Dear Miss Talbot:

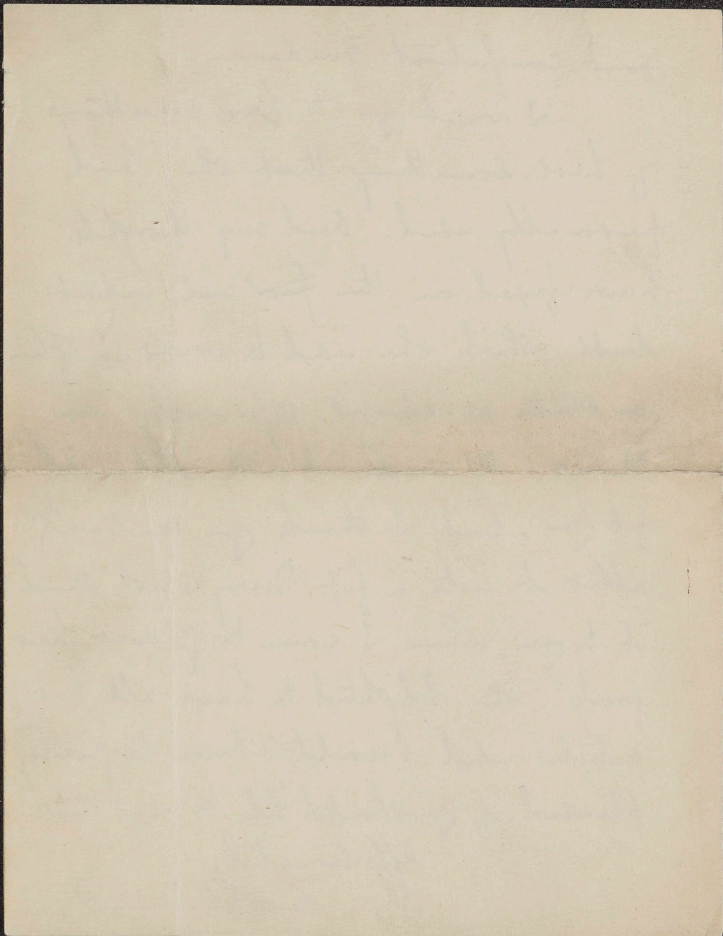

I am spending a Sunday
with Dr & Mrs Freeman. They have
shown me your kind note, by
which they have been much touched.
It touched me too, for few were
in closer intimacy with Alice
than yourself. She liked to work
with you. She believed in you.
And when she withdrew from
work at the University of Chicago
she did so with full assurance
that all would go well under

Your confident guidance.

I want you to have something
of her. Something that she had
personally used. And my thoughts
have fixed on the ~~fine~~ red velvet
dress which she used to wear so often
on state occasions, especially in
Chicago. Of course it will not precisely
fit you, but I think you can easily
alter it into a fit. May I not send
it to you, when I come to go over her
goods? She delighted to have all her
articles used & would I know be greatly
pleased if you should like to wear this.

Affectionately,

Geo. Palmer

Harvard University.

Dear Miss Talbot:

It is good to read your
words & to have you rejoice
in all she has given us.
Some time this winter you
will be in Boston, & then
you will send me word
& we will talk together.
I want you to have something
that she has used & worn.

Affectionately,

Miss Marion Talbot,

Dean Chicago University,

My dear Miss Talbot:

The enclosed statement of the
Committee's report is sent you as one of many
who have offered to co-operate with them. As
it is desirable that the local committees
should be organized at once, will you kindly
send, at your earliest convenience, the
names of persons in your city who will act
with you and to whom the Committee may
write directly inviting them to serve.

P.S. I add a postscript here as
it seems best to say that nothing will
be given to the newspapers until the
seventeenth of January 1903. I wish you
would write me your feeling about
memorials and plans for memorials.

The Association of College Alumni
are planning to publish the speeches
made at the meeting held December 29, 1902.
Pardon these added notes somehow
prompted by the memory of your letter
of regret send to Mrs. Eliot.

Believe me,
Lovingly,
L. H. Moore

Have wondering whether you will
have a Memorial Meeting at Chicago Uni-
versity and if President Angell of Michigan
will be invited.

A Memorial Service will be held in Sam-
uels Theatre, probably, and it might be the in-
tentions of friends at Harvard to invite President
Angell, unless you have decided to ask him to speak
at Chicago.

I will add that Professor Palmer seems to
be bearing the strain remarkably and is really
exceptionally well. Believe me

Very truly yours.

Erwin Kennedy Morse.

Res.
3339 Vernon Av.,
Sta. 'M',

Dear Professor:

Chicago,
1-21-1908.

I picked up a copy of the February "House Beautiful" this morning, finding in it several things edifying to the earnest and hopeful soul, but most unexpected of all, a short and wholly sound and sensible article on "Clean air" - the significance of it. So cranky a subject! I am in love with the writer and the sooner I unbreast the matter most likely the better. You are my affinity - on the sanitary plane; for I will have no doubt that you will be as much in earnest to induce and help habilitate the practical realization of your science as you are to learn and to promulgate it.

Before I come over to pay my court to you herein I must, however, seek answer to a query: Can you keep a secret? For the situation involves my letting you into sundry little confidences related to a cause or causes as well as to my personal and hearthstone interests. (A parenthesis may as well come in here as elsewhere. There was a run of pleasant acquaintance for many years, and touching at several cities, between Frances E. Willard and myself, starting when she was dean at North Western, when, recalling a former introduction, I addressed her as "Dear Otha Dean". The ground of our fellowship [secret No. 1.] was our sympathy and measurable common experience in a special useful application of the science of clean air and on my part the art of getting and applying it. She had been at Dr. M. P. Hanson's ^{Mrs. Hanson's} "Thermal Therapy" - for pure, dry hot air at 180°F. to 200°F. - planned in Boston by me, 1870. Miss Willard - sweet little girl that she never ceased to be - kept up the "Beasts, Otha; alas! that I was ever without a fit plant and that none existed to which she could resort for the efficient alternative use of heat or of oxygen made available by heat, for that is the rationale of the unapproachable hygienic and therapeutic power of the aero-thermal bath of the ancient Romans. By this token Frank Willard - and many another worthy, should be living now or have lived out his normal span. I can point to living proofs of this. But 'twist! I told you it was a secret. Presently you will see why it is a secret.)

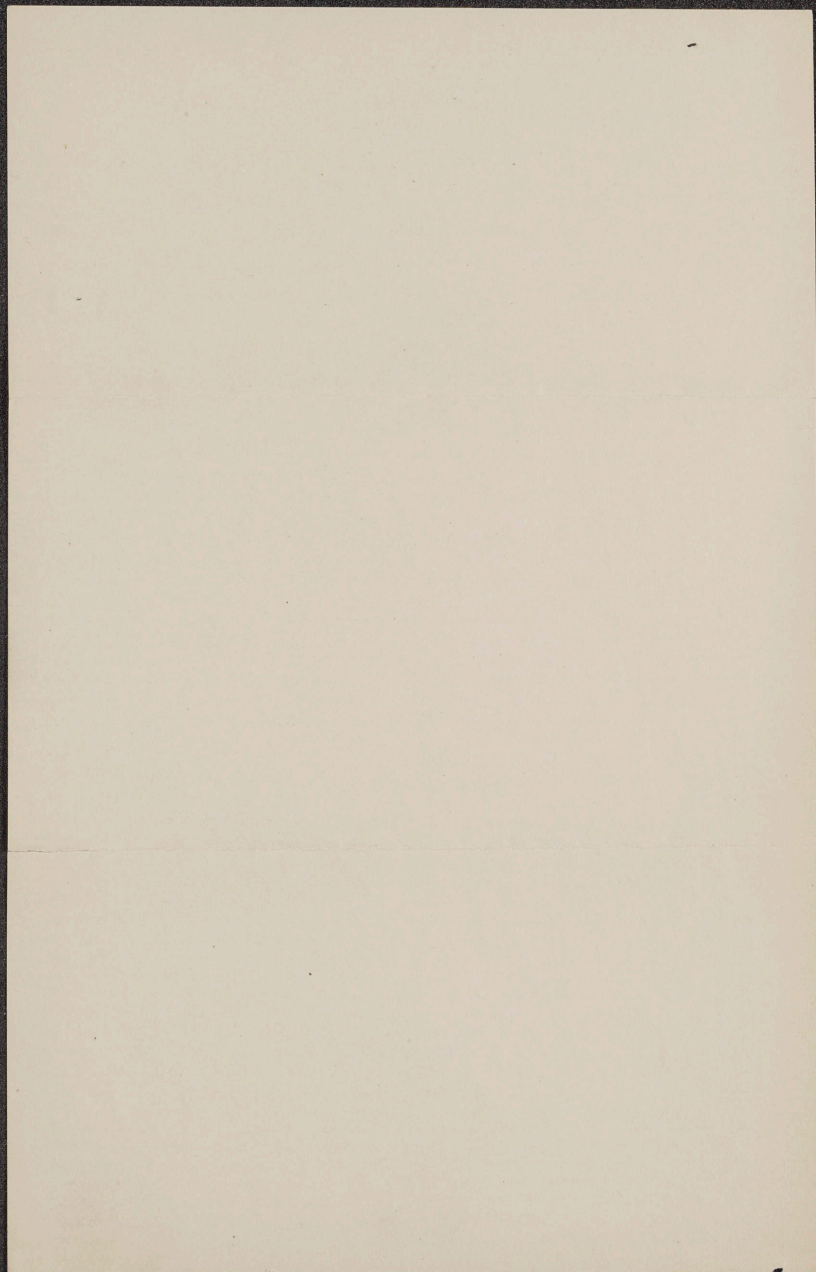

Granted, then, that you can keep a secret. And assumed, by your grace, that you will keep these of mine, tell, at least, we shall agree that the time is ripe for divulgement. I beg you to lay these things up in your heart and keep lips closed how much sooner you marvel just now why you should be silent.

Please N.B.: This matter of heat, as I am discoursing upon it, is a bunch of secrets that it were dangerous to let out prematurely. Instance: bless you! I sat as a guest a few minutes on a certain date on the porch of a residence at the n.e. corner of Lexington avenue and The Midway. It was August 3, 1901. My host was your boy-hearted "Prez", Dr. W. R. Harper, and with him was Professor Judson. I playfully upbraided the president for his breach of promise in regard to inspecting ("investigating" was his word) prior to 1896 a little plant I had in operation in England, whither he had said he would send over a couple of his professors. They would have found there "the best hotroom in America", and been treated to exhilaration and invigoration from a range of 180°F. to 240°F. . The only University man who got there to test the top reach of all time's lessons in prophylaxis and therapeutics - of course he came only for a good bath - was our admirable Prof. Edward H. Lewis - you know him - now of Lewis Institute, Chicago.

Whist! the secrets!

What happened on the presidential porch is the significant thing. I had come with hope that now my lifelong devotion to a great idea - a principle - a truth demonstrated even in my time and almost under my humble eyes with a vast induction - a millionfold proof - was to receive at last its assurance of success and the way be opened at this seat of true science and learning for bestowing this great life-saving and health-preserving agency upon a needy world. Trying to be precise and terse in these precious moments, presenting the salient instances of the operation of this incomparable remedy under my observation (drawn from over 250,000 applications of it before my eyes), what do you think were not my feelings when your great organ - it is titled me over with this kind of a beam: "If heat has all the virtues you say it has the medical profession would be glad to know it, and could be trusted to find it out!" Dear Madam, you can not imagine the situation; one day you may - for your own sake and man's sake I hope you will. I was simply stricken dumb. I stammered "You would think so," and some other incoherent words. Prof. Judson joined Dr. Harper in the laugh. I had met Saton in a new form, and he had bested me! Dr. Harper encouragingly said "If you will open a 'Turkish' Bath anywhere near the University, I will be a constant and frequent customer; I am very fond of the 'Turkish' Bath." I had then at command the very best plant ever yet

Every yet

Sole on earth—St Caroline's, Washington Boulevard and Elizabeth Street, Chicago—and I invited Dr Harper to a private showing of its delights (a physical joy he nor you have never experienced, save in like air, which I know has never been sold anywhere else). "Too far to go for a bath," the Doctor thought. Lives would have been saved and real medical science have been sent forward by innumerable strides, had your president then gone with me and taken that important, pregnant lesson in actual, scientific therapeutics.

For a third of a century since I, a student of medicine, discerned (on a byway) in simple honesty the great virtue of heat as a remedy, have I been seeking, in season and out of season, first hopefully, later despairingly, to engage the attention of the faculty to so potent and so dependable an expedient. The true story of this matter is, in a word, sickening. I won't burden you with the tale. It is a fact, that in spite of the centuries upon centuries of health and strength by the Bath [the aero-thermal, high-temperature, clean-air bath] among the Romans; of the innumerable speedy cures of all the curable and many of the (otherwise) incurable diseases in modern times there does not exist in any hospital on this planet or in any sanitarium even (save one in Bristol Eng, and one in Brooklyn, N.Y.), an outfit for administering the immersive bath in pure air at effective temperatures (180° F. up to 300° F.). Not many years ago Prof. John E. W. Thudichum, of London, Eng, a famous chemist and physiologist, physician in chief to the London Infirmary for Diseases of the King and Chest, having become himself a victim of tuberculosis of the lungs, ~~but~~ was cured completely by heat ("common atmospheric air at 220° F. and above"). In an impassioned address to the assembled medical brain (?) of the United Kingdom, he thus characterized his remedy: "The most powerful and certain and at the same time most safe and agreeable therapeutic agent in existence." In hundreds, ~~aye thousands~~ of cases, including my own recovery from general paralysis, again from appendicitis, my wife's from pneumonia four times, my children's from a variety of complaints and so on and on, I have had direct corroboration of Dr Thudichum's declaration. In Dr Hawson's practice in Milwaukee, Dr Wood to Dr Shepard in Brooklyn Dr Miller in N.Y.,—preeminently at Bartholomew's "Turkish Bath & Hydro," Bristol, Eng, the regular, common, usual thing, in the most desperate of "dangerous" and "deadly" seizures, — pneumonia, typhoid, Bright disease, etc, etc, etc, — has been an easy and speedy cure, "relapses" practically none, "failures" next to zero in the total; yet, dear Madam, it is a fact that the science and art of heat in pure air is not taught in any medical school in this country. Worse, there is not a man in any college in this country qualified to teach about heat!

Dear me! I fear that my little 3-year-old - bright little Helen, who next year must be in your School-of-Education Kindergarten, and some day don the black "mortar-board" - by her incessancy at my elbow with new little inventions to show me, has run me into a mire of "prolixity"!

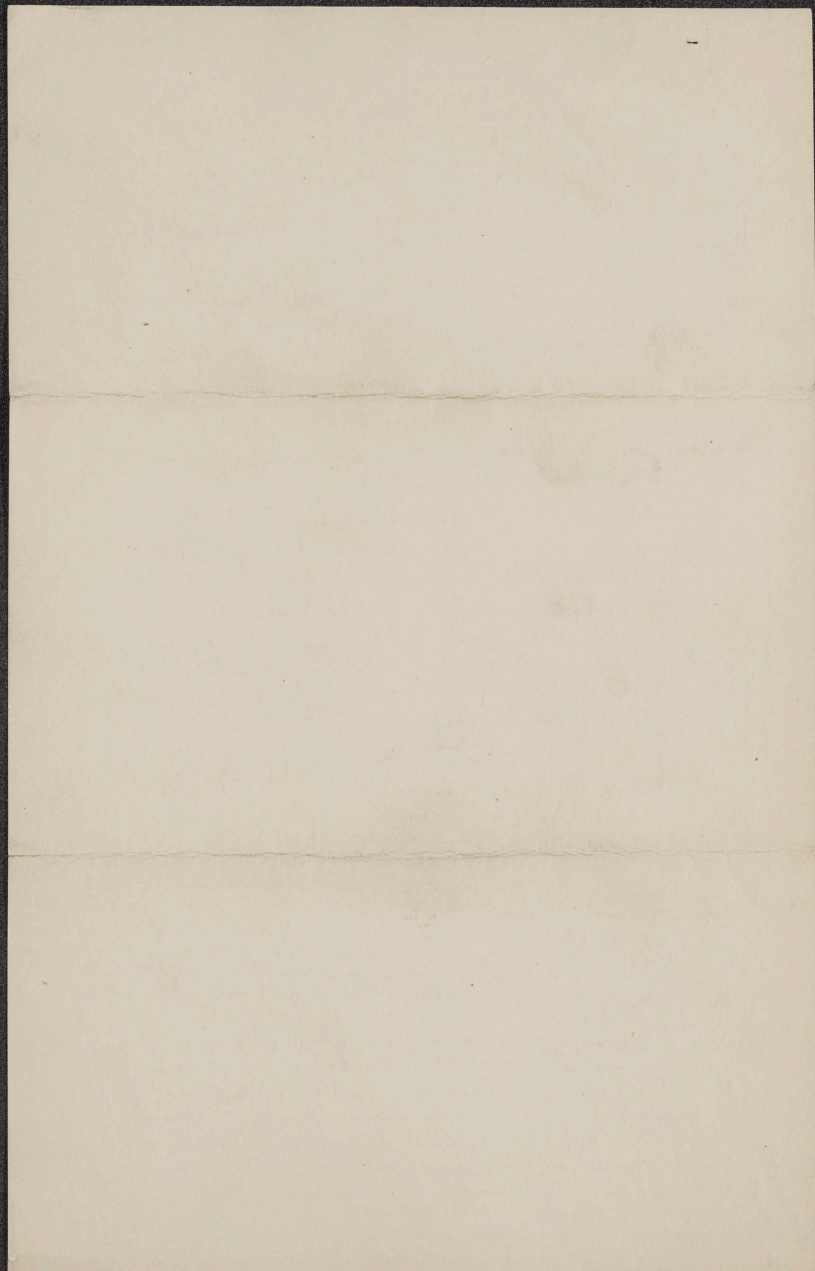

January, a year ago, Prof. E. A. Lewis and I had the pleasure beyond compare of its kind, of taking a bath in St. Caroline's bathroom, at about 230° F. "This is pure air all right - I can taste it!" he said. The 17th of that month I fired up specially (at an expense of \$15. to \$20.) for the entertainment of Dr Ludwig Hektorn and friends, and others, who had made appointments to come. Dr Frank Billings politely (and ignorantly and unenterprisingly) declined the treat, being "perfectly well" and having no time "to indulge in a luxury." Others apologized for not coming; Dr Hektorn ^{stayed} away. My very expert manipulator and I had a superb bath (240° F.) all by ourselves.

Any weekday, up to 6 P.M., or Saturday, 9 P.M., Sunday, not at all, You Women may have a pleasant and wholesome bath at Burnham's, 70-72 State St. Mirabile! there is ventilation there. The other Baths for Ladies and the Bath for gentlemen - a dozen in all - are innocent of any change of air in their bathrooms. The Saratoga Hotel Bath has a very small outlet (in the wrong place) implying the change of a few cubic inches of air in the hour.

Now, a great secret - It is my design, as soon as I can find a building very close to the Quadrangle, and engage the capital, to fit up a model and adequate Bath for men to accommodate your Faculty, Students and visitors, and a Women's Bath equal in every respect to the other. Here (for Heaven's and Earth's Sakes keep this mum!) the two younger classes of Rush and their instructors may learn a few things worth more than all their pharmacopoeia besides.

Please ponder and be silent. Resp. L. L. DEAN

I have a photograph of the interior of St. Caroline's Bath which you may see some time if you wish. The Bath itself (and Hotel) admits purchase by some Sanitary Committee. See p. 100.

My dear Marion

I did not reply
to your letter yesterday
morning when it came
for I did not wish to
decide the questions you
ask hastily. After
these twenty-four hours,
I find my first judgment
strengthened, rather than
set aside. In a pub-
lication of this kind,
it seems to me we cannot
have the bare record

your letter proposes,
especially at the beginning.
I feel that we cannot
spare the brief life sketch
It may be that when I
see what you have written
of ^{Mrs. Palmer} her work in connection
with the A.C.A., I shall
feel differently. Because
it is possible that your
plan for that is more
comprehensive than I foresee.
But with what little I
have, I think the life
sketch necessary. And
if we publish the list of
papers and addresses, I
should prefer to see those

at the end, where, for
example, the "bibliography"
usually finds place in
the memoirs of members
of historical and other
societies. I feel sure
your "sketch" of Mrs. Palmer
with the A.C.A.
connection, will give full
reason why we, as an
association should publish
the memorial members in
our series; hence, if the page
giving the dates and list of
offices is inserted, I should
prefer it with the "biblio-
graphy" at the end.
It is not that I do not
feel the importance of all

these data. No one who
has often waded through
pages of print, as I have,
to find accurately set down
a few simple facts, could
fail to do so; and I am
more than glad you have
been so thoughtful as to
compile these. But they
are not in place, it seems
to me, where they must
necessarily be so prominent
as at the opening pages of
this publication. I feel
that to many the few who
can interpret, would they
"memorialize" Mrs. Palmer.
The remainder need more,
I am not forgetting

how wonderfully perfect
as a delineation of character is
the report of the Memorial
meeting. For those of us
who were near to Mrs.

Palmer in all these years,
nothing more could be
wished. And personally,
my memoir would be
this, with President Eliot's
impressive tribute on
Saturday ^{Nothing better}. But of course,
we must have in mind
the Association with its
varied memberships. And
for the members and others
to whom this number may be
sent, and for the records of

the Assn. we need
additions to give Completeness
to the whole.

Probably I shall
receive your manuscript
as soon as this reaches you,
or a little later, and I
will then write you again.

Wish I could express
what a joy it is to me
to think of seeing you
here. As soon as the
date is decided, would
you kindly let me know.
For I want to ask two
or three members of the A.C.A.
to meet you for consultation.

Feel as if you were the
only one who could advise
me as to certain things
which trouble me much.
Thank you for your generous
Cooperation as to this publi-
cation work. You are
spared much in being so
far away. If you were
here, you would have to
see me twice a day, I fear.

Always sincerely
Florence M. C.

P.S. I learn that, if we wish
it, we could probably have
President Eliot's tribute to
Mrs. Palmer at Saturday's meeting,
to include in our publication.
Am asking several people to

give me their judgment as
to this. Will you not give
me yours? Sent you the
Heracl's report which was
nearly complete. It contained
between eight and nine hun-
dred words

with 1903
letters

Dear Marion.

I have telegraphed
Mrs. Backus to send you
the report of the
memorial meeting, held
December 29th. As we
have read and reread
that, each came to the
same conclusion without
any conference, - namely,
that it would be wholly
out of harmony to add
anything to this. It seems

Enclose Mrs. Backus's letter
impossible. And, moreover
it is Mr. Palmer's wish
that this be not attempted.
In fact, he wants
nothing added, so I am
told; but this feeling,
I fear, we cannot wholly
regard. We should cer-
tainly have some reason
appear for our publish-
ing anything beyond the
memorial page which is
to appear in the magazine
number to be mailed this
week. This you can find,
it seems to me, in that
part of her life, which sets
forth her connection with

the A. C. A. This ^{connection} should
be emphasized more
than Mrs. Backus could
do in her remarks at
the meeting. But do you
not think her connection
with Wellesley and the
State Board of Education,
and also the Institute in
Spain, is sufficiently set
forth in the addresses there.
You can judge better now
that you have read those,
what your part should
be and I do not wonder
that you were perplexed
before this ^{report} was sent you.
Now that we have decided
to close without any

"Character Sketch", and now
that you know what was
said at the memorial meeting,
do you not think you can
~~incorporate~~ all that is useful
in your own sketch?

I had thought of prefacing
the ^{record of it} meeting with a few
words, giving reasons why
we publish it and stating
that we feel that ^{the} full
report, with its changes,
with its spontaneous
tributes from friends who
stood very near to Mrs.
Palmer, will better express
to the wider circle what
was the spirit of her life.
If you feel that you can
better bring to a close

What you will say, by
stating this at greater
length in your own way,
do so. ^{Kindly send me your} ^{as to this}

I have not the
Transcript at hand
which gives the account
of the meeting of the bar
for in memory of Judge
Gray, but will refer to it.
My idea, at present is,
not to have the two
Sketches you propose,
Mr. Morse's and your own,
but that you should com-
bine the two, I await
your further word; but
if ^{you} can see your way clear
to carrying out this plan of
the one life-sketch, including
all,

and can do it with
full concurrence, will
you not proceed? ^{Time is precious.}
Should say the limit
you propose (twenty five
hundred words) about
the proper proportion
the pages of the type
written report have about
250 words, as I remember.
This will give about a
quarter of the whole to
your part. Do you
think this would be more
than we should place for
in consideration of Mr. Palmer's
feeling? May place more
importance than I should
in this, for Mrs. Palmer belongs

so much to her friends
and associates and was
so ^{closely} connected with the
world's work, that we
cannot consider Mr. Palmer's
feeling at the sacrifice
of what is right and
just to her memory.
At the same time we
must remember that if
he withheld his consent,
we could not ^{and ought not to} publish
much of this report, even
although it does not at
all belong to him, but to
the Committee who have so
generously given it into
our hands.

I gave the order
yesterday afternoon for

the plate for a photographic
portrait of Mrs. Palmer,
to be taken from a negative
of Lorenz, made in the
Summer of 1901. It is a
very fine portrayal of
Mrs. Palmer at her best.
I am sorry that the "Cap",
(it is taken in her Michigan
gown) conceals ^{a part of} her beautiful
brow, but I am sure we
could have nothing finer as
a whole. I do hope you
will like it. It is to be
reproduced by John Andrew
son, the engraver who is
said to be our best in
Boston.

One word more.
The report will, of course,
be "edited", but practically

unchanged. Strangely
enough, Bishop Lawrence
stands the test of a
word-for-word report
least well; do you not
think so as you read?
I have had some difficulty
in "reducing" his remarks
so that repetition may
not weaken, and yet
keep faith with the
statement that we are
publishing a verbatim
report. Fortunately, wide
latitude is allowed and
if you have any sugges-
tions to make, do not
hesitate to do so as to any
of the addresses.

There written so
many letters that I cannot
recall if I gave you my
reason for the wish to
proceed as rapidly as
we can. The Committee on
the Memorial will have, of course,
"certain number of copies
of our publication. President
Elliot is desirous of having
them as soon as possible.
At least the very least
return we can make for
their gift of the record, to
place them in his hands
at an early date. Can you
advise me how many we
should send? We have 3200
members in our assocⁿ. - I
shall need 3500 at the least.

This would allow 200 or 250
for the Committee. What say
you? A few of the alumnae
have asked me if they
could purchase extra Copies.
What shall I do as to this?
Suppose an ^{unattached} slip might be
enclosed ~~loosely~~, in response
to this request. How do you
feel about this?

Will you try to
overlook my Polychrome
sheets, if I indicate where
my many questions are.

Thank you for your
Carefully Considered letter
and for the counsel it gives
me. You do feel, do you not?
that you can speak freely

to me about any of this
work in connection with
the Q. C. A. — My inade-
quacy to fill this
position makes the sup-
port of all my friends
a necessity not only for
myself, but for the
Association. The present
condition needs all your
thought. But this must
come later. I would only
ask ^{now} if you have any
thought of coming East in
the spring weeks.

Sincerely ever,

Norman M. Cushing.

Dear Dr. Harper. —

We have here a very interesting woman, Mrs. J. E. D. Sharp. I think you will recollect her name as the negro lady who is in charge of the higher education of the Liberian girls, under the auspices of one of our Education

Dear Miss Talbot,

Your favor of April second is duly at hand with enclosures as stated. Your own check I have signed and duly sent. Miss Portwin's check for \$150. has been deposited in the Fanniston Trust Co., and this amount, as interest paid, has been endorsed on her note.

The Fanniston Trust Co. has credited the account the following sums by interest: Jan. 1 - \$5.86; Jan. 27 - \$4.91; Feb. 27 - \$5.86; Mar. 27 - \$5.39. These amounts you'd better enter on the stubs of your check book. The total now to the credit of the account there I make \$2539.⁵² If this does not correspond with your figures, kindly advise me.

I note what you write about the Stormwood land: both Mr. Gay and Mr. Folan have it entered on their books for sale, and they would be likely to know of any local demand. In addition, if you think best, I will look up some Boston real estate man to put on it also. I very much doubt if it is a matter we can force, which I think your mother recognized when she specified that the executor should be allowed five years. The next time I see Tristram I'll find out what he suggests.

We have not seen anything of Russell yet, but hope he arrived in good health, and shall be on the lookout for him before long. I presume you heard of the death of Bishop Brent's brother, who was in charge at the Lincoln House: apparently a blood poisoning complication about which nobody seems to know.

She is very young, so there will probably be no immediate talk of a wedding.

While sorry to have missed you when you were last here, I am glad that you sent our baby: we are proud of her, and such a thing is as much of a novelty on my side of the family that I am afraid she is destined to be spoiled.

I hope you are very well and that all is going smoothly with you.

My dear President Harper;--

Three courses are open in reference to the enclosed report:--

1. Close scrutiny of quarters occupied by women (and men?) students and the requirement that students live only in approved places. This system would involve large expense and a heavy responsibility.
2. No rooms (for women?) to be placed on the list of the Bureau of Information except those in houses or flats where a reception room is provided. This would share the responsibility with the student.
3. Take no notice of the matter on the assumption that the cases where wrong is intended or harm done are infinitesimal in number, while, in spite of ignorance of conventionalities, our students are universally characterized by a high degree of self-respect.

Very truly yours,

in these lines. Would
you know that the general

Federation of Clubs is to take up
Home Economics & push it vigor-
ously & it is to have a prom-
inent place & no apologies in the St.
Louis meeting? Drs. Richard & I have
been trying to advise as to subjects of
study. It must be conducted on
entirely new lines, if it is to effect
anything. I should like to know how
much these leaders are really interested
and how much they are yielding to a
changed public opinion. You noticed

perhaps, that Dean Thomas said
in her Washington address that
now that women were earnestly study-
ing domestic conditions were not
hope that Cess would stand in the way
of the free use of a woman's best faculties
— a married woman's. I think the re-
mark important as coming from her
and considering her influence on edu-
cated women who have turned their back
on it. I am glad you have the exhibit &
your published outline is helpful. Interest-
ing as it is, it's deficiencies are glaring. Everywhere
it goes, it will receive additions. Yours sincerely,

My dear Miss Talbot,

I did not write you in the summer in response to your letter but I think that I should like to say a word in regard to Miss Stettler before we drop the case.

She has been to see me and she certainly impresses one pleasantly. Her manner and behavior are quiet and ladylike and I should really expect from her after your testimony and Miss Van Hoesen's the conduct that we think essential in young women students. I have, however, been over all the ground with her in relation to her studies and think it would be very foolish for her to come here where she will have to review a good deal of work when she has already made such arrangements at Chicago as will enable her to graduate this year. We do not accept the Stetson University work at its face value and our arrangement with Chicago only calls upon us to take the work done in the University itself. We feel very strongly in regard to this and I do not think the faculty would be likely to re-consider the Stetson case at present. Even without that, considering the amount of work that Miss Stettler has done outside of the University for which we would give her no credit, she would not be up to our senior year, as I understand she is with you. In the circumstances, it would seem to me very foolish for her to undertake a course of study in her invaluable senior year which would be much of it review for re-examination or the going over of ground which she does not need to cover now with you.

Sept. 17, 1903.

My dear Miss Folger,
I should write you in the summer in response to your letter but I think that I should like to say a word in regard to Miss Folger before we begin the case.

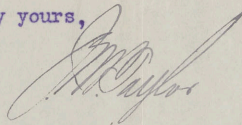

She has become one of our most certainly successful and pleasant. Her manner and character was quiet and ladylike and I should really expect you that after your testimony and Miss Van Hook's the opinion that we had a successful in your women movement. I have, however, been over all the records with her and she has been very successful in her work. I think she can help us in the future and will have to have a very good deal of work when the situation and our arrangements at Chicago in all of this but to graduate this year. We do not accept the Western University's work at the time value and our arrangements with Chicago only call upon us to take the work done in the University itself. We feel very strongly in regard to this and I do not think the matter would be likely to be considered the Western case at present. Even without that, considering the amount of work that Miss Folger has done outside of the University for which we would give her no credit, she would not be up to our senior year, as I understand she is with you. In the circumstances, it would seem to me very foolish for her to undertake a course of study in her invaluable senior year which would be such of it would be a waste of time and money. I am very glad that she has not yet decided to leave for you.

It would be impossible also for Miss Stettler to get a room on the campus. It is too late for us even to consider the matter and we are likely to have 150 girls residing outside for whom our care is more demanded than for one of senior rank.

Miss Stettler appreciates the situation fully and has left me just now with the intention of returning to Chicago and completing her work as I have advised her strongly to do. I wish for her the utmost success and I write this in order that you may not misunderstand my own position and that I may do justice to her. It is true that I would rather not receive to the college and its very free life a young woman who has twice been guilty of an indiscretion but I trust that I am not given to harsh judgment of young people and I know perfectly well that she can outgrow, as I have faith to think she has outgrown, all tendencies to this kind of folly.

Believe me, with most cordial personal interest,

Sincerely yours,

I have duly deposited it in the Puritan

count with the following interest items,
none of which I think I have as yet
advised you of :-

April 27	6.02

My balance of the whole account is 2726.⁹⁸
and should agree with your stub.

I don't know anything better to do

with this money value open would one
to put it into some bank; this might
not a little more in interest, but a fair
share security hardly except more to
make it an object, which is a reason
greater than frustration in poor capital
more than counterbalance and gain in
interest.

I should be glad to have some for open of

October 22, 1903.

My Dear Miss Talbot,

By way of reply
to the question in your favor just
at hand - some time ago I had
occasion to ask a somewhat simi-
lar question of an old business
man, whose answer in effect was
this: - Although trust or estate
funds may sometimes remain
a long while in your hands, they
more often do not, the theory being
that they are intended for some
definite object or destination, and

merely pass through your hands
on their way to that end; on the
other hand, funds so held may be
properly used for a legitimate
purchase or investment under two
conditions (1) that you guarantee
the trust or estate against loss by
cause of your judgment (2) that you
are able to make such guarantee
good.

This is good sense, though more
blunt than polite, as I recognized.
In fact, I don't see why you should
not take the loan if you think best.
In this case, I would suggest that you
merely send a check bill, or your pro-

small note, payable to the Estate, for me to file with the other papers. I don't think any collateral is necessary.

Merely as a query, would it make any sense in such a note to get the written consent of the other heirs?

Edith took supper with us last evening, and reported all flourishing at Halden.

Very sincerely yours

Winthrop Mackenzie.

Dear Miss Talbot,

I enclose a cheque for one thousand dollars and interest for one month at five percent. If nothing happens I shall send you five hundred more March 26, thus anticipating the payment due July first. That seems to me the best way to solve the problem of three payments yearly and interest for short intervals.

The two checks I have signed and forwarded.
Miss Brown's payment I have endorsed on
her note, and the check I have deposited,
as per the enclosed slip, in the Bay State
Trust Co., which I trust will not incon-
venience you. The account at the Puritan
is, as you say, increasing, and, while I have
no reason to think there anything but
solid, they are young and a small com-
pany, and it will be just as well to have
the funds divided, even if they do not at-
tract quite as much interest.

I return Miss Brown's note, and can-
gratulate her (as well as ourselves) that
everything is apparently going so well
with her. Truly Yours

Dear Marion,-

On Friday my letter to you was mailed without a stamp & I am not sure it will be delivered at all events if it is, there will be extra postage to pay which is enclosed.

I need to borrow six hundred dollars for three months, or until my winter payments come in & should like to get it from the estate in the form of a note at six percent interest. Winthrop says that as the money is in the savings bank at a much lower rate of interest & as the note would be based on proportional

distribution finally, he approves fully
the case you do also. As
the money is necessary for payment
for windows & piping & two weeks
extra payroll, I need to have it as soon
as possible & my perplexity would
be most easily solved if I can get
it from the estate by the end of the
week, so if you will make a cheque
for Wuthrop to sign he will make
out a note & send it to me. Of course
you will clearly understand that what
I wish to do is to buy the use of the
money, not to anticipate any discretionary
payment — making it a purely business
transaction.

Mr. Folan has some offer on the
Norwood property; shall probably hear from

I find a message from Folan of two offers for the land but the details were lost or delayed in the shuffle between here & Chicago. Shall hear from him again by Monday.

I saw Winthrop Wetherbee & made a proposition which he approves fully for the estate in case you do, namely this: I require six hundred dollars for three months for which I will pay six per cent — with the option of extending the time to six months. If the money is now in the bank this is a considerably larger return than it would ~~give~~ there & at the same time would be of distinct service to me just now before my winter payments are due & I need to close up my building purchases for the winter. I have had the inquiry about the
Storwood land, but nothing definite yet, as
the man has decided to go out and look
over the land himself. He is a Storwood
man.

22nd 1903
Nov. -

Dear Miss Tabbet,

Your favor is just at hand,
and I have at once signed and forwarded the check to Whistner. I wrote him the gist of my letter to you, telling him that until I heard from you we would leave the matter open, but if you agreed with my ideas we should expect from him a receipt for \$500. and his note, demand 6%, for \$100.

You may on thinking it over conclude that a \$600. distribution is not too large at this time: in such a case there will be nothing to secure but his receipt.

I have often urged Whistner to go more conservatively in the business and money

transactions of his enterprise, to make
his alterations, repairs, additions, etc.

Gradually, and always to keep a sum
on hand, even though small, for an e-
mergency - which is sure to arise. But
he is so built that he is impatient to do
everything at once, and is consequently
always cramped. The other way I am
convinced would leave him in a little
strange position at the end of each
succeeding season.

I await your decision.

Very truly yours

Winthrop Mackintosh.

Boston, November 19, 1903.

Dear Miss Talbot,

A distribution is "practicable", and is reasonably safe if not too large, and I concur in your wish to make one: it would be one step nearer the settlement, and, judiciously made, ought to lessen our own responsibility as administrators of the estate. In addition to which, the heirs should not be kept from their due even a day longer than is necessary. I think \$500. apiece would be a little more conservative at this time, for, while your statement is correct, our condition looks better on paper than in fact — for these reasons: — When Kniskern spoke to me on this matter what he was figuring on was his interest, not in a direct legacy, but in the residue: now there is no residue until all debts or liabilities (and a legacy is a debt) are paid — that is, there will be no such thing as a residue until the hospital is paid \$5000. We need not pay the hospital until November 1905, but if they feel so inclined they can collect interest on this sum for all time ^{the} five years this legacy remains unpaid. Further, Miss Brown is fully living up to her agreement, but her mortgage is a second mthg. and in case of her death the equity would be claimed by the first mthg. while we would be in a hole with legal expenses and other expenditures to meet. Boiled down just the situation is this — we must pay \$500. about November 1905, and must not do anything now to make that payment doubtful. Judging by Miss Brown's intentions so far, I think we would have the money even if we distribute now, and so feel like taking these chances now. I would very much prefer to do this than to have any operations with promissory notes as Kniskern proposed.

Please do not take any of the preceding as an argument against your proposition for, as I say, I think a \$500. distribution could now be made safely - and a sale of the Storwood land would add to the safety. Your mother never intended that the hospital should profit at the expense of her natural heirs, yet for the time being this is what seems to each one of them to be the case: it will not prove to be so in the end.

If you conclude to act, please advise me at once, for you will rec-
call that the Princeton people regard our account as a special de-
posit and stipulated for a notice of thirty days, to which we agreed.

I am sorry not to have been in accord with Winthrop when he wanted to borrow against his note: we ourselves are under bond, we are in a position where others have to trust us, the estate is still unsettled, and we have no moral right to do favors of that kind for one heir at the possible expense of the others. I told him I did not think it was business, and know he would never have expected it if he had been a business man. At all events the present plan is much cleaner.

We are very glad to hear of Russell's advancement at Albany, and hope he finds the office in every way congenial.

Yours very truly

Winthrop Mackenzie.

My dear Mr. Wetherill,

The enclosed bill is covered
by the paper given me at the
time of the transference of
66 Marlborough St. to my name
and should be paid from the
estate of Mrs. Talbot.

If you prefer I will subtract
the amount from the interest
due March 26th.

Very truly yours,
Lavinia (Anna)

March 18, 1904

I have decided not to subtract the amount
of the bill but to send you my interest due
March 26 (\$125-) also a payment of

\$500., completing the second thousand
due July 1, 1904.

Longman

Boston,
March 22, 1904.

My Dear Miss Tupper,

The enclosed letter is at
home this morning from Miss Brown.
The check for \$625. I have deposited in
the Fidelity Trust Co., and have endorsed
on her note \$125. received account of
interest and \$500. account of principal.
This note leaves the face of her note at
\$4500.

The City of Boston bill, you will remem-
ber, is the bill for settlement which was
spoken of when we passed Miss Brown's
papers: we could not pay it then as we
did not know the amount, but it be-
longs on our side to pay, and I will
await check from you.

I think I neglected to state yesterday
that the land Mr. Shrimpton wants is
that between the road and the rail-
road (containing, according to your
plan, 54,600 sq. feet) but he will
probably open the ball by making an
offer for the whole of it - that is, both
lots.

The Puritan Trust Co. have credited the
account interest as follows: Jan. 27

\$3.12 and Feb. 25 \$2.85

Truly and sincerely yours

Winthrop Mackenzie.

My dear Miss Talbot:

I have your note of March twenty-fourth.

You evidently do not quite understand the situation, since it is not understood "that no new expenditures are to be authorized by the Trustees no matter in what way they are provided for." As I suggested, when we are able to see the new students come in for this work we shall be able, of course, to increase the expenditures, and I am quite sure that after all a gift for this particular purpose would be received. I can understand that the presence of Miss Breckenridge will make it possible for you personally to do work in connection with the new department more satisfactorily to yourself. I have not thought that her connection with the proposed department was in any sense a vital one. I think myself that we should make an effort to hold Miss Breckenridge and I have been thinking on this subject since our interview. It would be quite a serious matter now to take a backward step in view of the fact of the announcement to the public and also in view of the fact that with the Trustees the case of Miss Breckenridge has never been a sine qua non. I am hoping that we may be

My dear Miss Talbot:-

Your note of April 20th with the division of work between yourself and Miss Breckinridge has been received. It seems to me that it is entirely satisfactory. I note your request with reference to the services of a student, and will take up the matter at once and see what can be done. As a matter of fact the student service for next year has been pretty carefully distributed. I am glad to know that Miss Breckinridge feels disposed to remain one of us. There is a great possibility ahead.

Dear Pres. Fitchett,

May 18.

I am glad that my little note
brought you some degree of satisfaction.
May I add that there ^{are many influential} ~~is a large number~~
of people who believe that the present
fair and just attitude of the Institute
to women students is an "essential fea-
ture" and one that is imperilled by
affiliation with Harvard. My own opinion
is that the recent action of Harvard con-
cerning the Chantries School shows that
the University is ready to grant educa-
tional privileges to women and that
under proper conditions the right of
women to technical scientific education
may be retained in any union of the

Institute and the University.

It may be premature to ask your
views. But I should be glad to have
some assurance which would allay
criticism and opposition on
this point.

OFFICE OF THE PRESIDENT

My dear Miss Talbot:-

Your letter of April 29, addressed to the President, and referring to the petition sent out by the Association of Class Secretaries, is so sane and refreshing in comparison with that circular that I venture to send a line of thanks to you for having sent it.

Such questions as this are apt to be settled rather on the ground of partisanship than on that of the larger interests of education and of the State; and I am trying to see that in this matter the larger interests shall be considered. But no one in the Corporation has any thought of surrendering any essential feature of the Institute.

Very sincerely yours,

I have your kind note of May 18. My Dear Miss Talbot,

Last Saturday I received from Whinnop a letter requiring an immediate sale of the Stearns land at \$4500., and enclosing a letter from you to the same effect. I got hold of Mr. Thompson by telephone, as result of which he has just been here. He still wishes to take the railroad lot alone, leaving the other, but if we will not sell a part (as I told him we would not), will take the whole at that price. Subject to your confirmation the sale is made. I have asked Mr.

Merriman to make application ^{to} the Probate Court for the appointment of the three trustees as provided in your mother's will, and the papers will be sent to you to sign within a day or two, and then to Whinnop for his signature.

I hope the preceding will be to your satisfaction. If you are going to be in or near Boston, perhaps we can arrange to pass the final papers at that time.

Very sincerely yours
Whinnop Merriman.

Boston, June 1, 1904.

My Dear Miss Talbot,

Confirming my reports of yesterday I hand you with this the papers I mentioned. The first is an application to the Probate Court for the appointment of the trustees designated by your mother, the second is an acknowledgment of bond on pre-scribed by law, and the third is an appointment of myself as your agent on whom to serve any legal papers, should any such appear. Please sign all three of them, having the last two also witnessed: also please note that the bond should be signed also on the reverse. If you will then return them to me, I will send them to Whittier for his signatures. In doing this I am taking your approval of my yesterday's report for granted.

is received, with the documents all right, for which I thank you. Whistrop was here yesterday, and signed them also. Merriam has them, and will have one side in readiness in good season for action July fifth. I have written to Mr. Phinipston, and do not doubt he will also be prepared.

I have arranged about paying the legacy to the hospital; it is not legally due until November 1905, but I have told them we wished to anticipate payment, and the enclosed letter ex-

plains itself. - They are glad to have the money, it is worth something to them in point of time, and they will discount payment. Please return this enclosure to me, that I may make formal reply with your sanction to this arrangement - I presume you do agree.

Miss Brown's note can of course be transposed if none of those interested appears. I have notified the Turkish Jewish people that we shall probably draw some time after thirty days. I think this covers all as far as we can go just now, and trust you are

Acknowledging your favor of June 6th, I have to thank you for your interest in the matter of Mrs. Emily Talbot's bequest to the hospital, and for presenting to your Finance Committee the question of our anticipating payment of same.

We hope to make payment about the middle or end of July.

Boston, July 22, 1904.

My Dear Miss Talbot,

We have been waiting for Mr. Phinixton and his lawyer until today, and the debt has just gone through. I tried to hold them for half of this year's taxes, but they were inclined to hold up the whole trade a while longer while the matter was being thrashed out, and the sale was not made until into June, so we had to waive in their favor. But the \$20. which was to be the rent for mowing the land, they seemed inclined to pay, so we got that. To cover the taxes Mr. Phinixton's lawyer

raising \$100. : if the taxes amount to less than that, we get back the balance, and if the taxes are more than that, we will have to make up the deficiency.

I have, therefore, received from them and deposited in the Sanitarium Tr. Co. certified checks for \$4420. =, as per slip enclosed.

We are now ready to settle with the hospital, and if you will kindly draw further order of the Mass. State Hospital a check for \$5000., sign and forward it to me, I will also sign and turn it over to the proper hands. They prefer to have a check for the stated amount, and will return their own check covering the discount.

Possibly you may think best to have any letter you would send to the hos.

the authorities accompanying the check: in that case, I shall be glad to receive that also.

The deposit book of the Provident Inst. is in the hands of the Fidelity Trust Co. for collection: I will advise you of the amount when credited.

I think it would be well, in view of your visit here in September and a possible readjustment of the whole matter at that time, to prepare for a report to the Fidelity Court on our administration. Practically all that is wanted is a list showing cash on hand when we took hold and all that has come in since then, and another list giving expenditures. These should be itemized, and should balance with cash now

on hand. Of course, you understand
there is no hurry on this.

I hope the foregoing will commend itself
to you, and shall expect to hear from
you shortly.

the late Mrs. Emily Talbot expressed as
follows: -

I need hardly say that it gives
great satisfaction to the children of Dr.
and Mrs. Talbot to have their parents'
names perpetuated in connection with the
Hospital even in so modest a way. They
were very truly its founders. They nurtured
it through its long period of
struggling poverty with a courage and
devotion and faith rarely equalled.
There are few living who can remem-
ber as we can the steps which led to the
actual opening of the Hospital in the
Buntings House or the anxious
months and years which followed
when as little children were helped at

and elsewhere
parlor fairs held in our home for the
purpose of raising money for current
expenses. The great Fair of 1872 brought
for months they gave their rare executive
skill to ^{nurture} in the minds of many active
friends of the Hospital and its great
prosperity is a matter of public know-
ledge. That they lived to see the
fruits of their disinterested service
lead to such magnificent results
is a gratification to all who loved
them.

We trust that their names will
always be known in the Hospital
for their spirit of self-sacrifice and
their love of humanity.

Boston, July 26, 1904.

My Dear Miss Talbot,

Your favor, with enclosures, is duly at hand, for all of which I thank you.

The check for \$5000. I duly turned over to Mr. A. F. Estabrook, Acting Treasurer, and enclose his note of acknowledgment for same. He returned his check for \$380. covering interest on the above amount to Nov. 1, 1905. This sum I have deposited in the Prudential Tr. Co., as well as \$46.67 collected from the Bay State Tr. Co. (and closing the account there), as per the enclosed deposit slip.

I have collected from the Prov. Inst.

Cash amounting to \$ 401. 48 which I have deposited in the Primitiv Tr. as per second deposit slip enclosed. Owing to their carelessness I had to get another certificate from the Probate Court, for which I paid fifty cents, and have deducted this sum from the amount they actually turned over (\$401. 98) I have mailed their checks, with receipts to sign and return, to Russell and Winthrop. I enclose your own check also with receipt, which perhaps it will be well for me to keep with the others.

Mrs. Jackson's check I have deposited with Bidder, Peabody & Co. for her credit, and hold their receipt. I think it would be well to have her own re.

Crips, and enclose one for her to sign. Possibly you
will forward it in one of your letters to her, and she will
then sign and return in confirmation from Kidder.
I don't see why the Starwood land matter can't be set.
Made as soon as tax bills are out. The bill will probably be
sent to you, as the land was mortgaged May first. We turn
it over to Plympton's lawyer, who pays it. I will get
Merriam's account in shape by September first, and have
it include fees for running court work and settling up.

As for your report - I think all similar items
can be consolidated: that is, make one account for

The different items of interest received, and one entry for
the several payments to Mr. T. T., etc, I think the tax items
can be dumped.

There may be a slight expense for transferring Ellis B.'s
note from the estate to your name, but I don't think
it will be much. I will ascertain and advise you.

I hope the above will meet your approval, and am

truly yours

I am in receipt of your letter of August 22nd. I hope that you are having a pleasant summer.

I note what you say concerning Lexington Hall and am in entire sympathy with your feeling. I should like very much indeed to know the name of the professor who called for the written examination in North Hall. Can you send this to me? I think you are entirely right in your feeling concerning the doctor's examination and we must try to get up a little larger interest in them. I am sure that you can help in this particular.

The conditions which would make the establishment of a journal of Household Administration satisfactory would be a sufficient amount of money to pay any difference between receipts and expenses. I am inclined to think that the trustees will not feel able to undertake a new journal without having the money necessary to provide for any difference. I shall be very glad to talk this over with you when you come back.

In accordance with the bargain made Saturday at 12:45 P.M. I am writing to suggest the following: that hereafter we make October 1st Founder's Day, the date of this day being somewhat uncertain as yet and not definitely fixed by Statute; that we hold exercises at 10:30 on this day even when it comes on Sunday; that the program include, (1) something of the old program, possibly one of the hymns and the scripture, (2) something new, namely, an address which shall not partake of the nature of the Convocation address--something entirely new and different. Once in a while the President may possibly use this occasion for a message to the University. (3) That representatives of the student body be also requested to speak,- these appointments to be made in the spring with alternates in case of disappointment.

My dear Miss Talbot,

The Hornwood account

have advised us that if the facts are as we stated, that is that if we actually sold the land on their assessed valuation of \$4500, we are in their opinion entitled to the rebate which we applied for. They promise to take the matter up once more, with this probable result, on receipt from us of a sworn statement that the above facts are true. I have therefore signed and sworn to such a statement, which Mr. Merriam has by this time transmitted to them, so I hope for a

settlement before very long.

They also added that they had raised the assessment on information from responsible parties (you can of course infer who they are) that we had refused an offer on this basis of last agent's valuation, and were holding the land at \$5000. This was not a very generous act on the part of Mr. P. and I hope it may be turned out to be a boomerang. At all events, it now seems as if we should be able to get what we ask, and be none the worse off for the episode. I will advise you as soon as we hear again.

The Convocation orator at the next Convocation, December 20th, will be Miss Jane Addams. I do not wish, because she is a woman, to seem to lay emphasis upon the woman side of the University, but it seems to me that inasmuch as she is a woman, and we have had so few women act in this capacity, the occasion is one which the women of the University should recognize. I should be glad to have you consult with some of our women, among others Miss Reynolds, Miss Wallace, and Miss Breckenridge, and whomever else you desire, and indicate to me what in your opinion would be proper, if anything, in the way of special recognition of Miss Addams on this occasion.

You will remember some years ago that we gave some receptions to the Women's Clubs and a great many of the women came out to the University. This was in the days of Mrs. Palmer. Some people in the vicinity of the University are renting all the rooms of their flats to students and leaving no parlor or any public place in which to receive company. Consequently, ~~some~~ young ladies who rooms alone will receive her gentleman friend in her own private room, close the door, and entertain him to any hour of the night she sees fit.

This is no idle story; the practice is being carried on right now and has been for some time, especially since rents have been increased. It is not at all uncommon in the flat buildings owned by the University.

My Dear Miss Talbot,

I enclose I think you the paper transferring the Brown mortgage to you. Mr. Merriam thought this would be better coming from a third person: it is legal for you as executor to transfer to yourself personally, but it certainly looks better to have it come from somebody else. The mortgage and the note are now yours, but before locking them up please sign on the reverse of the note just above my signature.

The other two papers, those printed together, are ⁽¹⁾ the assignments of the mortgage by us as executors to Mr. Merriam, and ⁽²⁾ by Mr. Merriam to you. The latter I send to you merely to show that it is in form: the former you should sign (above my signature) and have witnessed. Both should be returned here to be recorded and placed on file, which completes the assignment.

The Sturwood assessors have rebated the taxes, and this matter will now be adjusted as soon as Mr. Merriam can get hold of Mr. Phinpton's lawyer. When this is done, I will send you check to cover, you can adjust with the other heirs by your own checks, and I will ask Mr. Merriam to finish up the settlement for the signatures of all the heirs. I will write you as soon as Mr. Phinpton responds, probably in a day or so.

Yours very truly

Winthrop Westhead.

I have just received your letter of the 11th inst. and am
glad to hear from you. I am well and hope these few lines
will find you the same. I have not much news to write at
present. I am still in the same place and doing the same
work. I hope to hear from you soon.

My dear Miss Talbot:-

In the confusion which followed at the close of the Convocation I did not get an opportunity to say to you how proud we were of you last night, and how admirable a statement you made. I do not think anything stronger or more helpful has been uttered by anyone on the platform. I am inclined to think that you have greatly underestimated your power as a platform speaker, and I hope that in the future you will permit yourself to do more of this kind of thing than in the past. It was excellent. Indeed, it could not have been better.

Yours very cordially,

William Brewster
