

See it - It's when he comes home from work! "I" whispered to K. it was a give-a-way. Everyone laughed of course.

WHITE DOME GEYSER
LOWER GEYSER BASIN
YELLOWSTONE NATIONAL PARK
ERUPTS EIGHTEEN TO THIRTY FEET IN
HEIGHT, TWO OR THREE TIMES EACH HOUR

Last night we attended a lecture on the geology of Yellowstone by a ranger at the Lodge. It was not

"CURTEICHCOLOR" REPRODUCTION FROM KODACHROME ORIGINAL

too well presented. Man by the name of "Harry Truman" Professor of Biology at Denison.

This morning we are joining up with Teddy to go on a walk with the Ranger around the basin here.

POST CARD

7-30

THE CELEBRATED OLD FAITHFUL GEYSER
NAMED FOR ITS REGULARITY OF ERUPTION
INTERVALS IN 1870 BY GENERAL
HENRY D. WASHBURN
YELLOWSTONE NATIONAL PARK

Dearest Ed -

We are eating breakfast
with Teddy (12) and his
Mother (identical Old Faithful
clim. Yesterday we rode the bus
all day & saw many hot springs.
My Official Bar Counter says
the count on the road is 26.
Kenny & I spied a coyote in
the distance among the sage brush.

"CURTEICHCOLOR" REPRODUCTION FROM KODACHROME ORIGINAL

On the way from Wyo. to Y.P.
there were many interesting rock
formations. One high on the
mountain, the driver said -
for K's benefit I am sure - there is
a man & wife kissing each other.
Then he added "Lovers Rock".
Silence in the bus & then
voice piped up - "Oh yes."
