KENDRICK'S ANABASIS just ready.

MAY 10, 1873.
I have used SHAW'S ENGLISH LITERATURE in my classes for eleven years, and after a thorough trial, consider it the best manual on the subject yet published. The great representative writers are elaborately discussed, while the minor writers are analyzed in a few terse paragraphs or pages. The criticisms of those authors who are the great landmarks of English literary history, are very full and satisfactory. Another merit is the lively, vivid, and sparkling style of the author, whose enthusiasm is such that it is impossible for even the dullest student to yawn or doze over his pages.
WM. MATHEWS, L.L.D.

MAY 1, 1873.
We have been for some time familiar with DR. BULLIONS' LATIN LEXICON, and believe it better adapted to the wants of the American College students than any other now accessible.
J. W. STEARNS, M.A., Chicago University.

CHICAGO, June 11, 1873.
I regard Stoddard's Intellectual Arithmetic as ranking among the very best treatises on this subject.
A. J. HOWE.

Address—

S. S. VENTRES,
113 & 115 State Street, CHICAGO, ILL.

"Your Greek publications are the very perfection of typographical beauty."—Rev. J. R. JAQUES, *Prof. of Greek, Ill. Wesleyan University.*

PUBLICATIONS
OF
S. C. GRIGGS & CO.,
CHICAGO.

Jones's Exercises in Greek Prose Composition.—With references to Hadley's, Goodwin's and Taylor's-Kühner's Greek Grammars, and a full English-Greek Vocabulary. By ELISHA JONES, late Professor in the University of Michigan. Price, \$1.25.

Boise's First Lessons in Greek.—Adapted to Hadley's Grammars, and intended as an introduction to Xenophon's Anabasis. By JAMES R. BOISE, Ph. D., Professor in the University of Chicago. Pages, 142. Price, \$1.25.

Boise's Homer's Iliad.—THE FIRST SIX BOOKS OF HOMER'S ILIAD: with Explanatory Notes intended for beginners in the Epic Dialect; accompanied with numerous references to Hadley's Greek Grammar, to Kühner's Larger Greek Grammar, and Goodwin's Moods and Tenses. By JAMES R. BOISE, Professor of Greek in the University of Chicago. Price, \$1.75.

Boise & Freeman's Selections from Various Greek Authors.—For the first year in College, with Explanatory Notes and References to Goodwin's Greek Grammar, and to Hadley's Larger and Smaller Grammars. By JAMES R. BOISE, Ph. D., and JOHN C. FREEMAN, M. A., Professors in the University of Chicago. Pages, 393. Price, \$2.50.

Thompson's First Latin Book.—Introductory to Cæsar's Commentaries on the Gallic War. For use with Harkness', Andrews and Stoddard's, Bullions & Morris's, and Allen's Grammars. By DANIEL G. THOMPSON, A. M., late Teacher in the Springfield (Mass.) High School. Price, \$1.50.

A Norwegian-Danish Grammar and Reader.—With a Vocabulary, designed for American Students of the Norwegian-Danish Language. By Rev. C. I. P. PETERSON, Norwegian Lutheran Pastor in Chicago, Professor of Scandinavian Literature, and Member of the Chicago Academy of Sciences. \$1.25.

Getting On in the World: or, Hints on Success in Life.—By WILLIAM MATHEWS, LL. D., Professor of Rhetoric and English Literature in the University of Chicago. Price, \$2.25.

"A book in which there is abundant matter of great interest,"—NOAH PORTER, D.D., LL.D., President of Yale College.

A Manual of Gesture.—With over 100 Figures, embracing a complete System of Notation, together with the Principles of Interpretation and Selections for Practice. By ALBERT M. BACON, A. M., Professor of Elocution. 260 Pages. Price, \$1.75.

"No work on the subject, yet offered to the public, approaches it for exhaustiveness and completeness of detail."—*Philadelphia Enquirer.*

Either of the above Books sent, postage paid, on Receipt of the Price.

We shall be pleased to receive the Catalogues of Colleges, Seminaries, Academies, High Schools, Etc.

LAW STUDENTS, 27.

GENERAL ADVANTAGES.

The superior facilities furnished by Law Schools, for instruction in the science and practice of Law, are now fully appreciated by the profession and the public.

A regular, systematic course of study, under experienced teaching, is admitted to be as indispensable to the attorney as to the medical or theological student. Experience has shown that a better preparation for the Bar may be had in the Law School in one year, than is ordinarily obtained in an office in two or three. In an office the student usually receives but little attention. The distinguished counsellor is too exclusively and too profitably employed with his clients to afford the necessary time, even if he have the necessary patience or skill, to solve the doubts of the student, who, amid ceaseless embarrassments and interruptions, blindly gropes his way through the pages of Coke and Blackstone.

The force of these considerations has been keenly felt in the West, where, till lately, there has been no school of preparation for the Bar; and, therefore, to fill this chasm in our educational institutions, and furnish an opportunity for a thorough training, without the expense of traveling abroad for the purpose, this school has been established.

PLAN OF INSTRUCTION.

The training of a lawyer, in order to secure complete success, should be of a three-fold character. First—he should have a critical acquaintance with the principles of Law, as a science; secondly—the power to make a ready application of those principles in practice as an art; and, lastly, a graceful elocution, a fluent, easy, and forcible style of extemporaneous speech, without which, however solid his acquirements, it is scarcely possible for him to attain eminence at the Bar.

The plan of the school contemplates the attainment of the several objects in the mode best adapted to each. For the mastery of the science, reliance is placed upon the reading of the best legal works, under proper instructions, together with daily examinations in the classes upon the subjects studied. For the sake of variety, lectures, also, are given in certain departments of jurisprudence, but not to such an extent as to form a prominent feature of the plan.

There are, at all times, in the school, three regular classes, according to the different degrees of proficiency; and each student is at liberty to attend in any one or all of these classes. The professors meet each of these classes in the

lecture room daily, for an examination or lecture, devoting from three to four hours to the various exercises.

In order that the students may be versed in the practice of Law, Moot Courts are held. In these he is familiarized with the application of legal remedies and the different forms of actions, the bringing of suits, the drawing of papers and pleadings, and with all the various steps and stages in the preparation of a cause for trial; then with the trial, involving the application of the rules of evidence; with the argument of counsel, the charge, the verdict, motion in arrest of judgment, writ of error, etc. In all these various stages the forms of a real case are preserved; and as the trial takes place in the presence of the class, who act in the capacity of counsel, jurors, witnesses or officers of the court, and before the professor, who sits as judge, with the double object of illustrating important legal principles, as well as explaining the rules of practice—it is easy to see that the exercises become in a high degree interesting and profitable.

Besides this, the student is also instructed, from time to time, in the drawing of contracts, deeds, wills, and all the legal forms usual in an attorney's office.

Lastly, to impart the grace of a finished elocution, and an easy, forcible style of extemporaneous delivery, declamations, drill speeches, and debates, under the instruction of a professor, will form a part of the exercises of the school.

A Congress, comprising a Senate and House of Representatives, with speakers, committees, etc., has been organized by the students, which holds its sessions once a week, for the discussion of subjects of governmental policy, thus affording additional opportunities for practice in speaking, as well as for becoming acquainted with parliamentary rules and tactics.

TERMS, DIPLOMA, ADMISSION TO THE BAR, ETC.

There are three terms in the year, of thirteen weeks each. The first term begins on the third Wednesday in September; the second, on the first Wednesday in January; and the third, on the second Wednesday in April. A full course of study occupies two years, or six terms, embracing the various branches of the common, equity, admiralty, commercial, international and constitutional law, and the jurisprudence of the United States. There is also a less extensive course of commercial jurisprudence for those intending to devote themselves to commercial pursuits. At the close of the collegiate year there is a public examination in the presence of the Faculty and Trustees of the University, when each student who has attended the exercises of the School for three full terms, is admitted to examination, and, if qualified to practice, receives the degree of Bachelor of Laws.

TUITION FEES.

In order to place the benefits of the Institution within the reach of as many young men as possible, it has been determined to reduce the tuition to the lowest rates at which it can be afforded. Hereafter the student will be charged, for a single term, \$30; for two terms, \$55; and for the three terms, or a school year, \$75; in each case payable in advance. The graduating fee will be \$10. In special cases, time will be given for the payment of tuition, upon satisfactory

security. Students who enter for a part of a term pay in proportion to the time spent in school. Those who wish to pursue a partial course of study, will be received on reasonable terms. No other preparation is required than a good, common English education.

COURSE OF READING.

A well selected course of reading has been adopted, comprising the best elementary works and digests in the several departments of Law and Equity. The Text Books are as follows:

INTERNATIONAL LAW —

Kent's Commentaries, vol. I, p. 1 — 200.
Woolsey's International Law.

Books of Reference —

Vattel's Law of Nations.
Wheaton's International Law.
Grotius on the Laws of War and Peace.

COMMENTARIES —

Blackstone (Cooley's), 4 Books.
Kent, 4 vols.

CONSTITUTIONAL LAW —

Kent's Commentaries, vol. I, p. 204 — 484.
Sedgwick on Constitutional Law.

Books of Reference —

The Federalist.
Story on the Constitution.

REAL ESTATE —

Blackstone, Book II.
Washburn on Real Property, 3 vols.
Statutes of Frauds and of Uses.

Books of Reference —

Adams on Ejectment.	Jarman on Wills.
Angell on Water-courses.	Preston on Estates.
Coke on Littleton.	Preston on Conveyancing.
Coote on Mortgages.	Saunders on Uses and Trusts.
Cruise on Real Estate (Greenleaf).	Sugden on Powers.
Dart on Vendors.	Sugden on Vendors and Purchasers.
Hilliard on Real Property.	Taylor's Landlord and Tenant.
Hilliard on Mortgages.	

COMMERCIAL AND MARITIME LAW —

Parson's Mercantile Law.
Story on Partnership.
Story on Promissory Notes.

Books of Reference —

Abbott on Shipping.	Duer on Insurance.
Benedict's Admiralty.	Edwards on Bills and Notes.
Byles on Bills.	Edwards on Bailments.
Collyer on Partnership.	Phillips on Insurance.
Conkling's Admiralty.	Story on Bailment.

PERSONAL PROPERTY, PERSONAL RIGHTS, AND CONTRACTS —

Parsons on Contracts, 3 vols.
Story on the Conflict of Laws.

Books of Reference —

Angell and Ames on Corporations.	Roper on Husband and Wife.
Bingham on Infancy and Coverture.	Roper on Legacies.
Bishop on Marriage and Divorce.	Story on Sales.
Chitty on Contracts.	Selwyn's <i>Nisi Prius</i> .
Long on Sales.	Stephen's <i>Nisi Prius</i> .
Reeve's Domestic Relations.	Williams on Executors.

PLEADING AND PRACTICE —

Stephen on Pleading.	Chitty on Pleading.
Gould on Pleading.	Tidd's Practice.

Books of Reference —

Conkling's United States Practice.
Saunders on Pleading and Evidence.

EVIDENCE —

Greenleaf's Evidence, 3 vols.

Books of Reference —

Phillips on Evidence.

EQUITY JURISPRUDENCE AND PRACTICE —

Willard's Equity Jurisprudence.
Barbour's Chancery Practice.

Books of Reference —

Adam's Equity.	Hill on Trustees.
Daniell's Chancery Practice.	Hoffman's Chancery Practice.
Eden on Injunctions.	Story on Equity Jurisprudence.
Fonblanque's Equity.	Story on Equity Pleadings.

CRIMINAL LAW —

Blackstone's Commentaries, Book IV.
Wharton's American Criminal Law.

Books of Reference —

Archbold's Criminal Law.
Barbour's Criminal Law.
Russell on Crimes.

Students will find their own books, and arrangements have been made by which they may be supplied at the lowest trade prices. Many of the students obtain the use of books from the numerous law offices in the city, on favorable terms. Those who buy their books usually prefer to retain them, and thus begin a library; but, if they choose, they can sell them at the close of the term, at slightly reduced prices, in which case the net expense for books will be small.

BOARDING.

Good board may be had, in ordinary times, in boarding houses and private families, at fair prices, varying from \$4 to \$6 per week. Students who desire to economize can club together, hire a room, and board themselves at less expense.

ADVANTAGES OF LOCATION.

The location of the School, in the heart of the great Metropolis of the Northwest, within a few rods of the Court House, and in the immediate vicinity of the Courts, State and Federal, which are almost constantly in session, afford to the student who wishes to become acquainted with every phase and variety of business, advantages unsurpassed by those of any similar institution in the United States. The School Room is in Boone Block, No. 133 LaSalle street.

CONNECTION WITH THE UNIVERSITY.

This School is a branch of the University of Chicago, and the students are admitted free to the libraries of the University, and to all public lectures delivered to undergraduates in the Literary Department.

Students in the Law Department can also unite with any of the regular classes at the University, and pursue any of the studies taught there, without additional charge.

The Students are also admitted, on certificate of the Dean of the Faculty, to the large Law Library of the Chicago Law Institute, located in the Court House.

Communications should be addressed to J. A. Hunter, Esq., Counsellor at Law, Room 44, Central Union Block, corner of Market and Madison streets.

COLLEGIATE DEPARTMENT.

FACULTY.

REV. JOHN C. BURROUGHS, D.D., LL.D., PRESIDENT.

AND PROFESSOR OF MORAL AND INTELLECTUAL PHILOSOPHY.

JAMES R. BOISE, PH. D., LL.D.,

PROFESSOR OF THE GREEK LANGUAGE AND LITERATURE.

PROFESSOR OF HISTORY AND ENGLISH LITERATURE.

ALONZO J. HOWE, M.A.,

PROFESSOR OF MATHEMATICS.

J. WILLIAM STEARNS, M.A.,

PROFESSOR OF THE LATIN LANGUAGE AND LITERATURE.

TRUMAN HENRY SAFFORD, B.A.,

PROFESSOR OF ASTRONOMY, AND DIRECTOR OF THE DEARBORN OBSERVATORY.

HENRY BOOTH, LL.D.,

HOYNE PROFESSOR OF INTERNATIONAL AND CONSTITUTIONAL LAW.

J. W. FOSTER, LL.D.,

LECTURER ON COSMICAL PHYSICS.

C. GILBERT WHEELER, B.S.,

PROFESSOR OF ANALYTICAL AND APPLIED CHEMISTRY.

JOHN C. FREEMAN, M.A., B.D.,

ASSOCIATE PROFESSOR OF ANCIENT LANGUAGES, AND PRINCIPAL OF THE PREPARATORY DEPARTMENT.

PROFESSOR OF GEOLOGY AND MINERALOGY.

GEORGE F. ROOT, Mus. D.,
PROFESSOR OF MUSIC.

C. E. RICHARD MUELLER,* M.A.,
TUTOR IN GERMAN.

RANSOM DEXTER, M.D.,
LECTURER ON COMPARATIVE ANATOMY AND ZOOLOGY.

NATHAN SHEPPARD,
PROFESSOR OF RHETORIC AND ELOCUTION.

M. H. HOLMES.
INSTRUCTOR IN DRAWING.

Instruction in Spanish, Italian, and the Scandinavian languages will be given to any who desire it, by Professor Wheeler.

Instruction in French has been given, during the past year, by Professor Mathews.

The instruction in German, during the past year, has been under the charge of Professor Boise, assisted by Miss Alice R. Boise, B.A.

Courses of Lectures have been delivered during the year by Dr. Joseph Haven, on the History of Philosophy, and Rev. Dr. Pattison, late Vice-President of the University, has delivered a course of Lectures on the Will, and given instruction in Logic.

Van Buren Denslow, Esq., of the Law School, has delivered a course of Lectures on Political Economy, to the Senior Class.

I.—CLASSICAL COURSE.

REQUIREMENTS FOR ADMISSION.

Candidates for admission to the Freshman Class in the Classical Course are examined in the following studies :

English Grammar and Analysis.
Geography — Ancient and Modern.
History of the United States.

Arithmetic, Algebra through Quadratic Equations, and books I. to VI. of Davies' Legendre, or an equivalent. Algebra to Quadratic Equations will not be reviewed in the course, and must be thoroughly learned from a University Treatise.

Boise's First Greek Book.
Hadley's Greek Grammar.
Xenophon's Anabasis — three books.
Greek Prose Composition. (Jones & Boise.) Part I.
Latin Grammar and Reader.
Four books of Cæsar's Commentaries ; or, Cornelius Nepos.
Six Orations of Cicero.
Six books of Virgil's *Æneid*.

Harkness' Introduction to Latin Composition, first and second parts ; or forty-four exercises of Arnold's Latin Prose Composition.

Candidates for advanced standing, whether from other Colleges or not, are examined in the studies previously pursued by the class which they propose to enter.

No person under fifteen years of age will be admitted to the Freshman Class, nor will any one be admitted to an advanced standing without a proportionate increase of age.

Testimonials of good moral character are required in all cases ; and every student from another College must produce a certificate of regular dismissal.

To prevent disappointment to the applicant, it should be distinctly understood, that a thorough knowledge of the prescribed studies is more likely to insure admission, and to enable the students to reap the full benefits of the Collegiate Course, than a superficial acquaintance with some higher branches of literature and science. A critical knowledge of *Arithmetic, Elementary Algebra and Geometry, and the Grammars of the English, Latin and Greek languages, is indispensable.*

FRESHMAN CLASS.

FIRST TERM.

1. *Greek*.—Selections from Greek Authors (Boise & Freeman). Greek Prose Composition. (Jones & Boise.)
2. *Latin*.—Livy. Selections from the First Book (Chase & Stuart). Exercises in writing Latin. Roman History, to the first Samnite war. (Liddell's History and Rawlinson's Manual.)
3. *Mathematics*.—Algebra from Quadratic Equations through the Binomial theorem.

SECOND TERM.

1. *Latin*.—The XXI. Book of Livy. Madvig's Grammar for reference. Exercises in writing Latin. Roman History to the battle of Zama. (Liddell & Rawlinson.)
2. *Mathematics*.—Geometry. Plane Trigonometry.
3. *Greek*.—Selections from Greek Authors. (Boise & Freeman). Greek Prose Composition (Jones and Boise). Grecian History and Geography.

THIRD TERM.

1. *Mathematics*.—Geometry of three dimensions : Navigation, Mensuration.
2. *Greek*.—Selections from Greek Authors (Boise & Freeman).
3. *Latin*.—Selections from Livy. The Captives of Plautus. Roman History from the battle of Zama to the fall of the Republic. (Liddell & Rawlinson.)

SOPHOMORE CLASS.

FIRST TERM.

1. *Mathematics*.—Algebra completed. Surveying.
2. *English*.—Fowler's English Grammar. Trench on the Study of Words.
3. *Greek*.—Homer's Iliad. (Boise's edition).
Latin.—Horace. Latin Prosody. The Lyric Metres.

SECOND TERM.

1. *Latin*.—Horace. History of the Augustan Age. Essays by the Class on subjects connected with the history and literature of the period. Exercises in writing Latin.
2. *Physics*.—Natural Philosophy. Snell's Olmstead.
3. *History*.—Weber's Outlines of Universal History.

THIRD TERM.

1. *Rhetoric*.—Whately and Campbell.
2. *Mathematics*.—Spherical Trigonometry with applications to Astronomy.
Natural History.—Botany (Gray).
3. *Greek*.—The Antigone of Sophocles, or some other Greek tragedy (Woolsey).
Essays by the class, chiefly critiques on the principal Greek plays. Grecian History continued.
- Latin*.—Horace. Satires and Art of Poetry. Essays by the class.

JUNIOR CLASS.

FIRST TERM.

1. *Metaphysics*.—Sir William Hamilton. Lectures. (Four times a week.)
2. *Physics*.—Astronomy. (Four times a week.)
3. *Latin*.—Selections from the Annals and Histories of Tacitus. Roman History to the time of Trajan. Essays by the class. Extemporalia. (Four times a week.)
Greek.—Demosthenes de Corona commenced (Champlin).
4. *French*.—McGill's Grammar and Reader. (Three times a week.)

SECOND TERM.

1. *Metaphysics*.—The Will. Lectures. (Twice a week.)
English Literature.—Taine. Lectures. (Three times a week.)
2. *Chemistry*.—Barker's Elements of Chemistry. (Four times a week.)
3. *Greek*.—Demosthenes de Corona completed. Essays by the class on the leading events in the fourth century B. C., and other topics connected with the study of oratory. (Four times a week.)
4. *French*.—McGill's Grammar and Reader. (Twice a week.)

THIRD TERM.

1. *Mathematics*.—Analytical Geometry. (Six weeks.)
Latin.—Juvenal, six Satires; or, Select Epistles of Pliny. Roman History to Diocletian. Essays by the class. (Six weeks.)
2. *Natural History*.—Zoölogy, Anatomy and Physiology. (Nicholson.) (Four times a week.)
3. *Chemistry*.—Lectures. (Three times a week.)
4. *French*.—McGill's Grammar and Reader. (Three times a week.)

SENIOR CLASS.

FIRST TERM.

1. *History*.—Guizot's History of Civilization. (7½ weeks.)
Natural History.—Geology and Mineralogy. (Dana.) (7½ weeks.)
2. *Ethics*.—Wayland's Moral Science. Butler's Analogy. Lectures.
3. *Latin*.—Selections from Tacitus. (7½ weeks.) Roman History to the year 476 A.D.
German.—Otto's Grammar.

SECOND TERM.

1. *Greek*.—Selections from Plato (Tyler's Apology and Crito). Essays by the class on the leading philosophers and philosophical systems of the Ancient World. (6 weeks.)
German.—Whitney's Reader. (6 weeks.)
2. *Natural History*.—Geology and Mineralogy completed.
3. *Logic*.—McCosh.

THIRD TERM.

1. *Political Economy*.—Political Philosophy. Lectures.
2. *Constitutional Law*.—Constitution of the United States. International Law.
3. *German*.—Goetz von Berlichingen—Goethe.
Themes and Declamations throughout the Course.

II.—SCIENTIFIC COURSE.

REQUIREMENTS FOR ADMISSION.

For the Scientific Course, Students will be examined in the same studies as for the Classical, with the omission of Greek altogether, and of Latin, excepting the Latin Grammar and Reader, and four books of Cæsar's Commentaries, or Cornelius Nepos, and in the first part of Harkness's Introduction to Latin Composition. In College, they will use the same text-books as those in the Classical Course, so far as the two courses coincide.

FRESHMAN CLASS.

FIRST TERM.

1. *Mathematics*.—Algebra, from Quadratic Equations through the Binomial Theorem.
2. *Latin*.—Select Orations of Cicero. Latin Composition.
3. *German*.—Otto's Grammar.
Drawing.—Holmes's Drawing Books.

SECOND TERM.

1. *Mathematics*.—Geometry. Plane Trigonometry.
2. *Latin*.—Virgil. Latin Prosody.
3. *German*.—Otto's Grammar.
Drawing.—Holmes's Drawing Books.

THIRD TERM.

1. *Latin*.—Virgil. Latin Prosody.
2. *Mathematics*.—Geometry of Three Dimensions. Navigation. Mensuration.
3. *German*.—Whitney's German Reader.
Drawing.—Holmes's Drawing Books.

SOPHOMORE CLASS.

FIRST TERM.

1. *Mathematics*.—Algebra completed. Surveying.
2. *English*.—Fowler's English Grammar. Trench on the Study of Words.
3. *German*.—Goetz von Berlichingen.

SECOND TERM.

1. *History*.—Weber's Outlines of History.
2. *Physics*.—Natural Philosophy—Snell's Olmstead.
3. *German*.—Goetz von Berlichingen.

THIRD TERM

1. *Rhetoric*.—Whately and Campbell.
2. *Mathematics*.—Spherical Trigonometry with applications to Astronomy.
Natural History.—Botany.
3. *German*.—Schiller's William Tell, or Goethe's Goetz von Berlichingen.

JUNIOR CLASS.

FIRST TERM.

1. *Metaphysics*.—Hamilton. Lectures.
2. *Physics*.—Astronomy.
3. *French*.—McGill's Grammar and Reader.

SECOND TERM.

1. *Metaphysics*.—Hamilton completed. Lectures.
English Literature.—Taine. Lectures.
2. *Chemistry*.—Barker's. Lectures.
3. *French*.—McGill's Grammar and Reader.

THIRD TERM.

1. *Mathematics*.—Analytical Geometry. (6 weeks.)
2. *Natural History*.—Zoölogy, Anatomy and Physiology (Nicholson).
Chemistry.—Barker's. Lectures.
3. *French*.—McGill's Grammar and Reader.

SENIOR CLASS.

FIRST TERM.

1. *History*.—Guizot's History of Civilization.
2. *Natural History*.—Geology and Mineralogy (Dana).
3. *Ethics*.—Wayland's Moral Science. Butler's Analogy. Lectures.

SECOND TERM.

1. *Natural History*.—Geology and Mineralogy completed.
2. *Logic*.—McCosh. Lectures.
3. Laboratory Practice.

THIRD TERM.

1. *Political Philosophy*.—Political Economy. Lectures.
2. *Constitutional Law*.—Constitution of the United States. International Law (Woolsey).

Themes and Declamations throughout the course.

III.—COURSE IN ASTRONOMY.

The Dearborn Observatory forms the Astronomical Department of the University. Its objects are to make original researches in Astronomical Science, to assist in the application of Astronomy to Geography, in communicating exact time, and other useful objects, and to furnish instruction in Astronomy to the students of the University, both those in the regular course and those who wish to give especial attention to the study.

The principal instruments of the Observatory are :

1. The great Equatorial Refractor, made by Alvan Clark & Sons, of Cambridge, Mass., the largest telescope in this country. This instrument is placed in the Dearborn Tower, built by the munificence of the Hon. J. Young Scammon, LL.D.. The dimensions of the Equatorial are :

Diameter of Declination Circle, 30 inches.

Diameter of Hour Circle, 22 inches.

Focal length of Object Glass, 23 feet.

Aperture of Object Glass, 18½ inches.

The circles are read by two microscopes each, the hour circle to seconds of time, and the declination circle to ten seconds of space.

2. A meridian circle of the first class, constructed by those eminent artists, Messrs. A. Repsold & Sons, of Hamburg. This instrument has a telescope of six French inches aperture, and divided circle of forty inches diameter ; otherwise it is like Bessel's celebrated Königsberg circle, by the same makers, with some late improvements in the illumination of the field and the wires, and apparatus for registering declinations.

The Observatory has also a chronometer (Wm. Bond & Son, No. 279), a clock, by E. Howard & Co., and an astronomical library.

The Course of Instruction includes :

1. Instruction in Astronomy to the Undergraduates (see Classical Course).
2. In the determination of time, latitude and longitude, to students of the Engineering Course.
3. In higher Mathematics and Astronomy to such students as wish to prepare themselves for positions in Observatories, or other scientific establishments, or for professorships of mathematical departments in Colleges.

This will include instruction in the following subjects :

1. Modern Higher Geometry, applied to Conic Sections and Spherical Trigonometry.
2. Analytical Geometry and the Differential and Integral Calculus.
3. Spherical and Practical Astronomy.
4. The method of Least Squares.
5. The Theory of the Motions of the Heavenly Bodies.

6. The Theory of Instruction in Science.

The authors chiefly referred to on the respective subjects will be:

1. Chasles, Steiner, Geiser.
2. Salmon, Courtenay, Cournot.
3. Brunnow, Chauvenet.
4. Götts.
5. Gauss, Encke.
6. Beneke.

Practical exercises with the instruments will take place regularly.

On those who shall pursue a full course of at least two years, shall have passed a satisfactory examination, and shall prepare an original thesis on some astronomical or mathematical subject, the degree of Bachelor of Science will be conferred.

During the past year the Director has completed a catalogue of Latitude Stars for the United States Lake Survey, and in connection with the Chief Engineer of the Military Department of the Missouri, has determined the geographical position of Fort Hays, Kansas, Denver and Pueblo, Colorado; and has conducted operations at Chicago for local time in determining the longitudes of Pembina and of Cairo, Ills. Still more extensive operations of the same kind are in contemplation for the present summer; so that students who desire to, will enjoy unusual opportunities for witnessing, and if properly prepared, for taking part in important operations of practical Astronomy as applied to geography and geodesy.

The preparation desirable for a student in practical Astronomy consists in a thorough knowledge of practical arithmetic, elementary algebra, and geometry and plane trigonometry: and, if possible, of the German language.

The following is a list of the former pupils of this Department, with their present occupations, so far as known. The graduates among them were students here after graduation at other institutions.

Alice F. Conkey, B.A., (Lawrence University, Wis.)

Sarah M. Glazier, M.A., (Vassar College, N. Y.) Teacher in High School, Chelsea, Mass.

William Warden Maryatt, Assistant in U. S. Astronomical Expedition in Utah and Nevada.

William A. Metcalf, M. A., (Lawrence University, Wis.) Assistant in U. S. Lake Survey.

Aaron N. Skinner, Aide at U. S. Naval Observatory, Washington, D. C.

Ormond Stone, Aide at U. S. Naval Observatory, Washington, D. C.

Mary W. Whitney, M. A., (Vassar College, N. Y.,) pursuing higher Mathematical studies.

ASTRONOMICAL STUDENTS.

Charles Henry Day Fisher..... *Wyanet.*
Edward Olson *La Crosse, Wis.*
Charles Judson Roney *Sheboygan Falls, Wis.*

IV.—COURSE IN PRACTICAL CHEMISTRY.

During the present year arrangements were completed for the organization of a course in Practical Chemistry. In this Course provision is made for the thorough and comprehensive study of Chemistry as an art, in the belief that, aside from the practical relations of the Science, the educational effect of Laboratory practice is of great value. By such practice the senses are trained to observe with accuracy, and the judgment to rely with confidence on the proof of actual experiment.

In the Laboratory of this Department, under the direction of Professor Wheeler, aided by competent assistants, the student of Applied Chemistry will have ample opportunity of becoming practically familiar with the materials, apparatus, and processes of the most important Chemical arts and manufactures.

A systematic Course in Qualitative and Quantitative Analysis will be followed by practical studies with regard to the applications of Chemistry to Agriculture, Mining, Metallurgy, Assaying, Medicine, Pharmacy, Toxicology, Preservation of Timber, Meats, etc., Warming, Illumination, Ventilation, Photography, and other useful purposes. On those who shall complete a full course, requiring from two to three years' time, and who shall have passed a satisfactory examination, the degree of Bachelor of Science will be conferred. Certificates will be granted to students who do not graduate, stating the time they have been present, the studies pursued, and the progress made.

The Laboratory is quite new, and one of the best equipped in the West. The student will have ample opportunity of visiting the numerous manufacturing establishments of Chicago and vicinity, and witnessing important industrial applications of the science, the study of which he is pursuing.

The Laboratory Fee for special students in Chemistry is \$5 per term; for the regular course, \$1.

TEXT-BOOKS FOR READING AND REFERENCE.

Craft's Qualitative Analysis.
Eliot and Storer's Manual.
Bowman's Practical Chemistry.
Fresenius' Qualitative and Quantitative Analysis.
Miller's Chemistry, Vols. II. and III.
Richardson & Watt's Chemical Technology.

STUDENTS IN PRACTICAL CHEMISTRY.

Charles L. Custon *603 Mich. av.*
William John Edwards..... *Amboy.*
James Henry McDonald..... *Hyde Park.*
*Adoniram Judson Sherman..... *Metamora.*
Fred. Marshall Simonds..... *132 South Park av.*

*Deceased.

PRIZES.

JUNIOR CLASS.

The Myers and Chandler prizes, first and second, for excellence in Oratory and Composition combined in original orations, are open to competition by members of the Junior Class.

At the Commencement of 1872 these prizes were awarded as follows :

To George Collins Ingham, Covington, Ind., a first prize.

To Edward Olson, La Crosse, Wis., a second prize.

Especially commended by the committee: Jacob Newman, of Chicago, and Oliver C. Weller, of Lewisburg, Ohio.

Committee of Award.—Rev. W. W. Everts, D.D., Z. Grover, M.A., Joseph E. Lockwood, Esq.

SOPHOMORE CLASS.

The Griggs prizes, first and second, for Excellence in English Composition, are open to competition by members of the Sophomore Class. Competitors for the prize must leave their essays at the President's office on or before the first day of June. Each essay must be signed with an assumed name, and accompanied by a sealed letter containing the true name of the writer, and superscribed with his assumed name.

The subjects for the next Academic Year are :

Literary Character of the Scriptures.

Schools of the Middle Ages.

The Reign of Charlemagne.

At the commencement of 1872 these prizes were awarded as follows :

To George Sutherland, of West Eau Claire, Wis., a first prize,

To Reune R. Coon, of Pana, a second prize.

Committee of Award.—Rev. Robert Turnbull, D.D., Charles H. Reed, Esq., Rev. Brockholst Morgan.

FRESHMAN CLASS.

The Keen prizes, first and second, for Excellence in Declamation, are open to competition by members of the Freshman Class. The competition for these prizes will take place on the Monday evening preceding Commencement :

At the Commencement of 1872 these prizes were awarded as follows :

To Zenas C. Hall of Tonica, a first prize.

To Charles S. Trask, of Caledonia, Minn., a second prize.

Two additional complimentary prizes of equal rank were awarded to Boganau, of Bassein, Burmah, and Herbert A. Howe, of Chicago.

Committee of Award.—Charles Duffield, Esq., Wm. Hansbrough, Esq., George W. Thomas, Esq.

GENERAL INFORMATION.

TERMS AND VACATIONS.

The year is divided into three terms and three vacations. The first term consists of fifteen weeks ; the second and third of twelve weeks each. The Christmas vacation is two weeks ; the Spring vacation one week ; and the Summer vacation ten weeks.

COMMERCIAL INSTRUCTION.

To meet the practical wants of the different classes of students, the Trustees have made arrangements for regular instruction in Penmanship, Book-keeping, and other branches essential to a good commercial education.

MUSIC.

The Department of Music is under the supervision of Dr. Geo. F. Root, and students who desire it will have an opportunity for elementary drill, on payment of a small fee.

ELECTIVE STUDIES.

Students may reside at the University and pursue studies, for a longer or shorter time, in any of the classes, at their own election ; subject, however, to the regulations of the Faculty.

LECTURES.

In connection with the regular recitations, lectures are delivered on the following subjects: Chemistry, Natural Philosophy, Geology, Astronomy, Anatomy and Physiology, Zoölogy, Mental and Moral Philosophy, Greek History and Literature, Roman History and Literature, Verbal Criticism, and History of the English Language.

RHETORICAL EXERCISES.

The College Classes have exercises in Composition, once in three weeks. Instruction in Elocution is given to all the students, and declamations are required of all.

EXAMINATIONS.

At the close of every term there are public examinations of all the classes, in both the Collegiate and Preparatory Departments.

DEGREES.

The degree of Bachelor of Arts is conferred upon all students who have completed the prescribed Classical Course of study, and passed a satisfactory examination therein; and the Degree of Bachelor of Science upon all who have completed the Scientific Course, and passed a similar examination.

Bachelors of Arts of three years' standing may receive the Degree of Master of Arts, provided that since graduation they have sustained a good moral character, and pursued some literary or scientific calling.

SOCIETIES.

There are three Societies in the University, conducted by students—two Literary, and one Religious.

RELIGIOUS EXERCISES.

The duties of each day are opened with religious services in the Chapel of the University, at which all the students are required to be present.

On the Sabbath they are required to attend public worship in the forenoon, with some congregation in the city, selected by themselves or by their parents. The students also sustain a weekly prayer meeting.

ILLUSTRATIVE APPARATUS

THE UNIVERSITY LIBRARY has been increased recently by valuable acquisitions. The London publishing houses of Sampson, Low & Co., Trübner & Co., and Longmans & Co., have generously furnished copies of their late publications. Messrs. Sheldon & Co., of New York, have donated a complete set of their publications.

THE THOMPSON LIBRARY, the gift of Hon. H. M. Thompson, contains a very valuable collection of books on Horticulture, a complete set of the Bohn Libraries, and many fine illustrated works.

THE TUCKER LIBRARY, presented by the family of the late Rev. Elisha Tucker, D.D., contains upwards of five hundred volumes, mostly theological.

THE HENGSTENBERG LIBRARY is now put up in the University, and accessible to students. It contains about thirteen thousand volumes, and is not only one of the most valuable theological libraries in this country, but it is also rich in works of classical literature, *belles-lettres*, history and philosophy.

THE GEOLOGICAL MUSEUM has been lately increased by collections made by the Natural History Society of the University; by a set of specimens illustrating the geology of Illinois, contributed by the State, and by collections made by Dr. Dexter, Prof. Beal, and others.

THE MECHANICAL MUSEUM contains several hundred models of machines and patents in the departments of Agriculture, Chemistry, Civil Engineering, Manufactures, etc., and will be largely increased during the coming year.

A MUSEUM OF COMPARATIVE AND HUMAN ANATOMY AND PHYSIOLOGY has been commenced, under the charge of Dr. Dexter, and comprises, at present,

skeletons of most of the orders of existing vertebrates, with many specimens of invertebrates.

A NUMISMATIC COLLECTION, made by the late Charles D. Sandford, and containing 3,500 coins, has been presented to the University by Rev. Miles Sandford, D.D., of Philadelphia.

CHEMICAL AND PHILOSOPHICAL APPARATUS.—The Lectures on Chemistry and Natural Philosophy are illustrated by modern apparatus. To this important additions have recently been made, chiefly donations from George Hazeltine, Esq., of London, and Messrs. B. O. & H. W. Chamberlain, of Boston, Massachusetts; among them a Rumkorff's Induction Coil, one of the largest ever imported; a full set of the famous Geissler's Tubes, and a powerful Grove's Battery, together with apparatus useful in the assay of ores.

LOCATION, BUILDINGS, ETC.

The location of the University is in the south part of Chicago, directly on the Cottage Grove line of the Chicago City Railway. The site was the gift of the late Senator Douglas, and is universally admired for its beauty and healthfulness. The building is unsurpassed for the completeness of its arrangements, especially the students' rooms, which are in suites of a study and two bed rooms, of good size and height, and well ventilated. The accommodations of the University have been recently greatly enlarged by the completion of the main building, 136 by 72 feet, a structure erected at a cost exceeding \$117,000, and believed to be second in convenience and elegance to no other educational edifice in the country. In this building there are a large Chapel, rooms for the various Scientific Departments, and also the Preparatory, spacious and airy recitation rooms, elegant suites for the Literary and Religious Societies, and additional dormitories for the students.

Through the liberality of the different railroads which center at Chicago, classes have had the privilege of making frequent excursions into the country, in order to examine rock strata, and to collect specimens in Natural History. These explorations have extended, during past years, to Dubuque and Burlington, Iowa; to Kewanee, LaSalle and Quincy, Ill.; to the Wisconsin River, and along the Mississippi River, from McGregor to St. Louis.

BOARD AND ROOMS.

Board may be obtained in the Club Room of the University, where many of the students board, at cost, which has been during the past year from \$2.50 to \$3.00 per week.

The rooms are arranged in suites, consisting of a study and two bed rooms. Bedsteads, bedding and furniture in uncleanly condition, will be rigidly excluded. Habits of neatness and order are carefully enjoined on occupants of rooms. Damage to rooms or furniture, other than the ordinary wear, will be charged in the term bills.

Students who may prefer it, can obtain board in families on reasonable terms, or they may form clubs and provide for themselves.

EXPENSES PER ANNUM.

Board from \$2.50 (in clubs) to \$3 per week.....	\$ 97.50 to \$117.00
Tuition	70.00 to 70.00
Room rent, (not including vacations).....	15.00 to 20.00
Incidentals.....	6.00 to 8.00
Library fee, fifty cents per term.....	1.50 to 1.50
Total.....	\$190.00 to \$216.50

Students furnish their own fuel and lights. The use of kerosene and soft coal is prohibited in the University building. Gas costs about fifty-five cents a week for each room, and fuel from \$10 to \$20 per annum for each student. Washing has been, during the past year, seventy-five cents per dozen.

The rule of the Trustees requires all bills to be paid by the third day from the beginning of each term; and by failure to comply with these terms, the student forfeits the privileges of the University.

Parents will take notice that the whole necessary expenses for one year, including wood, lights and washing, varies but little from \$300. This has been proved by the actual experience of students who practise economy. Any material variation from this amount may be regarded as unnecessary.

HISTORY OF THE UNIVERSITY.

COOK COUNTY AFFAIRS.

Special Dispatch to The Chicago Tribune.
CHANCELLOR FOR CHICAGO UNIVERSITY.

SPRINGFIELD, Ill., Feb. 16.—Judge Doolittle tried, through a friend on the floor of the Senate, to get up the bill for the appointment of a Chancellor for the Chicago University on Saturday, but failed, through the objection of Mr. Sanford, from Knox County. His objection was, that it was a species of special legislation, and a put-up job for the benefit of that institution only. The bill originally applied only to such universities as the Governor was ex-officio Chancellor of, which included only the Chicago institution. The bill was referred this morning to the Committee on Education, for the purpose of amending it so as to read:

That in all universities of learning not placed under the control of the officers of this State, whether organized under any general or special law, including those wherein by law the Governor is made Chancellor ex-officio, the Board of Trustees shall have power by a by-law to create the office of Chancellor; to prescribe the powers and duties thereof, not inconsistent with the provisions of law, and to fix the term thereof; and from time to time to fill the same by election.

Provided, whenever the Governor is by law Chancellor ex-officio, and shall be able to attend and act as such, his rights, prerogatives, and duties shall not be abridged or affected by the provisions of the act.

vevied to Dr. Burroughs, as trustee, the proposed site, with the provision that one hundred thousand dollars should be immediately raised for the erection of a suitable building. During the year following the first subscription, of about two hundred thousand dollars, was raised, and a charter obtained; from which the following is an extract: "Otherwise than that the majority of the Trustees and the President of the University shall forever be of the same religious denomination as the majority of this corporation, no religious test or particular religious profession shall ever be held as a requisite for admission to any department of the University, or for election to any professorship or other place of honor or emolument in it; but the same shall be open alike to persons of any religious faith or profession." In June, 1857, the first Board of Trustees was organized, with Mr. Douglas as President. This office he held till his death.

On the 2d of April, 1857, an act of incorporation was passed by the Legislature of Illinois, constituting the following named gentlemen, and their associates

of Chicago begins properly with the year 1855, of founding in Chicago a college which should be the Baptists of the Northwest as to command. One of the principal obstacles to the success of the enterprise of land suitable for a site, was removed by Mr. A. Douglas. With the discernment and publicity of him, Mr. Douglas had conceived the plan of sharing in the vigorous life and rapid development of the great city, and share in the greatness which he had always accorded to the city. In accordance with these views he had proffered his property at Cottage Grove to any association of gentlemen to undertake the enterprise, and, as an earnest of their specified time, buildings worth not less than one

Mr. Douglas at the close of the year 1855, Rev. J. W. Phelps, late pastor of the First Baptist Church in Chicago, should give the property for a university to the Baptist denomination. A condition of the majority of trustees should be of that religious denomination, and have exclusive control, but other sects, and men to cooperate, should also be represented in the corporation. He accepted, and on April 2, 1856, Mr. Douglas con-

EXPENSES PER ANNUM.

Students furnish their own fuel and lights. The use of kerosene coal is prohibited in the University building. Gas costs about \$10 per week for each room, and fuel from \$10 to \$20 per annum. Washing has been, during the past year, seventy-five cents per week. The rule of the Trustees requires all bills to be paid by the beginning of each term; and by failure to comply with this student forfeits the privileges of the University.

Parents will take notice that the whole necessary expenses for board, fuel, wood, lights and washing, varies but little from \$300. The rule of the Trustees requires all bills to be paid by the beginning of each term; and by failure to comply with this student forfeits the privileges of the University.

unchanged. The broom-corn trade was reported fair, with all grades ruling firm at quotations. Wool, hay, and hops were quiet and devoid of any specially new features. The hide market was steady, owing probably to the very light receipts, as the demand is not urgent and Easter markets are very much depressed under large offerings of foreign hides. Green fruits were firm, when choice, at current quotations, and a fair retail request. Seeds were in active demand, and all descriptions ruled firm. Potatoes sell readily on arrival, bringing the outside prices. The receipts are small, and stock in store nearly exhausted. Poultry was dull and weak under large offerings.

Highwines were dull and easier, though reported stronger in New York. There have been no supply orders of consequence here for two or three days past, as buyers hold off for a weaker price, due to a larger supply, now that many of the contracts have expired under which alcohol was manufactured for export to Europe. There were few sellers all through the session at 90 per gallon, but no buyers, except for one lot of 50 bbls, which sold at 96c. The market closed nominal at 95 1/2 @ 96c.

Rail freights on grain to New York are now quoted at 1/2c per lb, or 30c per bu, on wheat.

Dressed hogs were in good shipping demand and unchanged on light weights, at \$6.25 per lb. Heavy weights were 5c higher, at \$6.30. Sales were reported of 4 head (choice) at \$6.40; 380 at \$6.35; 481 at \$6.30.

HISTORY OF THE UNIVERSITY.

The History of the University of Chicago begins properly with the year 1855, when the idea was first conceived of founding in Chicago a college which should be so far under the control of the Baptists of the Northwest as to command their confidence and support. One of the principal obstacles to the success of the scheme, namely, the high price of land suitable for a site, was removed by the liberality of the Hon. Stephen A. Douglas. With the discernment and public spirit that were so characteristic of him, Mr. Douglas had conceived the plan of a university here, which, sharing in the vigorous life and rapid development of Chicago, would also, he believed, share in the greatness which he had always predicted for the young city. In accordance with these views he had proffered ten acres of his beautiful property at Cottage Grove to any association of responsible men who would undertake the enterprise, and, as an earnest of their ability, would erect within a specified time, buildings worth not less than one hundred thousand dollars.

In an interview held with Mr. Douglas at the close of the year 1855, Rev. J. C. Burroughs, D.D., LL.D., then late pastor of the First Baptist Church in Chicago, proposed to him that he should give the property for a university to be established and controlled by the Baptist denomination. A condition of the proposal was, that while the majority of trustees should be of that religious denomination, they should not have exclusive control, but other sects, and men of no sect, who might choose to cooperate, should also be represented in the Board. The proposal was accepted, and on April 2, 1856, Mr. Douglas conveyed to Dr. Burroughs, as trustee, the proposed site, with the provision that one hundred thousand dollars should be immediately raised for the erection of a suitable building. During the year following the first subscription, of about two hundred thousand dollars, was raised, and a charter obtained; from which the following is an extract: "Otherwise than that the majority of the Trustees and the President of the University shall forever be of the same religious denomination as the majority of this corporation, no religious test or particular religious profession shall ever be held as a requisite for admission to any department of the University, or for election to any professorship or other place of honor or emolument in it; but the same shall be open alike to persons of any religious faith or profession." In June, 1857, the first Board of Trustees was organized, with Mr. Douglas as President. This office he held till his death.

On the 2d of April, 1857, an act of incorporation was passed by the Legislature of Illinois, constituting the following named gentlemen, and their associates

and successors in office, a body corporate, by the name of "The University of Chicago"; Stephen A. Douglas, John C. Burroughs, Wm. B. Ogden, Mason Brayman, Hiram A. Tucker, Walter S. Gurnee, Charles A. Walker, James Dunlap, Samuel Hoard, Ichabod Clark, James H. Woodworth, Charles H. Roe, Levi D. Boone, Elijah Gove, E. D. Taylor, Henry G. Weston, John H. Kinzie, Simon G. Miner, Robert H. Clarkson, Noyes W. Miner.

The first meeting of the Corporators was held on the 21st of May, 1857, at which a Board of Trustees was appointed, as follows: Hon. Stephen A. Douglas, President; Wm. Jones, Esq., President Executive Committee; Hon. Charles Walker and Hon. J. H. Woodworth, Vice-Presidents; H. A. Tucker, Esq., Treasurer; Rev. R. H. Clarkson, D.D., Recording Secretary; Hon. Samuel Hoard, Hon. L. D. Boone, Hon. E. D. Taylor, Hon. J. H. Kinzie, Rev. J. C. Burroughs, D.D., Hon. Walter S. Gurnee, Hon. Thomas Hoyne, Rev. A. J. Joslyn, J. K. Pollard, J. K. Burtis, Rev. R. Boyd, C. N. Holden, Hon. Wm. B. Ogden, all of Chicago; Mason Brayman, Esq., of Springfield; Hon. James Dunlap, Jacksonville; Rev. Ichabod Clark, Rockford; Rev. C. H. Roe, Belvidere; Elijah Gove, Esq., Quincy; Rev. H. G. Weston, New York City; Rev. S. G. Miner, Canton; Rev. N. W. Miner, Springfield; Hon. J. R. Doolittle, Racine, Wis.; Thompson Maples, Esq., Canton; D. Valentine, Esq., Aurora; Rev. N. G. Collins, La Moille; Rev. J. Bulkley, Carrollton; Hon. R. S. Thomas, Virginia; John Dement, Dixon; Rev. J. H. Manton, Quincy; Francis Wayland, D.D., L.L.D., Providence, R. I.

The Board of Trustees held their first meeting on the 22d of May, 1857, at which time the officers were elected, and the following named gentlemen appointed as the Executive Committee: Wm. Jones, Esq., President; Rev. J. C. Burroughs, Secretary; Samuel Hoard, L. D. Boone, Chas. Walker, J. H. Woodworth, H. A. Tucker, Rev. (now Bishop) R. H. Clarkson. The following appointments were also made: Rev. J. A. Smith, Corresponding Secretary; Rev. J. B. Olcott, General Agent; Hon. J. Y. Scammon, Librarian; John M. Woodworth, Curator of the Museum; and Wm. H. Bushell, Steward.

The Executive Committee immediately adopted plans for an imposing edifice, the magnificent proportions of which should be in keeping with the magnitude of the institution they had designed. The corner stone was laid, with appropriate ceremonies, on the fourth day of July, 1857. Owing, however, to the financial crisis of that year, many persons who had promised large sums of money to the institution, were unable to redeem their pledges, and the completion of the work of building was delayed for a year. In July, 1858, the work was resumed, and the south corridor and wing of the structure were pushed on rapidly to completion. In 1865, the main building, of which a description may be found in another part of this catalogue, was finished; and it was ordered by the Trustees that this portion of the edifice, including the grand tower, should be named "Douglas Hall," in honor of the founder of the institution. It was also ordered that the portion of the building south of "Douglas Hall" should be named "Jones Hall," in honor of Wm. Jones, Esq., the first President of the Executive Committee, and one of the chief benefactors of the University.

THE CHICAGO UNIVERSITY.

Induction of Judge Doolittle as President ad Interim.

Jan. 19 1874
Remarks by the Outgoing and Incoming Officers.

The Finances of the Institution.

Last week the Hon. J. R. Doolittle accepted the position of President ad interim of the Chicago University, to fill the vacancy caused by the resignation of Dr. Burroughs, who has so long been at the head of the institution, and yesterday morning at 9 o'clock the new President was inducted into office, in the presence of the Faculty, Board of Trustees, and students.

DR. BURROUGHS.

Dr. Burroughs read the 103d Psalm, the one used when the University was first opened, and then, after prayer, spoke as follows:

The service that I am called upon at this time to do past my warm and highly esteemed personal friend, the office I have held ever since the beginning of this institution, is necessarily a simple one. In doing so, character, duties, and powers attaching to the office to be assumed by the new President; to allude to the rights and authority belonging to the position. The office has rights that should be known and respected. It has been the case that a college President has not been clothed with the proper authority, as in the case of the institution over which the Hon. Horace Mann at one time presided, when he was actually sued at law by a student, and certain damages obtained against him. Such conflict of authority, however, can never arise in the University of Chicago, as, by its charter, representing the sovereign will of the people, a fundamental law is created, the terms of which are plain, conferring certain well-defined rights upon the Board of Trustees, giving it, among other things, the power to elect a head to the institution, to be recognized in its President, in connection with the Faculty. At the first meeting of the Board of Trustees the Board defined the duties of the President and Faculty, as follows:

1. The government of the college shall be vested in the President, Professors, and tutors, who shall be styled the Faculty of the college.
2. The President shall have power to direct all matters relating to the college; to govern the undergraduate students and the resident graduates, and to punish all crimes and offenses committed by them against the laws of the college, except in cases referred by law to the Faculty.
3. The Professors and tutors, severally, shall have power to govern the undergraduate students, and to punish them for any crime, except in cases referred by law to the Faculty; provided that they may not, in any case, proceed contrary to the advice and direction of the President.
4. The President, at his discretion, shall have authority to appoint a meeting of the Faculty. All matters which, by law, are referred to the Faculty, shall be brought before such meetings and determined by the major part of the members present, whereof the President shall be always one, and concurring in such determination; and when the members present shall be

ed to begin the work of instruction, Rev. J. C. Burroughs, D.D., as Pres-ctual Philosophy; Albert H. Mixer, Literature; and Le Roy Satterlee, Literature. These gentlemen entered 9th day of September, 1858, with six classes in St. Paul's (Universalist) and Van Buren street. At about this York, was appointed General Agent e for its financial interests.
