 DRAGONS MOUTH SPRING DISPLAYS
 ITS PULSATING, THUMPING SURGE OF
 HOT WATER FROM A CAVERNOUS CRATER
 JUST OFF THE GRAND LOOP ROAD,
 YELLOWSTONE PARK.

We also saw the hot
 Springs (card # 3.)
 I had forgotten how
 deep & how brilliantly colored
 is the Grand Canyon of Y.P.
 The falls were white &
 green (card # one) & the
 deep gorge - red, white, rose
 yellow, brown.

 morning.

Today is another gorgeous
 day. It is warm & bright!

is anxious to see more
deer & some cubs.

This is an old, huge, hotel
but very nice. We got all
clean last night. Clothes dry
in a hurry.

H. was up at 5:30 A.M. &
down in the lobby by 6:30.

We met the Watts who
will be at Old Faithful
tonight. They are of course
on route to the rodeo at
Leton Valley Saturday. They are
driving their Town car.
Yesterday afternoon I saw
his first bubbling hot springs.
& it came out with
a thunderous roar -
"Dragon's Mouth" see next
card.

Punch Bowl Spring on the Black Sand Basin loop
road is brightly colored by the algae living in the
hot water that overflows its sides.

got a letter covering our
entire trip thru Yellowstone
& return with Ed.

On the bus ride here
yesterday afternoon we
saw a big cow moose &
calf in a field of red
Indian paint brush by a
running stream - just across
the stream from the road.

The cameras were still
parked! Later we saw 2 more
moose at a great distance.
Then I sped a deer deep in
the woods lying down.
Later we saw 13 black bear
which came right up
to the bus. Kenney
