

at my desk
Monday, May 15

Dear P.D., An hour ago a very
chic and charming young
woman was in here from
Los Angeles. She flooded me
up because I contributed at
least one long article to
her magazine when she
was in Denver & running
the affairs of the ^{National} Women's
College Student Assoc. She
is an alumna of the
Randolph-Macon Women's
College of Lynchburg, Va.
Folders of a beautiful
campus, fine building.
More women on fac.
women on student body
but lots of men around

Sats. & Sundays from nearby
U. of Va., & Va. Military Academy
Fee for students reduced
from \$1000 to \$700. But
fac. salaries not reduced.
Against their policy. They
steadily ^{increase} ~~raise~~ them
& have not reduced them
since the depression.
Student body of 600.

There may be a vacancy
in Chem. dept next fall
men in the " & two going
One of the women very
ill. If she is not
able to return, they
will want another
woman. They are
interested not only in

degrees but in personalities
off the fac. Selecting carefully for
personality. If interested,
write to Dr. N. C. Pattillo, Dean
Randolph Macon College for Women
Lynchburg, Va.
*Among Blue Ridge Mts.?
can't be so far from you?*

Might be a chance to make
a change if you wish to at a
possibly higher salary. Their
salaries are higher than is usual
in such colleges, I understood.
I did not like to ask point
blank how much. I think
it would have probably been
unethical for her to reveal
it anyway. Well - that's that.
If you are interested
enough to pursue this idea, perhaps
you could make an appointment
to drive over some week end.
Know you want a mixed student body, but any
out in a storm.
