prescribed studies is more likely to insure admission, and to enable the students to reap the full benefits of the Collegiate Course, than a superficial acquaintance with some higher branches of literature and science. A critical knowledge of *Arithmetic*, *Elementary Algebra* and *Geometry*, and the *Grammars of the English, Latin and Greek languages*, is indispensable.

UNIVERSITY OF CHICAGO.

FRESHMAN CLASS.

FIRST TERM.

1. *Greek*.—Selections from Greek Authors (Boise & Freeman). Greek Prose Composition (Boise).
2. *Latin*.—Livy. Selections from the First Book (Chase & Stuart). Exercises in writing Latin. Roman History, to the first Samnite war. (Liddell's History and Rawlinson's Manual).
3. *Mathematics*.—Algebra from Quadratic Equations through the Binomial theorem.

SECOND TERM.

1. *Latin*.—The XXI. Book of Livy. Madvig's Grammar for reference. Exercises in writing Latin. Roman History to the battle of Zama. (Liddell & Rawlinson).
2. *Mathematics*.—Geometry. Plane Trigonometry.
3. *Greek*.—Selections from Greek Authors. (Boise & Freeman). Greek Prose Composition (Boise). Grecian History and Geography

THIRD TERM.

1. *Mathematics*.—Plane Trigonometry completed. Mensuration or Surveying.
2. *Greek*.—Selections from Greek authors (Boise & Freeman).
3. *Latin*.—Selections from Livy. The Captives of Plautus. Roman History from the battle of Zama to the fall of the Republic. (Liddell & Rawlinson).

SOPHOMORE CLASS.

FIRST TERM.

1. *Mathematics*.—Algebra completed. Natural Philosophy.
 2. *English*.—Fowler's English Grammar. Trench on the Study of Words.
 3. *Greek*.—Homer's Iliad. (Boise's edition).
- Latin*.—Horace. Latin Prosody. The Lyric Metres.

SECOND TERM.

1. *Latin*.—Horace. History of the Augustan Age. Essays by the Class on subjects connected with the history and literature of the period. Exercises in writing Latin.
2. *Physics*.—Natural Philosophy. Snell's Olmsted completed.
3. *History*.—Outlines of Universal History.

THIRD TERM.

1. *Rhetoric*.—Whately and Campbell.
 2. *Mathematics*.—Spherical Trigonometry with applications to Astronomy.
- Natural History*.—Botany (Gray).
3. *Greek*.—The Antigone of Sophocles, or some other Greek tragedy (Woolsey). Essays by the class, chiefly critiques on the principal Greek plays. Grecian History continued.
- Latin*.—Horace. Satires and Art of Poetry. Essays by the class.

UNIVERSITY OF CHICAGO.

JUNIOR CLASS.

FIRST TERM.

1. *Metaphysics*.—Sir William Hamilton. Lectures. (Four times a week).
 2. *Physics*.—Astronomy. (Four times a week).
 3. *Latin*.—Selections from the Annals and Histories of Tacitus. Roman History to the time of Trajan. Essays by the class. Extemporalia. (Four times a week).
- Greek*.—Demosthenes de Corona commenced.
- French*.—Magill's Grammar and Reader. (Three times a week).

SECOND TERM.

1. *Metaphysics*.—The Will. Lectures. (Twice a week).
- English Literature*.—Taine. Lectures. (Three times a week).
2. *Chemistry*.—Barker's Elements of Chemistry. (Four times a week).
 3. *Greek*.—Demosthenes de Corona completed. Essays by the class on the leading events in the fourth century B.C., and other topics connected with the study of oratory. (Four times a week).
 4. *French*.—Magill's Grammar and Reader. (Twice a week).

THIRD TERM.

1. *Mathematics*.—Analytical Geometry. (Six weeks).
- Latin*.—Juvenal, six Satires, or, Select Epistles of Pliny. Roman History to Diocletian. Essays by the class. (Six weeks).
2. *Natural History*.—Zoölogy, Anatomy, and Physiology (Nicholson). (Four times a week).
 3. *Chemistry*.—Lectures. (Three times a week).
 4. *French*.—Magill's Grammar and Reader. (Three times a week).

SENIOR CLASS.

FIRST TERM.

1. *History*.—Guizot's History of Civilization. (7½ weeks).
- Natural History*.—Geology and Mineralogy, (Dana). (7½ weeks).
2. *Ethics*.—Wayland's Moral Science. Butler's Analogy. Lectures.
 3. *Latin*.—Selections from Tacitus. (7½ weeks). Roman History to the year 476 A.D.
- German*.—Otto's Grammar. Whitney's Reader.

SECOND TERM.

1. *Greek*.—Selections from Plato (Tyler's Apology and Crito). Essays by the class on the leading philosophers and philosophical systems of the Ancient world. (6 weeks).
- German*.—Whitney's Reader. (6 weeks).
2. *Natural History*.—Geology and Mineralogy completed.
3. *Logic*.—McCosh.

THIRD TERM.

1. *Political Economy*.—The Science of Wealth (Walker). Lectures.
2. *Constitutional Law*.—Constitution of the United States. International Law.
3. *German*.—Goetz von Berlichingen — Goethe.
4. *Anatomy and Physiology*.—The Nervous System. Lectures twice a week. Themes and Declamations throughout the Course.

II.—SCIENTIFIC COURSE.

REQUIREMENTS FOR ADMISSION.

For the Scientific Course, Students will be examined in the same studies as for the Classical, with the omission of Greek altogether, and of Latin excepting the Latin Grammar and Reader, and four books of Cæsar's Commentaries, or Cornelius Nepos, and in the first part of Harkness Introduction to Latin Composition. In College, they will use the same text-books as those in the Classical Course, so far as the two courses coincide.

FRESHMAN CLASS.

FIRST TERM.

1. *Mathematics*.—Algebra, from Quadratic Equations through the Binomial Theorem.
 2. *Latin*.—Select Orations of Cicero. Latin Composition.
 3. *German*.—Otto's Grammar.
- Drawing*.—Holmes's Drawing Books.

SECOND TERM.

1. *Mathematics*.—Geometry. Plane Trigonometry.
 2. *Latin*.—Virgil. Latin Prosody.
 3. *German*.—Otto's Grammar and Whitney's Reader.
- Drawing*.—Holmes's Drawing Books.

THIRD TERM.

1. *Latin*.—Virgil. Latin Prosody.
 2. *Mathematics*.—Plane Trigonometry completed. Mensuration or Surveying.
 3. *German*.—Whitney's Reader. Otto's Grammar.
- Drawing*.—Holmes's Drawing Books.

SOPHOMORE CLASS.

FIRST TERM.

1. *Mathematics*.—Algebra completed. Natural Philosophy.
2. *English*.—Fowler's English Grammar. Trench on the Study of Words.
3. *German*.—A Play of Schiller.

SECOND TERM.

1. *History*.—Weber's Outlines of History.
2. *Physics*.—Natural Philosophy—Snell's Olmstead completed.
3. *German*.—A Play of Schiller.

THIRD TERM.

1. *Rhetoric*.—Whately and Campbell.
2. *Mathematics*.—Spherical Trigonometry with applications to Astronomy.
Natural History.—Botany.
3. *German*.—Goethe's Goetz von Berlichingen.

JUNIOR CLASS.

FIRST TERM.

1. *Metaphysics*.—Hamilton. Lectures.
2. *Physics*.—Astronomy.
3. *French*.—Magill's Grammar and Reader.

SECOND TERM.

1. *Metaphysics*.—Hamilton completed. Lectures.
English Literature.—Taine. Lectures.
2. *Chemistry*.—Barker's. Lectures.
3. *French*.—Magill's Grammar and Reader.

THIRD TERM.

1. *Mathematics*.—Analytical Geometry. (6 weeks.)
2. *Natural History*.—Zoölogy, Anatomy and Physiology (Nicholson).
Chemistry.—Barker's. Lectures.
3. *French*.—Magill's Grammar and Reader.

SENIOR CLASS.

FIRST TERM.

1. *History*.—Guizot's History of Civilization.
2. *Natural History*.—Geology and Mineralogy (Dana).
3. *Ethics*.—Wayland's Moral Science. Butler's Analogy. Lectures.

SECOND TERM.

1. *Natural History*.—Geology and Mineralogy completed.
2. *Logic*.—McCosh. Lectures.
3. *Chemistry*.—Laboratory Practice.

THIRD TERM.

1. *Political Philosophy*.—Political economy. Lectures.
2. *Constitutional Law*.—Constitution of the United States. International Law (Woolsey).
3. *Anatomy and Physiology*.—The Nervous System. Lectures twice a week.
Themes and declamations throughout the course.

III.—COURSE IN ASTRONOMY.

The Dearborn Observatory forms the Astronomical Department of the University. Its objects are to make original researches in Astronomical Science, to assist in the application of Astronomy to Geography, in communicating exact time, and other useful objects, and to furnish instruction in Astronomy to the students of the University, both those in the regular course and those who wish to give especial attention to the study.

The principal instruments of the Observatory are:

1. The great Equatorial Refractor, made by Alvan Clark & Sons, of Cambridge, Mass., the second largest telescope in this country. This instrument is placed in the Dearborn Tower, built by the munificence of the Hon. J. Young Scammon, LL.D. The dimensions of the Equatorial are:

Diameter of Declination Circle, 30 inches.

Diameter of Hour Circle, 22 inches.

Focal length of Object Glass, 23 feet.

Aperture of Object Glass, 18½ inches.

The circles are read by two microscopes each, the hour circle to seconds of time, and the declination circle to ten seconds of space.

2. A meridian circle of the first class, constructed by those eminent artists, Messrs. A. Repsold & Sons, of Hamburg. This instrument has a telescope of six French inches aperture, and divided circle of forty inches diameter; otherwise it is like Bessel's celebrated Königsberg circle by the same makers, with some late improvements in the illumination of the field and the wires, and apparatus for registering declinations.

The Observatory has also a chronometer (Wm. Bond & Son, No. 279), a clock, by E. Howard & Co., and an astronomical library.

The Course of Instruction includes:

1. Instruction in Astronomy to the Undergraduates (see Classical Course).
2. In the determination of time, latitude and longitude, to students of the Engineering Course.
3. In higher Mathematics and Astronomy to such students as wish to prepare themselves for positions in Observatories, or other scientific establishments, or for professorships of mathematical departments in Colleges.

This will include instruction in the following subjects

1. Modern Higher Geometry, applied to Conic Sections and Spherica Trigonometry.
2. Analytical Geometry and the Differential and Integral Calculus.
3. Spherical and Practical Astronomy
4. The Method of Least Squares.

5. The Theory of the Motions of the Heavenly Bodies.
6. The Theory of Instruction in Science.

The authors chiefly referred to on the respective subjects will be

1. Chasles, Steiner, Geiser.
2. Salmon, Courtenay, Cournot.
3. Brünnow, Chauvenet.
4. Gauss.
5. Gauss, Encke.
6. Beneke.

Practical exercises with the instruments will take place regularly.

On those who shall pursue a full course of at least two years, shall have passed a satisfactory examination, and shall prepare an original thesis on some astronomical or mathematical subject, the degree of Bachelor of Science will be conferred.

During the past two years the Director has completed a catalogue of Latitude Stars for the United States Lake Survey, and in connection with U. S. Engineers and other officers, has determined the geographical positions of Fort Hays, Kansas, Denver and Pueblo, Colorado, Santa Fe and Fort Union, New Mexico, Bismarck, D. T., and Evanston, W. T.; and has conducted operations at Chicago for local time in determining the longitudes of Pembina and of Cairo, Ills. Still more operations of the same kind are in contemplation for the present summer, so that students who desire to, will enjoy unusual opportunities for witnessing, and, if properly prepared, for taking part in important operations of practical Astronomy as applied to geography and geodesy.

The preparation desirable for a student in practical Astronomy consists in a thorough knowledge of practical arithmetic, elementary algebra, and geometry, and plane trigonometry, and, if possible, of the German language.

ASTRONOMICAL STUDENTS.

Charles Judson Roney.

William Rufus Roney.

IV.—COURSE IN PRACTICAL CHEMISTRY.

In this Course provision is made for the thorough and comprehensive study of Chemistry as an art, in the belief that, aside from the practical relations of the Science, the educational effect of Laboratory practice is of great value. By such practice the senses are trained to observe with accuracy, and the judgment to rely with confidence on the proof of actual experiment.

In the Laboratory of this Department, under the direction of Professor Wheeler, aided by competent assistants, the student of Applied Chemistry will have ample opportunity of becoming practically familiar with the materials, apparatus, and processes of the most important Chemical arts and manufactures.

A systematic Course in Qualitative and Quantitative Analysis will be followed by practical studies with regard to the application of Chemistry to Agriculture, Mining, Metallurgy, Assaying, Medicine, Pharmacy, Toxicology, Preservation of Timber, Meats, etc., Warming, Illumination, Ventilation, Photography and other useful purposes. On those who shall complete a full course, requiring from two to three years' time, and who shall have passed a satisfactory examination, the degree of Bachelor of Science will be conferred. Certificates will be granted to students who do not graduate, stating the time they have been present, the studies pursued, and the progress made.

The Laboratory is quite new, and one of the best equipped in the West. The student will have ample opportunity of visiting the numerous manufacturing establishments of Chicago and vicinity, and witnessing important industrial applications of the science, the study of which he is pursuing.

The Laboratory Fee for special students in Chemistry is \$5 per term, for the regular course, \$1.

TEXT BOOKS FOR READING AND REFERENCE.

- Craft's Qualitative Analysis.
- Eliot and Storer's Manual.
- Bowman's Practical Chemistry.
- Fresenius' Qualitative and Quantitative Analysis.
- Miller's Chemistry, Vols. II. and III.
- Richardson & Watt's Chemical Technology,

STUDENTS IN PRACTICAL CHEMISTRY

Gilbert E. Bailey	Chicago.
Frank C. Phillips	Chicago.
George A. Gardner	Joliet.
Theodore N. Treat	Janesville, Wis.

PRIZES.

JUNIOR CLASS

Prizes, first and second, for excellence in Oratory and Composition combined in original orations, are open to competition by members of the Junior Class. At the commencement of 1873 these prizes were awarded as follows:

To Reune Runyon Coon, Jr., Pana, Ills., a first prize.

To Robert Morgan Ireland, Macon, a second prize.

Committee of Award.—Rev. D. F. Carnahan, J. B. Thomas, D.D., Hon. L. D. Boone.

SOPHOMORE CLASS.

Prizes, first and second, for excellence in English Composition, are open to competition by members of the Sophomore Class. Competitors for the prize must leave their essays at the President's office on or before the first day of June. Each essay must be signed with an assumed name, and accompanied by a sealed letter containing the true name of the writer, and superscribed by his assumed name.

At the commencement of 1873 these prizes were awarded as follows:

To Richard Benton Twiss, of Davenport, Iowa, a first prize.

To Maurice Blumenfeldt, of Chicago, a second prize.

Committee of Award.—Rev. J. B. Thomas, D.D., Rev. E. C. Mitchell, D.D., W. H. Barnum.

FRESHMAN CLASS.

The Keen prizes, first and second, for excellence in Declamation, are open to competition by members of the Freshman Class. The competition for these prizes will take place on the Monday evening preceding Commencement.

At the Commencement of 1873 these prizes were awarded as follows

To Charles Lundy Lewis, Ottawa, a first prize.

To Benj. Franklin Patt, of Tiskilwa, a second prize.

Committee of Award.—C. R. Blackall, M.D., Rev. J. A. Smith, D.D., Rev. E. J. Goodspeed, D.D.

It has been thought advisable to discontinue the awarding of prizes in the University after the present year.

GENERAL INFORMATION.

TERMS AND VACATIONS.

The year is divided into three terms and three vacations. The first term consists of fifteen weeks; the second and third of twelve weeks each. The Christmas vacation is two weeks, the Spring vacation one week, and the summer vacation ten weeks.

COMMERCIAL INSTRUCTION.

To meet the practical wants of the different classes of students, the Trustees have made arrangements for regular instruction in Penmanship, Book-keeping, and other branches essential to a good commercial education.

MUSIC.

The Department of Music is under the supervision of Dr. George F. Root, and students who desire it will have an opportunity for elementary drill, on payment of a small fee.

ELECTIVE STUDIES.

Students may reside at the University and pursue studies, for a longer or a shorter time, in any of the classes, at their own election, subject, however, to the regulations of the Faculty.

LECTURES.

In connection with the regular recitations, lectures are delivered on the following subjects: Chemistry, Natural Philosophy, Geology, Astronomy, Anatomy and Physiology, Zoölogy, Mental and Moral Philosophy, Greek History and Literature, Roman History and Literature, Verbal Criticism, and History of the English Language.

RHETORICAL EXERCISES.

The College Classes have exercises in Composition once in three weeks. Instruction in Elocution is given to all the students, and declamations are required of all.

EXAMINATIONS.

At the close of every term there are public examinations of all the classes, in both the Collegiate and Preparatory Departments.

UNIVERSITY OF CHICAGO.

DEGREES.

The degree of Bachelor of Arts is conferred upon all students who have completed the prescribed Classical Course of study, and passed a satisfactory examination therein; and the degree of Bachelor of Science upon all who have completed the Scientific course, and passed a similar examination.

Bachelors of Arts of three years' standing may receive the Degree of Master of Arts, provided that since graduation they have sustained a good moral character, and pursued some literary or scientific calling. Candidates for this degree will be expected to make application for it through the Dean of the Faculty, and to furnish evidence of their qualifications.

SOCIETIES.

There are three Societies in the University, conducted by students — two Literary and one Religious.

RELIGIOUS EXERCISES.

The duties of each day are opened with religious services in the Chapel of the University, at which all the students are required to be present.

On the Sabbath they are required to attend public worship in the forenoon, with some congregation in the city, selected by themselves or by their parents. The students also sustain a weekly prayer meeting.

LIBRARIES.

THE UNIVERSITY LIBRARY has been increased recently by valuable acquisitions. The London publishing houses of Sampson, Low & Co., Trübner & Co., and Longmans & Co., have generously furnished copies of their late publications. Messrs. Sheldon & Co., of New York, have donated a complete set of their publications.

THE THOMPSON LIBRARY, the gift of Hon. H. M. Thompson, contains a very valuable collection of books on Horticulture, a complete set of the Bohn Libraries, and many fine illustrated works.

THE TUCKER LIBRARY, presented by the family of the late Rev Elisha Tucker, D.D., contains upwards of five hundred volumes, mostly theological.

THE HENGSTENBERG LIBRARY is now put up in the University, and accessible to students. It contains about thirteen thousand volumes, and is not only one of the most valuable theological libraries in this country, but it is also rich in works of classical literature, *belles-lettres*, history and philosophy.

MUSEUM.

Important changes have been made within the last year in the department of Science and Art. A large and admirably lighted front room, on the second floor of the University Building, opposite the Society Hall, has been fitted up to contain the Museum, with the most modern improvements, and in elegant style.

THE MUSEUM OF HUMAN ANATOMY AND PHYSIOLOGY is well supplied. Its facilities for illustrating and teaching these departments are not surpassed

UNIVERSITY OF CHICAGO.

by any similar institution in the country. It contains skeletons, maps, a full set of Bock-Steiger models, and other apparatus ample for the department. The facilities for teaching vertebrate Anatomy and Zoölogy are also good. The Zoölogy and Anatomy of the invertebrates can also be finely illustrated from specimens in this museum. In the department of the sub-kingdom of Mollusca, there are about three or four hundred species of shells, selected from the prominent or typical species of the different families of that division of animals. The department of Entomology is variously and, in some respects, elaborately represented, containing, in beetles alone, over three thousand species. In the Crustacea, and the classes lower, such as Star Fishes, Echinoderms, Worms and Corals, the museum contains specimens enough for teaching purposes.

THE GEOLOGICAL DEPARTMENT of the Museum has been greatly increased from several sources. It now contains several thousand specimens, judiciously selected, thus representing the typical geological and mineralogical rocks.

A NUMISMATIC COLLECTION, made by the late Charles D. Sanford, and containing 3,500 coins, has been presented to the University by Rev. Miles Sanford, D.D., of Philadelphia.

The museum is under the charge of Prof. Ransom Dexter, who has already systemized the work, and who has a sufficient corps of assistants to carry out the necessary labor with dispatch and precision. He has also, in accordance with a power vested in him by the Board of Trustees of this University, authorized several agents to solicit contributions of scientific materials for this Museum.

CHEMICAL AND PHILOSOPHICAL APPARATUS.

The Lectures on Chemistry and Natural Philosophy are illustrated by modern apparatus. To this important additions have recently been made, chiefly donations from George Hazeltine, Esq., of London, and Messrs. B. O. & H. W. Chamberlain, of Boston, Massachusetts, among them a Rumkorff's Induction Coil, one of the largest ever imported, a full set of the famous Geissler's Tubes, and a powerful Grove's Battery, together with apparatus useful in the assay of ores.

LOCATION, BUILDINGS, ETC.

The location of the University is in the south part of Chicago, directly on the Cottage Grove line of the Chicago City Railway. The site was the gift of the late Senator Douglas, and is universally admired for its beauty and healthfulness. The building is unsurpassed for the completeness of its arrangements, especially the students' rooms, which are in suites of a study and two bedrooms, of good size and height, and well ventilated. The accommodations of the University have been recently greatly enlarged by the completion of the main building, 136 by 72 feet, a structure erected at a cost exceeding \$117,000, and believed to be second in convenience and elegance to no other educational edifice in the country. In this building there are a large Chapel, rooms for the various Scientific Departments, and also the Preparatory, spacious and airy recitation rooms, elegant suites for the Literary and Religious Societies, and additional dormitories for the students.

Through the liberality of the different railroads which center at Chicago, classes have had the privilege of making frequent excursions into the country, in order to examine rock strata, and to collect specimens in Natural History. These explorations have extended, during past years, to Dubuque and Burlington, Iowa; to Kewanee, LaSalle, and Quincy, Ill.; to the Wisconsin River, and along the Mississippi River, from McGregor to St. Louis.

BOARD AND ROOMS.

Board may be obtained in the Club Room of the University, where many of the students board, at cost, which has been during the past year from \$2.50 to \$3.00 per week.

The rooms are arranged in suites, consisting of a study and two bed-rooms. Bedsteads, bedding, and furniture in uncleanly condition, will be rigidly excluded. Habits of neatness and order are carefully enjoined on occupants of rooms. Damage to rooms or furniture, other than the ordinary wear, will be charged in the term bills.

Students who may prefer it, can obtain board in families on reasonable terms, or they may form clubs and provide for themselves.

EXPENSES PER ANNUM.

Board from \$2.50 (in clubs) to \$3 per week	-----	\$97.50 to \$117.00
Tuition	-----	70.00 to 70.00
Room rent (not including vacations)	-----	15.00 to 20.00
Incidentals	-----	6.00 to 8.00
Library fee, fifty cents per term	-----	1.50 to 1.50
Total	-----	\$190.00 to \$216.50

Students furnish their own fuel and lights. The use of kerosene and soft coal is prohibited in the University building. Gas costs about fifty cents a week for each room, and fuel from \$10 to \$20 per annum for each student. Washing has been, during the past year, seventy-five cents per dozen.

The rule of the Trustees requires all bills to be paid by the third day from the beginning of each term, and by failure to comply with these terms, the student forfeits the privileges of the University.

Parents will take notice that the whole necessary expenses for one year, including wood, lights, and washing, varies but little from \$300. This has been proved by the actual experience of students who practice economy. Any material variation from this amount may be regarded as unnecessary.

GENERAL INFORMATION.

During the past year arrangements have been perfected to give increased efficiency to the Law School, which has been for many years connected with this University. The school has been thoroughly remodeled upon a basis which will give it the undivided sympathy of the bar, and placed under the joint direction and control of the University of Chicago and the Northwestern University. The Universities agree to share equally in the expenses and care, and in the results of the enterprise. This arrangement secures for the school the support of two Universities and an undivided bar, and enables it to present advantages not surpassed by any similar institution in the country. The College opened its first session under this joint patronage on the 6th of October, 1873.

IMPORTANCE.

The advantages afforded by a College of Law for instruction in the science and practice of law are appreciated both by the bar and by the public. A systematic course of study, under eminent living teachers, is quite as valuable to the legal student as to the medical or theological. For laying the foundation of thorough knowledge of the law, the advantages of the Law College far exceed those of an office. In an office it is seldom that the student receives the attention his best interests demand. In the College the Professors are specially charged with this work. The value of this instruction is indicated by the fact that about one hundred students go yearly from the State of Illinois to the schools of other states, even though those schools do not teach our system of practice, or the statutes and decisions of our state. It is believed that this demand for systematic instruction will be fully met hereafter in our Law College.

CONDITIONS OF ADMISSION.

Students entering the Junior Class are expected to have at least a good common-school education. It is greatly to the interest of the student to advance in general scholarship as far as practicable. A knowledge of Latin is of service in handling law terms.

It is believed that the Law Course as a professional course should be a post-graduate course. Such preparation is recommended, *not required*.

ADVANCED STANDING.

Students who have attended another law college one year, or spent one year in the study of law in the office of an attorney, may apply for standing in the Senior Class, and may enter it if found competent on examination by the Faculty.

PLAN OF INSTRUCTION.

There are twelve weeks in each term, three terms in each year, and two years in the Course.

Our plan of teaching begins, in the junior year, with the study of text-books, in which the students are daily drilled by question and answer. From thence it passes, in the senior year, to lectures on specific topics or principles of the law, with the statutes and decisions bearing on them, concluding with the study of Leading Cases — the lectures alternating with examinations. The following programme of study for the two years embraces four hours per day for six days in the week, for thirty-six weeks. Seniors may be present at junior recitations, and *vice versa*; but are not examined in the latter. Indeed, it is preferred that each class should attend the instruction given to the other, thereby securing four hours of tuition each day without being overworked by an excessive amount of reading.

JUNIOR YEAR.

FIRST TERM — FIVE DAYS IN WEEK.

1st hour, 8 to 9 A.M. — 1st and 2d vols. Blackstone Prof. DENSLOW
2d hour, 4 to 5 P.M. — On Mondays, Tuesdays and Wednesdays,
1st and 2d Kent Prof. MYERS
On Thursdays and Fridays, Stephens' Pleading Prof. DENSLOW

SECOND TERM.

1st hour — Blackstone's Commentaries and Langdell's Select
Cases on Contracts Prof. DENSLOW
2d hour — On Mondays, Tuesdays, and Wednesdays, 3d and 4th
Kent Prof. MYERS
On Thursdays and Fridays, Chitty's Pleading Prof. DENSLOW

THIRD TERM.

1st hour — Langdell's Select Cases and Greenleaf's Evidence Prof. DENSLOW
2d hour — On Mondays, Tuesdays, and Wednesdays, Parsons on
Contracts Prof. MYERS
On Thursdays and Fridays, Chitty's Pleading Prof. DENSLOW

SENIOR YEAR.

FIRST TERM — FIVE DAYS IN WEEK.

1st hour, 9 to 10 A.M. — Equity Jurisprudence and
Leading Equity Cases Hon. JAS. R. DOOLITTLE
Constitutional and Statutory Law Hon. LYMAN TRUMBULL
2d hour, 5 to 6 P.M. — 1st and 2d Washburne, and
Tudor's Leading Cases on Real Property Judge HENRY BOOTH

SECOND TERM.

1st hour — Statutory Law, and Adams on Ejectment Hon. LYMAN TRUMBULL
Equity Pleadings and Chancery Practice Hon. JAS. R. DOOLITTLE
2d hour — 3d Washburne and Wharton's Criminal Law — Judge HENRY BOOTH

UNIVERSITY OF CHICAGO.

THIRD TERM.

1st hour—Lectures on Statutes, and practice in U. S. Courts TRUMBULL and DOOLITTLE
 2d hour—Wills and Probate, General Review..... BOOTH and BRADWELL
 Also lecturers on Medical Jurisprudence, Patents, Criminal Law, and other specialties.

BOTH YEARS.

Saturday, 9 to 11 A.M.—Moot Court Trials Prof. DENSLOW
 Wednesday, 10 to 11 A.M.—Moot Court Motions Prof. DENSLOW
 Saturday, 2 to 4 P.M.—Examples in Conveyancing, Abstracts, Contracts, and Office Practice Prof. DENSLOW

MOOT COURTS.

That the students may be versed in the practice of Law, Moot Courts are held every Saturday morning. In these they are taught to apply legal remedies according to the different forms of action, to bring suits, draw papers and pleadings, and take the various steps incident to bringing a cause to trial, then to try it according to the rules of evidence, including the arguments, charge, verdict, motion in arrest of judgment, writ of error, etc. Real cases are selected, and the forms and dignity of a real trial preserved. The trial takes place in the presence of the classes, whose members act respectively as counsel, jurors, witnesses, and officers of the court, and before a professor who sits as judge, with the double aim of illustrating the legal principles involved, and explaining the rules of practice. This exercise is always interesting and profitable.

AUXILIARIES.

On Saturday afternoon an example lesson is given in examination of abstracts of title, and drawing contracts, deeds, wills, pleadings, and the legal instruments required in office business.

The grammatical accuracy, rhetoric, elocution, and courtesy of deportment of the students will receive such attention as is deemed adapted to correct faults of style, without suppressing individuality, in which so often lies the secret of power. The students will be encouraged to organize societies, holding their sessions weekly, for the discussion of questions of political policy and economy, and for becoming acquainted with parliamentary rules.

BOOKS.

Students will find their own books. Arrangements have been made by which they may be supplied at the lowest trade prices. Many of the students obtain the use of books from the numerous law offices in the city, on favorable terms. Those who buy their books usually prefer to retain them, and thus begin a library; but, if they choose, they can sell them at the close of the term, at slightly reduced prices, in which case the net expense for books will be small.

EXAMINATIONS.

In addition to the daily and weekly examinations, the students will be examined at the close of the year in the presence of the Faculties and Trustees of both Universities.

UNIVERSITY OF CHICAGO.

Juniors who show a satisfactory acquaintance with the subjects required will be advanced to the senior class.

Seniors found worthy will be recommended to graduation.

ADVANTAGES.

1. The location of the Law College, in Superior Block, fronting on Court-House Square, in the heart of the great metropolis of the Northwest, and in the immediate vicinity of all the law offices and of the Courts, State and Federal, which are almost constantly in session, affords to the student who wishes to obtain employment during office hours, and to become acquainted with every phase and variety of business, advantages unsurpassed.

2. The College is a department of the University of Chicago, and also of the Northwestern University, and the students are admitted free to the libraries of both Universities, and to all public lectures delivered to undergraduates in the Literary Departments of either.

3. Students in the Law College can also unite with any of the regular classes at the Universities, and pursue any of the studies taught there, without additional charge.

4. The students are admitted free to the law library of the Chicago Law Institute, located in the Court-House.

CLASSIFICATION.

1. Students at the Union College of Law shall hereafter be classified as "regular" attendants, or "casual."

2. No casual attendant shall graduate or receive the diploma of this school, unless certified by the examiners to have passed a remarkably good and unexceptionable examination.

3. Students absent at more than one recitation of their class per week, and not furnishing a satisfactory excuse, in writing, at the next recitation of the same class, shall be deemed casual for that week, and checked on the roll as such, but may remove such check by attendance at three lectures of the class to which they do not belong.

4. Students neglecting to comply with any exercise required of them in the Moot Courts, or in Office Practice, for more than two weeks, will be deemed casuals for the said two weeks.

5. Students marked as "casual" for half the weeks of the term, will be deemed casual for the term, and students casual for two terms, will be deemed casual for the year.

The roll of both classes will be called by the several lecturers at the hours of 9, 10, 4 and 5.

EXPENSES.

Tuition for one term	\$25.00
Tuition for two terms	40.00
Tuition for three terms	50.00
Graduating fee	10.00
Board in families, per week	4.00 to 6.00
Club Boarding much less.	

For further particulars, address

VAN BUREN DENSLOW, Secretary,
 Tribune Building, Chicago, Ill.

PREPARATORY DEPARTMENTS.

PREPARATORY DEPARTMENT OF THE UNIVERSITY

The Trustees of the University have deemed it advisable to include among its fundamental and permanent arrangements a Preparatory Department. It will be their aim to make this department a first-class school of preparation for College.

The Professors of the University have charge of the instruction in the studies belonging to their several departments.

The requirements for admission are Reading, Writing, Spelling, Intellectual Arithmetic, Practical Arithmetic, English Grammar and Geography

The requisite studies have been arranged in a course of three years for classical, and two years for scientific students, as appears by the following schedules :

CLASSICAL COURSE,

FIRST YEAR.

- | | |
|--------------|---|
| FIRST TERM. | <i>Latin.</i> — Latin Lessons commenced.
<i>Mathematics.</i> — Robinson's Elementary Algebra.
<i>Natural Science.</i> — Elements of Natural Philosophy, by the first division of the class.
<i>Drawing</i> |
| SECOND TERM. | <i>Latin.</i> — Latin Grammar and Reader.
<i>Mathematics.</i> — Robinson's Elementary Algebra.
<i>Drawing.</i> |
| THIRD TERM. | <i>Latin.</i> — Grammar and Reader. Introduction to Latin Composition.
<i>Mathematics.</i> — Robinson's Elementary Algebra completed.
<i>Drawing</i> — Elements of Geometrical and Perspective Drawing three times a week. Holmes's Drawing Books.
<i>History.</i> — History of England, by the first division of the class. |

SECOND YEAR.

- | | |
|--------------|---|
| FIRST TERM. | <i>Greek.</i> — Hadley's Greek Grammar commenced.
Boise's First Greek Book.
<i>Latin.</i> — Grammar.
Arnold's Cornelius Nepos.
Introduction to Latin Composition. |
| SECOND TERM. | <i>Greek.</i> — Hadley's Greek Grammar continued. Geometry, Books I. to III.
Boise's First Greek Book, completed, and Xenophon's Anabasis commenced.
<i>Mathematics.</i> — Geometry.
<i>Latin.</i> — Grammar and Cornelius Nepos continued.
Introduction to Latin Composition.
Freeman's Outlines of History |

- | | |
|-------------|---|
| THIRD TERM. | <i>Greek.</i> — Hadley's Grammar continued.
Xenophon's Anabasis (Boise's edition) three times a week.
Greek Prose Composition twice a week (Jones).
Hadley's Grammar continued, Boise's First Greek Book completed, and Xenophon's Anabasis commenced.
<i>Latin.</i> — Select Orations of Cicero. Latin Composition.
Freeman's Outlines of History |
|-------------|---|

THIRD YEAR.

- | | |
|--------------|---|
| FIRST TERM. | <i>Greek.</i> — Hadley's Grammar.
Xenophon's Anabasis (Boise's edition) three times a week.
Greek Prose Composition twice a week (Jones).
<i>Latin.</i> — Select Orations of Cicero.
Latin Composition.
<i>Mathematics.</i> — University Algebra to Quadratic Equations. |
| SECOND TERM. | <i>Greek.</i> — Hadley's Grammar.
Arrian's Anabasis three times a week.
Greek Prose Composition twice a week.
<i>Latin.</i> — Virgil's <i>Æneid</i> . Latin Prosody
<i>English.</i> — History of the United States. |
| THIRD TERM. | <i>Greek.</i> — Hadley's Grammar.
Homer's Odyssey
Greek Prose Composition twice a week.
Ancient Geography.
<i>Latin.</i> — Virgil. Latin Prosody. Latin Composition.
<i>Mathematics.</i> — Geometry, Books III. to V |

Instruction in Penmanship, Book-keeping, and Elocution will be given during the course.

GREEK.—The preceding course of study is recommended to those who are preparing for this University at other places. As a substitute, however, for Hadley's Grammar, either Goodwin's, Kühner's or Crosby's Grammar, or Kendrick's revision of Bullions' Grammar, is accepted; and as a substitute for Boise's First Greek Book, either Leighton's Greek Lessons, or Whiton's Companion Book, or Kühner's Elementary Greek Grammar with exercises, or Kendrick's Greek Ollendorff, or Harkness' or Crosby's First Book in Greek, is accepted.

LATIN.—Either Bullions' & Morris's, or Allen and Greenough's, or Andrews' & Stoddard's Latin Grammar will be accepted as a substitute for Harkness Grammar. The first and second parts of Harkness' Introduction to Latin Composition, or the first forty-four exercises of Arnold's Latin Prose Composition, should be thoroughly mastered by the student. These exercises should first be written and afterward translated orally. In connection with the study of Virgil, Latin Prosody should be learned, and the difference between prose and poetical constructions carefully noted.

SCIENTIFIC COURSE.

FIRST YEAR.

FIRST TERM.	<i>Mathematics.</i> —Robinson's Elementary Algebra. <i>Latin.</i> —Latin Lessons commenced. <i>Natural Science.</i> —Elements of Natural Philosophy.
SECOND TERM.	<i>Mathematics.</i> —Robinson's Elementary Algebra. <i>Latin.</i> —Latin Grammar and Reader.
THIRD TERM.	<i>Mathematics.</i> —Robinson's Elementary Algebra completed. <i>Latin.</i> —Grammar and Reader. Latin Composition, <i>History.</i> —History of England by the first division of the class.

SECOND YEAR.

FIRST TERM.	<i>Mathematics.</i> —Robinson's New University Algebra. Robinson's Higher Arithmetic. <i>Latin.</i> —Grammar. Cornelius Nepos. Introduction to Latin Composition.
SECOND TERM.	<i>Mathematics.</i> —Geometry, Books I. to III. <i>English.</i> —History of the United States. <i>Latin.</i> —Grammar. Latin Composition. Cornelius Nepos. Freeman's Outlines of History.
THIRD TERM.	<i>Mathematics.</i> —Geometry, Books III. to V <i>Physical Geography.</i> <i>Latin.</i> —Select Orations of Cicero. Latin Composition. Freeman's Outlines of History.

STUDENTS NOT IN COURSE.

Students not wishing to prepare for College will be admitted into the Preparatory Department, to pursue such studies of the course as they may choose, under the regulations of the Faculty; and special classes will be formed for them when the Faculty shall find it expedient.

THIRD YEAR PREPARATORY STUDENTS.

PREPARATORY DEPARTMENT IN WISCONSIN.

The institution hitherto known as Wayland University, located at Beaver Dam, Wisconsin, has passed under the control of the Board of Trustees of the University of Chicago, and will hereafter be conducted as a Preparatory Department of the University. This school has been in successful operation, during the past year, under the direction of E. F. STEARNS, M.A., a graduate of the University, assisted by a competent corps of instructors. It is the design of the Trustees to make it in every respect worthy of public favor. Competent teachers will be employed, and a complete course of preparatory studies organized, thus affording to those who prefer not to send their sons to the city an opportunity of securing for them the best instruction and preparation for College. The school is open to young people of both sexes, and it is designed, as soon as practicable, to provide separate buildings for the department for young ladies, and to develop a complete collegiate course of studies, graduates from which shall receive the diploma of the University of Chicago. Classes in other branches of study, besides those required in preparation for College, will be organized as circumstances require.

Total students at Beaver Dam, 120.

THE WINNETKA INSTITUTE.

The University has leased the fine building recently erected at Winnetka, Illinois, on the Lake Shore, sixteen miles north of Chicago, for the purpose of maintaining a Preparatory Department at that place.

This school, under the management of B. L. DODGE, and MISSES STANLEY, SLOATE and LARSEN, has been in successful operation for three years. It is open to both sexes, and has ample facilities for boarding pupils. The design is to furnish first-class educational advantages for young ladies and gentlemen.

Total Students at Winnetka, 61.

AN ACT INCORPORATING THE UNIVERSITY OF CHICAGO

SECTION 1. *Be it enacted by the people of the State of Illinois, represented in the General Assembly.* That Stephen A. Douglas, William B. Ogden, Hiram A. Tucker, Charles A. Walker, Samuel Hoard, James H. Woodworth, Levi D. Boone, E. D. Taylor, John H. Kinzie, Robert H. Clarkson, John C. Burroughs, Mason Brayman, Walter S. Gurnee, James Dunlap, Ichabod Clark, Charles H. Roe, Elijah Gove, Henry G. Weston, Simon G. Miner, Noyes W. Miner, and their associates and successors in office, are hereby constituted a body corporate, by the name of "The University of Chicago;" the object of this incorporation being the promotion of general and professional education, the application of science to agriculture and manufactures, and the cultivation of the fine arts. The said corporation shall have perpetual succession, with power to sue and be sued, contract and be contracted with; to make and use a common seal, and to alter the same at pleasure; to buy and sell, and to take and hold real and personal property.

SEC. 2. The persons hereinbefore named are hereby appointed trustees of the said corporation. The said trustees, upon the call of any three of their number, issued in writing to each of the others, shall meet for the purpose of organization and the transaction of business; and, within one year from the passage of this act, they, or a quorum of them, in a regular meeting, shall choose, by ballot, fifteen other persons, to constitute, with themselves and the President of the University (who shall always be a trustee by virtue of his office), the full board of trustees of thirty-six members. Eleven members present at any regular meeting shall constitute a quorum for the transaction of business. When the full number of trustees is chosen, the board shall be distributed by lot into five classes, numbered first, second, third, fourth and fifth, and the term of office of the first class shall expire at the second annual meeting thereafter, and that of each of the other classes annually thereafter in the order of their numbers, when, in each case, the vacancy thus created shall be filled by a new election, by ballot. Vacancies occurring by death, resignation or removal from office, shall be filled, by ballot, at the next meeting of the board, and the members thus elected shall belong to the class in which the vacancy occurred. If any member shall fail to attend the annual meeting of the board for two years in succession, his place shall be declared vacant, and be filled by a new election. The board shall meet annually at, or in the vicinity of, the University, on a day which it shall previously designate; and special meetings shall be called by the President, on the request of nine members, setting forth, in writing, the objects of such special meetings.

SEC. 3. The board shall have power to choose its own officers and prescribe their duties, to establish such ordinances and by-laws for the government of its own proceedings as it may deem necessary; *provided*, that the same shall not be contrary to the constitution of the United States nor of the State of Illinois. The board is charged with the superintendence and government of the University, with power to create different departments in addition to the usual collegiate department—as a department of law, of medicine, of agriculture, and such others as it may deem necessary; and to prescribe courses of study, and maintain discipline and government in each; to elect a President and, at its discretion, a Vice President, of the University, and all necessary professors, tutors and instructors, and to prescribe the duties and fix the salaries of each; to fix the rate of tuition, and the terms of admission to the University; *provided*, that,

otherwise than that the majority of the trustees and the President of the University shall forever be of the same religious denomination as the majority of this corporation, no religious test or particular religious profession shall ever be held as a requisite for admission to any department of the University, or for election to any professorship or other place of honor or emolument in it, but the same shall be open alike to persons of any religious faith or profession. The board may acquire—by gift, grant or devise, or purchase—any real or personal property, and may use, sell, lease, or otherwise dispose of, any and all property belonging to the University, in such manner as they may deem most conducive to its interest; *provided*, that real estate shall not be sold without the consent of a majority of all the trustees. The board may appoint, of its own number, an executive committee of not less than five members, to be charged with the interests of the University in the intervals of the sessions of the board, and may prescribe the duties of such executive committee, and delegate to it all or any portion of the powers of the board.

SEC. 4. To enable the trustees to fulfil the trusts hereby committed to them, and to secure the ends of this corporation, it is hereby declared unlawful for any person to entice any student of the said University into the practice of gaming, or to furnish to any student any device or instrument for gaming, or any intoxicating liquors. And any billiard room, bowling alley, race course, or other device or instrument for gaming, or any brothel or house of ill fame, or place where intoxicating liquors are sold or furnished (except for medicinal or mechanical purposes), within one mile of the site of said University, is hereby declared a nuisance, and subject to abatement as such.

SEC. 5. In addition to the board of trustees, there shall be a board of regents of the University, to consist of the Governor of the State of Illinois, the Lieutenant Governor, the Secretary of State, the Speaker of the House of Representatives, the Superintendent of Public Instruction, the Judges of the United States Court for the northern and southern districts of Illinois, and of the Supreme Court of Illinois, and of the Circuit Court of Cook County, and of the Cook County Court of Common Pleas, and Mayor of the city of Chicago, by virtue of their offices, and of fifteen other persons to be appointed by the board of trustees, one-third of whom shall go out of office annually, and their places be filled by the board of trustees.

SEC. 6. The officers of the board of regents shall be a chancellor and vice chancellor, and a secretary. The Governor of the State of Illinois shall be, *ex officio*, chancellor of the University, and the Lieutenant Governor vice chancellor; and in case of the absence of both the chancellor and vice chancellor from any regular meeting of the regents, the meeting may appoint a president, *pro tempore*; they shall also elect the secretary, and establish such ordinances and by-laws as they may deem necessary for the government of their own proceedings. The board shall meet annually, and the chancellor may, at his discretion, call special meetings, eleven members at any meeting being necessary to constitute a quorum.

SEC. 7. The board of regents, by itself or its committees, shall annually visit the several departments of the University, and examine into the courses of study and the methods of instruction pursued therein, and the manner in which the several trusts connected with the University are fulfilled, and into its general condition and progress, and shall report the results of such examination to the board of trustees, with such advice and counsel respecting all matters pertaining to the University as they may deem important; they shall also report to the Legislature any violation of this charter, or other matters which they may deem deserving of the attention of that body, or on which that body shall demand information respecting the management of any officers of the University. At the time of any official visitation of the regents, the books, records and papers belonging to the University shall be freely opened to their inspection, and all persons connected with it be subject to their call for information or testimony in relation to the subjects of their official investigation, and, in the discharge of

their respective trusts, both the regents [and] the trustees shall have power to send for persons and papers, and to require the verification of testimony under oath, to be administered by the presiding officer for the time being.

SEC. 8. No gifts, grants or devise made to the University for a particular purpose shall be applied to any other purpose, and every grant, gift or devise, made with the intent of benefitting the said University, shall be construed liberally in the courts, according to the intent of the grantor, donor or devisor.

SEC. 9. The said University may grant to students in either of its departments diplomas or honorary testimonials, and may confer such literary honors, degrees and diplomas as are usually conferred by any university, college or seminary of learning in the United States, and the same shall entitle the possessors to immunities and privileges allowed by usage or statute to the possessors of like diplomas from any university, college and seminary of learning in this State.

SEC. 10. The tract of land, not to exceed one hundred and sixty acres, on which the university is erected, belonging to the said university, is hereby declared exempt from taxation or assessment, for all and any purpose whatever.

SEC. 11. This act shall be a public act, and shall take effect immediately.
Approved January 30, 1857

Be it enacted by the people of the State of Illinois, represented in the General Assembly, That the board of trustees of the University of Chicago shall, at the next annual meeting of the said board be increased by the addition thereto of seven new trustees, making the full board of trustees, including the President of the University, number forty-three. Said board of trustees shall be divided into six classes, numbered respectively first, second, third, fourth, fifth and sixth, and that at the next annual meeting of said board of trustees, said board shall elect seven trustees to succeed the class whose term of office then expires, to hold their office for the term of five years, and shall also elect seven other persons to complete the number of trustees above named, who shall hold their office for the term of six years, and at all subsequent annual elections of trustees of said University, the persons who shall be elected to succeed the trustees, whose terms of office then expire, shall hold their office for the term of six years; *provided*, that this act shall in no way affect the term of office of the President of said University.

This act shall be a public act, and shall be in force from and after its passage.
Approved March 30, 1869.

AN ACT IN RELATION TO THE OFFICE OF CHANCELLOR IN UNIVERSITIES OF LEARNING

Takes effect July 1, 1874.
SECTION 1. *Be it enacted by the people of the State of Illinois, represented in the General Assembly,* That in all universities of learning, not placed under the control of the officers of this State, whether organized under any general or special law, including those wherein by law the Governor is made chancellor, *ex officio*, the board of trustees shall have power, by a by-law, to create the office of chancellor, to prescribe the powers and duties thereof, not inconsistent with the provisions of law, and to fix the term thereof; and, from time to time, to fill the same by election, *provided*, whenever the Governor is by law chancellor, *ex officio*, and shall be able to attend and act as such, his rights, prerogatives and duties shall not be abridged or affected by the provisions of this act.

School and College Text Books

That stand the test of the class-room, and which by *use* prove their claims to superiority.

ROBINSON'S MATHEMATICS,

The most practical, complete, thorough and satisfactory Series of Mathematics ever published; adopted for exclusive use in many States, and the *standard* in our best High Schools, Academies and Colleges; more generally used and more favorably known than any other series extant.

The following testimonial to the merits of Robinson's books is from A. J. HOWE, Prof. of Mathematics in the University of Chicago, and is cordially indorsed by Prof. J. C. FREEMAN, Principal of the Preparatory Department:

CHICAGO, May 8, 1873.

"Robinson's Series of Mathematics is too well known to need an enumeration of its merits. During the last fifteen years I have constantly used in my class room two or three of these books. I have during this time used all the higher works of the series, and always with the *most eminent satisfaction*."

"We are now using in the Collegiate and Preparatory Departments of the University, Robinson's ARITHMETICS, ALGEBRAS and ANALYTICAL GEOMETRY."

We also Publish the following well-known Text Books, viz.:

Union Readers and Spellers, Kerl's Grammars, Spenserian Copy Books, Bryant & Stratton's Book-keeping, Gray's Botany, Swinton's Word Books, Swinton's Histories, Webster's School Dictionaries, Loomis' School Music Books, and many other popular and standard publications comprised in

THE AMERICAN EDUCATIONAL SERIES,

We extend a cordial welcome to TEACHERS, SCHOOL OFFICERS AND EDUCATORS generally, and invite correspondence from all who are interested in the use of

FIRST-CLASS TEXT BOOKS.

Teachers and School Officers, desiring to examine any of our publications, with a view to their introduction into schools, if approved—can obtain copies upon favorable terms by addressing us as below; and all orders for *Actual First Introduction* will be promptly filled at lowest introductory prices.

The Inter-Ocean.

Three Editions — Weekly, Semi-Weekly and Daily.

Established less than three years ago as a Representative Republican Paper, pledged to maintain and defend the principles and organization of the National Republican Party, the INTER-OCEAN was early pushed to the forefront of journalism, and achieved a success unprecedented in the history of such enterprises. By universal assent it has been assigned position as

THE LEADING REPUBLICAN PAPER OF THE NORTHWEST.

Not alone on its political character does the INTER-OCEAN rest its claims to popular favor. It aims at the highest excellence in all departments, and in this era of progressive journalism aspires to position among the best.

The INTER-OCEAN makes especial claim as a FAMILY NEWSPAPER. Its columns are carefully guarded against objectionable matter, and every effort is made to render it a pleasant and profitable companion at the home fireside.

THE COMMERCIAL DEPARTMENT is conducted with great care, and everything possible is done to make the MARKET REPORTS such as the *Farmers* and *Business Men* of the Northwest can rely upon.

THE AGRICULTURAL DEPARTMENT is carefully edited by gentlemen of ability and experience.

In Literature, Local and General News, Foreign and Domestic Correspondence, and everything that goes to make a FIRST CLASS NEWSPAPER, it is not excelled by any publication in the country

The INTER-OCEAN is a

NATIONAL NEWSPAPER,

One that will be found useful to Americans in every part of the globe. While it especially represents the GREAT INTERESTS OF THE NORTHWEST, it is National in its views and comprehensive in its news-gatherings. Firm in its political faith it is not bigoted, and in all discussions aims to be candid, dignified, and above personal abuse.

The INTER-OCEAN has the largest aggregate circulation of any newspaper published in the Northwest. It is sent to more than 6,000 Postoffices, distributed in every State and Territory in the United States, in all the British Provinces, and in numerous Foreign States and Countries.

W. W. KIMBALL,
WHOLESALE DEALER IN
PIANOS & ORGANS

205, 207 & 209 STATE STREET,
(CORNER ADAMS)
CHICAGO, ILL.

From the STANDARD, Chicago, Baptist paper, April 16, 1874.

PIANOS AND ORGANS—W W KIMBALL.—The musical instrument trade of Chicago is one of the largest branches of our commercial business. The sale of pianos alone is immense, embracing all the varieties manufactured in the country. At the head of this trade, with the largest stock, at the capacious and elegant store, 205, 207, 209 State street, stands the house of W W Kimball. He has been in business in Chicago for the past sixteen years, and confines himself mainly to Pianos and Organs. Of the character and reputation of Mr. Kimball as a business man and as a citizen generally, it is not necessary to say anything to the people of Chicago. He stands among the first of our merchants in the characteristics of integrity, enterprise, and honorable dealing. Buyers are always sure to get such instruments as are recommended, when they purchase of this house. Mr. Kimball sells Hallet, Davis & Co.'s Pianos; Great Union Company's Pianos; Smith's American Organs; Kimball's Organs and Kimball's Pianos, instruments which have an established reputation far and wide, based upon excellence in every respect. These are sold in all varieties of styles and at corresponding prices. The stock is immense, occupying three floors of the spacious store at the corner of State and Adams streets. Mr. Kimball is, therefore, prepared for the jobbing trade on a scale to meet the demands of the Northwest, the Southwest, the Far West, or any other section of the country.
